The following summary is qualified in its entirety by, and should be read in conjunction with, the more detailed information and financial statements appearing elsewhere in this prospectus. In addition to this summary, we urge you to read the entire prospectus carefully, especially the risks of investing in the ADSs discussed under Risk Factors, before deciding whether to invest in the ADSs. This prospectus contains information from an industry report commissioned by us and prepared by Frost & Sullivan, an independent research firm, to provide information regarding our industry and our market position in China. We refer to this report as the Frost & Sullivan Report.

Our Mission

Make education better through technology.

Who We Are

We are a technology-driven education company. Our core expertise is in online K-12 courses, and we are the third largest online K-12 large-class after-school tutoring service provider in China in terms of gross billings in 2018, according to Frost & Sullivan. Our K-12 courses cover all primary and secondary grades, and contributed over 73% and 75% of our total revenues in 2018 and for the three months ended March 31, 2019, respectively. We also offer foreign language, professional and interest courses. Our total enrollments increased from 79,632 in 2017 to 767,102 in 2018 and from 70,845 for the three months ended March 31, 2018 to 211,002 for the three months ended March 31, 2019. We adopted the online live large-class format to deliver our courses, which we believe is the most effective and scalable model to disseminate scarce high quality teaching resources to aspiring students in China. With a focus on operational efficiency, we achieved profitability in 2018.

We relentlessly pursue the highest quality in our course offerings. Our education excellence is backed by our high quality teachers and in-house curriculum development expertise. To create a disciplined, effective and engaging learning environment under the large-class format, we have adopted a dual-teacher system, staffing each class with an instructor and multiple tutors well trained in the relevant subjects or curriculum. We pride ourselves of our rigorous and systematic teacher selection and coaching process. From the pool of prospective instructors we identified in 2018 and during the three months ended March 31, 2019, we meticulously evaluated and employed less than 2% of the candidates. As of March 31, 2019, we had 169 instructors and 522 tutors.

We develop and tailor our proprietary curriculum specifically to our online live large-class format with the goal of driving students engagement and academic performance. We design our courses in ways to inspire students genuine interest and in-depth interactions, which in turn foster students holistic development and thus better learning results. With our superior education quality, our online K-12 large-class courses were priced at a significant premium compared to average online K-12 large-class courses in China in 2018, according to Frost & Sullivan.

We strive to apply the latest technology to improve the mode of teaching delivery, student learning experience and operational efficiency. Big data analytics permeates each aspect of our teaching staff training, course development and evaluation, and sales conversion process, which significantly improves our education quality and student engagement and optimizes our sales and marketing spending on prospective students. We leverage advancements in artificial intelligence technology and our proprietary business & operations support system, or *BOSS*, to improve the productivity and effectiveness of our instructors and tutors.

Capitalizing on our proprietary technology infrastructure, we have built a highly scalable business that we can expand and replicate rapidly with consistent quality. The average enrollments of our online K-12 courses

[Table of Contents](#)

increased from approximately 400 per course in 2017 to approximately 600 per course in 2018, and from approximately 440 per course for the three months ended March 31, 2018 to approximately 980 per course for the same period in 2019. Our net revenues increased by 307.1% to RMB397.3 million (US\$59.2 million) in 2018 from RMB97.6 million in 2017 and by 474.0% to RMB269.2 million (US\$40.1 million) in the three months ended March 31, 2019 from RMB46.9 million in the same period in 2018. Our gross billings increased by 437.8% to RMB655.1 million (US\$97.6 million) in 2018 from RMB121.8 million in 2017 and by 392.0% to RMB300.1 million (US\$44.7 million) for the three months ended March 31, 2019 from RMB61.0 million for the same period in 2018. We generated a net income of RMB19.7 million (US\$2.9 million) in 2018, compared with a net loss of RMB87.0 million in 2017, and generated a net income of RMB33.9 million (US\$5.1 million) for the three months ended March 31, 2019, compared with a net loss of RMB3.6 million for the same period in 2018. For discussions of gross billings and reconciliation of gross billings to net revenues, see Managements Discussion and Analysis of Financial Condition and Results of OperationsNon-GAAP Financial Measure.

Market Opportunities

According to Frost & Sullivan, Chinas online education market in terms of gross billings grew from RMB36.6 billion in 2013 to RMB143.2 billion (US\$20.8 billion) in 2018, representing a CAGR of 31.4%, and is expected to grow at a higher CAGR of 37.2% to reach RMB696.3 billion (US\$101.3 billion) in 2023.

Chinas online K-12 after-school tutoring market has experienced significant growth over the past few years. Admission to quality schools and universities has created tremendous demand for K-12 after-school tutoring in China. Online K-12 after-school tutoring courses are generally divided into large-class, small-class and one-on-one class formats. As online courses provide students with access to otherwise scarce top teaching talents nationwide, online K-12 after-school tutoring has gained increasing popularity among K-12 students and their parents across China. According to Frost & Sullivan, Chinas online K-12 after-school tutoring market in terms of gross billings grew from RMB1.4 billion in 2013 to RMB30.2 billion (US\$4.4 billion) in 2018, representing a CAGR of 85.2%, and is expected to further increase to RMB367.2 billion (US\$53.4 billion) in 2023, representing a CAGR of 64.8% from 2018.

There is significant imbalance of education resources between urban and more remote areas in China. The strong demand for high-quality education resources nationwide drives the growth of online K-12 large-class after-school tutoring market in China. According to Frost & Sullivan, Chinas online K-12 large-class after-school tutoring market in terms of gross billings grew from RMB0.7 billion in 2013 to RMB15.1 billion (US\$2.2 billion) in 2018, representing a CAGR of 86.5%, and is expected to further increase to RMB202.0 billion (US\$29.4 billion) in 2023, representing a CAGR of 68.0% from 2018.

The online K-12 large-class after-school tutoring market in China is still at an early development stage. Despite its short history, online K-12 large-class after-school tutoring market is already more consolidated than the offline market. According to Frost & Sullivan, the top market players for online K-12 large-class after-school tutoring as a whole is expected to grow faster than the overall online K-12 after-school tutoring industry.

Our Strengths

We believe the following competitive strengths are essential for our success and differentiate us from our competitors:

- superior education quality;
- robust proprietary technology infrastructure and application;

[Table of Contents](#)

enhance our brand recognition.

Our Challenges

We face risks and uncertainties in realizing our business objectives and executing our strategies, including those relating to:

our ability to attract students to purchase our course packages and to increase the spending of our students;
our ability to manage our growth and execute our growth strategies effectively;
our ability to engage, train and retain high quality teaching staff;
our reliance on certain top quality instructors;
our past net loss and uncertainty over whether we can remain profitable or increase profitability in the future;

new legislation or proposed changes in the PRC regulatory requirements regarding online private education;
the development of regulatory requirements on operating licenses and permits for our online education services in China; and
our ability to improve or maintain our sales and marketing efficiency.

See Risk Factors and other information included in this prospectus for a discussion of these and other risks and uncertainties that we face.

Implication of Being an Emerging Growth Company, a Foreign Private Issuer and a Controlled Company

As a company with less than US\$1.07 billion in revenue for our last fiscal year, we qualify as an emerging growth company pursuant to the Jumpstart Our Business Startups Act of 2012, as amended, or the JOBS Act. An emerging growth company may take advantage of specified reduced reporting and other requirements compared to those that are otherwise applicable generally to public companies. These provisions include exemption from the auditor attestation requirement under Section 404 of the Sarbanes-Oxley Act of 2002 in the assessment of the emerging growth company's internal control over financial reporting. The JOBS Act also provides that an emerging growth company does not need to comply with any new or revised financial accounting standards until such date that a private company is otherwise required to comply with such new or revised accounting standards. However, we have elected to opt out of this provision and, as a result, we will comply with new or revised accounting standards as required when they are adopted for public companies. This decision to opt out of the extended transition period under the JOBS Act is irrevocable.

We will remain an emerging growth company until the earliest of (a) the last day of the fiscal year during which we have total annual gross revenues of at least US\$1.07 billion; (b) the last day of our fiscal year following the fifth anniversary of the completion of this offering; (c) the date on which we have, during the preceding three-year period, issued more than US\$1.0 billion in non-convertible debt; or (d) the date on which we are deemed to be a large accelerated filer under the Securities Exchange Act of 1934, as amended, or the Exchange Act, which would occur if the market value of the ADSs that are held by non-affiliates exceeds US\$700 million as of the last business day of our most recently completed second fiscal quarter. Once we cease to be an emerging growth company, we will not be entitled to the exemptions provided in the JOBS Act discussed above.

We are a foreign private issuer within the meaning of the rules under the Exchange Act, and as such we are exempt from certain provisions of the securities rules and regulations in the United States that are applicable to U.S. domestic issuers. Moreover, the information we are required to file with or furnish to the SEC will be less

[Table of Contents](#)

extensive and less timely compared to that required to be filed with the SEC by U.S. domestic issuers. In addition, as a company incorporated in the Cayman Islands, we are permitted to adopt certain home country practices in relation to corporate governance matters that differ significantly from the New York Stock Exchange listing rules. See Risk FactorsRisks Related to the ADSs and This OfferingAs a company incorporated in the Cayman Islands, in relation to corporate governance matters that differ significantly from the NYSE corporate governance listing standards; these practices may afford less protection to shareholders than they would enjoy if we comply fully with the NYSE corporate governance listing standards.

Upon the completion of this offering, our outstanding shares will consist of Class A ordinary shares and Class B ordinary shares, and we will be a controlled company within the meaning of New York Stock Exchange listing rules because Mr. Larry Xiangdong Chen, our founder, chairman of board of directors and chief executive officer, will beneficially own all of our then issued and outstanding Class B ordinary shares and will be able to exercise over 50% of our total voting power. See Risk FactorsRisks Related to the ADSs and This OfferingWe will be a controlled company within the meaning of the New York Stock Exchange listing rules and, as a result, can rely on exemptions from certain corporate governance requirements that provide protection to shareholders of other companies.

[Table of Contents](#)**RISK FACTORS**

An investment in the ADSs involves significant risks. You should consider carefully all of the information in this prospectus, including the risks and uncertainties described below, before making an investment in the ADSs. Any of the following risks could have a material and adverse effect on our business, financial condition and results of operations. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial may also materially and adversely affect our business, prospects, financial condition, results of operations, cash flows and ability to pay dividends, and you may lose all or part of your investment.

Risks Related to Our Business and Industry

We have a limited operating history with our current business model, which makes it difficult to predict our prospects and our business and financial performance.

We have a short operating history with our current business model focusing on providing online live large-classes. We transitioned from a membership-based service platform connecting teaching staff and students to our current business model in March 2017. Our limited history of operating under the current business model may not serve as an adequate basis for evaluating our prospect and operating results, including gross billings, net revenues, cash flows and operating margins. We have encountered, and may continue to encounter in the future, risks, challenges and uncertainties associated with operating an internet-based education business, such as building and managing reliable and secure IT systems and infrastructure, addressing regulatory compliance and uncertainty, engaging, training and retaining high quality employees such as our teaching staff and IT support staff, and improving and expanding our education content offering. If we do not manage these risks successfully, our operating and financial results may differ materially from our expectations and our business and financial performance may suffer.

If we are not able to continue to attract students to purchase our course packages and to increase the spending of our students, our business and prospects will be materially and adversely affected.

Our ability to continue to attract students to purchase our course packages and to increase their spending are critical to the continued success and growth of our business. This in turn will depend on several factors, including our ability to engage, train and retain high quality teaching staff, continue to develop, adapt or enhance quality of our course offerings to meet the evolving demands of our existing or prospective students, and effectively market our course offerings and enhance our brand awareness to a broader base of prospective students. We may not always be able to meet our students expectations in terms of academic performance due to a variety of reasons, many of which are outside of our control. We may face student dissatisfaction due to our students perceptions of our failure to help them achieve their anticipated academic goals, our students overall dissatisfaction with the quality of our education content offerings and our teaching staff, as well as changing views of the value of the diplomas, degrees and qualifications they are pursuing through taking our courses. We must also manage our growth while maintaining consistent and high teaching quality, and respond effectively to competitive pressures. If we are unable to continue to attract students to purchase our course packages and to increase the spending of our students, our gross billings and net revenues may decline, which may have a material adverse effect on our business, financial condition and results of operations.

We have grown rapidly and expect to continue to invest in our growth for the foreseeable future. If we fail to manage this growth effectively, the success of our business model will be compromised.

We have experienced rapid growth in recent years. Our rapid growth has placed, and will continue to place, a significant strain on our demand for more teaching staff and IT support staff, administrative and operating infrastructure, educational content development, sales and marketing capacities, facilities and other resources. To maintain our growth, we need to continue to attract more students, scale up our education content offerings, increase our educational content development professionals and employees of other functions, as well as

[Table of Contents](#)

strengthen our technology and infrastructure, such as our live broadcasting technology and BOSS system. We will also be required to refine our operational, financial and management controls and reporting systems and procedures. If we fail to efficiently manage this expansion of our business, our costs and expenses may increase more than we plan and we may not successfully attract a sufficient number of students and teaching staff in a cost-effective manner, respond to competitive challenges, or otherwise execute our business strategies.

Our ability to effectively implement our strategies and manage any significant growth of our business will depend on a number of factors, including our ability to: (i) effectively recruit, train, retain and motivate a large number of new employees, particularly our teaching staff, IT support staff and educational content development professionals; (ii) continue to improve our operational, financial and management controls and efficiencies; (iii) successfully implement enhancements and improvements to the systems and infrastructures; (iv) improve education contents to make them appealing to existing and prospective students, particularly K-12 students; (v) maintain and increase our paid course enrollments; (vi) improve our sales and marketing efficiency; (vii) protect and further develop our intellectual property rights; and (viii) make sound business decisions in light of the scrutiny associated with operating as a public company. These activities require significant capital expenditures and investment of valuable management and financial resources, and our growth will continue to place significant demands on our management. There are no guarantees that we will be able to effectively manage any future growth in an efficient, cost-effective and timely manner, or at all. Our growth in a relatively short period of time is not necessarily indicative of results that we may achieve in the future. If we do not effectively manage the growth of our business and operations, our reputation, results of operations and overall business and prospects could be negatively impacted.

If we are not able to continue to engage, train and retain high quality teaching staff, we may not be able to maintain consistent teaching quality, and our business, financial condition and results of operations may be materially and adversely affected.

We have adopted a dual-teacher system, comprised of high quality instructors and professional tutors. Our teaching staff is critical to the learning experience of our students and our reputation. We seek to engage high quality teaching staff with strong education background and teaching skills. We must provide competitive pay and offer attractive career development opportunities to attract and retain them. We must also provide ongoing training to our teaching staff to ensure that they stay abreast of changes in course materials, student demands and other changes and trends necessary to teach effectively. Furthermore, as we continue to develop new education content, we may need to engage additional high quality teaching staff with appropriate skill sets or backgrounds to deliver instructions effectively. We cannot guarantee that we will be able to effectively engage and train such teaching staff quickly, or at all. Furthermore, given other potential more attractive opportunities for our quality teaching staff, over time some of them may choose to leave us. Departure of quality teaching staff may reduce the attractiveness of our course offerings and negatively impact our paid course enrollments. Furthermore, in the event such quality teaching staff join our competitors, students may decide to follow such quality teaching staff and enroll in their courses offered through other online education companies, which may further weaken our competitive position in the industry. Although we have not experienced major difficulties in engaging, training or retaining high quality teaching staff in the past, we may not always be able to engage, train and retain enough high quality teaching staff to keep pace with our growth while maintaining consistent education quality. We may also face significant competition in engaging high quality teaching staff from our competitors or from other opportunities that are perceived as more desirable. A shortage of high quality teaching staff, a decrease in the quality of our teaching staffs performance, whether actual or perceived, or a significant increase in the cost to engage or retain high quality teaching staff would have a material adverse effect on our business, financial condition and results of operations.

We face risks associated with our reliance on certain top quality instructors.

We rely on certain top quality instructors to deliver our course offerings. We generated 46.6% and 46.4% of our total net revenues from courses delivered by our top 10 instructors, ranked by net revenues generated from

[Table of Contents](#)

courses taught by each instructor in a given period, in 2018 and for the three months ended March 31, 2019, respectively. Our reliance on certain top quality instructors may expose us to concentration risks. If we lose our top quality instructors to competitors, the attractiveness of our course offerings may be adversely affected, which could have an adverse impact on our financial condition and results of operations.

We have incurred net losses in the past, and we may not remain profitable or increase profitability in the future.

We generated a net income of RMB33.9 million (US\$5.1 million) in the three months ended March 31, 2019, compared to net loss of RMB3.6 million in the three months ended March 31, 2018. We incurred a net loss of RMB87.0 million in 2017 and generated a net income of RMB19.7 million (US\$2.9 million) in 2018. We cannot assure you that we will be able to continue generate net profits or positive cash flow from operating activities in the future. Our ability to maintain profitability will depend in large part on our ability to maintain or increase our operating margin, either by growing our revenues at a rate faster than our costs and operating expenses increase, or by reducing our costs and operating expenses as a percentage of our net revenues. Accordingly, we intend to continue to invest to attract new students, hire high quality teaching staff, and strengthen our technologies and data analytics capabilities to enhance student experience. As a result of the foregoing, we may not remain profitable or increase our profitability in the future.

We face intense competition, which could divert students to our competitors, lead to pricing pressure and loss of market shares, and significantly reduce our net revenues.

The online education industry in China is intensely competitive, and we expect competition in this sector to persist and intensify. We face competition in each part of our service offerings from other online educational service providers. Some of our current or future competitors may have longer operating histories, greater brand recognition, or greater financial, technical or marketing resources than we do. We compete with these online education service providers across a range of factors, including, among others, high quality instructors in the education industry, technology infrastructure and data analytics capabilities, quality of our education services and students learning experience, brand recognition and scope of our course offerings. Our competitors may adopt similar curricula and marketing approaches, with different pricing and service packages that may have greater appeal than our offerings. In addition, some of our competitors may have more resources than we do and may be able to devote greater resources than we can to the development and promotion of their services and respond more quickly than we can to the changes in student preferences, testing materials, admission standards, market needs or new technologies. If we reduce course fees or increase spending in response to competition in order to retain or attract students and high quality teaching staff, or pursue new market opportunities, our net revenues may decrease and our costs and expenses may increase as a result of such actions which may adversely affect our operating margins. If we are unable to successfully compete for students, maintain or increase our level of course fees, attract and retain competent teaching staff or other key personnel, maintain our competitiveness in terms of the quality of our education services in a cost-effective manner, our net revenues may be materially and adversely affected.

Uncertainties exist in relation to new legislation or proposed changes in the PRC regulatory requirements regarding online private education, which may materially and adversely affect our business, financial condition and results of operations.

The private education industry in the PRC is subject to regulations in various aspects. Relevant rules and regulations are relatively new and evolving and could be changed to accommodate the development of the education, in particular, the online private education markets from time to time.

Pursuant to the amended Law for Promoting Private Education, or the amended Private Education Law, a private school shall obtain a private school operating permit. See RegulationThe Law for Promoting Private Education and its Implementing Rules. However, we, as an online tutoring service provider, are different from

[Table of Contents](#)

traditional offline education service providers, and it remains unclear in practice as to whether and how an online tutoring service provider like us needs to comply with the operating permit requirement under the amended Private Education Law. In August 2018, the Ministry of Justice, or MOJ, published the draft amendment to the Regulations on the Implementation of the Law for Promoting Private Education of the PRC, or MOJ Draft, for public comment. According to the MOJ Draft, we, as an online non-diploma-awarding education service provider, shall file with the department of education at the provincial level. The MOJ Draft further stipulates that the internet technology service platform that provides the training and educational activities shall review and register the identity information of institutions or individuals applying for access to the platform. See RegulationsThe Law for Promoting Private Education and its Implementing Rules. As of the date of this prospectus, the MOJ Draft is still pending for final approval and has not come into effect. It remains uncertain when and how the MOJ Draft would come into effect, and whether and how local government would promulgate rules related to the filing or licensing requirement applicable to online education service providers like us. If we are not able to comply with the filing or licensing requirement in a timely manner or at all, we may be subject to fines, confiscation of the gains derived from our non-compliant operations, suspension of our non-compliant operations or claims for compensation of any economic loss suffered by our students or other relevant parties.

In addition, the PRC governmental authorities have recently issued a series of circulars aiming to strengthen its regulation of after-school training institutions, which could bring about uncertainties to online after-school training institutions like us. These circulars require, among other things, that (i) training services beyond the scope or higher than the level of the school textbooks should be banned; (ii) an after-school training institution shall not provide tutoring to students after 8:30 p.m. each day; (iii) fees shall not be collected at one time for courses longer than three months; (iv) teachers providing after-school tutoring services related to academic curriculum are required to have the corresponding teaching qualification licenses; (v) provincial education departments shall be responsible for the filing of training institutions that provide online training facing primary and middle school students and shall regulate the online after-school training institutions based on the management policies governing offline after-school training institutions; (vi) online after-school training institutions shall file the information of their courses with the provincial education departments, and (vii) online after-school training institutions shall publish the name, photo, class schedule and certificate number of the teacher qualification of each teacher on their websites. See RegulationRegulation Related to After-school Tutoring.

Since the overall regulatory framework over the online tutoring business remains uncertain and in flux and currently there are no clear and specific guidance, interpretation or implementing rules on how an online education institution should comply with these circulars, our current practice may be deemed to be not in full compliance with these circulars. For example, as of the date of this prospectus, approximately 49% of our instructors teaching K-12 classes lack the relevant teaching qualification licenses, some of our K-12 classes end after 8:30 p.m. and some fees are collected at one time for courses longer than three months. Based on our anonymous consultation with Beijing Municipal Education Commission and its Haidian Branch, additional implementation rules and interpretation may be promulgated to indicate clearly on whether, when and how these circulars apply to online education service providers like us. As of the date of this prospectus, we have not received any written notice of warning or been subject to penalties from the relevant government authorities regarding our possible failure to comply with these circulars. We are preparing the information filing materials as required under the relevant circular, and have formally notified our K-12 teachers of the requirement to obtain relevant teaching qualification licenses. We will also take necessary measures, such as measures to adjust the time schedule and fee collection method of our K-12 classes, to comply with the requirements of local competent authorities once the requirements on measures to be taken are made clear by the local competent authorities. Nevertheless, it is uncertain whether and how PRC government would promulgate new laws and regulations applying the requirements under these new circulars to online tutoring institutions like us, and there is no assurance that we can comply with any newly promulgated laws and regulations in a timely manner. Failure to regain compliance may materially and adversely affect our business, financial conditions and results of operations.

[Table of Contents](#)

Given the foregoing, the interpretation and application of the existing laws and regulations and the newly promulgated implementation rules and interpretations, if any, that governs the online private education industry would create substantial uncertainties regarding the legality of our business operation, which create risks that we may be found to violate the existing laws and regulations and any newly promulgated implementation rules and interpretations.

We face uncertainties with respect to the development of regulatory requirements on operating licenses and permits for our online education services in China. Failure to renew requested licenses or permits in a timely manner or obtain newly required ones due to adverse changes in regulations or policies could have a material adverse impact on our business, financial condition and results of operations.

The internet industry and education industry in China are highly regulated by the PRC government. As an internet-based education service provider, we are required to obtain and maintain all necessary approvals, licenses or permits applicable to our business operations and make all necessary registration and filings for our education services in China, and we may be required to apply for and obtain additional licenses or permits for our operations as the interpretation and implementation of current PRC laws and regulations are still evolving, and new laws and regulations may also be promulgated.

We currently hold a Value-added Telecommunications Business Operating License for internet information service. We may be required to apply for and obtain additional licenses, permits or recordation, given the significant uncertainties of the interpretation and implementation of certain regulatory requirements applicable to online education business. As of the date of this prospectus, online education institutions are not explicitly required to obtain the License for Online Transmission of Audio-Visual Programs or the Permit for Production and Operation of Radio and TV Programs primarily because there are no implementation rules, explicit interpretation from government authorities or prevailing enforcement practice deeming internet education services as internet audio-visual program and radio and television program as defined in relevant rules and regulations promulgated by relevant government authorities. In addition, as of the date of this prospectus, there are no implementation rules, explicit interpretation from government authorities or prevailing enforcement practice deeming the provision of our educational content to our students through our online platform as internet cultural activities which requires an Internet Cultural Business Operating License or online publishing which requires an Online Publishing Service Permit. See Regulation. However, there is no assurance that local PRC authorities will not adopt different enforcement practice, or any PRC government will not issue more explicit interpretation and rules or promulgate new laws and regulations from time to time to further regulate the online education industry, which may subject us to additional licensing requirements to continue to operate our business. We also print and provide physical education materials to our students. If the government authorities deem such activities as publication distribution under Administrative Provisions on the Publications Market, we may be required to obtain the Publication Operation License and failure to obtain such license may subject us to fines and we may be ordered by the competent government authorities to suspend printing and providing such offline educational materials to our students, which will materially and adversely affect our business operation. See Regulation Regulation Related to Publication Distribution. As of the date of this prospectus, no material fines or other penalties have been imposed on us for failure to obtain such additional licenses, permits or recordation, including, among other things, the Internet Culture Business Operating License, License for Online Transmission of Audio-Visual Programs, Permit for Production and Operation of Radio and TV Programs, Online Publishing Services Permit and Publication Operation License.

There can be no assurance that once required, we will be able to obtain all the required approvals, licenses, permits and complete all necessary filings, recordations renewals and registrations on a timely basis for our online education services, given the significant amount of discretion the PRC authorities may have in interpreting, implementing and enforcing relevant rules and regulations, as well as other factors beyond our control and anticipation. If we fail to obtain required permits in a timely manner or obtain or renew any permits and certificates, or fail to complete the necessary filings, recordations renewals or registrations on a timely basis, we may be subject to fines, confiscation of the gains derived from our non-compliant operations, suspension of

[Table of Contents](#)

our non-compliant operations or claims for compensation of any economic loss suffered by our students or other relevant parties.

If we are not able to improve or maintain our sales and marketing efficiency, our business and results of operations may be materially and adversely affected.

Selling expenses represent a significant portion of our operating expenses. We incurred approximately RMB75.3 million and RMB121.5 million (US\$18.1 million) selling expenses in 2017 and 2018, respectively, and approximately RMB13.9 million and RMB99.5 million (US\$14.8 million) selling expenses in the three months ended March 31, 2018 and 2019, respectively. Our sales and marketing activities may not be well received by students and may not result in the levels of sales that we anticipate and our trial courses may not be attractive to our prospective students. For example, if our students attending trial courses do not purchase our standard courses, our business and results of operations may be materially and adversely affected. Furthermore, we may not be able to maintain or further improve our operational efficiency. We also may not be able to retain or recruit experienced sales staff, or to efficiently train junior sales staff. In addition, marketing and branding approaches and tools in the online education market in China are evolving. This further requires us to enhance our marketing and branding approaches and experiment with new methods to keep pace with industry developments and student preferences. Failure to refine our existing marketing and branding approaches or to introduce new marketing and branding approaches in a cost-effective manner may reduce our market share, cause our revenues to decline and negatively impact our operating margins.

We may not be able to maintain or increase our course fee level.

Our results of operations are affected by the pricing of our education services. We determine our course fees primarily based on the demand for our educational programs, the cost of our operations, the course fees charged by our competitors, our pricing strategy to gain market share and general economic conditions in the PRC. We believe our high quality course offerings have enabled us to charge above-market course fees. Although we charge premium course fees for our courses compared with our competitors, we cannot guarantee that we will be able to maintain or increase our course fee in the future without adversely affecting the demand for our education services.

Refunds or potential refund disputes of our course fees may negatively affect our cash flows, financial condition, and reputation.

For our online courses, we offer refunds for any remaining classes in a course to students who withdraw from the course. The refund is equal to the amount related to the undelivered classes. The number of refund requests and the amount of refunds could be affected by a number of factors, many of which are beyond our control. These factors include, without limitation to, student dissatisfaction with our teaching quality and our education content offerings, privacy concerns relating to our online platforms, negative publicity regarding us or online education in general, and any change or development in PRC laws and regulations with respect to fees and tuitions charged by online education service providers like us. Any refund payments that we may be required to make to our students, as well as the expenses we could incur for processing refunds and resolving refund disputes, could be substantial and could adversely affect our business operations and financial condition. A high volume of refunds and refund disputes may also generate negative publicity that could harm our reputation.

Any significant disruption to or failures of our information technology systems, including events beyond our control, could reduce student satisfaction and could harm our reputation and cause our education services to be less attractive to our students.

The performance and reliability of our information technology system is critical to our operations and reputation. Our network infrastructure is currently deployed and our data is currently mainly maintained through a third-party cloud computing service provider in China. Our operations depend on the service providers ability

[Table of Contents](#)

to protect its and our system in its facilities against events such as damage or interruption from natural disasters, power or telecommunications failures, air quality issues, environmental conditions, computer viruses or attempts to harm our systems, criminal acts and similar events, which events are beyond our control. If our arrangement with such service provider is terminated or if there is a lapse of service or damage to their facilities, we could experience interruptions in our service. Any interruptions in the accessibility of or deterioration of the quality of access to our system could reduce students satisfaction and result in reduction in the number of students using our services, which would reduce the attractiveness of our education content offering services. We have experienced a system outage in 2017 caused by the IT issue encountered by our third-party cloud computing service provider, resulting in the deterioration in the quality of access to, and interruption of access to our system for about half an hour. No students have claimed damages for such system outage. Although we have reported the issue to the service provider in a timely basis, and the service provider and us each has optimized its system, we cannot assure you that similar issues will not happen in the future.

If we fail to adopt new technologies that are important to our business, in particular the technology upgrade related to live broadcasting, our competitive position and ability to generate revenues may be materially and adversely affected.

The technology used in internet and value-added telecommunications services in general, and in online education services in particular, may evolve and change over time. As a technology-driven education company, we must anticipate and adapt to such technological changes, in particular the technology upgrade related to live broadcasting, and adopt new technologies in a timely fashion. If we fail to do so, our market share and our business development could suffer, which in turn would have a material and adverse effect on our financial condition and results of operations. If we are unsuccessful in addressing any of the risks relating to failure to adopt new technologies, our business may be materially and adversely affected.

Our failure to protect our intellectual property rights may undermine our competitive position, and litigation to protect our intellectual property rights or defend against third-party allegations of infringement may be costly and ineffective.

We believe that our copyrights, trademarks and other intellectual property are essential to our success. We have devoted considerable time and energy to the development and improvement of our websites, mobile apps, our system infrastructure and our course materials.

We rely primarily on copyrights, trademarks, trade secrets and other contractual restrictions for the protection of the intellectual property used in our business. Nevertheless, these provide only limited protection and the actions we take to protect our intellectual property rights may not be adequate. Our trade secrets may become known or be independently discovered by our competitors. Third parties may in the future pirate our course materials and may infringe upon or misappropriate our other intellectual property. Infringement upon or the misappropriation of, our proprietary technologies or other intellectual property could have a material adverse effect on our business, financial condition or results of operations. Although we have taken measures to monitoring and policing the unauthorized use of our copyrighted course materials, policing the unauthorized use of intellectual property rights can be difficult and expensive. In addition, we and our instructors whom we have signed exclusive contracts with and engage in content development may be deemed to have joint ownership over intellectual properties relating to our course content. Our instructors may continue to use these course content if they resign with us and join our competitors, which may negatively impact the attractiveness of our courses to prospective students and parents. Although we have entered into agreements with certain instructors to prohibit them from using our course content without our prior consent, we cannot ensure compliance of instructors with such agreement.

Also, litigation may be necessary to enforce our intellectual property rights, protect our trade secrets or determine the validity and scope of the proprietary rights of others. Such litigation may be costly and divert managements attention away from our business. An adverse determination in any such litigation would impair

[Table of Contents](#)

our intellectual property rights and may harm our business, prospects and reputation. Enforcement of judgments in China is uncertain, and even if we are successful in litigation, it may not provide us with an effective remedy. In addition, we have no insurance coverage against litigation costs and would have to bear all costs arising from such litigation to the extent we are unable to recover them from other parties. The occurrence of any of the foregoing could have a material adverse effect on our business, financial condition and results of operations.

We may be involved in legal and other disputes from time to time arising out of our operations, in particular for allegations relating to our infringement of intellectual property rights of third parties.

We have and may continue to be involved in legal and other disputes in the ordinary courses of our business, including allegations against us for potential infringement of third-party copyrights or other intellectual property rights. For example, we have been, and are now subject to allegations on the grounds of intellectual property rights infringement and other legal theories based on the content of the materials that we or our teaching staff distribute or use in our business operation. We may encounter disputes from time to time over rights and obligations concerning intellectual property rights and other legal rights, in particular third-party copyrights that may be infringed by us or our teaching staff in our business operation, and we may not prevail in those disputes.

Any claims against us, with or without merit, could be time consuming and costly to defend or litigate, divert our managements attention and resources or result in the loss of goodwill associated with our brand. If a lawsuit against us is successful, we may be required to pay substantial damages and/or enter into royalty or license agreements that may not be based upon commercially reasonable terms, or we may be unable to enter into such agreements at all. We may also lose, or be limited in, the rights to offer some of our programs, parts of our platform and products or be required to make changes to our course materials or websites. As a result, the scope of our course materials could be reduced, which could adversely affect the effectiveness of our curriculum, limit our ability to attract new students, harm our reputation and have a material adverse effect on our results of operations and financial condition.

If our security measures are breached or failed and result in unauthorized disclosure or unintended leakage of data, we could lose existing students, fail to attract new students and be exposed to protracted and costly litigation.

Maintaining platform security is of critical importance to us because we store and transmits proprietary and confidential information, which includes proprietary and confidential student, parent and teaching staff information, such as names, addresses, ID card number, bank account number and other personal information, which is primarily stored in our digital database. To ensure the confidentiality and integrity of our data, we maintain a comprehensive and rigorous data security program. For example, we anonymize and encrypt confidential personal information and take other technological measures to ensure the secure processing, transmission and usage of data. See BusinessData Privacy and Security. These measures, however, may not be as effective as we anticipate. If our security measures are breached or fail and result in unauthorized disclosure or unintended leakage of data, third parties may receive or be able to access student, parent, teaching staff and other records, which could subject us to liabilities, interrupt our business and adversely impact our reputation. Furthermore, we currently face certain legal obligations regarding the manner in which we treat such information. Increased regulation of data utilization practices, including self-regulation or findings under existing laws that limit our ability to collect, transfer and use data, could have an adverse effect on our business. If we were to disclose data about our students, parents and teaching staff in a manner that was objectionable to them, our business reputation could be adversely affected, and we could face potential legal claims that could impact our operating results. Failure to comply with these obligations could subject us to liability, and to the extent that we need to alter our business model or practices to adapt to these obligations, we could incur additional expenses.

Any of these issues could harm our reputation, adversely affect our ability to attract and enroll prospective students, cause prospective students not to enroll or stay enrolled, or subject us to third-party lawsuits, regulatory

[Table of Contents](#)

finances or other action or liability. Further, any reputational damage resulting from breach of our security measures could create distrust of our company by prospective students or investors. We may be required to expend significant additional resources to protect us against the threat of security measures breaches or to alleviate problems caused by such disruptions or breaches.

Our advertising content may subject us to penalties and other administrative actions.

Under PRC advertising laws and regulations, we are obligated to monitor our advertising content to ensure that such content is true and accurate and in full compliance with applicable laws and regulations. Violation of these laws and regulations may subject us to penalties, including fines, confiscation of our advertising income, orders to cease dissemination of the advertisements and orders to publish an announcement correcting the misleading information. In circumstances involving serious violations by us, PRC governmental authorities may force us to terminate our advertising operations or revoke our licenses. See Regulation Related to Advertising.

While we have made significant efforts to ensure that our advertisements are in full compliance with applicable PRC laws and regulations, we cannot assure you that all the content contained in such advertisements is true and accurate as required by the advertising laws and regulations, especially given the uncertainty in the interpretation of these PRC laws and regulations. If we are found to be in violation of applicable PRC advertising laws and regulations, we may be subject to penalties and our reputation may be harmed, which may negatively affect our business, financial condition, results of operations and prospects.

Failure to adequately and promptly respond to changes in examination systems, admission standards, test materials, teaching methods and regulation changes in the PRC could render our courses and services less attractive to students.

In China, school admissions rely heavily on examination results, and students' performance in these exams is critical to their education and future employment prospects. It is therefore common for students to take after-school tutoring classes to improve their test performance, and the success of our business to a large extent depends on the continued use of entrance exams or tests by schools in their admissions. However, such heavy emphasis on examination scores may decline or fall out of favor with educational institutions or government authorities in China.

Admission and assessment processes undergo continuous changes, in terms of subject and skill focus, question type, examination format and the manner in which the processes are administered. We are therefore required to continually update and enhance our curricula, course materials and teaching methods. Any failure to respond to the changes in a timely and cost-effective manner will adversely impact the marketability of our services and products, which would have a material adverse effect on our business, financial condition and results of operations.

Regulations and policies that decrease the weight of scholastic competition achievements in the admissions process mandated by government authorities or adopted by schools may have an impact on our enrollments. For example, the MOE issued certain implementation guidelines in January 2014 to clarify that local educational administrative departments at all levels, public schools and private schools are not allowed to use examinations to select their students for admission to middle schools from primary schools. Public schools may not use various competitions or examination certificates as the criteria or basis for enrollment. Failure to track and respond to these changes in a timely and cost-effective manner would render our courses, services and products less attractive to students, which may materially and adversely affect our reputation and ability to continue to attract students.

We may not be able to timely develop our education content offerings in a cost-effective manner to make them appealing to existing and prospective students, or at all.

Our educational content development team work closely with our instructors on developing, updating and improving our course materials to stay abreast of the latest educational trends in their respective subject areas. The adjustments, updates and expansions of our existing education content offerings and the development of new course materials may not be accepted by existing or prospective students. Even if we are able to develop acceptable new course materials, we may not be able to introduce them as quickly as students require or as quickly as our competitors introduce competing offerings. Furthermore, offering new courses materials or upgrading existing ones may require us to commit significant resources and make significant investments in educational content development. If we are unsuccessful in pursuing educational content development and upgrading opportunities due to the financial constraints, failure to attract educational content development professionals or qualified instructors, or other factors, our ability to attract and retain students could be impaired and our financial results could suffer.

We cannot assure you that we will not be subject to liability claims for any inappropriate or illegal content in our education content offerings, which could cause us to incur legal costs and damages our reputation.

We implement strict monitoring procedures to remove inappropriate or illegal content. However, we cannot assure you that there will be no inappropriate or illegal materials included in our education contents. In addition, our quiz questions designed internally based on our understanding of the relevant examination requirements may be investigated by the regulatory authorities. Therefore, we may face civil, administrative or criminal liability if an individual or corporate, governmental or other entity believes that our education content offering violates any laws, regulations or governmental policies or infringes upon its legal rights. Even if such a claim were not successful, defending such a claim may cause us to incur substantial costs. Moreover, any accusation of inappropriate or illegal content in our education content offerings could lead to significant negative publicity, which could harm our reputation and future business prospects.

The recognition of our brand may be adversely affected by any negative publicity concerning us and our business, shareholders, affiliates, directors, officers, teaching staff and other employees, as well as the industry in which we operate, regardless of its accuracy, that could harm our reputation and business.

We believe that the market recognition of our brand has significantly contributed to the success of our business and that maintaining and enhancing our brand recognition is critical to sustaining our competitive advantages. Negative publicity about us and our business, shareholders, affiliates, directors, officers, teaching staff and other employees, as well as the industry in which we operate, can harm the recognition of our brand. Negative publicity, regardless of merits, concerning the foregoing, could be related to a wide variety of matters, including but not limited to:

alleged misconduct or other improper activities committed by our students or our directors, officers, teaching staff and other employees, including misrepresentation made by our employees to potential students during sales and marketing activities, and other fraudulent activities to artificially inflate the popularity of our services or course offerings;

false or malicious allegations or rumors about us or our directors, shareholders, affiliates, officers, and teaching staff and other employees;

complaints by our students about our education services and sales and marketing activities;

refund disputes of course fees between us and our students or administrative penalties;

security breaches of confidential student or employee information;

employment-related claims relating to alleged employment discrimination, wage and hour violations; and

governmental and regulatory investigations or penalties resulting from our failure to comply with applicable laws and regulations.

In addition to traditional media, there has been an increasing use of social media platforms and similar devices in China, including instant messaging applications, social media websites and other forms of internet-based communications that provide individuals with access to a broad audience of consumers and other interested persons. The availability of information on instant messaging applications and social media platforms is virtually immediate as is its impact without affording us an opportunity for redress or correction. The opportunity for dissemination of information, including inaccurate information, is seemingly limitless and readily available. Information concerning our company, shareholders, affiliates, directors, officers, teaching staff and other employees, may be posted on such platforms at any time. The risks associated with any such negative publicity or incorrect information cannot be completely eliminated or mitigated and may materially harm the recognition of our brand, our reputation, business, financial condition and results of operations.

If our senior management and other key personnel is unable to work together effectively or efficiently or if we lose their services, our business may be severely affected.

The continued services of our senior management and other key personnel is important to our continued success. In particular, we rely on the expertise and experience of Mr. Larry Xiangdong Chen, our founder, chairman and CEO. We also rely on the experience and services from other senior management. If they cannot work together effectively or efficiently, our business may be severely disrupted. If one or more of our senior management were unable or unwilling to continue in their present positions, we might not be able to replace them easily or at all, and our business, financial condition and results of operations may be materially and adversely affected. If any of our senior management joins a competitor or forms a competing business, we may lose students, teaching staff, and other key professionals and staff members. Our senior management has entered into employment agreements with us which contain confidentiality clauses, as well as standalone confidentiality and non-compete agreements. However, if any dispute arises between our senior management and us, we may have to incur substantial costs and expenses in order to enforce such agreements in China or we may be unable to enforce them at all.

We are subject to third-party payment processing-related risks.

We accept payments through major third-party online payment channels in China, as well as bank transfers for our customers. We may also be susceptible to fraud, user data leakage and other illegal activities in connection with the various payment methods we offer. In addition, our business depends on the billing, payment and escrow systems of the third-party payment service providers to maintain accurate records of payments by customers and collect such payments. If the quality, utility, convenience or attractiveness of these payment processing and escrow services declines, or if we have to change the pattern of using these payment services for any reason, the attractiveness of our company could be materially and adversely affected. We are also subject to various rules, regulations and requirements, regulatory or otherwise, governing electronic funds transfers which could change or be reinterpreted to make it difficult or impossible for us to comply. If we fail to comply with these rules or requirements, we may be subject to fines and higher transaction fees and become unable to accept the current online payments solutions from our customers, and our business, financial condition and results of operations could be materially and adversely affected. Business involving online payment services is subject to a number of risks that could materially and adversely affect third-party online payment service providers ability to provide payment processing and escrow services to us, including:

dissatisfaction with these online payment services or decreased use of their services;

increasing competition, including from other established Chinese internet companies, payment service providers and companies engaged in other financial technology services;

changes to rules or practices applicable to payment systems that link to third-party online payment service providers;

[Table of Contents](#)

breach of customers personal information and concerns over the use and security of information collected from buyers;

service outages, system failures or failures to effectively scale the system to handle large and growing transaction volumes;

increasing costs to third-party online payment service providers, including fees charged by banks to process transactions through online payment channels, which would also increase our costs of revenues; and

failure to manage funds accurately or loss of funds, whether due to employee fraud, security breaches, technical errors or otherwise.

Our brand image, business and results of operations may be adversely impacted by students and employees misconduct, improper activities and misuse of our platform, many of which are beyond our control.

We allow teaching staff to engage in real-time communication with our students. Our courses undergo multiple rounds of internal review and pilot testing before being broadly released. Our tutors and quality assurance team monitor our live courses, chat messages and other content on our platform to ensure that we are able to identify content that may be deemed inappropriate or violation of laws, regulations and government policies. When any inappropriate or illegal content is identified, we promptly remove the content. However, since we have limited control over the real-time and offline behavior of our students, teaching staff, to the extent any improper behavior is associated with our platforms, our ability to protect our brand image and reputation may be limited. In addition, if any of our students, teaching staff suffer or allege to have suffered physical, financial or emotional harm following contact initiated on our platform, we may face civil lawsuits or other liabilities initiated by the affected student, teaching staff, or governmental or regulatory actions against us. In response to allegations of illegal or inappropriate activities conducted on our platform or any negative media coverage about us, PRC governmental authorities may intervene and hold us liable for non-compliance with PRC laws and regulations concerning the dissemination of information on the internet and subject us to administrative penalties or other sanctions, such as requiring us to restrict or discontinue some of the features and services provided on our platform. As a result, our business may suffer and our brand image, student base, results of operations and financial condition may be materially and adversely affected.

We are exposed to the risk of other types of employee fraud or other misconduct. Other types of employee misconduct include intentionally failing to comply government regulations, engaging in unauthorized activities and misrepresentation to our prospective students during marketing activities, which could harm our reputation. It is not always possible to deter employee misconduct, and the precautions we take to prevent and detect this activity may not be effective in controlling unknown or unmanaged risks or losses, which could harm our business, financial condition and results of operations.

We may not be able to achieve the benefits we expect from recent and future investments and acquisitions.

We have made and may continue to make equity investments or acquisition in additional businesses that complement our existing business. We may not be able to successfully integrate acquired businesses and we may not have control over the businesses or operations of our minority equity investments, the value of which may decline over time. As a result, our business and results of operations could be harmed. In addition, if the businesses we acquire or invest in do not subsequently generate the anticipated financial performance or if any goodwill impairment test triggering event occurs, we may need to revalue or write down the value of goodwill and other intangible assets in connection with such acquisitions or investments, which would harm our results of operations. In addition, we may be unable to identify appropriate acquisition or strategic investment targets when it is necessary or desirable to make such acquisition or investment to remain competitive or to expand our

[Table of Contents](#)

business. Even if we identify an appropriate acquisition or investment target, we may not be able to negotiate the terms of the acquisition or investment successfully, finance the proposed transaction or integrate the relevant businesses into our existing business and operations. Furthermore, as we often do not have control over the companies in which we only have minority stake, we cannot ensure that these companies will always comply with applicable laws and regulations in their business operations. Material non-compliance by our investees may cause substantial harms to our reputations and the value of our investment.

Our results of operations are subject to seasonal fluctuations.

Seasonal fluctuations have affected, and are likely to affect our business in the future. Historically, we typically generate the highest growth in net revenues in the second and fourth quarters because of the increased paid course enrollments during summer vacation and beginning of the fall semester. Overall, the historical seasonality of our business has been relatively mild due to our rapid growth but seasonality may increase in the future. Due to our limited operating history, the seasonal trends that we have experienced in the past may not be indicative of our future operating results. Our financial condition and results of operations for future periods may continue to fluctuate. As a result, the trading price of our ADSs may fluctuate from time to time due to seasonality.

We have granted options, and expect to continue to grant share-based awards under our share incentive plan, which may result in increased share-based compensation expenses.

We have granted options, and recorded RMB1.0 million and RMB2.3 million (US\$0.3 million) in 2017 and 2018, respectively, and RMB0.2 million and RMB3.8 million (US\$0.6 million) for the three months ended March 31, 2018 and 2019, respectively, in share-based compensation expenses in relation to such share option grants. We expect to continue to grant awards under our share incentive plan, which we believe is of significant importance to our ability to attract and retain key personnel and employees. As a result, our expenses associated with share-based compensation may increase, which may have an adverse effect on our results of operations.

If we cannot maintain our corporate culture as we grow, we could lose the innovation, collaboration and focus that contribute to our business.

We believe that a critical component of our success is our corporate culture, which fosters innovations and has roots in a deep understanding of our students and the evolving education industry in China. As we continue to expand and grow our business, we may find it difficult to maintain these valuable aspects of our corporate culture. Any failure to preserve our culture could undermine our reputation in the marketplace and negatively impact our ability to attract and retain employees and students, which would in turn jeopardize our future success.

We face risks related to natural and other disasters, including severe weather conditions or outbreaks of health epidemics, and other extraordinary events, which could significantly disrupt our operations.

China has in the past experienced significant natural disasters, including earthquakes, extreme weather conditions, as well as health scares related to epidemic diseases, and any similar event could materially impact our business in the future. If a disaster or other disruption were to occur in the future that affects the regions where we operate our business, our operations could be materially and adversely affected due to loss of personnel and damages to property.

In addition, our business could be affected by public health epidemics, such as the outbreak of avian influenza, severe acute respiratory syndrome, or SARS, Zika virus, Ebola virus or other disease. If any of our employees is suspected of having contracted a contagious disease, we may be required to apply quarantines or suspend our operations. Furthermore, any future outbreak may restrict economic activities in affected regions, resulting in reduced business volume, temporary closure of our offices or otherwise disrupt our business operations and adversely affect our results of operations.

[Table of Contents](#)***We currently do not have any business insurance coverage.***

Insurance companies in China currently do not offer as extensive an array of insurance products as insurance companies in more developed economies. We do not maintain any liability insurance or property insurance policies covering students, equipment and facilities for injuries, death or losses due to fire, earthquake, flood or any other disaster. Consistent with customary industry practice in China, we do not maintain business interruption insurance, nor do we maintain key-man life insurance. We have determined that the costs of insuring for these risks and the difficulties associated with acquiring such insurance on commercially reasonable terms make it impractical for us to have such insurance. Any uninsured business disruptions may result in our incurring substantial costs and the diversion of resources, which could have an adverse effect on our results of operations and financial condition.

In connection with the audits of our consolidated financial statements as of and for the years ended December 31, 2017 and 2018, we and our independent registered public accounting firm identified one material weakness in our internal control over financial reporting. If we fail to develop and maintain an effective system of internal control over financial reporting, we may be unable to accurately report our financial results or prevent fraud.

Prior to this offering, we have been a private company with limited accounting personnel and other resources with which we address our internal control over financial reporting. In connection with the auditing of our consolidated financial statements as of and for the years ended December 31, 2017 and 2018, we and our independent registered public accounting firm identified one material weakness as well as other control deficiencies in our internal control over financial reporting. As defined in the standards established by the U.S. Public Company Accounting Oversight Board, or PCAOB, a material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the annual or interim financial statements will not be prevented or detected on a timely basis.

One material weakness that has been identified related to our lack of comprehensive accounting policies and procedures manual in accordance with U.S. GAAP. We have implemented and are continuing to implement a number of measures to remedy this material weakness and the other control deficiencies.

Neither we nor our independent registered public accounting firm undertook a comprehensive assessment of our internal control for purposes of identifying and reporting material weaknesses and other control deficiencies in our internal control over financial reporting. Had we performed a formal assessment of our internal control over financial reporting or had our independent registered public accounting firm performed an audit of our internal control over financial reporting, additional deficiencies may have been identified. Following the identification of the material weakness and other control deficiencies, we have taken measures and plan to continue to take remedial measures. See Management's Discussion and Analysis of Financial Condition and Results of Operations Internal Control over Financial Reporting. However, the implementation of these measures may not fully address these weakness and deficiencies in our internal control over financial reporting, and we cannot conclude that they have been fully remedied. Our failure to correct these weakness and deficiencies or our failure to discover and address any other weakness and deficiencies could result in inaccuracies in our financial statements and impair our ability to comply with applicable financial reporting requirements and related regulatory filings on a timely basis. Moreover, ineffective internal control over financial reporting could significantly hinder our ability to prevent fraud.

The audit report included in this prospectus is prepared by auditor who is not inspected by the Public Company Accounting Oversight Board, and, as such, you are deprived of the benefits of such inspection.

Our independent registered public accounting firm that issues the audit report included in our prospectus filed with the U.S. Securities and Exchange Commission, as auditors of companies that are traded publicly in the

United States and a firm registered with the Public Company Accounting Oversight Board (United States), or the PCAOB, is required by the laws of the United States to undergo regular inspections by the PCAOB to assess its compliance with the laws of the United States and professional standards.

Because we have substantial operations within the PRC and the PCAOB is currently unable to conduct inspections of the work of our independent registered public accounting firm as it relates to those operations without the approval of the Chinese authorities, our independent registered public accounting firm is not currently inspected fully by the PCAOB. This lack of PCAOB inspections in the PRC prevents the PCAOB from regularly evaluating our independent registered public accounting firms audits and its quality control procedures. As a result, investors may be deprived of the benefits of PCAOB inspections.

On May 24, 2013, PCAOB announced that it had entered into a Memorandum of Understanding on Enforcement Cooperation with the China Securities Regulatory Commission, or the CSRC, and the Ministry of Finance which establishes a cooperative framework between the parties for the production and exchange of audit documents relevant to investigations in the United States and China. On inspection, it appears that the PCAOB continues to be in discussions with the Mainland China regulators to permit inspections of audit firms that are registered with PCAOB in relation to the audit of Chinese companies that trade on U.S. exchanges. On December 7, 2018, the SEC and the PCAOB issued a joint statement highlighting continued challenges faced by the U.S. regulators in their oversight of financial statement audits of U.S.-listed companies with significant operations in China. The joint statement reflects a heightened interest in this issue. However, it remains unclear what further actions the SEC and PCAOB will take and its impact on Chinese companies listed in the U.S.

Inspections of other firms that the PCAOB has conducted outside the PRC have identified deficiencies in those firms audit procedures and quality control procedures, which may be addressed as part of the inspection process to improve future audit quality. The inability of the PCAOB to conduct full inspections of auditors in the PRC makes it more difficult to evaluate the effectiveness of our independent registered public accounting firms audit procedures or quality control procedures as compared to auditors outside of the PRC that are subject to PCAOB inspections. Investors may lose confidence in our reported financial information and procedures and the quality of our financial statements.

Proceedings instituted by the SEC against Chinese affiliates of the big four accounting firms, including our independent registered public accounting firm, could result in financial statements being determined to not be in compliance with the requirements of the Exchange Act.

In late 2012, the SEC commenced administrative proceedings under Rule 102(e) of its Rules of Practice and also under the Sarbanes-Oxley Act of 2002 against the mainland Chinese affiliates of the big four accounting firms (including our independent registered public accounting firm). A first instance trial of the proceedings in July 2013 in the SEC's internal administrative court resulted in an adverse judgment against the firms. The administrative law judge proposed penalties on the Chinese accounting firms including a temporary suspension of their right to practice before the SEC, although that proposed penalty did not take effect pending review by the Commissioners of the SEC. On February 6, 2015, before a review by the Commissioner had taken place, the Chinese accounting firms reached a settlement with the SEC whereby the proceedings were stayed. Under the settlement, the SEC accepted that future requests by the SEC for the production of documents would normally be made to the CSRC. The Chinese accounting firms would receive requests matching those under Section 106 of the Sarbanes-Oxley Act of 2002, and would be required to abide by a detailed set of procedures with respect to such requests, which in substance require them to facilitate production via the CSRC. The CSRC for its part initiated a procedure whereby, under its supervision and subject to its approval, requested classes of documents held by the accounting firms could be sanitized of problematic and sensitive content so as to render them capable of being made available by the CSRC to US regulators.

Under the terms of the settlement, the underlying proceeding against the four PRC-based accounting firms was deemed dismissed with prejudice at the end of four years starting from the settlement date, which was on February 6, 2019. Despite the final ending of the proceedings, the presumption is that all parties will continue to

[Table of Contents](#)

apply the same procedures, where the SEC will continue to make its requests for the production of documents to the CSRC, and the CSRC will normally process those requests applying the sanitization procedure. We cannot predict whether, in cases where the CSRC does not authorize production of requested documents to the SEC, the SEC will further challenge the four PRC-based accounting firms compliance with U.S. law. If additional challenges are imposed on the Chinese affiliates of the big four accounting firms, we could be unable to timely file future financial statements in compliance with the requirements of the Exchange Act.

In the event that the SEC restarts the administrative proceedings, depending upon the final outcome listed companies in the United States with major PRC operations may find it difficult or impossible to retain auditors in respect of their operations in the PRC, which could result in financial statements being determined to not be in compliance with the requirements of the Exchange Act, including possible delisting. Moreover, any negative news about any such future proceedings against these accounting firms may cause investor uncertainty regarding China-based, United States-listed companies and the market price of our ADSs may be adversely affected.

If the Chinese affiliate of our independent registered public accounting firm were denied, even temporarily, the ability to practice before the SEC and we were unable to timely find another registered public accounting firm to audit and issue an opinion on our financial statements, our financial statements could be determined not to be in compliance with the requirements of the Exchange Act. Such a determination could ultimately lead to the delisting of the ADSs from the New York Stock Exchange or deregistration from the SEC, or both, which would substantially reduce or effectively terminate the trading of our ADSs in the United States.

Increases in labor costs in the PRC may adversely affect our business and results of operations.

The currently effective PRC Labor Contract Law was taking effect from January 1, 2008 and later amended on December 28, 2012. The PRC Labor Contract Law has reinforced the protection of employees who, under the PRC Labor Contract Law, have the right, among others, to have written labor contracts, to enter into labor contracts with no fixed term under certain circumstances, to receive overtime wages and to terminate or alter terms in labor contracts. Furthermore, the PRC Labor Contract Law sets forth additional restrictions and increases the costs involved with dismissing employees. To the extent that we need to significantly reduce our workforce, the PRC Labor Contract Law could adversely affect our ability to do so in a timely and cost-effective manner, and our results of operations could be adversely affected.

Our operations depend on the performance of the internet infrastructure and telecommunications networks in China.

The successful operation of our business depends on the performance of the internet infrastructure and telecommunications networks in China. Almost all access to the internet is maintained through state-owned telecommunications operators under the administrative control and regulatory supervision of the MIIT. Moreover, we have entered into contracts with various subsidiaries of a limited number of telecommunications service providers at provincial level and rely on them to provide us with data communications capacity through local telecommunications lines. We have limited access to alternative networks or services in the event of disruptions, failures or other problems with Chinas internet infrastructure or the telecommunications networks provided by telecommunications service providers. We regularly serve a large number of students. With the expansion of our business, we may be required to upgrade our technology and infrastructure to keep up with the increasing traffic on our online platform. However, we have no control over the costs of the services provided by telecommunications service providers. If the prices we pay for telecommunications and internet services rise significantly, our results of operations may be materially and adversely affected. If internet access fees or other charges to internet users increase, our user traffic may decline and our business may be harmed.

[Table of Contents](#)**Risks Related to Our Corporate Structure**

If the PRC government finds that the agreements that establish the structure for operating certain of our operations in China do not comply with PRC regulations relating to the relevant industries, or if these regulations or the interpretation of existing regulations change in the future, we could be subject to severe penalties or be forced to relinquish our interests in those operations.

Foreign ownership in entities that provide value-added telecommunication services (except for e-commerce), such as provision of internet video, is subject to restrictions under current PRC laws and regulations. Specifically, foreign ownership of an internet information service provider may not exceed 50%, and the major foreign investor is required to have a record of good performance and operating experience in managing value-added telecommunications business. We are a company registered in the Cayman Islands. Beijing Lexuebang is our PRC subsidiary and a foreign-invested enterprise under PRC laws. To comply with PRC laws and regulations, we conduct our business in China primarily through Beijing BaiJiaHuLian, our consolidated variable interest entity, or our VIE, and its subsidiaries, based on a series of contractual arrangements by and among Beijing Lexuebang, our VIE and its shareholders. For a description of these contractual arrangements, see Corporate History and Structure. As a result of these contractual arrangements, we exert control over our VIE and consolidate financial results of our VIE and its subsidiaries in our financial statements under U.S. GAAP. Our VIE holds the licenses, approvals and key assets that are essential for our operations.

In the opinion of our PRC counsel, Tian Yuan Law Firm, (i) the ownership structure of our VIE and Beijing Lexuebang in China does not result in any violation of PRC laws and regulations currently in effect; and (ii) the contractual arrangements between Beijing Lexuebang, our VIE and its shareholders governed by PRC law will not result in any violation of PRC laws or regulations currently in effect. However, we have been further advised by our PRC counsel that there are substantial uncertainties regarding the interpretation and application of current or future PRC laws and regulations. Thus, the PRC government may ultimately take a view contrary to the opinion of our PRC counsel. If the PRC government otherwise find that we are in violation of any existing or future PRC laws or regulations or lack the necessary permits or licenses to operate our business, the relevant governmental authorities would have broad discretion in dealing with such violation, including, without limitation:

- revoking the business licenses and/or operating licenses of such entities;
- imposing fines on us;
- confiscating any of our income that they deem to be obtained through illegal operations;
- discontinuing or placing restrictions or onerous conditions on our operations;
- placing restrictions on our right to collect revenues; and
- shutting down our servers or blocking our app/websites.

Any of these events could cause significant disruption to our business operations and severely damage our reputation, which would in turn materially and adversely affect our business, financial condition and results of operations. If occurrences of any of these events results in our inability to direct the activities of our VIE in China that most significantly impact its economic performance, and/or our failure to receive the economic benefits from our consolidated variable interest entity, we may not be able to consolidate its financial results in our consolidated financial statements in accordance with U.S. GAAP.

We rely on contractual arrangements with our VIE and its shareholders for our business operations, which may not be as effective as direct ownership in providing operational control.

We have relied and expect to continue to rely on contractual arrangements with our VIE, and its shareholders to operate our business in China. These contractual arrangements may not be as effective as direct

[Table of Contents](#)

ownership in providing us with control over our VIE. For example, our VIE and its shareholders could breach their contractual arrangements with us by, among other things, failing to conduct the operations of our VIE in an acceptable manner or taking other actions that are detrimental to our interests.

If we had direct ownership of our VIE in China, we would be able to exercise our rights as a shareholder to effect changes in the board of directors of our VIE, which in turn could implement changes, subject to any applicable fiduciary obligations, at the management and operational level. However, under the current contractual arrangements, we rely on the performance by our VIE and its shareholders of their obligations under the contracts to exercise control over our VIE. The shareholders of our VIE may not act in the best interests of our company or may not perform their obligations under these contracts. Such risks exist throughout the period in which we intend to operate certain portion of our business through the contractual arrangements with our VIE. If any dispute relating to these contracts remains unresolved, we will have to enforce our rights under these contracts through the operations of PRC law and arbitration, litigation and other legal proceedings and therefore will be subject to uncertainties in the PRC legal system. See Any failure by our VIE or its shareholders to perform their obligations under our contractual arrangements with them would have a material and adverse effect on our business. Therefore, our contractual arrangements with our VIE may not be as effective in ensuring our control over the relevant portion of our business operations as direct ownership would be.

Any failure by our VIE or its shareholders to perform their obligations under our contractual arrangements with them would have a material and adverse effect on our business.

If our VIE or its shareholders fail to perform their respective obligations under the contractual arrangements, we may have to incur substantial costs and expend additional resources to enforce such arrangements. We may also have to rely on legal remedies under PRC law, including seeking specific performance or injunctive relief, and contractual remedies, which we cannot assure you will be sufficient or effective under PRC law. For example, if the shareholders of our VIE were to refuse to transfer their equity interests in our VIE to us or our designee if we exercise the purchase option pursuant to these contractual arrangements, or if they were otherwise to act in bad faith toward us, then we may have to take legal actions to compel them to perform their contractual obligations.

All the agreements under our contractual arrangements are governed by PRC law and provide for the resolution of disputes through arbitration in China. Accordingly, these contracts would be interpreted in accordance with PRC law and any disputes would be resolved in accordance with PRC legal procedures. The legal system in the PRC is not as developed as in some other jurisdictions, such as the United States. As a result, uncertainties in the PRC legal system could limit our ability to enforce these contractual arrangements. Meanwhile, there are very few precedents and little formal guidance as to how contractual arrangements in the context of a consolidated variable interest entity should be interpreted or enforced under PRC law. There remain significant uncertainties regarding the ultimate outcome of such arbitration should legal action become necessary. In addition, under PRC law, rulings by arbitrators are final, parties cannot appeal the arbitration results in courts, and if the losing parties fail to carry out the arbitration awards within a prescribed time limit, the prevailing parties may only enforce the arbitration awards in PRC courts through arbitration award recognition proceedings, which would require additional expenses and delay. In the event we are unable to enforce these contractual arrangements, or if we suffer significant delay or other obstacles in the process of enforcing these contractual arrangements, we may not be able to exert effective control over our VIE, and our ability to conduct our business may be negatively affected. See Risks Related to Doing Business in ChinaUncertainties with respect to the PRC legal system could adversely affect us.

The shareholders of our VIE may have actual or potential conflicts of interest with us, which may materially and adversely affect our business and financial condition.

The shareholders of our VIE may have actual or potential conflicts of interest with us. These shareholders may breach, or cause our VIE to breach, or refuse to renew, the existing contractual arrangements we have with

[Table of Contents](#)

them and our VIE, which would have a material and adverse effect on our ability to effectively control our VIE and receive economic benefits from it. For example, the shareholders may be able to cause our agreements with our VIE to be performed in a manner adverse to us by, among other things, failing to remit payments due under the contractual arrangements to us on a timely basis. We cannot assure you that when conflicts of interest arise any or all of these shareholders will act in the best interests of our company or such conflicts will be resolved in our favor. Currently, we do not have any arrangements to address potential conflicts of interest between these shareholders and our company. If we cannot resolve any conflict of interest or dispute between us and these shareholders, we would have to rely on legal proceedings, which could result in disruption of our business and subject us to substantial uncertainty as to the outcome of any such legal proceedings.

Contractual arrangements in relation to our VIE may be subject to scrutiny by the PRC tax authorities and they may determine that we or our PRC consolidated variable interest entity owes additional taxes, which could negatively affect our financial condition and the value of your investment.

Under applicable PRC laws and regulations, arrangements and transactions among related parties may be subject to audit or challenge by the PRC tax authorities. We could face material and adverse tax consequences if the PRC tax authorities determine that the contractual arrangements in relation to our VIE, our consolidated variable interest entity, were not entered into on an arms length basis in such a way as to result in an impermissible reduction in taxes under applicable PRC laws, rules and regulations, and adjust income of our VIE in the form of a transfer pricing adjustment. A transfer pricing adjustment could, among other things, result in a reduction of expense deductions recorded by our VIE for PRC tax purposes, which could in turn increase its tax liabilities without reducing our PRC subsidiary's tax expenses. In addition, the PRC tax authorities may impose late payment fees and other penalties on our VIE for the adjusted but unpaid taxes according to the applicable regulations. Our financial position could be materially and adversely affected if our VIE's tax liabilities increase or if it is required to pay late payment fees and other penalties.

We may lose the ability to use and enjoy assets held by our VIE that are material to the operation of certain portion of our business if the entity goes bankrupt or becomes subject to a dissolution or liquidation proceeding.

As part of our contractual arrangements with our VIE, our VIE holds certain assets that are material to the operation of certain portion of our business, including permits, domain names and most of our IP rights. If our VIE goes bankrupt and all or part of its assets become subject to liens or rights of third-party creditors, we may be unable to continue some or all of our business activities, which could materially and adversely affect our business, financial condition and results of operations. Under the contractual arrangements, our VIE may not, in any manner, sell, transfer, mortgage or dispose of its assets or legal or beneficial interests in the business without our prior consent. If our VIE undergoes a voluntary or involuntary liquidation proceeding, the independent third-party creditors may claim rights to some or all of these assets, thereby hindering our ability to operate our business, which could materially and adversely affect our business, financial condition and results of operations.

Uncertainties exist with respect to the interpretation and implementation of the newly enacted Foreign Investment Law and how it may impact the viability of our current corporate structure, corporate governance, business, financial condition and results of operations.

On March 15, 2019, the National Peoples Congress promulgated the Foreign Investment Law, which will come into effect on January 1, 2020 and replace the trio of existing laws regulating foreign investment in China, namely, the Sino-foreign Equity Joint Venture Enterprise Law, the Sino-foreign Cooperative Joint Venture Enterprise Law and the Wholly Foreign-invested Enterprise Law, together with their implementation rules and ancillary regulations. The Foreign Investment Law embodies an expected PRC regulatory trend to rationalize its foreign investment regulatory regime in line with prevailing international practice and the legislative efforts to unify the corporate legal requirements for both foreign and domestic investments. However, since it is relatively new, uncertainties still exist in relation to its interpretation and implementation, and failure to take timely and

[Table of Contents](#)

appropriate measures to cope with the regulatory-compliance challenges could result in material and adverse effect on us. For instance, though the Foreign Investment Law does not explicitly classify contractual arrangements as a form of foreign investment, it contains a catch-all provision under the definition of foreign investment, which includes investments made by foreign investors in China through means stipulated in laws or administrative regulations or other methods prescribed by the State Council. Therefore, it still leaves leeway for future laws, administrative regulations or provisions promulgated by the State Council to provide for contractual arrangements as a form of foreign investment, at which time it will be uncertain whether our contractual arrangements will be deemed to be in violation of the market access requirements for foreign investment in the PRC and if yes, how our contractual arrangements should be dealt with. In addition, if future laws, administrative regulations or provisions prescribed by the State Council mandate further actions to be taken by companies with respect to existing contractual arrangements, we may face substantial uncertainties as to whether we can complete such actions in a timely manner, or at all. In the worst-case scenario, we may be required to unwind our existing contractual arrangements and/or dispose of the relevant business operations, which could have a material and adverse effect on our current corporate structure, corporate governance, business, financial condition and results of operations.

We may rely on dividends paid by our PRC subsidiary to fund cash and financing requirements. Any limitation on the ability of our PRC subsidiary to pay dividends to us could have a material adverse effect on our ability to conduct our business and to pay dividends to holders of the ADSs and our ordinary shares.

We are a holding company, and we may rely on dividends to be paid by our PRC subsidiary for our cash and financing requirements, including the funds necessary to pay dividends and other cash distributions to the holders of the ADSs and our ordinary shares and service any debt we may incur. If our PRC subsidiary incurs debt on its own behalf in the future, the instruments governing the debt may restrict its ability to pay dividends or make other distributions to us.

Under PRC laws and regulations, wholly foreign-owned enterprises in the PRC, such as Beijing Lexuebang, may pay dividends only out of their accumulated profits as determined in accordance with PRC accounting standards and regulations. In addition, a wholly foreign-owned enterprise is required to set aside at least 10% of its after-tax profits each year, after making up previous years accumulated losses, if any, to fund certain statutory reserve funds, until the aggregate amount of such a fund reaches 50% of its registered capital. At the discretion of the board of directors of the wholly foreign-owned enterprise, it may allocate a portion of its after-tax profits based on PRC accounting standards to staff welfare and bonus funds. These reserve funds and staff welfare and bonus funds are not distributable as cash dividends. Any limitation on the ability of our wholly-owned PRC subsidiary to pay dividends or make other distributions to us could materially and adversely limit our ability to grow, make investments or acquisitions that could be beneficial to our business, pay dividends, or otherwise fund and conduct our business.

Risks Related to Doing Business in China

Changes in Chinas economic, political or social conditions or government policies could have a material adverse effect on our business and operations.

Our revenues are all sourced from China. Accordingly, our results of operations, financial condition and prospects are influenced by economic, political and legal developments in China. Economic reforms begun in the late 1970s have resulted in significant economic growth. However, any economic reform policies or measures in China may from time to time be modified or revised. Chinas economy differs from the economies of most developed countries in many respects, including with respect to the amount of government involvement, level of development, growth rate, control of foreign exchange and allocation of resources. While the PRC economy has experienced significant growth in the past 30 years, growth has been uneven across different regions and among different economic sectors.

The PRC government exercises significant control over Chinas economic growth through strategically allocating resources, controlling the payment of foreign currency-denominated obligations, setting monetary

[Table of Contents](#)

policy and providing preferential treatment to particular industries or companies. Although the PRC economy has grown significantly in the past decade, that growth may not continue, as evidenced by the slowing of the growth of the PRC economy since 2012. Any adverse changes in economic conditions in China, in the policies of the PRC government or in the laws and regulations in China could have a material adverse effect on the overall economic growth of China. Such developments could adversely affect our business and results of operations, lead to reduction in demand for our services and adversely affect our competitive position.

Uncertainties with respect to the PRC legal system could adversely affect us.

The PRC legal system is based on written statutes and court decisions have limited precedential value. The PRC legal system is evolving rapidly, and the interpretations of many laws, regulations and rules may contain inconsistencies and enforcement of these laws, regulations and rules involves uncertainties.

From time to time, we may have to resort to administrative and court proceedings to enforce our legal rights. However, since PRC judicial and administrative authorities have significant discretion in interpreting and implementing statutory and contractual terms, it may be more difficult to predict the outcome of a judicial or administrative proceeding than in more developed legal systems. Furthermore, the PRC legal system is based, in part, on government policies and internal rules, some of which are not published in a timely manner, or at all, but which may have retroactive effect. As a result, we may not always be aware of any potential violation of these policies and rules. Such unpredictability towards our contractual, property (including intellectual property) and procedural rights could adversely affect our business and impede our ability to continue our operations.

Fluctuations in exchange rates could have a material and adverse effect on our results of operations and the value of your investment.

The value of the Renminbi against the U.S. dollar and other currencies is affected by changes in China's political and economic conditions and China's foreign exchange policies, among other things. In 2005, the PRC government changed its decades-old policy of pegging the value of the Renminbi to the U.S. dollar, and the Renminbi appreciated more than 20% against the U.S. dollar over the following three years. Between July 2008 and June 2010, this appreciation halted and the exchange rate between Renminbi and the U.S. dollar remained within a narrow band. Since June 2010, Renminbi has fluctuated against the U.S. dollar, at times significantly and unpredictably. With the development of the foreign exchange market and progress towards interest rate liberalization and Renminbi internationalization, the PRC government may in the future announce further changes to the exchange rate system and we cannot assure you that Renminbi will not appreciate or depreciate significantly in value against the U.S. dollar in the future. It is difficult to predict how market forces or PRC or U.S. government policy may impact the exchange rate between Renminbi and the U.S. dollar in the future.

Significant revaluation of the Renminbi may have a material and adverse effect on your investment. For example, to the extent that we need to convert U.S. dollars we receive from this offering into Renminbi for our operations, appreciation of the Renminbi against the U.S. dollar would have an adverse effect on the Renminbi amount we would receive from the conversion. Conversely, if we decide to convert our Renminbi into U.S. dollars for the purpose of making payments for dividends on our ordinary shares or the ADSs or for other business purposes, appreciation of the U.S. dollar against the Renminbi would have a negative effect on the U.S. dollar amount available to us.

Very limited hedging options are available in China to reduce our exposure to exchange rate fluctuations. To date, we have not entered into any material hedging transactions in an effort to reduce our exposure to foreign currency exchange risk. While we may decide to enter into hedging transactions in the future, the availability and effectiveness of these hedges may be limited and we may not be able to adequately hedge our exposure or at all. In addition, our currency exchange losses may be magnified by PRC exchange control regulations that restrict our ability to convert Renminbi into foreign currency.

[Table of Contents](#)***Governmental control of currency conversion may limit our ability to utilize our revenues effectively and affect the value of your investment.***

The PRC government imposes controls on the convertibility of the Renminbi into foreign currencies and, in certain cases, the remittance of currency out of China. We receive substantially all of our revenues in Renminbi. Under our current corporate structure, our Cayman Islands holding company may rely on dividend payments from our PRC subsidiary to fund any cash and financing requirements we may have. Under existing PRC foreign exchange regulations, payments of current account items, including profit distributions, interest payments and trade and service-related foreign exchange transactions, can be made in foreign currencies without prior approval of the State Administration of Foreign Exchange, or SAFE, by complying with certain procedural requirements. Specifically, under the existing exchange restrictions, without prior approval of SAFE, cash generated from the operations of our PRC subsidiary in China may be used to pay dividends to our company. However, approval from or registration with appropriate government authorities is required where Renminbi is to be converted into foreign currency and remitted out of China to pay capital expenses such as the repayment of loans denominated in foreign currencies. As a result, we need to obtain SAFE approval to use cash generated from the operations of our PRC subsidiary and consolidated variable interest entity to pay off their respective debt in a currency other than Renminbi owed to entities outside China, or to make other capital expenditure payments outside China in a currency other than Renminbi.

In light of the flood of capital outflows of China in 2016 due to the weakening Renminbi, the PRC government has imposed more restrictive foreign exchange policies and stepped up scrutiny of major outbound capital movement including overseas direct investment. More restrictions and substantial vetting process are put in place by SAFE to regulate cross-border transactions falling under the capital account. If any of our shareholders regulated by such policies fails to satisfy the applicable overseas direct investment filing or approval requirement timely or at all, it may be subject to penalties from the relevant PRC authorities. The PRC government may at its discretion further restrict access in the future to foreign currencies for current account transactions. If the foreign exchange control system prevents us from obtaining sufficient foreign currencies to satisfy our foreign currency demands, we may not be able to pay dividends in foreign currencies to our shareholders, including holders of the ADSs.

The M&A Rules and certain other PRC regulations establish complex procedures for some acquisitions of Chinese companies by foreign investors, which could make it more difficult for us to pursue growth through acquisitions in China.

The Regulations on Mergers and Acquisitions of Domestic Companies by Foreign Investors, or the M&A Rules, adopted by six PRC regulatory agencies in 2006 and amended in 2009, and some other regulations and rules concerning mergers and acquisitions established additional procedures and requirements that could make merger and acquisition activities by foreign investors more time consuming and complex, including requirements in some instances that the Ministry of Commerce, or the MOC, be notified in advance of any change-of-control transaction in which a foreign investor takes control of a PRC domestic enterprise. Moreover, the Anti-Monopoly Law requires that the MOC shall be notified in advance of any concentration of undertaking if certain thresholds are triggered. In addition, the security review rules issued by the MOC that became effective in September 2011 specify that mergers and acquisitions by foreign investors that raise national defense and security concerns and mergers and acquisitions through which foreign investors may acquire de facto control over domestic enterprises that raise national security concerns are subject to strict review by the MOC, and the rules prohibit any activities attempting to bypass a security review, including by structuring the transaction through a proxy or contractual control arrangement. In the future, we may grow our business by acquiring complementary businesses. Complying with the requirements of the above-mentioned regulations and other relevant rules to complete such transactions could be time consuming, and any required approval processes, including obtaining approval from the MOC or its local counterparts may delay or inhibit our ability to complete such transactions, which could affect our ability to expand our business or maintain our market share.

PRC regulation of loans to and direct investment in PRC entities by offshore holding companies and governmental control of currency conversion may delay or prevent us from using the proceeds of this offering to make loans to or make additional capital contributions to our PRC subsidiary and consolidated variable interest entity, which could materially and adversely affect our liquidity and our ability to fund and expand our business.

We are an offshore holding company conducting our operations in China through our PRC subsidiary, our consolidated variable entity and its subsidiaries. We may make loans to our PRC subsidiary, consolidated variable entity and its subsidiaries, or we may make additional capital contributions to our PRC subsidiary, or we may establish new PRC subsidiaries and make capital contributions to these new PRC subsidiaries, or we may acquire offshore entities with business operations in China in an offshore transaction.

Most of these ways are subject to PRC regulations and approvals. For example, loans by us to our wholly owned PRC subsidiary to finance its activities cannot exceed statutory limits and must be registered with the local counterpart of SAFE. If we decide to finance our wholly owned PRC subsidiary by means of capital contributions, these capital contributions are subject to the requirement of making necessary filings in the Foreign Investment Comprehensive Management Information System and registration with other governmental authorities in China. Due to the restrictions imposed on loans in foreign currencies extended to PRC domestic companies, we are not likely to make such loans to our consolidated variable interest entity, which is a PRC domestic company. Further, we are not likely to finance the activities of our consolidated variable interest entity by means of capital contributions due to regulatory restrictions relating to foreign investment in PRC domestic enterprises engaged in value-added telecommunication services and certain other businesses.

SAFE promulgated the Notice of the State Administration of Foreign Exchange on Reforming the Administration of Foreign Exchange Settlement of Capital of Foreign-invested Enterprises, or SAFE Circular 19, effective June 2015, in replacement of the Circular on the Relevant Operating Issues Concerning the Improvement of the Administration of the Payment and Settlement of Foreign Currency Capital of Foreign-Invested Enterprises, the Notice from the State Administration of Foreign Exchange on Relevant Issues Concerning Strengthening the Administration of Foreign Exchange Businesses, and the Circular on Further Clarification and Regulation of the Issues Concerning the Administration of Certain Capital Account Foreign Exchange Businesses. According to SAFE Circular 19, the flow and use of the RMB capital converted from foreign currency-denominated registered capital of a foreign-invested company is regulated such that RMB capital may not be used for the issuance of RMB entrusted loans, the repayment of inter-enterprise loans or the repayment of banks loans that have been transferred to a third-party. Although SAFE Circular 19 allows RMB capital converted from foreign currency-denominated registered capital of a foreign-invested enterprise to be used for equity investments within China, it also reiterates the principle that RMB converted from the foreign currency-denominated capital of a foreign-invested company may not be directly or indirectly used for purposes beyond its business scope. Thus, it is unclear whether SAFE will permit such capital to be used for equity investments in China in actual practice. SAFE promulgated the Notice of the State Administration of Foreign Exchange on Reforming and Standardizing the Foreign Exchange Settlement Management Policy of Capital Account, or SAFE Circular 16, effective on June 9, 2016, which reiterates some of the rules set forth in SAFE Circular 19, but changes the prohibition against using RMB capital converted from foreign currency-denominated registered capital of a foreign-invested company to issue RMB entrusted loans to a prohibition against using such capital to issue loans to non-associated enterprises. Violations of SAFE Circular 19 and SAFE Circular 16 could result in administrative penalties. SAFE Circular 19 and SAFE Circular 16 may significantly limit our ability to transfer any foreign currency we hold, including the net proceeds from this offering, to our PRC subsidiary, which may adversely affect our liquidity and our ability to fund and expand our business in China.

In light of the various requirements imposed by PRC regulations on loans to and direct investment in PRC entities by offshore holding companies, we cannot assure you that we will be able to complete the necessary government registrations or obtain the necessary government approvals on a timely basis, if at all, with respect to

[Table of Contents](#)

future loans by us to our PRC subsidiary or with respect to future capital contributions by us to our PRC subsidiary. If we fail to complete such registrations or obtain such approvals, our ability to use the proceeds we received from this offering and to capitalize or otherwise fund our PRC operations may be negatively affected, which could materially and adversely affect our liquidity and our ability to fund and expand our business.

PRC regulations relating to the establishment of offshore special purpose companies by PRC residents may subject our PRC resident beneficial owners or our PRC subsidiary to liability or penalties, limit our ability to inject capital into our PRC subsidiary, limit our PRC subsidiary's ability to increase its registered capital or distribute profits to us, or may otherwise adversely affect us.

The SAFE promulgated the Circular on Relevant Issues Relating to Domestic Residents Investment and Financing and Roundtrip Investment through Special Purpose Vehicles, or SAFE Circular 37, in July 2014 that requires PRC residents or entities to register with SAFE or its local branch in connection with their establishment or control of an offshore entity established for the purpose of overseas investment or financing with such PRC residents or entities legally owned assets or equity interests in domestic enterprises or offshore assets or interests. On February 13, 2015, SAFE issued SAFE Circular No. 13, which took effect on June 1, 2015, pursuant to which, the power to accept SAFE registration was delegated from local SAFE to local qualified banks where the assets or interest in the domestic entity was located. In addition, such PRC residents or entities must update their SAFE registrations when the offshore special purpose vehicle undergoes material events relating to any change of basic information (including change of such PRC citizens or residents, name and operation term), increases or decreases in investment amount, transfers or exchanges of shares, or mergers or divisions.

SAFE Circular 37 is issued to replace the Notice on Relevant Issues Concerning Foreign Exchange Administration for PRC Residents Engaging in Financing and Roundtrip Investments via Overseas Special Purpose Vehicles, or SAFE Circular 75.

If our shareholders who are PRC residents or entities do not complete their registration with the local SAFE branches, our PRC subsidiary may be prohibited from distributing its profits and proceeds from any reduction in capital, share transfer or liquidation to us, and we may be restricted in our ability to contribute additional capital to our PRC subsidiary. Moreover, failure to comply with the SAFE registration described above could result in liability under PRC laws for evasion of applicable foreign exchange restrictions.

We have used our best efforts to notify PRC residents or entities who directly or indirectly hold shares in our Cayman Islands holding company and who are known to us as being PRC residents to complete the foreign exchange registrations. However, we may not be informed of the identities of all the PRC residents or entities holding direct or indirect interest in our company, nor can we compel our beneficial owners to comply with SAFE registration requirements. As of the date of this prospectus, our founder, Mr. Larry Xiangdong Chen, and six other PRC residents known to us that currently hold direct or indirect ownership interests in our company have conducted the initial registrations with the SAFE as required by the SAFE Circular 37. After transferring all shares in Ebetter International Group Limited to The Better Learner Trust, a trust of which himself is a beneficiary, Mr. Larry Xiangdong Chen, as well as the other beneficiaries of the trust who are PRC residents shall register or amend existing registrations with the local branch of SAFE regarding the shares of our company beneficially owned by them through the trust. Please refer to the beneficial ownership table in the section captioned Principal Shareholders for more information regarding the trust. We cannot assure you that all shareholders or beneficial owners of ours who are PRC residents or entities, including the beneficiaries of the trust schemes directly or indirectly holding interests in our Cayman Islands holding company, have complied with, and will in the future make, obtain or update any applicable registrations or approvals required by, SAFE regulations. Failure by such shareholders or beneficial owners to comply with SAFE regulations, or failure by us to amend the foreign exchange registrations of our PRC subsidiary, could subject us to fines or legal sanctions, restrict our overseas or cross-border investment activities, limit our PRC subsidiary's ability to make distributions or pay dividends to us or affect our ownership structure, which could adversely affect our business and prospects.

[Table of Contents](#)***Failure to comply with PRC regulations regarding the registration requirements for employee stock ownership plans or share option plans may subject the PRC plan participants or us to fines and other legal or administrative sanctions.***

Pursuant to SAFE Circular 37, PRC residents who participate in share incentive plans in overseas non-publicly-listed companies due to their position as director, senior management or employees of the PRC subsidiaries of the overseas companies may submit applications to SAFE or its local branches for the foreign exchange registration with respect to offshore special purpose companies. Our directors, executive officers and other employees who are PRC residents and who have been granted share-based awards may follow SAFE Circular 37 to apply for the foreign exchange registration before our company becomes an overseas listed company. In February 2012, SAFE promulgated the Notices on Issues Concerning the Foreign Exchange Administration for Domestic Individuals Participating in Stock Incentive Plans of Overseas Publicly-Listed Companies, or SAFE Circular 7. Under SAFE Circular 7 and other relevant rules and regulations, PRC residents who participate in stock incentive plan in an overseas publicly-listed company are required to register with SAFE or its local branches and complete certain other procedures. Participants of a stock incentive plan who are PRC residents must retain a qualified PRC agent, which could be a PRC subsidiary of such overseas publicly listed company or another qualified institution selected by such PRC subsidiary, to conduct the SAFE registration and other procedures with respect to the stock incentive plan on behalf of its participants. Such participants must also retain an overseas entrusted institution to handle matters in connection with their exercise of share-based awards, the purchase and sale of corresponding shares or interests and fund transfers. In addition, the PRC agent is required to amend the SAFE registration with respect to the stock incentive plan if there is any material change to the stock incentive plan, the PRC agent or the overseas entrusted institution or other material changes. We and our PRC employees who have been granted share-based awards will be subject to SAFE Circular 7 and other relevant rules and regulations these regulations upon the completion of this offering. Failure of our PRC share-based award holders to complete their SAFE registrations may subject these PRC residents to fines and legal sanctions and may also limit our ability to contribute additional capital into our PRC subsidiary, limit our PRC subsidiarys ability to distribute dividends to us, or otherwise materially adversely affect our business.

If we are classified as a PRC resident enterprise for PRC income tax purposes, such classification could result in unfavorable tax consequences to us and our non-PRC shareholders or the ADS holders.

Under the PRC Enterprise Income Tax Law and its implementation rules, an enterprise established outside of the PRC with its de facto management body within the PRC is considered a resident enterprise and will be subject to PRC enterprise income tax on its global income at the rate of 25%. The implementation rules define the term de facto management body as the body that exercises full and substantial control and overall management over the business, productions, personnel, accounts and properties of an enterprise. In 2009, the State Administration of Taxation issued a circular, known as SAT Circular 82, which provides certain specific criteria for determining whether the de facto management body of a PRC-controlled enterprise that is incorporated offshore is located in China. Although this circular only applies to offshore enterprises controlled by PRC enterprises or PRC enterprise groups, not those controlled by PRC individuals or foreigners, the criteria set forth in the circular may reflect the State Administration of Taxations general position on how the de facto management body text should be applied in determining the tax resident status of all offshore enterprises. According to SAT Circular 82, an offshore incorporated enterprise controlled by a PRC enterprise or a PRC enterprise group will be regarded as a PRC tax resident by virtue of having its de facto management body in China and will be subject to PRC enterprise income tax on its global income only if all of the following conditions are met: (i) the primary location of the day-to-day operational management is in the PRC; (ii) decisions relating to the enterprises financial and human resource matters are made or are subject to approval by organizations or personnel in the PRC; (iii) the enterprises primary assets, accounting books and records, company seals, and board and shareholder resolutions, are located or maintained in the PRC; and (iv) at least 50% of voting board members or senior executives habitually reside in the PRC.

We believe none of our entities outside of China is a PRC resident enterprise for PRC tax purposes. However, the tax resident status of an enterprise is subject to determination by the PRC tax authorities and

[Table of Contents](#)

uncertainties remain with respect to the interpretation of the term de facto management body. If the PRC tax authorities determine that GSX Techedu Inc. is a PRC resident enterprise for enterprise income tax purposes, we may be required to withhold a 10% withholding tax from dividends we pay to our shareholders that are non-resident enterprises, including the holders of the ADSs. In addition, non-resident enterprise shareholders (including the ADS holders) may be subject to PRC tax at a rate of 10% on gains realized on the sale or other disposition of ADSs or ordinary shares at a rate of 10%, if such income is treated as sourced from within the PRC. Furthermore, if PRC tax authorities determine that we are a PRC resident enterprise for enterprise income tax purposes, dividends paid to our non-PRC individual shareholders (including the ADS holders) and any gain realized on the transfer of ADSs or ordinary shares by such shareholders may be subject to PRC tax at a rate of 20% (which, in the case of dividends, may be withheld at source by us), if such gains are deemed to be from PRC sources. These rates may be reduced by an applicable tax treaty, but it is unclear whether non-PRC shareholders of GSX Techedu Inc. would be able to claim the benefits of any tax treaties between their country of tax residence and the PRC in the event that GSX Techedu Inc. is treated as a PRC resident enterprise. Any such tax may reduce the returns on your investment in the ADSs.

We face uncertainties with respect to indirect transfer of equity interests in PRC resident enterprises by their non-PRC holding companies.

We face uncertainties regarding the reporting on and consequences of previous private equity financing transactions involving the transfer and exchange of shares in our company by non-resident investors. In February 2015, the State Administration of Taxation, or SAT, issued the Bulletin on Issues of Enterprise Income Tax on Indirect Transfers of Assets by Non-PRC Resident Enterprises or Bulletin 7. Pursuant to Bulletin 7, an indirect transfer of PRC assets, including a transfer of equity interests in an unlisted non-PRC holding company of a PRC resident enterprise, by non-PRC resident enterprises may be re-characterized and treated as a direct transfer of the underlying PRC assets, if such arrangement does not have a reasonable commercial purpose and was established for the purpose of avoiding payment of PRC enterprise income tax. As a result, gains derived from such indirect transfer may be subject to PRC enterprise income tax, and the transferee or other person who is obligated to pay for the transfer is obligated to withhold the applicable taxes, currently at a rate of 10% for the transfer of equity interests in a PRC resident enterprise. On October 17, 2017, the SAT issued the Announcement of the State Administration of Taxation on Issues Concerning the Withholding of Non-resident Enterprise Income Tax at Source, or Bulletin 37, which came into effect on December 1, 2017. The Bulletin 37 further clarifies the practice and procedure of the withholding of nonresident enterprise income tax.

There is uncertainty as to the application of Bulletin 37 or previous rules under Bulletin 7. We face uncertainties on the reporting and consequences of private equity financing transactions, share exchanges or other transactions involving the transfer of shares in our company by investors that are non-PRC resident enterprises. Our company may be subject to filing obligations or taxes if our company is the transferor in such transactions, and may be subject to withholding obligations if our company is the transferee in such transactions, under Bulletin 37 and Bulletin 7.

The enforcement of the PRC Labor Contract Law and other labor-related regulations in the PRC may adversely affect our business and results of operations.

The Standing Committee of the National Peoples Congress enacted the Labor Contract Law in 2008, and amended it on December 28, 2012. The Labor Contract Law introduced specific provisions related to fixed-term employment contracts, part-time employment, probationary periods, consultation with labor unions and employee assemblies, employment without a written contract, dismissal of employees, severance, and collective bargaining to enhance previous PRC labor laws. Under the Labor Contract Law, an employer is obligated to sign an unlimited-term labor contract with any employee who has worked for the employer for ten consecutive years. Further, if an employee requests or agrees to renew a fixed-term labor contract that has already been entered into twice consecutively, the resulting contract, with certain exceptions, must have an unlimited term, subject to certain exceptions. With certain exceptions, an employer must pay severance to an employee where a labor

[Table of Contents](#)

contract is terminated or expires. In addition, the PRC governmental authorities have continued to introduce various new labor-related regulations since the effectiveness of the Labor Contract Law.

Under the PRC Social Insurance Law and the Administrative Measures on Housing Fund, employees are required to participate in pension insurance, work-related injury insurance, medical insurance, unemployment insurance, maternity insurance, and housing funds and employers are required, together with their employees or separately, to pay the social insurance premiums and housing funds for their employees. If we fail to make adequate social insurance and housing fund contributions, we may be subject to fines and legal sanctions, and our business, financial condition and results of operations may be adversely affected. See Regulation Regulation Related to Employment, Social Insurance and Housing Fund.

These laws designed to enhance labor protection tend to increase our labor costs. In addition, as the interpretation and implementation of these regulations are still evolving, our employment practices may not be at all times be deemed in compliance with the regulations. As a result, we could be subject to penalties or incur significant liabilities in connection with labor disputes or investigations.

Risks Related to The ADSs and This Offering

An active trading market for our ordinary shares or the ADSs may not develop and the trading price for the ADSs may fluctuate significantly.

The ADSs have been approved for listing on the New York Stock Exchange. We have no current intention to seek a listing for our ordinary shares on any stock exchange. Prior to the completion of this offering, there has been no public market for the ADSs or our ordinary shares, and we cannot assure you that a liquid public market for the ADSs will develop. If an active public market for the ADSs does not develop following the completion of this offering, the market price and liquidity of the ADSs may be materially and adversely affected. The initial public offering price for the ADSs will be determined by negotiation between us and the underwriters based upon several factors, and we can provide no assurance that the trading price of the ADSs after this offering will not decline below the initial public offering price. As a result, investors in our securities may experience a significant decrease in the value of their ADSs.

The trading price of the ADSs is likely to be volatile, which could result in substantial losses to investors.

The trading price of the ADSs is likely to be volatile and could fluctuate widely due to multiple factors, some of which are beyond our control. This may happen because of broad market and industry factors, including the performance and fluctuation of the market prices of other companies with business operations located mainly in China that have listed their securities in the United States. In addition to market and industry factors, the price and trading volume for the ADSs may be highly volatile for factors specific to our own operations, including the following:

- variations in our revenues, earnings, cash flow and data related to our student base or student engagement;
- announcements of new investments, acquisitions, strategic partnerships or joint ventures by us or our competitors;
- announcements of new product and service offerings, solutions and expansions by us or our competitors;
- changes in financial estimates by securities analysts;
- detrimental adverse publicity about us, our products and services or our industry;
- additions or departures of key personnel;

[Table of Contents](#)

release of lock-up or other transfer restrictions on our outstanding equity securities or sales of additional equity securities; and actual or potential litigation or regulatory investigations.

Any of these factors may result in large and sudden changes in the volume and price at which the ADSs will trade. Furthermore, the stock market in general has experienced extreme price and volume fluctuations that have often been unrelated or disproportionate to the operating performance of companies like us. These broad market and industry fluctuations may adversely affect the market price of our ADSs. Volatility or a lack of positive performance in our ADS price may also adversely affect our ability to retain key employees, most of whom have been granted equity incentives.

In the past, shareholders of public companies have often brought securities class action suits against those companies following periods of instability in the market price of their securities. If we were involved in a class action suit, it could divert a significant amount of our managements attention and other resources from our business and operations and require us to incur significant expenses to defend the suit, which could harm our results of operations. Any such class action suit, whether or not successful, could harm our reputation and restrict our ability to raise capital in the future. In addition, if a claim is successfully made against us, we may be required to pay significant damages, which could have a material adverse effect on our financial condition and results of operations.

If securities or industry analysts do not publish research or reports about our business, or if they adversely change their recommendations regarding the ADSs, the market price for the ADSs and trading volume could decline.

The trading market for the ADSs will be influenced by research or reports that industry or securities analysts publish about our business. If one or more analysts who cover us downgrade the ADSs, the market price for the ADSs would likely decline. If one or more of these analysts cease to cover us or fail to regularly publish reports on us, we could lose visibility in the financial markets, which in turn could cause the market price or trading volume for the ADSs to decline.

The sale or availability for sale of substantial amounts of the ADSs could adversely affect their market price.

Sales of substantial amounts of the ADSs in the public market after the completion of this offering, or the perception that these sales could occur, could adversely affect the market price of the ADSs and could materially impair our ability to raise capital through equity offerings in the future. The ADSs sold in this offering will be freely tradable without restriction or further registration under the Securities Act, and shares held by our existing shareholders may also be sold in the public market in the future subject to the restrictions in Rule 144 and Rule 701 under the Securities Act and the applicable lock-up agreements. There will be 19,800,000 ADSs (equivalent to 13,200,000 Class A ordinary shares) outstanding immediately after this offering, or 22,770,000 ADSs (equivalent to 15,180,000 Class A ordinary shares) if the underwriters exercise their option to purchase additional ADSs in full. In connection with this offering, we, our directors and executive officers, our existing shareholders and certain holders of our share-based awards have agreed not to sell any ordinary shares, ADSs or similar securities for 180 days after the date of this prospectus without the prior written consent of the underwriters, subject to certain exceptions. However, the underwriters may release these securities from these restrictions at any time, subject to applicable regulations of the Financial Industry Regulatory Authority, Inc. We cannot predict what effect, if any, market sales of securities held by our significant shareholders or any other shareholder or the availability of these securities for future sale will have on the market price of the ADSs. See Underwriting and Shares Eligible for Future Sale for a more detailed description of the restrictions on selling our securities after this offering.

Our proposed dual-class voting structure will limit your ability to influence corporate matters and could discourage others from pursuing any change of control transactions that holders of our Class A ordinary shares and ADSs may view as beneficial.

Our authorized and issued ordinary shares will be divided into Class A ordinary shares and Class B ordinary shares immediately prior to the completion of this offering (with certain shares remaining undesignated, with power for our directors to designate and issue such classes of shares as they think fit). Holders of Class A ordinary shares will be entitled to one vote per share, while holders of Class B ordinary shares will be entitled to ten votes per share. We will sell Class A ordinary shares in the form of ADSs in this offering. Each Class B ordinary share is convertible into one Class A ordinary share at any time by the holder thereof, while Class A ordinary shares are not convertible into Class B ordinary shares under any circumstances.

Immediately prior to the completion of this offering, Mr. Larry Xiangdong Chen, our founder, chairman of board of directors and chief executive officer, will beneficially own all of our issued Class B ordinary shares. These Class B ordinary shares will constitute approximately 46.8% of our total issued and outstanding share capital immediately after the completion of this offering and 89.8% of the aggregate voting power of our total issued and outstanding share capital immediately after the completion of this offering due to the disparate voting powers associated with our dual-class share structure, assuming the underwriters do not exercise their option to purchase additional ADSs. As a result of the dual-class share structure and the concentration of ownership, holders of Class B ordinary shares will have considerable influence over matters such as decisions regarding mergers and consolidations, election of directors and other significant corporate actions. Such holders may take actions that are not in the best interest of us or our other shareholders. This concentration of ownership may discourage, delay or prevent a change in control of our company, which could have the effect of depriving our other shareholders of the opportunity to receive a premium for their shares as part of a sale of our company and may reduce the price of the ADSs. This concentrated control will limit your ability to influence corporate matters and could discourage others from pursuing any potential merger, takeover or other change of control transactions that holders of Class A ordinary shares and ADSs may view as beneficial.

The dual-class structure of our ordinary shares may adversely affect the trading market for our ADSs.

Certain shareholder advisory firms have announced changes to their eligibility criteria for inclusion of shares of public companies on certain indices, including the S&P 500, to exclude companies with multiple classes of shares and companies whose public shareholders hold no more than 5% of total voting power from being added to such indices. In addition, several shareholder advisory firms have announced their opposition to the use of multiple class structures. As a result, the dual class structure of our ordinary shares may prevent the inclusion of our ADSs representing Class A ordinary shares in such indices and may cause shareholder advisory firms to publish negative commentary about our corporate governance practices or otherwise seek to cause us to change our capital structure. Any such exclusion from indices could result in a less active trading market for our ADSs. Any actions or publications by shareholder advisory firms critical of our corporate governance practices or capital structure could also adversely affect the value of our ADSs.

Because we do not expect to pay dividends in the foreseeable future after this offering, you must rely on price appreciation of the ADSs for return on your investment.

We currently intend to retain most, if not all, of our available funds and any future earnings after this offering to fund the development and growth of our business. As a result, we do not expect to pay any cash dividends in the foreseeable future. Therefore, you should not rely on an investment in the ADSs as a source for any future dividend income.

Our board of directors has complete discretion as to whether to distribute dividends, subject to certain restrictions under Cayman Islands law, namely that our company may only pay dividends out of profits or share premium account, and provided always that in no circumstances may a dividend be paid if this would result in

[Table of Contents](#)

our company being unable to pay its debts as they fall due in the ordinary course of business. In addition, our shareholders may by ordinary resolution declare a dividend, but no dividend may exceed the amount recommended by our board of directors. Even if our board of directors decides to declare and pay dividends, the timing, amount and form of future dividends, if any, will depend on our future results of operations and cash flow, our capital requirements and surplus, the amount of distributions, if any, received by us from our subsidiaries, our financial condition, contractual restrictions and other factors deemed relevant by our board of directors. Accordingly, the return on your investment in the ADSs will likely depend entirely upon any future price appreciation of the ADSs. There is no guarantee that the ADSs will appreciate in value after this offering or even maintain the price at which you purchased the ADSs. You may not realize a return on your investment in the ADSs and you may even lose your entire investment in the ADSs.

We have not determined a specific use for a portion of the net proceeds from this offering and we may use these proceeds in ways with which you may not agree.

We have not determined a specific use for a portion of the net proceeds of this offering, and our management will have considerable discretion in deciding how to apply these proceeds. You will not have the opportunity to assess whether the proceeds are being used appropriately before you make your investment decision. You must rely on the judgment of our management regarding the application of the net proceeds of this offering. We cannot assure you that the net proceeds will be used in a manner that would improve our results of operations or increase the ADS price, nor that these net proceeds will be placed only in investments that generate income or appreciate in value.

The approval of the China Securities Regulatory Commission may be required in connection with this offering under PRC law.

The M&A Rules, which were adopted in 2006 by six PRC regulatory agencies, including the CSRC, and amended in 2009, purport to require offshore special purpose vehicles that are controlled by PRC companies or individuals and that have been formed for the purpose of seeking a public listing on an overseas stock exchange through acquisitions of PRC domestic companies or assets to obtain CSRC approval prior to publicly listing their securities on an overseas stock exchange. The interpretation and application of the regulations remain unclear, and if CSRC approval is required, it is uncertain whether it would be possible for us to obtain the approval and any failure to obtain or delay in obtaining CSRC approval for this offering would subject us to sanctions imposed by the CSRC and other PRC regulatory agencies.

Our PRC counsel, Tian Yuan Law Firm, has advised us that, based on its understanding of the current PRC laws and regulations, we will not be required to submit an application to the CSRC for the approval of the listing and trading of the ADSs on the New York Stock Exchange because (i) the CSRC currently has not issued any definitive rule or interpretation concerning whether offerings like ours under this prospectus are subject to this regulation, (ii) our wholly owned PRC subsidiary was established by foreign direct investment, rather than through a merger or acquisition of a domestic company as defined under the M&A Rules and (iii) no explicit provision in the M&A Rules classifies the contractual arrangements among our PRC subsidiary, the consolidated variable interest entity and its shareholders as a type of acquisition transaction falling under the M&A Rules.

However, we cannot assure you that relevant PRC government agencies, including the CSRC, would reach the same conclusion as our PRC counsel, and hence we may face regulatory actions or other sanctions from the CSRC or other PRC regulatory agencies. If the CSRC or other relevant PRC regulatory authorities subsequently determine that a prior CSRC approval is required, we may face regulatory actions or other sanctions from the CSRC or other PRC regulatory authorities. These regulatory agencies may impose fines and penalties on our operations in China, limit our ability to pay dividends outside of China, limit our operating privileges in China, delay or restrict the repatriation of the proceeds from this offering into China or take other actions that could have a material adverse effect on our business, financial condition, results of operations and prospects, as well as the trading price of the ADSs. The CSRC or other PRC regulatory agencies also may take actions requiring us, or

[Table of Contents](#)

making it advisable for us, to halt this offering before settlement and delivery of the ADSs offered hereby. Consequently, if you engage in market trading or other activities in anticipation of and prior to settlement and delivery, you do so at the risk that settlement and delivery may not occur. In addition, if the CSRC or other regulatory agencies later promulgate new rules or explanations requiring that we obtain their approvals for this offering, we may be unable to obtain a waiver of such approval requirements, if and when procedures are established to obtain such a waiver. Any uncertainties and/or negative publicity regarding such approval requirement could have a material adverse effect on the trading price of the ADSs.

Our memorandum and articles of association contain anti-takeover provisions that could have a material adverse effect on the rights of holders of our ordinary shares and the ADSs.

We will adopt the third amended and restated memorandum and articles of association that will become effective immediately prior to the completion of this offering. Our post-offering memorandum and articles of association will contain provisions which could limit the ability of others to acquire control of our company or cause us to engage in change-of-control transactions. These provisions could have the effect of depriving our shareholders of an opportunity to sell their shares at a premium over prevailing market prices by discouraging third parties from seeking to obtain control of our company in a tender offer or similar transaction. Our board of directors has the authority, without further action by our shareholders, to issue preferred shares in one or more series and to fix their designations, powers, preferences, privileges, and relative participating, optional or special rights and the qualifications, limitations or restrictions, including dividend rights, conversion rights, voting rights, terms of redemption and liquidation preferences, any or all of which may be greater than the rights associated with our ordinary shares, in the form of ADS or otherwise. Preferred shares could be issued quickly with terms calculated to delay or prevent a change in control of our company or make removal of management more difficult. If our board of directors decides to issue preferred shares, the price of the ADSs may fall and the voting and other rights of the holders of our ordinary shares and ADSs may be materially and adversely affected.

You may face difficulties in protecting your interests, and your ability to protect your rights through U.S. courts may be limited, because we are incorporated under Cayman Islands law.

We are an exempted company incorporated under the laws of the Cayman Islands. Our corporate affairs are governed by our memorandum and articles of association, the Companies Law (2018 Revision) of the Cayman Islands and the common law of the Cayman Islands. The rights of shareholders to take action against our directors, actions by our minority shareholders and the fiduciary duties of our directors to us under Cayman Islands law are to a large extent governed by the common law of the Cayman Islands. The common law of the Cayman Islands is derived in part from comparatively limited judicial precedent in the Cayman Islands as well as from the common law of England, the decisions of whose courts are of persuasive authority, but are not binding, on a court in the Cayman Islands. The rights of our shareholders and the fiduciary duties of our directors under Cayman Islands law are not as clearly established as they would be under statutes or judicial precedent in some jurisdictions in the United States. In particular, the Cayman Islands has a less developed body of securities laws than the United States. Some U.S. states, such as Delaware, have more fully developed and judicially interpreted bodies of corporate law than the Cayman Islands. In addition, Cayman Islands companies may not have standing to initiate a shareholder derivative action in a federal court of the United States.

Shareholders of Cayman Islands exempted companies like us have no general rights under Cayman Islands law to inspect corporate records (other than the memorandum and articles of association and any special resolutions passed by such companies, and the registers of mortgages and charges of such companies) or to obtain copies of lists of shareholders of these companies. Our directors have discretion under our articles of association to determine whether or not, and under what conditions, our corporate records may be inspected by our shareholders, but are not obliged to make them available to our shareholders. This may make it more difficult for you to obtain the information needed to establish any facts necessary for a shareholder motion or to solicit proxies from other shareholders in connection with a proxy contest.

[Table of Contents](#)

Certain corporate governance practices in the Cayman Islands, which is our home country, differ significantly from requirements for companies incorporated in other jurisdictions such as the United States. Currently, we do not plan to rely on home country practice with respect to any corporate governance matter. To the extent we choose to follow home country practice with respect to corporate governance matters, our shareholders may be afforded less protection than they otherwise would under rules and regulations applicable to U.S. domestic issuers.

As a result of all of the above, our public shareholders may have more difficulty in protecting their interests in the face of actions taken by our management, members of our board of directors or our controlling shareholders than they would as public shareholders of a company incorporated in the United States. For a discussion of significant differences between the provisions of the Companies Law of the Cayman Islands and the laws applicable to companies incorporated in the United States and their shareholders, see Description of Share Capital Differences in Corporate Law.

Certain judgments obtained against us by our shareholders may not be enforceable.

We are a Cayman Islands company and substantially all of our assets are located outside of the United States. All of our current operations are conducted in China. In addition, all of our current directors and officers are nationals and residents of countries other than the United States. As a result, it may be difficult or impossible for you to bring an action against us or against these individuals in the United States in the event that you believe that your rights have been infringed under the U.S. federal securities laws or otherwise. Even if you are successful in bringing an action of this kind, the laws of the Cayman Islands and of China may render you unable to enforce a judgment against our assets or the assets of our directors and officers. For more information regarding the relevant laws of the Cayman Islands and China, see Enforceability of Civil Liabilities.

The voting rights of holders of ADSs are limited by the terms of the deposit agreement, and you may not be able to exercise your right to direct how the Class A ordinary shares which are represented by your ADSs are voted.

Holders of ADSs do not have the same rights as our registered shareholders. As a holder of the ADSs, you will not have any direct right to attend general meetings of our shareholders or to cast any votes at such meetings. You will only be able to exercise the voting rights which are carried by the Class A ordinary shares represented by your ADSs indirectly by giving voting instructions to the depositary in accordance with the provisions of the deposit agreement. Under the deposit agreement, you may vote only by giving voting instructions to the depositary. If we instruct the depositary to ask for your instructions, then upon receipt of your voting instructions, the depositary will try, as far as is practicable, to vote the underlying Class A ordinary shares which are represented by your ADSs in accordance with your instructions. If we do not instruct the depositary to ask for your instructions, the depositary may still vote in accordance with instructions you give, but it is not required to do so. You will not be able to directly exercise your right to vote with respect to the underlying Class A ordinary shares represented by your ADSs unless you withdraw the shares and become the registered holder of such shares prior to the record date for the general meeting. Under our post-offering memorandum and articles of association that will become effective immediately prior to completion of this offering, the minimum notice period required to be given by our company to our registered shareholders to convene a general meeting will be ten days. When a general meeting is convened, you may not receive sufficient advance notice of the meeting to withdraw the Class A ordinary shares underlying your ADSs and become the registered holder of such shares to allow you to attend the general meeting and to vote directly with respect to any specific matter or resolution to be considered and voted upon at the general meeting. In addition, under our post-offering memorandum and articles of association that will become effective prior to the completion of this offering, for the purposes of determining those shareholders who are entitled to attend and vote at any general meeting, our directors may close our register of members and/or fix in advance a record date for such meeting, and such closure of our register of members or the setting of such a record date may prevent you from withdrawing the Class A ordinary shares underlying your ADSs and becoming the registered holder of such shares prior to the record date, so that you would not be able to attend the general meeting or to vote directly. If we ask for your instructions, the depositary

[Table of Contents](#)

will notify you of the upcoming vote and will arrange to deliver our voting materials to you. We have agreed to give the depositary at least 30 days prior notice of shareholder meetings. Nevertheless, we cannot assure you that you will receive the voting materials in time to ensure that you can instruct the depositary to vote the underlying Class A ordinary shares represented by your ADSs. In addition, the depositary and its agents are not responsible for failing to carry out voting instructions or for their manner of carrying out your voting instructions. This means that you may not be able to exercise your right to direct how the Class A ordinary shares underlying your ADSs are voted and you may have no legal remedy if the Class A ordinary shares underlying your ADSs are not voted as you requested.

You may experience dilution of your holdings due to inability to participate in rights offerings.

We may, from time to time, distribute rights to our shareholders, including rights to acquire securities. Under the deposit agreement, the depositary will not distribute rights to holders of ADSs unless the distribution and sale of rights and the securities to which these rights relate are either exempt from registration under the Securities Act with respect to all holders of ADSs, or are registered under the provisions of the Securities Act. The depositary may, but is not required to, attempt to sell these undistributed rights to third parties, and may allow the rights to lapse. We may be unable to establish an exemption from registration under the Securities Act, and we are under no obligation to file a registration statement with respect to these rights or underlying securities or to endeavor to have a registration statement declared effective. Accordingly, holders of ADSs may be unable to participate in our rights offerings and may experience dilution of their holdings as a result.

You may be subject to limitations on transfer of your ADSs.

Your ADSs are transferable on the books of the depositary. However, the depositary may close its books at any time or from time to time when it deems expedient in connection with the performance of its duties. The depositary may close its books from time to time for a number of reasons, including in connection with corporate events such as a rights offering, during which time the depositary needs to maintain an exact number of ADS holders on its books for a specified period. The depositary may also close its books in emergencies, and on weekends and public holidays. The depositary may refuse to deliver, transfer or register transfers of the ADSs generally when our share register or the books of the depositary are closed, or at any time if we or the depositary thinks it is advisable to do so because of any requirement of law or of any government or governmental body, or under any provision of the deposit agreement, or for any other reason.

ADSs holders may not be entitled to a jury trial with respect to claims arising under the deposit agreement, which could result in less favorable outcomes to the plaintiff(s) in any such action.

The deposit agreement governing the ADSs representing our Class A ordinary shares provides that, subject to the depositary's right to require a claim to be submitted to arbitration, the federal or state courts in the City of New York have exclusive jurisdiction to hear and determine claims arising under the deposit agreement and in that regard, to the fullest extent permitted by law, ADS holders waive the right to a jury trial of any claim they may have against us or the depositary arising out of or relating to our Class A ordinary shares, the ADSs or the deposit agreement, including any claim under the U.S. federal securities laws.

If we or the depositary opposed a jury trial demand based on the waiver, the court would determine whether the waiver was enforceable based on the facts and circumstances of that case in accordance with the applicable U.S. state and federal law. To our knowledge, the enforceability of a contractual pre-dispute jury trial waiver in connection with claims arising under the federal securities laws has not been finally adjudicated by the United States Supreme Court. However, we believe that a contractual pre-dispute jury trial waiver provision is generally enforceable, including under the laws of the State of New York, which govern the deposit agreement. In determining whether to enforce a contractual pre-dispute jury trial waiver provision, courts will generally consider whether a party knowingly, intelligently and voluntarily waived the right to a jury trial. We believe that this is the case with respect to the deposit agreement and the ADSs. It is advisable that you consult legal counsel regarding the jury waiver provision before investing in the ADSs.

[Table of Contents](#)

If you or any other holders or beneficial owners of ADSs bring a claim against us or the depositary in connection with matters arising under the deposit agreement or the ADSs, including claims under U.S. federal securities laws, you or such other holder or beneficial owner may not be entitled to a jury trial with respect to such claims, which may have the effect of limiting and discouraging lawsuits against us and/or the depositary. If a lawsuit is brought against us and/or the depositary under the deposit agreement, it may be heard only by a judge or justice of the applicable trial court, which would be conducted according to different civil procedures and may result in different outcomes than a trial by jury would have had, including results that could be less favorable to the plaintiff(s) in any such action.

Nevertheless, if this jury trial waiver provision is not enforced, to the extent a court action proceeds, it would proceed under the terms of the deposit agreement with a jury trial. No condition, stipulation or provision of the deposit agreement or ADSs serves as a waiver by any holder or beneficial owner of ADSs or by us or the depositary of compliance with the U.S. federal securities laws and the rules and regulations promulgated thereunder.

We are a foreign private issuer within the meaning of the rules under the Exchange Act, and as such we are exempt from certain provisions applicable to United States domestic public companies.

Because we are a foreign private issuer under the Exchange Act, we are exempt from certain provisions of the securities rules and regulations in the United States that are applicable to U.S. domestic issuers, including: (i) the rules under the Exchange Act requiring the filing of quarterly reports on Form 10-Q or current reports on Form 8-K with the SEC; (ii) the sections of the Exchange Act regulating the solicitation of proxies, consents, or authorizations in respect of a security registered under the Exchange Act; (iii) the sections of the Exchange Act requiring insiders to file public reports of their stock ownership and trading activities and liability for insiders who profit from trades made in a short period of time; and (iv) the selective disclosure rules by issuers of material nonpublic information under Regulation FD.

We will be required to file an annual report on Form 20-F within four months of the end of each fiscal year. In addition, we intend to publish our results on a quarterly basis through press releases, distributed pursuant to the rules and regulations of the New York Stock Exchange. Press releases relating to financial results and material events will also be furnished to the SEC on Form 6-K. However, the information we are required to file with or furnish to the SEC will be less extensive and less timely compared to that required to be filed with the SEC by U.S. domestic issuers. As a result, you may not be afforded the same protections or information, which would be made available to you, were you investing in a U.S. domestic issuer.

We are an emerging growth company within the meaning of the Securities Act and may take advantage of certain reduced reporting requirements.

We are an emerging growth company, as defined in the JOBS Act, and we may take advantage of certain exemptions from requirements applicable to other public companies that are not emerging growth companies including, most significantly, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act of 2002 for so long as we remain an emerging growth company. As a result, if we elect not to comply with such auditor attestation requirements, our investors may not have access to certain information they may deem important.

We will incur increased costs as a result of being a public company, particularly after we cease to qualify as an emerging growth company.

Upon completion of this offering, we will become a public company and expect to incur significant legal, accounting and other expenses that we did not incur as a private company. The Sarbanes-Oxley Act of 2002, as well as rules subsequently implemented by the SEC and New York Stock Exchange, impose various

[Table of Contents](#)

requirements on the corporate governance practices of public companies. As a company with less than US\$1.07 billion in revenues for our last fiscal year, we qualify as an emerging growth company pursuant to the JOBS Act. An emerging growth company may take advantage of specified reduced reporting and other requirements that are otherwise applicable generally to public companies. These provisions include exemption from the auditor attestation requirement under Section 404 of the Sarbanes-Oxley Act of 2002, in the assessment of the emerging growth company's internal control over financial reporting. The JOBS Act also permits an emerging growth company to delay adopting new or revised accounting standards until such time as those standards apply to private companies. However, we have elected to opt out of this provision and, as a result, we will comply with new or revised accounting standards as required when they are adopted for public companies. This decision to opt out of the extended transition period under the JOBS Act is irrevocable.

We expect these rules and regulations to increase our legal and financial compliance costs and to make some corporate activities more time-consuming and costly. After we are no longer an emerging growth company, we expect to incur significant expenses and devote substantial management effort toward ensuring compliance with the requirements of Section 404 of the Sarbanes-Oxley Act of 2002 and the other rules and regulations of the SEC. For example, as a result of becoming a public company, we will need to increase the number of independent directors and adopt policies regarding internal controls and disclosure controls and procedures. We also expect that operating as a public company will make it more difficult and more expensive for us to obtain director and officer liability insurance, and we may be required to accept reduced policy limits and coverage or incur substantially higher costs to obtain the same or similar coverage. In addition, we will incur additional costs associated with our public company reporting requirements. It may also be more difficult for us to find qualified persons to serve on our board of directors or as executive officers. We are currently evaluating and monitoring developments with respect to these rules and regulations, and we cannot predict or estimate with any degree of certainty the amount of additional costs we may incur or the timing of such costs.

As a company incorporated in the Cayman Islands, we are permitted to adopt certain home country practices in relation to corporate governance matters that differ significantly from the NYSE corporate governance listing standards; these practices may afford less protection to shareholders than they would enjoy if we comply fully with the NYSE corporate governance listing standards.

As a Cayman Islands company listed on the New York Stock Exchange, we are subject to the NYSE corporate governance listing standards. However, NYSE rules permit a foreign private issuer like us to follow the corporate governance practices of its home country. Certain corporate governance practices in the Cayman Islands, which is our home country, may differ significantly from the NYSE corporate governance listing standards. Currently, we do not plan to rely on home country practice with respect to our corporate governance after we complete this offering. However, if we choose to follow home country practice in the future, our shareholders may be afforded less protection than they would otherwise enjoy under the NYSE corporate governance listing standards applicable to U.S. domestic issuers.

We will be a controlled company within the meaning of the New York Stock Exchange listing rules and, as a result, can rely on exemptions from certain corporate governance requirements that provide protection to shareholders of other companies.

Upon the completion of this offering, we will be a controlled company as defined under the New York Stock Exchange listing rules because Mr. Larry Xiangdong Chen, our founder, chairman of board of directors and chief executive officer, will own more than 50% of our total voting power. For so long as we remain a controlled company under that definition, we are permitted to elect to rely, and may rely, on certain exemptions from corporate governance rules. As a result, you may not have the same protection afforded to shareholders of companies that are subject to these corporate governance requirements.

[Table of Contents](#)

We may be a passive foreign investment company, which could result in adverse U.S. federal income tax consequences to U.S. investors owning the ADSs or our ordinary shares.

A non-U.S. corporation, such as our company, will be considered a passive foreign investment company, or PFIC, for any taxable year if either (i) at least 75% of its gross income is passive income or (ii) at least 50% of the value of its assets (based on an average of the quarterly values of the assets during a taxable year) is attributable to assets that produce or are held for the production of passive income. Although the law in this regard is not entirely clear, we treat our consolidated VIE as being owned by us for U.S. federal income tax purposes because we control its management decisions and are entitled to substantially all of the economic benefits associated with it. As a result, we consolidate its results of operations in our consolidated U.S. GAAP financial statements. If it were determined, however, that we are not the owner of our consolidated VIE for U.S. federal income tax purposes, we would likely be treated as a PFIC for the current taxable year and any subsequent taxable year.

Assuming that we are the owner of our consolidated VIE for U.S. federal income tax purposes, and based upon our current and projected income and assets, including the proceeds from this offering, and projections as to the value of our assets, we do not expect to be a PFIC for the current taxable year or the foreseeable future. However, no assurance can be given in this regard because the determination of whether we will be or become a PFIC is a factual determination made annually that will depend, in part, upon the composition of our income and assets. Fluctuations in the market price of the ADSs may cause us to be classified as a PFIC for the current or future taxable years because the value of our assets for purposes of the asset test, including the value of our goodwill and unbooked intangibles, may be determined by reference to the market price of the ADSs from time to time (which may be volatile). If our market capitalization subsequently declines, we may be or become classified as a PFIC for the current taxable year or future taxable years. Furthermore, the composition of our income and assets may also be affected by how, and how quickly, we use our liquid assets and the cash raised in this offering. Under circumstances where our revenue from activities that produce passive income significantly increases relative to our revenue from activities that produce non-passive income, or where we determine not to deploy significant amounts of cash for active purposes, our risk of becoming classified as a PFIC may substantially increase.

If we were treated as a PFIC for any taxable year during which a U.S. investor held an ADS or an ordinary share, certain adverse U.S. federal income tax consequences could apply to the U.S. Holder. See TaxationUnited States Federal Income Tax ConsiderationsPassive Foreign Investment Company Considerations.

[Table of Contents](#)**SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS**

This prospectus contains forward-looking statements that reflect our current expectations and views of future events. The forward looking statements are contained principally in the sections entitled Prospectus Summary, Risk Factors, Managements Discussion and Analysis of Financial Condition and Results of Operations and Business. Known and unknown risks, uncertainties and other factors, including those listed under Risk Factors, may cause our actual results, performance or achievements to be materially different from those expressed or implied by the forward-looking statements.

You can identify some of these forward-looking statements by words or phrases such as may, will, expect, anticipate, aim, estimate, intend, plan, believe, is/are likely to, potential, continue or other similar expressions. We have based these forward-looking statements largely on our current expectations and projections about future events that we believe may affect our financial condition, results of operations, business strategy and financial needs. These forward-looking statements include statements relating to:

- our mission, goals and strategies;
- our future business development, financial condition and results of operations;
- the expected growth of the online education industry in China;
- our expectations regarding demand for and market acceptance of our services;
- our expectations regarding keeping and strengthening our relationships with students, teachers, strategic partners and other stakeholders;
- competition in our industry;
- our proposed use of proceeds; and
- relevant government policies and regulations relating to our industry.

These forward-looking statements involve various risks and uncertainties. Although we believe that our expectations expressed in these forward-looking statements are reasonable, our expectations may later be found to be incorrect. Our actual results could be materially different from our expectations. Important risks and factors that could cause our actual results to be materially different from our expectations are generally set forth in Prospectus Summary, Our Challenges, Risk Factors, Managements Discussion and Analysis of Financial Condition and Results of Operations, Business, Regulation and other sections in this prospectus. You should read thoroughly this prospectus and the documents that we refer to with the understanding that our actual future results may be materially different from and worse than what we expect. We qualify all of our forward-looking statements by these cautionary statements.

This prospectus contains certain data and information that we obtained from various government and private publications. Statistical data in these publications also include projections based on a number of assumptions. Our industry may not grow at the rate projected by market data, or at all. Failure of this market to grow at the projected rate may have a material and adverse effect on our business and the market price of the ADSs. In addition, the rapidly evolving nature of this industry results in significant uncertainties for any projections or estimates relating to the growth prospects or future condition of our market. Furthermore, if any one or more of the assumptions underlying the market data are later found to be incorrect, actual results may differ from the projections based on these assumptions. You should not place undue reliance on these forward-looking statements.

The forward-looking statements made in this prospectus relate only to events or information as of the date on which the statements are made in this prospectus. Except as required by law, we undertake no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise, after the date on which the statements are made or to reflect the occurrence of unanticipated events. You should read this prospectus and the documents that we refer to in this prospectus and have filed as exhibits to the registration statement, of which this prospectus is a part, completely and with the understanding that our actual future results may be materially different from what we expect.

[Table of Contents](#)**USE OF PROCEEDS**

We estimate that we will receive net proceeds from this offering of approximately US\$189.0 million, or approximately US\$218.0 million if the underwriters exercise their option to purchase additional ADSs in full, after deducting underwriting discounts and commissions and the estimated offering expenses payable by us. These estimates are based upon an assumed initial public offering price of US\$10.50 per ADS, which is the midpoint of the price range shown on the front page of this prospectus. A US\$1.00 increase (decrease) in the assumed initial public offering price of US\$10.50 per ADS would increase (decrease) the net proceeds to us from this offering by US\$18.4 million, assuming the number of ADSs offered by us, as set forth on the front cover of this prospectus, remains the same and after deducting the estimated underwriting discounts and commissions and estimated expenses payable by us.

The primary purposes of this offering are to create a public market for our shares for the benefit of all shareholders, retain talented employees by providing them with equity incentives, and obtain additional capital. We plan to use the net proceeds of this offering as follows:

- approximately 30% for improving students learning experience and educational content development;
- approximately 20% for recruiting high quality teaching staff;
- approximately 20% for improving our technology infrastructure;
- approximately 20% for marketing and brand promotions; and
- the balance to fund working capital and for other general corporate purposes.

The foregoing represents our current intentions based upon our present plans and business conditions to use and allocate the net proceeds of this offering. Our management, however, will have significant flexibility and discretion to apply the net proceeds of this offering. If an unforeseen event occurs or business conditions change, we may use the proceeds of this offering differently than as described in this prospectus. See Risk FactorsRisks Related to The ADSs and This OfferingWe have not determined a specific use for a portion of the net proceeds from this offering and we may use these proceeds in ways with which you may not agree.

Pending any use described above, we plan to invest the net proceeds in short-term, interest-bearing, debt instruments or demand deposits.

In using the proceeds of this offering, we are permitted under PRC laws and regulations as an offshore holding company to provide funding to our PRC subsidiary only through loans or capital contributions and to our consolidated variable interest entities only through loans, subject to satisfaction of applicable government registration and approval requirements. We cannot assure you that we will be able to obtain these government registrations or approvals on a timely basis, if at all. See Risk FactorsRisks Related to Doing Business in ChinaPRC regulation of loans to and direct investment in PRC entities by offshore holding companies and governmental control of currency conversion may delay or prevent us from using the proceeds of this offering to make loans to or make additional capital contributions to our PRC subsidiary and consolidated variable interest entity, which could materially and adversely affect our liquidity and our ability to fund and expand our business.

DIVIDEND POLICY

Our board of directors has discretion on whether to distribute dividends, subject to certain requirements of Cayman Islands law. In addition, our shareholders may by ordinary resolution declare a dividend, but no dividend may exceed the amount recommended by our board of directors. In either case, all dividends are subject to certain restrictions under Cayman Islands law, namely that our company may only pay dividends out of profits or share premium account, and provided always that in no circumstances may a dividend be paid if this would result in our company being unable to pay its debts as they fall due in the ordinary course of business. Even if we decide to pay dividends, the form, frequency and amount will depend upon our future operations and earnings, capital requirements and surplus, general financial condition, contractual restrictions and other factors that the board of directors may deem relevant.

We do not have any present plan to pay any cash dividends on our ordinary shares in the foreseeable future after this offering. We currently intend to retain most, if not all, of our available funds and any future earnings to operate and expand our business.

We are a holding company incorporated in the Cayman Islands. We may rely on dividends from our subsidiary in China for our cash requirements, including any payment of dividends to our shareholders. PRC regulations may restrict the ability of our PRC subsidiary to pay dividends to us. See Regulation Regulations on Dividend Distribution.

If we pay any dividends on our ordinary shares, we will pay those dividends which are payable in respect of the Class A ordinary shares underlying the ADSs to the depositary, as the registered holder of such Class A ordinary shares, and the depositary then will pay such amounts to the ADS holders in proportion to the Class A ordinary shares underlying the ADSs held by such ADS holders, subject to the terms of the deposit agreement, including the fees and expenses payable thereunder. See Description of American Depositary Shares. Cash dividends on our ordinary shares, if any, will be paid in U.S. dollars.

Our additional paid-in capital, accumulative deficit, accumulative other comprehensive income, total shareholders deficit and total capitalization following the completion of this offering are subject to adjustment based on the actual initial public offering price and other terms of this offering determined at pricing.
- (2) A US\$1.00 increase (decrease) in the assumed initial public offering price of US\$10.50 per ADS, which is the midpoint of the estimated range of the initial public offering price shown on the front cover of this prospectus, would increase (decrease) each of additional paid-in capital, total shareholders deficit, and total capitalization by US\$18.4 million.

[Table of Contents](#)**DILUTION**

If you invest in the ADSs, your interest will be diluted to the extent of the difference between the initial public offering price per ADS and our net tangible book value per ADS after this offering. Dilution results from the fact that the initial public offering price per ordinary share is substantially in excess of the book value per ordinary share attributable to the existing shareholders for our presently outstanding ordinary shares on an as-converted basis.

Our net tangible book value as of March 31, 2019 was approximately US\$(1.8) million, or US\$(0.01) per ordinary share on an as-converted basis as of that date and US\$(0.01) per ADS. Net tangible book value represents the amount of our total consolidated tangible assets, less the amount of our total consolidated liabilities. Dilution is determined by subtracting net tangible book value per ordinary share on an as-converted basis, after giving effect to the additional proceeds we will receive from this offering, from the assumed initial public offering price of US\$15.75 per Class A ordinary share, which is the midpoint of the estimated initial public offering price range set forth on the front cover of this prospectus adjusted to reflect the ADS-to-ordinary share ratio, and after deducting underwriting discounts and commissions and estimated offering expenses payable by us. Because the Class A ordinary shares and Class B ordinary shares have the same dividend and other rights, except for voting and conversion rights, the dilution is presented based on all issued and outstanding ordinary shares, including Class A ordinary shares and Class B ordinary shares.

Without taking into account any other changes in net tangible book value after March 31, 2019, other than to give effect to our sale of the ADSs offered in this offering at the assumed initial public offering price of US\$10.50 per ADS, which is the midpoint of the estimated initial public offering price range shown on the front cover of this prospectus, after deduction of the underwriting discounts and commissions and estimated offering expenses payable by us, our pro forma as adjusted net tangible book value as of March 31, 2019 would have been US\$187.2 million, or US\$1.20 per ordinary share and US\$0.80 per ADS. This represents an immediate increase in net tangible book value of US\$1.22 per ordinary share and US\$0.81 per ADS to the existing shareholders and an immediate dilution in net tangible book value of US\$14.55 per ordinary share and US\$9.70 per ADS to investors purchasing ADSs in this offering. The following table illustrates such dilution:

	Per Ordinary Share	Per ADS
Assumed initial public offering price	US\$15.75	US\$10.50
Net tangible book value as of March 31, 2019	US\$ (0.02)	US\$ (0.01)
Pro forma net tangible book value after giving effect to the conversion of our preferred shares	US\$ (0.01)	US\$ (0.01)
Pro forma as adjusted net tangible book value after giving effect to the conversion of our preferred shares and this offering	US\$ 1.20	US\$ 0.80
Amount of dilution in net tangible book value to new investors in this offering	US\$14.55	US\$ 9.70

A US\$1.00 increase (decrease) in the assumed initial public offering price of US\$10.50 per ADS would increase (decrease) our pro forma as adjusted net tangible book value after giving effect to this offering by US\$18.4 million, the pro forma as adjusted net tangible book value per ordinary share and per ADS after giving effect to this offering by US\$0.12 per ordinary share and US\$0.08 per ADS, and the dilution in pro forma as adjusted net tangible book value per ordinary share and per ADS to new investors in this offering by US\$1.39 per ordinary share and US\$0.93 per ADS, assuming no change to the number of ADSs offered by us as set forth on the front cover of this prospectus, and after deducting underwriting discounts and commissions and estimated offering expenses payable by us.

The following table summarizes, on a pro forma as adjusted basis as of March 31, 2019, the differences between existing shareholders and the new investors with respect to the number of ordinary shares (in the form of

[Table of Contents](#)

ADSs or shares) purchased from us, the total consideration paid and the average price per ordinary share and per ADS paid before deducting the underwriting discounts and commissions and estimated offering expenses payable by us. The total number of ordinary shares does not include ordinary shares underlying the ADSs issuable upon the exercise of the option to purchase additional ADSs granted to the underwriters.

	Ordinary Shares Purchased		Total Consideration		Average Price Per Ordinary Share	Average Price Per ADS
	Number	Percent	Amount	Percent		
Existing shareholders	143,450,000	91.6%	US\$ 79,888,992	27.8%	US\$ 0.56	US\$ 0.37
New investors	13,200,000	8.4%	US\$207,900,000	72.2%	US\$ 15.75	US\$ 10.50
Total	<u>156,650,000</u>	<u>100.0%</u>	<u>US\$287,788,992</u>	<u>100.0%</u>		

The pro forma as adjusted information discussed above is illustrative only. Our net tangible book value following the completion of this offering is subject to adjustment based on the actual initial public offering price of the ADSs and other terms of this offering determined at pricing.

The discussion and tables above assume no exercise of options outstanding as of the date of this prospectus. As of the date of this prospectus, there are 10,850,475 outstanding options with an exercise price of RMB0.01. To the extent that any of these options are exercised, there will be further dilution to new investors.

[Table of Contents](#)**ENFORCEABILITY OF CIVIL LIABILITIES**

We are incorporated under the laws of the Cayman Islands as an exempted company with limited liability. We are incorporated in the Cayman Islands to take advantage of certain benefits associated with being a Cayman Islands exempted company, such as:

- political and economic stability;
- an effective judicial system;
- a favorable tax system;
- the absence of exchange control or currency restrictions; and
- the availability of professional and support services.

However, certain disadvantages accompany incorporation in the Cayman Islands. These disadvantages include but are not limited to:

- the Cayman Islands has a less developed body of securities laws as compared to the United States and these securities laws provide provides significantly less protection to investors as compared to the United States; and
- Cayman Islands companies may not have standing to sue before the federal courts of the United States.

Our constituent documents do not contain provisions requiring that disputes, including those arising under the securities laws of the United States, between us, our officers, directors and shareholders, be arbitrated.

All of our operations are conducted in China, and substantially all of our assets are located in China. A majority of our directors and executive officers are nationals or residents of jurisdictions other than the United States and most of their assets are located outside the United States. As a result, it may be difficult for a shareholder to effect service of process within the United States upon these individuals, or to bring an action against us or these individuals in the United States, or to enforce against us or them judgments obtained in United States courts, including judgments predicated upon the civil liability provisions of the securities laws of the United States or any state in the United States.

We have appointed Puglisi & Associates, located at 850 Library Avenue, Suite 204, Newark, Delaware 19711, as our agent upon whom process may be served in any action brought against us under the securities laws of the United States.

We have been informed by Maples and Calder (Hong Kong) LLP that the United States and the Cayman Islands do not have a treaty providing for reciprocal recognition and enforcement of judgments of U.S. courts in civil and commercial matters and that there is uncertainty as to whether the courts of the Cayman Islands would (i) recognize or enforce judgments of U.S. courts obtained against us or our directors or officers, predicated upon the civil liability provisions of the securities laws of the United States or any state in the United States, or (ii) entertain original actions brought in the Cayman Islands against us or our directors or officers, predicated upon the securities laws of the United States or any state in the United States. We have also been advised by Maples and Calder (Hong Kong) LLP that a judgment obtained in any federal or state court in the United States will be recognized and enforced in the courts of the Cayman Islands at common law, without any re-examination of the merits of the underlying dispute, by an action commenced on the foreign judgment debt in the Grand Court of the Cayman Islands, provided such judgment (i) is given by a foreign court of competent jurisdiction, (ii) imposes on the judgment debtor a liability to pay a liquidated sum for which the judgment has been given, (iii) is final, (iv) is not in respect of taxes, a fine or a penalty, and (v) was not obtained in a manner and is not of a kind the enforcement of which is contrary to natural justice or the public policy of the Cayman Islands.

However, the Cayman Islands courts are unlikely to enforce a judgment obtained from the United States courts under the civil liability provisions of the securities laws if such judgment is determined by the courts of

[Table of Contents](#)

the Cayman Islands to give rise to obligations to make payments that are penal or punitive in nature. Because the courts of the Cayman Islands have yet to rule on whether such judgments are penal or punitive in nature, it is uncertain whether such civil liability judgments from U.S. courts would be enforceable in the Cayman Islands.

Tian Yuan Law Firm, our counsel as to PRC law, has advised us that there is uncertainty as to whether the courts of China would:

recognize or enforce judgments of United States courts obtained against us or our directors or officers predicated upon the civil liability provisions of the securities laws of the United States or any state in the United States; or

entertain original actions brought in each respective jurisdiction against us or our directors or officers predicated upon the securities laws of the United States or any state in the United States.

Tian Yuan Law Firm has further advised us that the recognition and enforcement of foreign judgments are provided for under the PRC Civil Procedures Law. PRC courts may recognize and enforce foreign judgments in accordance with the requirements of the PRC Civil Procedures Law and other applicable laws and regulations based either on treaties between China and the country where the judgment is made or on principles of reciprocity between jurisdictions. China does not have any treaties or other form of reciprocity with the United States or the Cayman Islands that provide for the reciprocal recognition and enforcement of foreign judgments. In addition, according to the PRC Civil Procedures Law, courts in the PRC will not enforce a foreign judgment against us or our directors and officers if they decide that the judgment violates the basic principles of PRC law or national sovereignty, security or public interest. As a result, it is uncertain whether and on what basis a PRC court would enforce a judgment rendered by a court in the United States or in the Cayman Islands. Under the PRC Civil Procedures Law, foreign shareholders may originate actions based on PRC law against a company in China for disputes if they can establish sufficient nexus to the PRC for a PRC court to have jurisdiction, and meet other procedural requirements, including, among others, the plaintiff must have a direct interest in the case, and there must be a concrete claim, a factual basis and a cause for the suit. It will be, however, difficult for U.S. shareholders to originate actions against us in the PRC in accordance with PRC laws because we are incorporated under the laws of the Cayman Islands and it will be difficult for U.S. shareholders, by virtue only of holding the ADSs or ordinary shares, to establish a connection to the PRC for a PRC court to have jurisdiction as required under the PRC Civil Procedures Law.

Contractual Arrangements with Our VIE and Its Shareholders

Current PRC laws and regulations impose certain restrictions or prohibitions on foreign ownership of companies that engage in value-added telecommunication services and certain other businesses. We are a company registered in the Cayman Islands. Beijing Lexuebang is our PRC subsidiary and a foreign-invested enterprise under PRC laws. To comply with PRC laws and regulations, we primarily conduct our business in China through Beijing BaiJiaHuLian, our consolidated variable interest entity in the PRC which we refer to as our VIE in this prospectus, based on a series of contractual arrangements by and among Beijing Lexuebang, our VIE and its shareholders.

Our contractual arrangements with our VIE and its shareholders allow us to (i) exercise effective control over our VIE, (ii) receive substantially all of the economic benefits of our VIE, and (iii) have an exclusive call option to purchase all or part of the equity interests in our VIE when and to the extent permitted by PRC law.

As a result of our direct ownership in Beijing Lexuebang and the contractual arrangements with our VIE, we are regarded as the primary beneficiary of our VIE, and we treat our VIE and its subsidiaries as our consolidated entities under U.S. GAAP. We have consolidated the financial results of our VIE and its subsidiaries in our consolidated financial statements in accordance with U.S. GAAP.

The following is a summary of the currently effective contractual arrangements by and among Beijing Lexuebang, our VIE and its shareholders.

Agreements that provide us with effective control over our VIE

Powers of Attorney. Pursuant to the powers of attorney executed by our VIEs shareholders, each of them irrevocably authorized Beijing Lexuebang or its designee(s) to act on their respective behalf as exclusive agent and attorney, to the extent permitted by law, with respect to all rights of shareholders concerning all the equity interest held by each of them in our VIE, including but not limited to proposing to convene or attend shareholder meetings, signing the resolutions and minutes of such meetings, exercising all the rights as shareholders (including but not limited to voting rights, nomination rights, appointment rights, the right to receive dividends and the right to sell, transfer, pledge or dispose of all the equity held in part or in whole).

[Table of Contents](#)

Equity Interest Pledge Agreement. Under the equity interest pledge agreement among Beijing Lexuebang, our VIE and its shareholders, our VIEs shareholders pledged all of their equity interests of our VIE to Beijing Lexuebang as security for performance of the obligations of our VIE and its shareholders under the exclusive call option agreement, the exclusive management services and business cooperation agreement and the powers of attorney. If any of the specified events of default occurs, Beijing Lexuebang may exercise the right to enforce the pledge immediately. Beijing Lexuebang may transfer all or any of its rights and obligations under the equity interest pledge agreement to its designee(s) at any time. The agreement will remain in effect until the fulfillment of all the obligations under the exclusive call option agreement, the exclusive management services and business cooperation agreement and the powers of attorney.

We have registered the equity interest pledge under the equity interest pledge agreement in relation to our VIE with the relevant office of the State Administration for Market Regulation in accordance with the PRC Property Rights Law.

Agreements that allow us to receive economic benefits from our VIE

Exclusive Management Services and Business Cooperation Agreement. Pursuant to the exclusive management services and business cooperation agreement among Beijing Lexuebang, our VIE and the shareholders of our VIE, Beijing Lexuebang has the exclusive right to provide or designate any third-party to provide, among other things, education management consultancy services, permission of intellectual property rights, technological support and business support to our VIE and its subsidiaries. In exchange, our VIE and its subsidiaries pay service fees to Beijing Lexuebang in an amount determined by Beijing Lexuebang in its sole discretion. Without the prior written consent of Beijing Lexuebang, our VIE and its subsidiaries cannot accept services provided by or establish similar cooperation relationship with any third-party. Beijing Lexuebang owns the exclusive intellectual property rights created as a result of the performance of this agreement unless otherwise provided by PRC laws or regulations. The agreement will remain effective unless unanimously agreed by the parties concerned or unilaterally terminated by Beijing Lexuebang with a written notice. Unless otherwise required by applicable PRC laws, our VIE and its shareholders do not have any right to terminate the agreement.

Agreements that provide us with the call option to purchase the equity interests in our VIE

Exclusive Call Option Agreement. Under the exclusive call option agreement among Beijing Lexuebang, our VIE and its shareholders, each of the shareholders of our VIE irrevocably granted Beijing Lexuebang a right to purchase, or designate a third-party to purchase, all or any part of their equity interests in our VIE at a purchase price equal to the lowest price permissible by the then-applicable PRC laws and regulations at Beijing Lexuebangs sole and absolute discretion to the extent permitted by PRC law. The shareholders of our VIE shall promptly give all considerations they received from the exercise of the options to Beijing Lexuebang or its designee(s). Our VIE and its shareholders covenant that, without Beijing Lexuebangs prior written consent, they will not, among other things, (i) create any pledge or encumbrance on their equity interests in our VIE; (ii) transfer or otherwise dispose of their equity interests in our VIE; (iii) change our VIEs registered capital; (iv) amend our VIEs articles of association; (v) sell, transfer, license or otherwise dispose of any of our VIEs assets or allow any encumbrance of any assets, except for the disposal or the encumbrances of the assets that are treated as necessary for their daily business operations with the value of the assets involved in a single transaction not exceeding RMB100,000; (vi) cause our VIE to enter into any major contracts or terminate any material contracts to which our VIE is a party; (vii) declare or distribute dividends; (viii) terminate, liquidate or dissolve our VIE; or (ix) allow our VIE to incur, inherit, guarantee or permit any debts, except for those payables incurred in the ordinary or usual course of business but not incurred by way of borrowing. The agreement will remain effective until terminated by Beijing Lexuebang at its discretion or the entire equity interests in our VIE have been transferred to Beijing Lexuebang or its designee(s).

Spousal Consent Letters. Pursuant to the spousal consent letters executed by the spouses of certain shareholders of our VIE, the signing spouses unconditionally and irrevocably agreed that the equity interest in

[Table of Contents](#)

our VIE held by and registered in the name of their spouses be disposed of in accordance with the exclusive call option agreement, the exclusive management services and business cooperation agreement, the equity interest pledge agreement and the powers of attorney described above, and that their spouses may perform, amend or terminate such agreements without their additional consent. Additionally, the signing spouses agreed not to assert any rights over the equity interest in our VIE held by their spouses. In addition, in the event that the signing spouses obtains any equity interest in our VIE held by their spouses for any reason, they agree to be bound by and sign any legal documents substantially similar to the contractual arrangements described above, as may be amended from time to time.

In the opinion of Tian Yuan Law Firm, our PRC legal counsel:

the ownership structures of our VIE and Beijing Lexuebang in China, both currently and immediately after giving effect to this offering, are not in violation of applicable PRC laws and regulations currently in effect; and

the contractual arrangements between Beijing Lexuebang, our VIE and its shareholders governed by PRC law are valid, binding and enforceable, and will not result in any violation of applicable PRC laws and regulations currently in effect.

However, our PRC legal counsel has also advised us that there are substantial uncertainties regarding the interpretation and application of current and future PRC laws, regulations and rules. Accordingly, the PRC regulatory authorities may take a view that is contrary to the opinion of our PRC legal counsel. It is uncertain whether any new PRC laws or regulations relating to variable interest entity structures will be adopted or if adopted, what they would provide. If we or our VIE is found to be in violation of any existing or future PRC laws or regulations, or fail to obtain or maintain any of the required permits or approvals, the relevant PRC regulatory authorities would have broad discretion to take action in dealing with such violations or failures. See Risk FactorsRisks Related to Our Corporate StructureIf the PRC government finds that the agreements that establish the structure for operating certain of our operations in China do not comply with PRC regulations relating to the relevant industries, or if these regulations or the interpretation of existing regulations change in the future, we could be subject to severe penalties or be forced to relinquish our interests in those operations, Risk FactorsRisks Related to Our Corporate StructureUncertainties exist with respect to the interpretation and implementation of the newly enacted Foreign Investment Law and how it may impact the viability of our current corporate structure, corporate governance, business, financial condition and results of operations and Risk FactorsRisks Related to Doing Business in ChinaUncertainties with respect to the PRC legal system could adversely affect us.

MANAGEMENTS DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read the following discussion and analysis of our financial condition and results of operations in conjunction with the section entitled Selected Consolidated Financial Data and our consolidated financial statements and the related notes included elsewhere in this prospectus. This discussion contains forward-looking statements that involve risks and uncertainties about our business and operations. Our actual results and the timing of selected events may differ materially from those anticipated in these forward-looking statements as a result of various factors, including those we describe under Risk Factors and elsewhere in this prospectus. See Special Note Regarding Forward-Looking Statements.

Overview

We are a technology-driven education company. According to Frost & Sullivan, we are the third largest online K-12 large-class after-school tutoring service provider in China, in terms of gross billings in 2018. We adopted the online live large-class format to deliver our courses, which we believe is the most effective and scalable model to disseminate scarce high quality teaching resources to aspiring students in China. Our core expertise is in online K-12 courses, covering all primary and secondary grades, which contributed over 73% and 75% of our total revenues in 2018 and for the three months ended March 31, 2019, respectively. We also offer foreign language, professional and interests courses.

To create a disciplined, effective and engaging learning environment under the large-class format, we have adopted a dual-teacher system. We conduct each class with an instructor and multiple tutors who are well-versed in the course materials and attentively supervise each student. Our instructors deliver the courses in online live large-class format, while our tutors provide academic and administrative support to each student during and after class hours. This system empowers thousands of students to simultaneously learn from the high quality instructors while enjoying the 1-on-1 close attention by our tutors. We design our courses in ways to inspire students genuine interest and in-depth interactions, which in turn foster students holistic development and thus better learning results. As a result of our superior education quality, we are able to maintain premium course fees relative to our competitors while continuing to periodically increase our course fees. In 2018, our online K-12 large-class courses on average were priced at a significant premium compared to the average online K-12 large-class courses in China, according to Frost & Sullivan.

We have grown rapidly while at the same time improving our cost efficiency. Our net revenues increased by 307.1% from RMB97.6 million in 2017 to RMB397.3 million (US\$59.2 million) in 2018, and by 474.0% from RMB46.9 million for the three months ended March 31, 2018 to RMB269.2 million (US\$40.1 million) for the same period in 2019. Our gross billings increased by 437.8% from RMB121.8 million in 2017 to RMB655.1 million (US\$97.6 million) in 2018, and by 392.0% from RMB61.0 million for the three months ended March 31, 2018 to RMB300.1 million (US\$44.7 million) for the same period in 2019. We generated a net income of RMB19.7 million (US\$2.9 million) in 2018, compared with a net loss of RMB87.0 million in 2017, and a net income of RMB33.9 million (US\$5.1 million) for the three months ended March 31, 2019, compared with a net loss of RMB3.6 million for the same period in 2018. For discussions of gross billings and reconciliation of gross billings to net revenues, see Non-GAAP Financial Measure.

Key Factors Affecting Our Results of Operations

Our results of operations and financial condition are affected by the general factors driving Chinas online education industry. We have benefited from the Chinas overall economic growth, significant urbanization rate, and higher per capita disposable income of urban households in China, which has allowed many households in China to spend more on education. We have also benefited from the increasing internet penetration in China.

[Table of Contents](#)

At the same time, our results are subject to changes in the regulatory regime governing China's education industry, particularly uncertainties relating to online education services. The PRC government regulates various aspects of our business and operations, including the qualification, licensing or filing requirements for entities that provide online education services and limitations on foreign investments in the online education industry. See Risk Factors Risks Related to Doing Business in China. We face uncertainties with respect to the development of regulatory requirements on operating licenses and permits for our online education services in China. Failure to renew requested licenses or permits in a timely manner or obtain newly required ones due to adverse changes in regulations or policies could have a material adverse impact on our business, financial condition and results of operations and Risk Factors Risks Related to Doing Business in China. Uncertainties exist in relation to new legislation or proposed changes in the PRC regulatory requirements regarding online private education, which may materially and adversely affect our business, financial condition and results of operations.

While our business is influenced by general factors affecting the online education industry in China generally, our results of operations are also directly affected by certain company specific factors, including the following major factors:

Our ability to continuously increase paid course enrollments

Our net revenues primarily consist of course fees from our students. Our growth in net revenues is primarily driven by increase in our paid course enrollments. Our paid course enrollments increased from 65,092 in 2017 to 552,294 in 2018 and from 58,308 for the three months ended March 31, 2018 to 190,197 for the same period in 2019. We believe providing an effective learning experience is critical to attract new students and increase our paid course enrollments. We are committed to providing high quality course offerings to our students and will continue to enhance our students learning experience through enriching our course offerings, enhancing our brand reputation and refining our technology. We will continue to improve our ability to convert sales leads into paid course enrollments cost-effectively.

Our ability to further increase our course fees

Our net revenues are also affected by the level of tuition fees we charge and average gross billings per paid course enrollment for our K-12 courses, as well as foreign language, professional and interests education courses. Growth in the level of tuition fees we charge and average gross billing per paid course enrollment is dependent on our increased ability to charge premium fees for our course offerings. Due to our high quality course offerings, we have been able to price at a significant premium compared to the average online large-class products in 2018, according to Frost & Sullivan. Our ability to charge premium pricing is affected by the quality and effectiveness of our course offerings, the overall demand for our courses, prices and availability of competing courses. Between 2017 and 2018, we generally raised the standard tuition fee level we charged for our K-12 courses, as well as our foreign language, professional and interests education courses. Our pricing strategy with respect to our K-12 courses focuses on setting and regularly increasing the standard tuition fees we charge for each hour of lesson delivered. Our pricing strategy with respect to our foreign language, professional and interests education courses focuses on raising the total tuition fees we charge for each course, through the introduction of premium courses or upgrading existing courses. We will continue to monitor these factors and aim to further increase our pricing through regular review.

Our ability to manage our costs and operating expenses effectively

Our operating margins depend on our ability to control our costs and realize additional operation leverage as we expand. A substantial majority of our cost of revenues consists of staff costs paid to our instructors and tutors. Historically, we have benefited from the significant scalability of our business model and have been able to control teacher costs at a relatively low level despite the significant growth in our net revenues. Whether we can

[Table of Contents](#)

continue to control our teacher cost in the future depends on, to a significant extent, our ability to further realize the economic benefits from the scalability of our business model and our effectiveness in competing for top teaching talents in China.

We depend on our ability to sell and market our course offerings in a cost-effective manner to maintain and improve our operating margins. Selling expenses have historically been the largest item of our total operating expenses. Our selling expenses are primarily composed of compensation to our personnel involved in sales and marketing, selling expenses relating to our online and mobile marketing, and branding expenses. Our ability to maintain or lower our selling expenses as a percentage of net revenues depends on our ability to improve sales and marketing efficiency and leverage our existing brand value and recognition of our superior teaching quality to achieve word-of-mouth referrals. We may also incur increased research and development and general and administrative expenses due to the expansion of our course offerings.

We offer substantially all of our courses online in a live format. Our future success depends on the development and application of relevant technologies to meet our demand for sufficient network capacity and to continue to enhance our proprietary live broadcasting technology, all in a cost-effective manner. While we continue to focus on our live broadcasting technology development, we plan to devote more resources to the development of our technology infrastructure, software upgrades to increase our operational efficiency.

Key Components of Results of Operations

Net Revenues

In 2018 and the three months ended March 31, 2019, we derived substantially all of our net revenues from the course fees that we charge to our students. In 2017, we derived our net revenues from membership fees from our membership-based service platform, offline business consulting courses and the course fees that we charge to our students. We generally collect course fees in advance, which we initially record as deferred revenues. We recognize revenues proportionally as the classes are delivered. The majority of our courses are typically delivered within a period from 1 month to 6 months. For some courses, we continue to provide students with 12 months to 36 months access to the pre-recorded audio-video courses after the online live courses are delivered. The related revenue for playback is recognized proportionally over the playback period. The playback revenue represents a relatively small portion of the total course fees. The following table sets forth a breakdown of our total net revenues by amounts and percentages for the periods presented:

We started to transit from a membership-based service platform connecting teachers and students to our current online live large-classes business model in March 2017. Under our earlier membership-based business model, we generated revenues, on a net basis, from teachers in the form of membership fees. Teachers who had paid our membership fees may join our online platform and market their courses to students on our online platform. We stopped providing membership-based services to teachers under our earlier business model in August 2018. Our other revenues in 2017 and 2018, and for the three months ended March 31, 2018 and 2019,

consisted primarily of course fees from our offline business consulting courses and service fees for our membership-based service platform. Our offline business consulting courses target the principals and other officers of private education institutions who want to improve their management skills.

Cost of revenues

Our cost of revenues primarily consists of performance-based salaries to instructors and total compensation to tutors. We recorded cost of revenues of RMB25.0 million and RMB142.8 million (US\$21.3 million) in 2017 and 2018, respectively, and of RMB20.7 million and RMB82.0 million (US\$12.2 million) for the three months ended March 31, 2018 and 2019, respectively. Our cost of revenues also includes costs for teaching materials, rental expenses for our office space and server and bandwidth costs. We expect our cost of revenues to increase in absolute amounts in the foreseeable future as we serve more students and offer more courses.

Operating expenses

Our operating expenses consist primarily of selling expenses, and to a lesser extent, research and development expenses and general and administrative expenses.

Selling expenses. We recorded selling expenses of RMB75.3 million and RMB121.5 million (US\$18.1 million) in 2017 and 2018, respectively, and of RMB13.9 million and RMB99.5 million (US\$14.8 million) for the three months ended March 31, 2018 and 2019, respectively. Our selling expenses primarily consist of compensation to our personnel involved in sales and marketing, traffic acquisition expenses, expenses relating to our marketing and brand promotion activities, and certain rental expenses for our office space. We expect our selling expenses to increase in absolute amounts in the foreseeable future as we seek to further grow our paid course enrollments.

Research and development expenses. We recorded research and development expenses of RMB52.5 million and RMB74.1 million (US\$11.0 million) in 2017 and 2018, respectively, and of RMB11.9 million and RMB30.4 million (US\$4.5 million) for the three months ended March 31, 2018 and 2019, respectively. Research and development expenses consist primarily of compensation to our education content development personnel, including the base salary of instructors who work on educational content development, and to our technology development personnel, and to a lesser extent, rental expenses for office space and server and bandwidth costs.

General and administrative expenses. We recorded general and administrative expenses of RMB37.2 million and RMB39.8 million (US\$5.9 million) in 2017 and 2018, respectively, and of RMB4.6 million and RMB14.4 million (US\$2.1 million) for the three months ended March 31, 2018 and 2019, respectively. Our general and administrative expenses consist primarily of payroll and related expenses for employees involved in general corporate functions and administrative personnel. We expect our general and administrative expenses to increase in the future on an absolute basis as our business grows and we will incur increased costs related to complying with our reporting obligations after we become a public company under U.S. securities laws.

PRC

Generally, our PRC subsidiaries, VIE and its subsidiaries are subject to enterprise income tax on their taxable income in China at a statutory rate of 25%. The enterprise income tax is calculated based on the entity's global income as determined under PRC tax laws and accounting standards.

Our educational services are subject to VAT at the rate of 3% for small-scale-VAT-payer entities or at the rate of 6% for general-VAT-payer entities in accordance with PRC law.

Beijing BaiJiaHuLian Technology Co., Ltd., our VIE, qualified as national high and new technology enterprise, or HNTE, in August 2017, which reduced its enterprise income tax rate to 15%. Its current HNTE status is set to expire by August 2020.

Effective from November 1, 2015, the above mentioned approval requirement has been abolished, but a Hong Kong entity is still required to file application package with the relevant tax authority, and settle the overdue taxes if the preferential 5% tax rate is denied based on the subsequent review of the application package by the relevant tax authority. See Risk FactorsRisks Related to Our Corporate StructureWe may rely on dividends paid by our PRC subsidiary to fund cash and financing requirements. Any limitation on the ability of our PRC subsidiary to pay dividends to us could have a material adverse effect on our ability to conduct our business and to pay dividends to holders of the ADSs and our ordinary shares.

See Risk FactorsRisks Related to Doing Business in ChinaIf we are classified as a PRC resident enterprise for PRC income tax purposes, such classification could result in unfavorable tax consequences to us and our non-PRC shareholders or the ADS holders.

Three months ended March 31, 2019 compared to three months ended March 31, 2018**Revenues**

Our net revenues increased by 474.0% from RMB46.9 million for the three months ended March 31, 2018 to RMB269.2 million (US\$40.1 million) for the three months ended March 31, 2019. This increase was primarily driven by the increase in net revenues from our K-12 courses, and, to a lesser extent, the increase in net revenues from our foreign language, professional and interest courses, partially offset by the decrease in other revenues as

[Table of Contents](#)

we stopped providing membership-based services to teachers under our earlier business model in August 2018. We generated RMB3.4 million membership fees from teachers on our platform for the three months ended March 31, 2018, compared to RMB0.3 million (US\$44.7 thousand) for the three months ended March 31, 2019.

Net revenue from our K-12 courses increased from RMB33.5 million for the three months ended March 31, 2018 to RMB204.3 million (US\$30.4 million) for the three months ended March 31, 2019. This increase was primarily driven by the higher level of tuition fees we charged our K-12 students and the growth in paid course enrollments in our K-12 courses. Paid course enrollments increased by 239.3% from 45,944 for the three months ended March 31, 2018 to 155,907 for the three months ended March 31, 2019. Additionally, the year-over-year increase in the medium level of standard tuition fees for our elementary, middle and high school courses from the three months ended March 31, 2018 to the three months ended March 31, 2019 was over 20%, without taking into account the relative volume of any differently priced courses. Furthermore, the average gross billing per paid course enrollment for our K-12 courses increased by 50.0% from approximately RMB1,000 for the three months ended March 31, 2018 to approximately RMB1,500 for the three months ended March 31, 2019.

Net revenue from our foreign language, professional and interest courses increased from RMB4.7 million for the three months ended March 31, 2018 to RMB60.6 million (US\$9.0 million) for the three months ended March 31, 2019. This increase was primarily driven by the growth in paid course enrollments in our foreign language, professional and interest education courses, as well as the higher level of tuition fees we charged our foreign language, professional and interest course students. Paid course enrollments increase by 177.3% from 12,364 for the three months ended March 31, 2018 to 34,290 for the three months ended March 31, 2019. Additionally, from the three months ended March 31, 2018 to the three months ended March 31, 2019, the year-over-year increase in the medium level of standard tuition fees for our foreign language courses was over 40%, and the year-over-year increase in the medium level of standard tuition fees for our interest courses was over 30%, in each case without taking into account the relative volume of any differently priced courses. The increase is primarily due to our continued efforts to refine our course offerings as well as our enhanced capacity to recruit new students and to generate interests in courses beyond the current subscriptions of our existing students. Furthermore, the average gross billing per paid course enrollment for our foreign language, professional and interest courses increased by 166.7% from approximately RMB600 for the three months ended March 31, 2018 to approximately RMB1,600 for the three months ended March 31, 2019.

Costs of revenues

Our cost of revenues increased by 296.1% from RMB20.7 million for the three months ended March 31, 2018 to RMB82.0 million (US\$12.2 million) for the three months ended March 31, 2019. This increase was primarily due to our increased recruitment of teaching staff, including instructors and tutors, as we continued to expand our business operations, the increase in compensation for our teaching staff as we continued to attract and retain high quality teaching staff, the increase in expenses for our teaching materials and increased rental expenses for office space.

The compensation for our teaching staff increased from RMB16.6 million for the three months ended March 31, 2018 to RMB69.1 million (US\$10.3 million) for the three months ended March 31, 2019. The number of our instructors increased by 74.2% from 97 as of March 31, 2018 to 169 as of March 31, 2019. The number of our tutors increased by 278.3% from 138 as of March 31, 2018 to 522 as of March 31, 2019.

Gross profit

As a result of the foregoing, our gross profit increased by 614.1% from of RMB26.2 million for the three months ended March 31, 2018 to RMB187.1 million (US\$27.9 million) for the three months ended March 31, 2019. Our gross margin increased from 55.9% for the three months ended March 31, 2018 to 69.5% for the three months ended March 31, 2019.

[Table of Contents](#)***Operating expenses***

Our total operating expenses increased by 375.0% from RMB30.4 million for the three months ended March 31, 2018 to RMB144.4 million (US\$21.5 million) for the three months ended March 31, 2019, as all components of operating expenses increased.

Selling expenses. Our selling expenses increased by 615.8% from RMB13.9 million for the three months ended March 31, 2018 to RMB99.5 million (US\$14.8 million) for the three months ended March 31, 2019. This significant increase was mainly driven by our increased spending on branding and marketing activities, including expenses relating to online and mobile marketing, which increased from RMB0.5 million for the three months ended March 31, 2018 to RMB62.3 million (US\$9.3 million) for the three months ended March 31, 2019, as well as the increase in compensation to our sales and marketing staff.

Research and development expenses. Our research and development expenses increased by 155.5% from RMB11.9 million for the three months ended March 31, 2018 to RMB30.4 million (US\$4.5 million) for the three months ended March 31, 2019, primarily due to the increase in compensation for our education content development personnel and technology development personnel, and to a lesser extent, to the increase in rental expenses for office space. The compensation for our education content development personnel and technology development personnel increased from RMB10.5 million for the three months ended March 31, 2018 to RMB26.9 million (US\$4.0 million) for the three months ended March 31, 2019.

General and administrative expenses. Our general and administrative expenses increased by 213.0% from RMB4.6 million for the three months ended March 31, 2018 to RMB14.4 million (US\$2.1 million) for the three months ended March 31, 2019. This increase was primarily attributable to an increase in payroll costs due to the increase of our administrative personnel.

(Loss) income from operations

Our income from operations was RMB42.7 million (US\$6.4 million) for the three months ended March 31, 2019, compared to loss from operations of RMB4.2 million for the three months ended March 31, 2018.

Income tax benefits (expenses)

Our income tax expense was RMB10.0 million (US\$1.5 million) for the three months ended March 31, 2019, compared to income tax benefit of RMB0.5 million for the three months ended March 31, 2018, primarily due to the increase in our taxable income for certain profit-making entities, which were subject to enterprise income tax in China.

Net (loss) income

As a result of the foregoing, we incurred net income of RMB33.9 million (US\$5.1 million) for the three months ended March 31, 2019, compared to net loss of RMB3.6 million for the three months ended March 31, 2018.

Year ended December 31, 2018 compared to year ended December 31, 2017***Net revenues***

Our net revenues increased by 307.1% from RMB97.6 million in 2017 to RMB397.3 million (US\$59.2 million) in 2018. This increase was primarily driven by the increase in net revenues from our K-12 courses, and, to a lesser extent, net revenues from our foreign language, professional and interest courses, partially offset by the decrease in other revenues as we gradually terminated our membership-based services to teachers under our earlier business model. We generated RMB45.7 million membership fees from teachers on our platform in 2017, compared to RMB11.3 million (US\$1.7 million) in 2018.

[Table of Contents](#)

Net revenue from our K-12 courses increased from RMB21.7 million in 2017 to RMB290.9 million (US\$43.3 million) in 2018. This increase was primarily driven by the higher level of tuition fees we charged our K-12 students and the growth in paid course enrollments in our K-12 courses. Paid course enrollments increased by 632.7% from 56,350 in 2017 to 412,871 in 2018. Additionally, between 2017 and 2018, the average year-over-year increase in the medium level of standard tuition fees for our elementary, middle and high school courses was over 20%, calculated by averaging the quarterly increases for the third and fourth quarters, without taking into account the relative volume of any differently priced courses. Furthermore, we introduced our critical thinking course for children in 2018, which has a higher standard tuition fee than our elementary, middle and high school courses. We did not include the year-over-year increases for the first or second quarters because our K-12 operation was in its nascent stage during those quarters in 2017, and any year-over-year comparison would not be meaningful. Furthermore, the average gross billing per paid course enrollment for our K-12 courses increased by 50.0% from approximately RMB800 in 2017 to approximately RMB1,200 in 2018.

Net revenue from our foreign language, professional and interest courses increased from RMB6.4 million in 2017 to RMB71.7 million (US\$10.7 million) in 2018. This increase was primarily driven by the higher level of tuition fees we charged our foreign language, professional and interest course students, as well as the growth in paid course enrollments in our foreign language, professional and interest education courses. Paid course enrollments increase by 936.1% from 8,742 in 2017 to 90,576 in 2018. Additionally, between 2017 and 2018, the year-over-year increase in the medium level of standard tuition fees for our foreign language courses was over 600%, and the year-over-year increase in the medium level of standard tuition fees for our interest courses was over 200%, in each case without taking into account the relative volume of any differently priced courses. The significant increase is primarily due to our redesigning of our course offerings to increase the number of the hours per class as well as to provide more advanced contents to our students, resulting in higher tuition fees. We also began to substantially roll out our professional education courses in 2018. Furthermore, the average gross billing per paid course enrollment for our foreign language, professional and interest courses increased by 200.0% from approximately RMB400 in 2017 to approximately RMB1,200 in 2018.

Cost of revenues

Our cost of revenues increased by 471.2% from RMB25.0 million in 2017 to RMB142.8 million (US\$21.3 million) in 2018. This increase was primarily due to our increased recruitment of teaching staff, including instructors and tutors, as we transitioned from a membership-based service platform to our current online live large-classes business model in March 2017, the increase in compensation for our teaching staff as we continued to attract and retain high quality teaching staff, the increase in expenses for our teaching materials and increased rental expenses for office space.

The compensation for our teaching staff increased from RMB14.0 million in 2017 to RMB114.8 million (US\$17.1 million) in 2018. The number of our instructors increased by 106.3% from 79 as of December 31, 2017 to 163 as of December 31, 2018. The number of our tutors increased by 382.2% from 73 as of December 31, 2017 to 352 as of December 31, 2018.

After we transitioned to our current business model of providing lessons directly to students, we design our course content in-house and mail hard copies of course materials to students once they enroll into our courses and provide their address.

Gross profit

As a result of the foregoing, our gross profit increased by 250.7% from RMB72.6 million in 2017 to RMB254.6 million (US\$37.9 million) in 2018. Our gross margin decreased from 74.4% in 2017 to 64.1% in 2018, primarily due to our transition from our marketplace business model to our current business model of providing courses directly to students, which requires us to employ and incur significant payroll costs for instructors and tutors.

[Table of Contents](#)***Operating expenses***

Our total operating expenses increased by 42.7% from RMB165.0 million in 2017 to RMB235.4 million (US\$35.1 million) in 2018, as all components of operating expenses increased.

Selling expenses. Our selling expenses increased by 61.4% from RMB75.3 million in 2017 to RMB121.5 million (US\$18.1 million) in 2018. This increase was mainly driven by our increased spending on branding and marketing activities, which increased from RMB4.8 million in 2017 to RMB49.6 million (US\$7.4 million) in 2018, as well as the increase in compensation to our sales and marketing staff.

Research and development expenses. Our research and development expenses increased by 41.1% from RMB52.5 million in 2017 to RMB74.1 million (US\$11.0 million) in 2018, primarily due to the increase in compensation for our education content development personnel and technology development personnel, and to a lesser extent, to the increase in rental expenses for office space, partially offset by decreased server and bandwidth costs. The compensation for our education content development personnel and technology development personnel increased from RMB43.7 million in 2017 to RMB66.1 million (US\$9.8 million) in 2018.

General and administrative expenses. Our general and administrative expenses increased by 7.0% from RMB37.2 million in 2017 to RMB39.8 million (US\$5.9 million) in 2018. This increase was primarily attributable to increase in expenses for purchase of office supplies.

(Loss) income from operations

Our income from operations was RMB19.2 million (US\$2.9 million) in 2018, compared to loss from operations of RMB92.4 million in 2017.

Income tax benefits (expenses)

Our income tax expense was RMB2.6 million (US\$0.4 million) in 2018, compared to income tax benefit of RMB4.6 million in 2017, primarily due to the increase in our taxable income for certain profit-making entities, which were subject to enterprise income tax in China.

Net (loss) income

As a result of the foregoing, we incurred net income of RMB19.7 million (US\$2.9 million) in 2018, compared to net loss of RMB87.0 million in 2017.

Quarterly trends

We have experienced continued growth in our net revenues for the nine quarters from January 1, 2017 to March 31, 2019. This increase was primarily driven by the increase in net revenues from our K-12 courses and our foreign language, professional and interest courses, partially offset by the decrease in other revenues as we gradually terminated our membership-based services to teachers under our earlier business model.

Our cost of revenues also generally increased during these periods mainly due to the increase in compensation for our teaching staff, as a result of our increased recruitment of teaching staff, and the increase in expenses for our teaching materials, as a result of increased total enrollments. The decrease in selling expenses from the fourth quarter of 2017 to the first quarter of 2018 was primarily due to a decrease in sales and marketing personnel and rental expenses as we transitioned from a membership-based service platform to our current online live large-classes business model. The fluctuations in our general and administrative expenses during these periods was primarily due to share-based compensation expense recorded as a result of the purchase of our company's shares by Mr. Larry Xiangdong Chen from other shareholders, which was RMB 4.8 million, RMB0.4 million, and RMB3.2 million for the quarters ended December 31, 2017, June 30, 2018 and December 31, 2018, respectively. The decrease in our research and development expenses from the fourth quarter of 2017 to the first quarter of 2018 was mainly due to the decrease of server and bandwidth costs.

Our results of operations are subject to fluctuation and changes in market conditions. For example, we may generate higher growth in net revenues in the second and fourth quarters in the future because of the increased paid course enrollments during beginning of spring and fall semesters. Overall, the historical seasonality of our business has been relatively mild due to our rapid growth but seasonality may increase in the future. Due to our limited operating history, the seasonal trends that we have experienced in the past may not be indicative of our future operating results. See also Risk Factors Risks Related to Our Business Our results of operations are subject to seasonal fluctuations.

Non-GAAP Financial Measure

Gross billings is a non-GAAP financial measure. We define gross billings for a specific period as the total amount of cash received for the sale of course offerings in such period, net of the total amount of refunds in such period. Our management uses gross billings as a performance measurement because we generally bill our students for the entire course fee at the time of sale of our course offerings and recognize revenue proportionally

[Table of Contents](#)

as the classes are delivered over a period typically ranging from 1 to 6 months. For some courses, we continue to provide students with 12 months to 36 months access to the pre-recorded audio-video courses after the online live courses are delivered. The related revenue for playback is recognized proportionally over the playback period. We believe that gross billings provides valuable insight into the sales of our course packages and the performance of our business.

This non-GAAP financial measure should not be considered in isolation from, or as a substitute for, its most directly comparable financial measure prepared in accordance with GAAP. A reconciliation of the historical non-GAAP financial measure to its most directly comparable GAAP measure has been provided in the financial statement tables included below. Investors are encouraged to review the reconciliation of the historical non-GAAP financial measure to its most directly comparable GAAP financial measure. As gross billings has material limitations as an analytical metrics and may not be calculated in the same manner by all companies, it may not be comparable to other similarly titled measures used by other companies. In light of the foregoing limitations, you should not consider gross billings as a substitute for, or superior to, net revenues prepared in accordance with GAAP. We encourage investors and others to review our financial information in its entirety and not rely on a single financial measure.

We compensate for these limitations by relying primarily on our GAAP results and using gross billings only as a supplemental measure. The table below sets forth a reconciliation of our gross billings to net revenues for the years indicated:

To date, we have financed our operating and investing activities primarily through net cash generated by operating activities and cash from historical equity financing activities. As of December 31, 2017 and 2018 and March 31, 2019, our cash and cash equivalents were RMB19.3 million, RMB33.3 million (US\$5.0 million) and RMB40.0 million (US\$6.0 million), respectively. Our cash and cash equivalents primarily consist of cash on hand and deposits which have original maturities of three months or less and are readily convertible to cash. As of December 31, 2017 and 2018 and March 31, 2019, our short-term investments were RMB8.0 million, RMB198.0 million (US\$29.5 million) and RMB254.1 million (US\$37.9 million), respectively. Short-term investments generally consist of investments in financial products issued by banks, which contain a fixed or variable interest rate with original maturities less than six months. As of December 31, 2017 and 2018 and March 31, 2019, our prepaid expenses and other current assets were RMB23.1 million, RMB48.8 million (US\$7.3 million) and RMB69.5 million (US\$10.4 million), respectively. Our prepaid expenses and other current assets consist of prepaid other service fees and cash held in accounts with third-party online payment channels.

We believe that our current cash and cash equivalents and our anticipated cash flows from operations will be sufficient to meet our anticipated working capital requirements and capital expenditures for at least the next 12 months. After this offering, we may decide to enhance our liquidity position or increase our cash reserve for future investments through additional capital and finance funding. The issuance and sale of additional equity would result in further dilution to our shareholders. The incurrence of indebtedness would result in increased fixed obligations and could result in operating covenants that would restrict our operations. We cannot assure you that financing will be available in amounts or on terms acceptable to us, if at all.

As of March 31, 2019, 98.5%, 1.1% and 0.4% of our cash and cash equivalents were held in China, Hong Kong and the Cayman Islands, respectively, of which 98.5% were denominated in Renminbi and 1.5% were denominated in U.S. dollars. As of March 31, 2019, all of our short-term investments were held in China and denominated in Renminbi. As of March 31, 2019, 94.9% of cash and cash equivalents and 100% of our short-term investments were held by our VIE and its subsidiaries.

Although we consolidate the results of our variable interest entity and its subsidiaries, we only have access to the assets or earnings of our variable interest entity and its subsidiaries through our contractual arrangements

with our variable interest entity and its shareholders. See Corporate History and Structure Contractual Arrangements with Our VIE and Its Shareholders. For restrictions and limitations on liquidity and capital resources as a result of our corporate structure, see Holding Company Structure.

In utilizing the proceeds we expect to receive from this offering, we may make additional capital contributions to our PRC subsidiary, establish new PRC subsidiaries and make capital contributions to these new PRC subsidiaries, make loans to our PRC subsidiary, or acquire offshore entities with operations in China in offshore transactions. However, most of these uses are subject to PRC regulations. See Risk Factors Risks Related to Doing Business in China PRC regulation of loans to and direct investment in PRC entities by offshore holding companies and governmental control of currency conversion may delay or prevent us from using the proceeds of this offering to make loans to or make additional capital contributions to our PRC subsidiary and consolidated variable interest entity, which could materially and adversely affect our liquidity and our ability to fund and expand our business. and Use of Proceeds.

All of our revenues are denominated in Renminbi. Under existing PRC foreign exchange regulations, Renminbi may be converted into foreign exchange for current account items, including profit distributions, interest payments and trade-and service-related foreign exchange transactions.

We expect that substantially all of our future revenues will be denominated in Renminbi. Under existing PRC foreign exchange regulations, payments of current account items, including profit distributions, interest payments and trade and service-related foreign exchange transactions, can be made in foreign currencies without prior SAFE approval as long as certain routine procedural requirements are fulfilled. Therefore, our PRC subsidiary is allowed to pay dividends in foreign currencies to us without prior SAFE approval by following certain routine procedural requirements. However, approval from or registration with competent government authorities is required where the Renminbi is to be converted into foreign currency and remitted out of China to pay capital expenses such as the repayment of loans denominated in foreign currencies. The PRC government may at its discretion restrict access to foreign currencies for current account transactions in the future.

[Table of Contents](#)**Critical Accounting Policies**

We prepare our financial statements in accordance with U.S. GAAP, which requires our management to make judgment, estimates and assumptions. We continually evaluate these judgments, estimates and assumptions based on our own historical experience, knowledge and assessment of current business and other conditions, our expectations regarding the future based on available information and various assumptions that we believe to be reasonable, which together form our basis for making judgments about matters that are not readily apparent from other sources. Since the use of estimates is an integral component of the financial reporting process, our actual results could differ from those estimates. Some of our accounting policies require a higher degree of judgment than others in their application.

The selection of critical accounting policies, the judgments and other uncertainties affecting application of those policies and the sensitivity of reported results to changes in conditions and assumptions are factors that should be considered when reviewing our financial statements. We believe the following accounting policies involve the most significant judgments and estimates used in the preparation of our financial statements. You should read the following description of critical accounting policies, judgments and estimates in conjunction with our consolidated financial statements and other disclosures included in this prospectus.

Revenue Recognition

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2014-09, Revenue from Contracts with Customers (Topic 606). This standard replaced existing revenue recognition rules with a comprehensive revenue measurement and recognition standard and expanded disclosure requirements. We have early adopted the new standard as of January 1, 2017 using the full retrospective method which requires us to present our financial statements for all periods as if Topic 606 had been applied to all prior periods. We did not apply practical expedients as provided under Topic 606.

The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services.

Our revenue is reported net of discount, value added tax and related surcharges. Prior to March 2017, we mainly provided a membership-based service platform connecting teachers and students and generated revenues from teachers in the form of membership fees. Subsequently, we transitioned from a membership-based service platform to an integrated online tutoring services provider. The primary sources of our revenues are as follows:

Online tutoring services

We offer various types of integrated online tutoring services covering a wide spectrum of topics and targets students from broad age groups through our diverse offerings of K-12, foreign language, professional and interest courses. Our live interactive tutoring services consists of several components, including online live classes as well as other activities during the online period including teaching material, quizzes before, during and after the classes, summary of lessons after each class and interactions with both other students and instructors during the period. Different service components are highly interdependent and interrelated in the context of the contract with the live interactive tutoring services. Therefore, we have determined that the live interactive tutoring services represents one performance obligation. The service period for a majority of the live interactive tutoring services is less than six months.

Once the live interactive tutoring services is complete, we also offer the customer a content playback service. In the content playback service, the customer has unlimited access to online pre-recorded audio-video courses for a specified period ranging from one to three years. No other interactions or activities are provided during the playback period. For contracts that provide both the live interactive tutoring service and the content

[Table of Contents](#)

playback service, we determined that the live interactive tutoring service and content playback service are two separate performance obligations under ASC 606, as these two deliverables are distinct in that customers can benefit from each service on its own and our promises to deliver the services are separately identifiable from each other in the contract.

Tutoring fees are collected in advance. We determine that there is not a significant financing component based on the nature of the service being offered and the purpose of the payment terms. We charge a single upfront amount, not with the primary purpose of obtaining financing from the students but, instead, to maximize profitability, taking into consideration the risks associated with providing the service. For K-12 related courses, we offer refunds for any remaining classes to students who withdraw from the course. The refund is equal to the amount related to the undelivered class. We determine the transaction price to be earned by estimating the refund liability based on historical refund ratio on a portfolio basis using the expected value method, and allocates the tutoring fee excluding the estimate for refund liability to each performance obligation using the relative stand-alone selling price. We determine the stand-alone selling prices using an expected cost plus margin methodology. Revenue related to the live interactive tutoring service is recognized proportionately as the online classes are delivered, as we concluded that the delivery of each online class represents a faithful depiction of when the services are provided to the students. Revenue related to the right to access the content playback is recognized proportionally over the playback period, as we concluded that the content playback service represents a stand ready obligation to provide the playback services and the customer simultaneously receives and consumes the benefits as we provide such services throughout the playback period.

In some promotion activities, we grant sales incentives, including cash coupon and free class, to students who made qualified course purchases. Those students can redeem the cash coupon in the next purchase as part of payment, or select to enroll in a new course free of charge, prior to the incentives expiration. The cash coupon and free class expire six months from when they were issued. We determined the cash coupon and/or free course granted to existing students are material rights. As a result, a portion of sales price received on students making qualified purchases is allocated to the sales incentives granted based on the relative standalone selling prices. The selling price of cash coupon is estimated based on the discount amount and the probability of redemption. Revenue allocated to sales incentives is recorded as deferred revenue until redemption or expiration. Once the coupon or free class is redeemed, revenue will be recognized based on the revenue recognition policy discussed above. Students may not always redeem cash coupon or take the free class offered before the expiration of the sales incentive. Therefore, we expect to be entitled to a breakage amount in deferred revenue related to the incentives. We estimate the breakage based on historical students usage and recognizes the estimated breakage as revenue in proportion to the pattern of incentives exercised by students. The assessment of estimating breakage is updated on a quarterly basis. Changes in estimated breakage is accounted for by adjusting deferred revenue to reflect the remaining incentive rights expected to be exercised.

Other services

Other service revenues are primarily derived from (i) membership-based service and (ii) offline business consulting courses.

We provide membership-based services which consists of providing a platform connecting training institutions or individual teachers and students. Training institutions or individual teachers who pay the membership fees are able to join our online platform and market their courses to prospective students. Membership fees are primarily fixed and no contractual membership fee refunds are provided to the training institutions or individual teachers. The membership services mainly provide training institutions or individual teachers with display of an online storefront on our platforms and access to online account management system, which are accounted for as a single performance obligation as the membership services are highly integrated. These service fees are paid in advance for a specific contracted service period and the revenues are recognized proportionally over the service period, typically 12 months, as we concluded that the membership service represents a stand ready obligation to provide the services while the member simultaneously receives and consumes the benefits of such services throughout the contract period.

[Table of Contents](#)

We also offer offline business consulting courses targeting principals and other officers of private education institutions who want to improve their management skills. Contractually, we are not obligated to provide refund for course fees to these course participants. Course fees are collected in advance and the revenues, net of any discounts, are recognized proportionally over the service period, which is generally less than a year, as the classes are generally delivered evenly through the course period.

The contract liability consists of deferred revenue and refund liability.

Current income taxes are provided for in accordance with the laws of the relevant tax authorities. Deferred income taxes are recognized when temporary differences exist between the tax bases of assets and liabilities and their reported amounts in the financial statements. Net operating loss carry forwards and credits are applied using enacted statutory tax rates applicable to future years. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more-likely-than-not that a portion of or all of the deferred tax assets will not be realized. The impact of an uncertain income tax position is recognized at the largest amount that is more-likely-than-not to be sustained upon audit by the relevant tax authority. An uncertain income tax position will not be recognized if it has less than a 50% likelihood of being sustained. Interest and penalties on income taxes will be classified as a component of the provisions for income taxes.

Fair Value of Ordinary Shares

Prior to our initial public offering, we were a private company with no quoted market prices for our ordinary shares. We therefore needed to make estimates of the fair value of our ordinary shares at various dates for the purpose of determining the fair value of our ordinary shares at the date of the grant of share-based compensation awards to our employees to determine the grant date fair value of the award.

The following table sets forth the fair value of our ordinary shares estimated at different times prior to our initial public offering with the assistance from an independent valuation firm:

<u>Date</u>	<u>Class of Shares</u>	<u>Fair Value per Share (RMB)</u>	<u>DLOM</u>	<u>Discount Rate</u>	<u>Purpose of Valuation</u>
June 30, 2017	Ordinary shares	2.9	25%	20%	To determine the fair value of share option grant
October 31, 2017	Ordinary shares	3.7	20%	20%	To determine the value of share-based compensation
December 31, 2017	Ordinary shares	4.3	20%	20%	To determine the fair value of share option grant
March 31, 2018	Ordinary shares	4.5	20%	19.5%	To determine the fair value of share option grant and the value of share-based compensation
June 30, 2018	Ordinary shares	4.8	20%	18.5%	To determine the fair value of share option grant
September 30, 2018	Ordinary shares	12.6	15%	18.5%	To determine the fair value of share option grant
December 31, 2018	Ordinary shares	12.7	15%	18.0%	To determine the fair value of share option grant
March 31, 2019	Ordinary shares	72.1	8%	14.0%	To determine the fair value of share option grant

The valuations of our ordinary shares were performed using methodologies, approaches and assumptions consistent with the American Institute of Certified Public Accountants Audit and Accounting Practice Aid Series: Valuation of Privately-Held-Company Equity Securities Issued as Compensation, or the AICPA Practice Guide. The determination of the fair value of our ordinary shares requires complex and subjective judgments to be made regarding our projected financial and operating results, our unique business risks, the liquidity of our shares and our operating history and prospects at the time of valuation.

In determining our equity value, we applied the discounted cash flow analysis based on our projected cash flow using our best estimate as of the valuation date. The discounted cash flow method involves applying an appropriate discount rate to future cash flow to present value. The future cash flows represents our managements

[Table of Contents](#)

best estimation as of the measurement date. The projected cash flow estimation includes, among others, analysis of projected revenue growth, gross margins and terminal value based on our business plan. In determining an appropriate discount rate, we have considered the weighted average cost of capital, by considering a number of factors including risk-free rate, comparative industry risk, equity risk premium, company size and non-systematic risk factors. We also applied a discount for lack of marketability, or DLOM to reflect the fact that there is no ready market for our shares in a closely-held company like us. Such valuation estimates will no longer be necessary once we go public and our underlying shares begin trading as we will rely on the market price to determine the market value of our common stock.

The fair value of our ordinary shares increased from RMB2.9 per share as of June 30, 2017 to RMB4.8 per share as of June 30, 2018. The increase was attributable to (i) organic growth of our current online live large-classes business model and (ii) decrease in DLOM from 25% to 20% and discount rate from 20% to 18.5% as we progressed from earlier stage to later stage of business development.

The fair value of our ordinary shares increased from RMB4.8 per share as of June 30, 2018 to RMB12.6 per share as of September 30, 2018, and further to RMB12.7 per share as of December 31, 2018. The increases were primarily attributable to our successful completion of the transition of our business model to our current online live large-classes business model. As a result, we experienced rapid growth in student enrollment and started recording operating profit in the third quarter of 2018. This operation milestone increased our confidence and decreased market participants perceived risks in our current business model. Therefore, we adjusted our financial forecast upwards and lowered discount rate from 18.5% to 18% when valuing our ordinary shares as of September 30, 2018 and December 31, 2018.

The fair value of our ordinary shares increased from RMB12.7 per share to RMB72.1 per share from December 31, 2018 to March 31, 2019. The increase in fair value of ordinary share was attributable to the following factors:

Despite the fact that the first quarter of the calendar year is traditionally a relatively slow season for our industry, our income from operations was RMB42.7 million (US\$6.4 million) for the three months ended March 31, 2019, which was significantly higher than our income from operations of RMB19.2 million (US\$2.9 million) for the whole year of 2018. A key driver of profit margin is the cost and expense savings we achieved by virtue of our scalability, greater efficiency and improved negotiation position.

We made significant progress in our IPO plan and made our first submission of our registration statement in March 2019. As preferred shares will be converted into ordinary shares upon the completion of our IPO, the increase in estimated IPO probability resulted in a greater portion of our equity interest being allocated to ordinary shares.

Global capital markets sentiment generally improved in the first quarter of 2019.

The New York Stock Exchange Composite Index, the Nasdaq Composite Index, the Nasdaq China US Internet Tiger Index and the Shanghai Stock Exchange A Share Index, increased by 12%, 16%, 23% and 24%, respectively, from December 31, 2018 to March 31, 2019. The stock price of large U.S.-listed education companies based in China also generally increased significantly between December 31, 2018 and March 31, 2019.

In February 2019, the U.S. government announced the delay in the imposition of certain tariffs on goods from China, citing progress in U.S. and China trade negotiation, which we believe eased consumers and investors concerns on the impact of U.S. and China trade war on the global economy and capital markets. Therefore, with greater confidence in China economic outlook, we also adjusted our financial forecast upward and lowered discount rate used in valuation as of March 31, 2019. Furthermore, in March 2019, the Chinese government announced an array of cost cutting measures to ease burdens on businesses. The stimulus plan boosted business sectors and consumers confidence in China economic outlooks. In addition, in March 2019, the U.S. Federal Open Market Committee, or FOMC, decided to hold interest rate steady.

[Table of Contents](#)

In light of the above-mentioned factors, we adjusted the following when preparing valuation as of March 31, 2019:

As our financial performance in the first quarter of 2019 exceeded our previous projection, we revised our long-term financial projection, primarily our profit projection, upward. The improvement in our profit projection translates into more available resources that we could allocate towards sales and marketing activities, as well as other initiatives in the future that will drive our long-term revenue growth. The change in financial forecast accounted for approximately 64% of the increase in the fair value of ordinary shares.

We lowered small size risk premium, a component of our discount rate, by approximate 2% to reflect the growth of our business. We also lowered unsystematic size premium, another component of our discount rate, by 2% to reflect the fact we sustained our profitable track record and reduced market participants perceived risks in our current business model. Our overall discount rate was lowered from 18% as of December 31, 2018 to 14% as of March 31, 2019. The change in discount rate accounted for approximately 27% of the increase in the fair value of ordinary shares.

We lowered DLOM from 15% to 8% and increased estimated IPO probabilities from 80% to 85% from December 31, 2018 to March 31, 2019. The change in DLOM and estimated IPO probabilities accounted for approximately 9% of the increase in the fair value of ordinary shares.

We have considered the guidance in the AICPA Practice Aid on Valuation of Privately Held Company Securities Issued as Compensation (the Practice Aid) in determining the fair value of our ordinary share as of various dates before this offering. The Practice Aid states that the ultimate IPO price itself also is generally not likely to be a reasonable estimate of the fair value of our ordinary shares as of various dates before the offering.

Nevertheless, we believe that the increase in fair value of our ordinary shares from RMB72.1 per share as of March 31, 2019 to RMB105.7, the mid-point of the estimated public offering price range set forth on the over this prospectus, is primarily because of the following:

Since March 31, 2019, we achieved substantial progress in our IPO plan and submitted publicly our registration statement on May 8, 2019. According to the Practice Aid, market participants generally perceive the risks of investing in pre-IPO stage companies as higher than those of investing in publicly listed company, and require a higher rate of return to compensate for the risks. The price range was estimated assuming this offering would be successfully completed, which would result in decreased perceived risk and discount rate associated with our ordinary shares. In addition, because the IPO proceeds will increase our market capitalization, small size risk premium, which is a component of our discount rate, will also decrease accordingly. The decrease in discount rate resulted in an increase in value of our ordinary shares.

The price range was estimated assuming this offering would be successfully completed, which would result in increased liquidity and marketability of the ordinary shares, thus increasing their fair value. In addition, as preferred shares will be converted into ordinary shares upon the completion of our IPO, the rights of the preferred shares will be eliminated, resulting in a greater portion of our equity interest being allocated to ordinary shares and therefore increasing the fair value of ordinary shares.

The launch of this offering will raise our profile in the industry.

Share-based Compensation

We measure the cost of employee share options based on the grant date fair value of the award and recognizes compensation cost over the period during which an employee is required to provide services in exchange for the award, which generally is the vesting period. For the graded vesting share options, we recognize the compensation cost over the requisite service period for each separately vesting portion of the award as if the award is, in substance, multiple awards. When no future services are required to be performed by the employee in exchange for an award of equity instruments, the cost of the award is expensed on the grant date.

[Table of Contents](#)

In determining the value of share options, we have used the binomial option pricing model, with assistance from an independent third-party valuation firm. Under this option pricing model, certain assumptions, including the risk-free interest rate, the expected dividends on the underlying ordinary shares, and the expected volatility of the price of the underlying shares for the contractual term of the options are required in order to determine the fair value of our options. The fair value of an option award was estimated on the date of grant using the following key assumptions:

	Grant Date		
	2017	2018	March 31, 2019
Risk-free rate of interest(1)	3.03%- 3.12%	3.42%- 3.78%	3.20%
Volatility(2)	53.2%- 53.9%	53.4%- 56.2%	54.6%
Dividend yield(3)			
Exercise multiples(4)	2.2	2.2	2.2-2.8
Life of options (years)(5)	10	10	10

Notes:

- (1) We estimate risk-free interest rate based on the daily treasury long term rate of U.S. Department of the Treasury with a maturity period close to the expected term of the options, plus the country default spread of China.
- (2) We estimated expected volatility based on the annualized standard deviation of the daily return embedded in historical share prices of comparable companies with a time horizon close to the expected expiry of the term.
- (3) We have never declared or paid any cash dividends on our capital stock, and we do not anticipate any dividend payments on our ordinary shares in the foreseeable future.
- (4) The expected exercise multiple was estimated as the average ratio of the stock price to the exercise price as at the time when employees would decide to voluntarily exercise their vested options. As we did not have sufficient information of past employee exercise history, it was estimated by referencing to a widely-accepted academic research publication.
- (5) Extracted from option agreements.

During the years ended December 31, 2017 and 2018 and for the three months ended March 31, 2019, we recorded share-based compensation expenses of RMB1.0 million, RMB2.3 million (US\$0.3 million) and RMB3.8 million (US\$0.6 million) related to our share options.

Internal Control Over Financial Reporting

Prior to this offering, we have been a private company with limited accounting personnel and other resources with which to address our internal control over financial reporting. In connection with the audits of our consolidated financial statements included in this prospectus, we and our independent registered public accounting firm identified one material weakness as well as other control deficiencies in our internal control over financial reporting. Our independent registered public accounting firm has not conducted an audit of our internal control over financial reporting. As defined in the standards established by the U.S. Public Company Accounting Oversight Board, a material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the annual or interim financial statements will not be prevented or detected on a timely basis.

The material weakness that has been identified relates to our lack of comprehensive accounting policies and procedures manual in accordance with U.S. GAAP. The material weakness, if not timely remedied, may lead to significant misstatements in our consolidated financial statements in the future.

To remedy the identified material weakness, we have implemented, and plan to continue to develop, a full set of U.S. GAAP accounting policies and financial reporting procedures as well as related internal control policies, including implementing a comprehensive accounting manual to guide the day-to-day accounting operation and reporting work and measures to improve controls over our information systems. We intend to remediate this material weakness in multiple phases and expect that we will incur certain costs for implementing our remediation measures. The implementation of the measure, however, may not fully address the material weaknesses identified in our internal control over financial reporting, and we cannot conclude that they have

[Table of Contents](#)

been fully remedied. See Risk Factors Risk Factors Related to Our Business and Industry In connection with the audits of our consolidated financial statements as of and for the years ended December 31, 2017 and 2018, we and our independent registered public accounting firm identified one material weaknesses in our internal control over financial reporting. If we fail to develop and maintain an effective system of internal control over financial reporting, we may be unable to accurately report our financial results or prevent fraud.

As a company with less than US\$1.07 billion in revenue for our last fiscal year, we qualify as an emerging growth company pursuant to the JOBS Act. An emerging growth company may take advantage of specified reduced reporting and other requirements that are otherwise applicable generally to public companies. These provisions include exemption from the auditor attestation requirement under Section 404 of the Sarbanes-Oxley Act of 2002 in the assessment of the emerging growth company's internal control over financial reporting.

Holding Company Structure

GSX Techedu Inc. is a holding company with no material operations of its own. We conduct our operations primarily through our PRC subsidiaries, our VIE and its subsidiaries in China. As a result, our ability to pay dividends depends upon dividends paid by our PRC subsidiaries. If our existing PRC subsidiaries or any newly formed ones incur debt on their own behalf in the future, the instruments governing their debt may restrict their ability to pay dividends to us. In addition, our wholly foreign-owned subsidiaries in China are permitted to pay dividends to us only out of its retained earnings, if any, as determined in accordance with PRC accounting standards and regulations. Under PRC law, each of our subsidiaries and our VIE in China is required to set aside at least 10% of its after-tax profits each year, if any, to fund certain statutory reserve funds until such reserve funds reach 50% of their registered capital. In addition, our wholly foreign-owned subsidiaries in China may allocate a portion of their after-tax profits based on PRC accounting standards to enterprise expansion funds and staff bonus and welfare funds at their discretion, and our VIE may allocate a portion of its after-tax profits based on PRC accounting standards to a surplus fund at their discretion. The statutory reserve funds and the discretionary funds are not distributable as cash dividends. Remittance of dividends by a wholly foreign-owned company out of China is subject to examination by the banks designated by SAFE. Our PRC subsidiaries have not paid dividends and will not be able to pay dividends until they generate accumulated profits and meet the requirements for statutory reserve funds.

Inflation

To date, inflation in China has not materially affected our results of operations. According to the National Bureau of Statistics of China, the year-over-year percent changes in the consumer price index for December 2017 and 2018 were increases of 1.8% and 1.9%, respectively. Although we have not been materially affected by inflation in the past, we may be affected if China experiences higher rates of inflation in the future.

Quantitative and Qualitative Disclosures about Market Risk

Foreign exchange risk

All of our net revenues and expenses are denominated in RMB. We do not believe that we currently have any significant direct foreign exchange risk and have not used any derivative financial instruments to hedge exposure to such risk. Although our exposure to foreign exchange risks should be limited in general, the value of your investment in our ADSs will be affected by the exchange rate between U.S. dollar and Renminbi because the value of our business is effectively denominated in RMB, while our ADSs will be traded in U.S. dollars.

The value of the Renminbi against the U.S. dollar and other currencies is affected by changes in China's political and economic conditions and by China's foreign exchange policies, among other things. In July 2005, the PRC government changed its decades-old policy of pegging the value of the Renminbi to the U.S. dollar, and the Renminbi appreciated more than 20% against the U.S. dollar over the following three years. Between

[Table of Contents](#)

July 2008 and June 2010, this appreciation subsided and the exchange rate between the Renminbi and the U.S. dollar remained within a narrow band. Since June 2010, the Renminbi has fluctuated against the U.S. dollar, at times significantly and unpredictably. While appreciating approximately by 7% against the U.S. dollar in 2017, the Renminbi in 2018 depreciated approximately by 5% against the U.S. dollar. Since October 1, 2016, the RMB has joined the International Monetary Fund (IMF)'s basket of currencies that make up the Special Drawing Right (SDR), along with the U.S. dollar, the Euro, the Japanese yen and the British pound. With the development of the foreign exchange market and progress towards interest rate liberalization and Renminbi internationalization, the PRC government may in the future announce further changes to the exchange rate system and there is no guarantee that the RMB will not appreciate or depreciate significantly in value against the U.S. dollar in the future. It is difficult to predict how market forces or PRC or U.S. government policy may impact the exchange rate between the Renminbi and the U.S. dollar in the future.

To the extent that we need to convert U.S. dollars into Renminbi for our operations, appreciation of Renminbi against the U.S. dollar would reduce the Renminbi amount we receive from the conversion. Conversely, if we decide to convert Renminbi into U.S. dollars for the purpose of making payments for dividends on our ordinary shares or ADSs, servicing our outstanding debt, or for other business purposes, appreciation of the U.S. dollar against the Renminbi would reduce the U.S. dollar amounts available to us.

We estimate that we will receive net proceeds of approximately US\$189.0 million from this offering, after deducting underwriting discounts and commissions and the estimated offering expenses payable by us, based on the assumed initial offering price of US\$10.50 per ADS. Assuming that we convert the full amount of the net proceeds from this offering into RMB, a 10% appreciation of the U.S. dollar against RMB, from a rate of RMB6.7112 to US\$1.00 to a rate of RMB7.3823 to US\$1.00, will result in an increase of RMB126.9 million in our net proceeds from this offering. Conversely, a 10% depreciation of the U.S. dollar against the RMB, from a rate of RMB6.7112 to US\$1.00 to a rate of RMB6.0401 to US\$1.00, will result in a decrease of RMB126.9 million in our net proceeds from this offering.

Interest rate risk

Our exposure to interest rate risk primarily relates to the interest income generated by excess cash, which is mostly held in interest-bearing bank deposits and wealth management products. Interest-earning instruments carry a degree of interest rate risk. We have not been exposed to material risks due to changes in interest rates, and we have not used any derivative financial instruments to manage our interest risk exposure.

After completion of this offering, we may invest the net proceeds we receive from the offering in interest-earning instruments. Investments in both fixed rate and floating rate interest earning instruments carry a degree of interest rate risk. Fixed rate securities may have their fair market value adversely impacted due to a rise in interest rates, while floating rate securities may produce less income than expected if interest rates fall.

As a result, it is expected that students of non-diploma-seeking education will continue to migrate from offline education to online education.

Key drivers of online education market in China

Demographic shift toward more technology-savvy generations. The popularity of mobile internet has enabled students to attend live courses through both their PCs and their mobile devices without any geographic limitations and thus made the delivery mode of education to be more diversified. More importantly, China is witnessing a shift in demographics where parents born in the 1980s and 1990s, who are generally more technology-savvy and readily embrace internet-based services compared with earlier generations, have become the main consumer group of online education for themselves and their children.

Admission to secondary schools and universities in China are primarily based on students performance during the standard examinations. Admission to quality schools and universities has created tremendous demand for K-12 after-school tutoring in China. Large-class: Large-class courses have more than 100 students per class. It generally adopts a dual-teacher system, which separates roles and responsibilities of instructors and tutors that are commonly undertaken by a single teacher in an offline class setting. Large-class format is highly scalable compared with the other two class formats.

Small-class: Small-class courses have less than 100 students per class, and typically have two to 30 students per class.

One-on-one: With one teacher to only one student in the class, one-on-one online courses specialize in offering more customized tutoring services catered to each students education needs.

Large-class is the most popular option in the online K-12 after-school tutoring market in China, accounting for approximately 86.2% of total student enrollments and 50.0% of total gross billings in 2018.

Chinas Online K-12 Large-class After-school Tutoring Market

To create a disciplined, effective and engaging learning environment under the large-class format, we have adopted a dual-teacher system, staffing each class with an instructor and multiple tutors well trained in the relevant subjects or curriculum. We pride ourselves of our rigorous and systematic teacher selection and coaching process. From the pool of prospective instructors we identified in 2018 and during the three months ended March 31, 2019, we meticulously evaluated and employed less than 2% of the candidates. As of March 31, 2019, we had 169 instructors and 522 tutors.

We develop and tailor our proprietary curriculum specifically to our online live large-class format with the goal of driving students engagement and academic performance. We design our courses in ways to inspire students genuine interest and in-depth interactions, which in turn foster students holistic development and thus better learning results. With our superior education quality, our online K-12 large-class courses were priced at a significant premium compared to average online K-12 large-class courses in China in 2018, according to Frost & Sullivan.

We strive to apply the latest technology to improve the mode of teaching delivery, student learning experience and operational efficiency. Big data analytics permeates each aspect of our teaching staff training, course development and evaluation, and sales conversion process, which significantly improves our education quality and student engagement and optimizes our sales and marketing spending on prospective students. We leverage advancements in artificial intelligence technology and our proprietary business & operations support system, or *BOSS*, to improve the productivity and effectiveness of our instructors and tutors.

Capitalizing on our proprietary technology infrastructure, we have built a highly scalable business that we can expand and replicate rapidly with consistent quality. The average enrollments of our online K-12 courses increased from approximately 400 per course in 2017 to approximately 600 per course in 2018, and from approximately 440 per course for the three months ended March 31, 2018 to approximately 980 per course for the same period in 2019. Our superior education quality is rooted in our high quality instructors, professional tutors, and strong in-house curriculum development capability.

Our instructors

We believe that our instructors teaching capability in the online live large-class format fundamentally differentiates us from our competitors. Our commitment to bringing onboard superior instructors is reflected in our highly selective hiring process, rigorous ongoing evaluation, and competitive performance-based compensation. We have adopted a quantitative approach to comprehensively assess candidates based on a wide set of criteria. As of March 31, 2019, our instructors had an average of over 11 years of teaching experience, substantially all with prior work experience at reputable education institutions. From the pool of prospective instructors we identified in 2018 and during the three months ended March 31, 2019, we meticulously evaluated and employed less than 2% of the candidates. With our large-class size, the average compensation we provided to our instructors in 2018 were among the highest in the online education services market in China, according to Frost & Sullivan.

Dual-teacher system

For each course, our instructors are paired with a group of dedicated tutors who are well trained in the relevant subjects and curriculum to further improve the engagement and learning effectiveness of individual students. For our K-12 courses, we break each large-class into multiple smaller groups of students, and assign one tutor to each group to attentively monitor and assist students before, during and after each lesson. Similar to the programs for instructors, we have also adopted a systematic program of orientation and on-the-job training for tutors, as well as on-going review mechanism to assess their performance. We believe a responsive dual-teacher system is essential for our students to get the best out of our courses, as it enables us to closely assess student engagement, and provide timely in-class responses and tutoring services to students.

Curriculum development

We design and develop substantially all of our course materials in-house, including course syllabus, interactive courseware, practice exercises and lesson notes, to ensure a seamless and effective learning experience for our students. We have formulated a coordinated approach which engages both instructors and dedicated curriculum development experts to design, evaluate and regularly update course materials that best cater to our live large-class format. Furthermore, we design our courses in ways to inspire students genuine interest and in-depth interactions, which in turn foster students holistic development and thus better learning results.

Our unique *7+6 Steps* learning methodology encompasses every critical step for effective learning. We understand that an effective learning experience for students goes beyond live lessons with instructors. To this end, we have designed and deployed a holistic, effective approach to learning through the integration of live lessons, practice, assessment and tutoring, during and outside of classes.

Robust proprietary technology infrastructure and application

Technology underpins the delivery of our high quality services and operational efficiencies, from live broadcasting, curriculum development, to sales conversion and operation management. multiple rounds of internal review. We generally pilot test new courses for up to six to twelve months before they are broadly released. We regularly update our course materials to stay abreast of the latest educational trends in their respective subject areas. Our content development team closely monitors the academic requirements in the PRC education system and work with our instructors to ensure that our syllabi and course materials are up to date with the mandated curricula. We also develop and update curricula and course materials tailored for classes of different difficulty levels to address different educational requirements and needs of our students at each grade.

We believe comprehensive quiz banks and exercises are important to enhance students learning effectiveness. We offer students pre-class, in-class and post-class quizzes together with post-class exercises to help them better assess their learning outcome and identify areas for improvement. Our tutors monitor student performance in these quizzes and exercises and report to our content development team, who will update our quiz banks and exercises catering to student needs as well as identify weaknesses in the educational content and make timely adjustments.

Our Website

We have built a user-friendly interface for students accessing our online classes on our website. Students may raise questions to our instructors in class, interact with other students through live-chat box, and contact our IT team to provide real-time technical support. Instructors may utilize the interactive board to highlight specific text phrases or knowledge points to students.

Below is a screenshot of the student interface for our live courses on our website:

Course Fees

In 2018, our K-12 courses on average were priced at a significant premium compared to average online K-12 large-class products in China, according to Frost & Sullivan.

Our course fees for our K-12 paid courses and foreign language, professional and interest paid courses typically ranged from RMB99 to RMB3,498 and RMB99 to RMB4,880 per course in 2018, respectively, and ranged from RMB117 to RMB3,542 and RMB99 to RMB4,980 per course for the three months ended March 31, 2019, respectively. We offer discounts under various marketing campaigns and promotions. For example, we offer trial courses at below RMB99 per course.

Our course fees are generally collected in full upon enrollment. We accept payments through major third-party online payment channels in China.

For our online courses, we allow students to withdraw from the enrolled courses at any time and receive refunds for the undelivered classes.

Technology and Infrastructure

Technology is the backbone of our highly scalable business model. Our strong technological capabilities enable us to deliver superior student experience and improve operational efficiency. Our technology team, coupled with our proprietary artificial intelligence technology and the large volume of data generated from our operations, has continued to identify opportunities for improvements in our technology infrastructure and applications. As of March 31, 2019, we had a technology R&D team of 389 professionals.

Live Broadcasting Technology

Live broadcasting technology development has been our main focus since our inception. Currently, our proprietary live broadcasting technology makes it possible for as many as 100,000 students to join a live broadcasting class simultaneously, without compromising video quality. The average delay time is currently below 300 milliseconds for our PC terminal and mobile apps.

Network Infrastructure

We have developed a reliable and stable network infrastructure to ensure high availability and a low risk of downtime. We currently utilize third-party cloud service providers in China to host our network infrastructure, renting public servers and bandwidth. We back-up our databases on a daily basis. Our IT department monitors the performance of our websites, mobile apps and network infrastructure around the clock to enable us to respond quickly to potential problems.

Big Data and Artificial Intelligence

Big Data

We gather and analyze student data at each stage of their interaction with our platform, including enrolling into our course offerings, attending our live courses, submitting completed exercises and replaying our recorded courses. We have built strong data analytics capabilities using algorithms, models and data analytics tools. We leverage big data analytics technologies to enhance the accuracy in predicting student behavior, which allows optimize targeted marketing and platform operations, and delivers enhanced student experience. We aim to forecast the frequency of course bookings, preferences of course topics and learning progress through the data analytics to make appropriate recommendations and streamline our marketing and teaching operations. Furthermore, our content development team and sales and marketing force also heavily draw upon our data analytics capability.

Artificial Intelligence

With access to a massive amount of data, we believe we are in a strong position to capitalize on the use of artificial intelligence and machine learning technologies. We have applied various artificial intelligence and machine learning technologies in multiple areas of our business operations, such as personalized course recommendation and automated question answering. We will continue to explore the application of the big data and artificial intelligence technologies in our business operations to improve teaching and learning efficiency. For example, we will introduce personalized exercise recommendations to students based on each students performance and provide automated exercise grading backed by text and voice recognition to allow our tutors to have more time for student interactions, and make higher student-to-tutor ratio possible without sacrificing student experience.

BOSS System

We have developed our business & operations support system, or *BOSS* system, to provide integrated and automated services to employees during every major aspect of our business operations. Our *BOSS* system is our internal system used by our employees, ranging from instructors, tutors, sales personnel, content development personnel, operations team, and management. Our *BOSS* system empowers our employees with automated workflows, such as scheduling courses, analyzing student exercises, and tracking students attendance, course completion and retention.

Business Intelligence System

We have adopted a company-wide best-practice proprietary business intelligence system, which is closely integrated with our business operations. Business intelligence system analyzes data from both *BOSS* and our

financial reporting system. With current business information readily available through this system, we are able to timely and better refine our resource allocation, respond to changes in customer behavior patterns, adjust operational details, and set budgetary targets.

Sales and Marketing

Marketing Channels

We market our course offerings and enhance brand awareness through various online and mobile channels. We place advertisements and conduct marketing on social media platforms in China. At the same time, we also generate sales leads from word-of-mouth referrals by our students and parents of K-12 students. We believe our high quality course offerings and satisfactory student experience will continue to contribute word-of-mouth referrals.

Sales Process

We have formulated an effective and systematic sales conversion standard operating procedure designed to optimize the effectiveness of each step of a prospective students interaction with our platform, from content creation, content distribution, sales leads acquisition, to paid enrollment conversion and retention. We believe our sales efficiency relies on the multistage amplification of each of our sales links. We closely monitor the conversion of each sales link to measure our sales effectiveness and continually optimize each sales link.

Content Generation and Distribution

We have a dedicated user growth team who produces highly informative marketing content generally in the format of featured articles and short-form videos on parent-child relationship, book list recommendation, and skill set knowledge. Our promotional content is generally distributed through major social media platforms in China to access targeted audiences.

Multi-day Trial Program

The sales leads generated by our various marketing channels are directed to our sales team. Our sales team encourage prospective students to sign up for our free multi-day trial program. We devote significant resources to our trial programs as they have a great contribution to our new paid course enrollments.

Our multi-day trial program provides well-designed curriculum featuring a series of free-trial courses throughout a two-to-five-day period. The trial courses follow a similar format and are delivered by the same high quality instructors as our standard courses. Our instructors devote a significant amount of time in preparing these course materials in advance. We staff our sales personnel to each class to serve the same functions as our tutors in our standard courses and to promote our standard courses. Our trial program creates an immersive experience for prospective students to understand the effectiveness of our superior teaching quality and our dual-teacher system.

The tutors attentively promote our standard courses to prospective students and parents of K-12 students throughout the trial program and continue to follow-up with them after the trial program. Our instructors also promote our paid courses when delivering courses in the trial program. We believe their promotion, combined with prospective students immerse experience of our courses, have served as an effective way to convert sales leads into paid course enrollments.

Data Privacy and Security

We are committed to protecting our students and parents personal information and privacy. We have established and implemented a strict platform-wide policy on data collection, processing and usage. To ensure

[Table of Contents](#)

the confidentiality and integrity of our data, we maintain a comprehensive and rigorous data security program. We anonymize and encrypt confidential personal information and take other technological measures to ensure the secure processing, transmission and usage of data. We have also established stringent internal protocols under which we grant classified access to confidential personal data only to limited employees with strictly defined and layered access authority. We strictly control and manage the use of data within our various teams. Our back-end security system is capable of handling malicious attacks to safeguard the security of our operations and to protect the privacy of our students.

Content Monitoring

Our courses undergo multiple rounds of internal review and pilot testing before being broadly released. Our tutors and quality assurance team monitor our live courses, chat messages and other content on our platform to ensure that we are able to identify content that may be deemed inappropriate or violation of laws, regulations and government policies. When any inappropriate or illegal content is identified, we promptly remove the content.

Competition

The online education industry in China is intensely competitive. We face competition in each topic of our course offerings from other online educational service providers, such as TAL Educations online courses.

We compete primarily on the following factors:

- quality of education services and students learning experience;
- the quality of teaching staff;
- technology infrastructure and data analytics capabilities;
- brand recognition; and
- scope of course offerings.

We believe that we are well-positioned to effectively compete based on the factors listed above. However, some of our current or future competitors may have longer operating histories, greater brand recognition, or greater financial, technical or marketing resources than we do. For a discussion of risks relating to competition, see Risk Factors Risks Related to Our Business. We face intense competition, which could divert students to our competitors, lead to pricing pressure and loss of market shares, and significantly reduce our net revenues.

Employees

We had 507, 1,315 and 1,746 full-time employees as of December 31, 2017 and 2018 and as of March 31, 2019, respectively. All of our full-time employees are located in China. The following table sets forth the number of our full-time employees as of March 31, 2019:

We also enter into standalone confidentiality and non-compete agreements with our full-time employees. In addition to salaries and benefits, we provide performance-based bonuses for our full-time employees and commission-based compensation for our sales and marketing force.

As required by regulations in China, we participate in various employee social security plans that are organized by municipal and provincial governments for our PRC-based full-time employees, including pension, unemployment insurance, childbirth insurance, work-related injury insurance, medical insurance and housing insurance. We are required under PRC law to make contributions from time to time to employee benefit plans for our PRC-based full-time employees at specified percentages of the salaries, bonuses and certain allowances of such employees, up to a maximum amount specified by the local governments in China.

Legal Proceedings

From time to time, we may become a party to various legal or administrative proceedings arising in the ordinary course of our business, including actions with respect to intellectual property infringement, violation of third-party licenses or other rights, breach of contract and labor and employment claims. REGULATION

This section sets forth a summary of the most significant rules and regulations that affect our business activities in China or the rights of our shareholders to receive dividends and other distributions from us.

Regulation Related to Value-added Telecommunications Services

On September 25, 2000, the State Council issued the PRC Regulations on Telecommunications, or the Telecommunications Regulations, as last amended on February 6, 2016, to regulate telecommunications activities in China. The Telecommunications Regulations divided the telecommunications services into two categories, namely infrastructure telecommunications services and value-added telecommunications services. Pursuant to the Telecommunications Regulations, operators of value-added telecommunications services, or VATS, must first obtain a Value-added Telecommunications Business Operating License, or VATS License, from the MIIT, or its provincial level counterparts. On July 3, 2017, the MIIT promulgated the Administrative Measures on Telecommunications Business Operating Licenses, which set forth more specific provisions regarding the types of licenses required to operate VATS, the qualifications and procedures for obtaining such licenses and the administration and supervision of such licenses.

The Classified Catalog of Telecommunications Services (2015 Version), or the 2016 MIIT Catalog, which took effect on March 1, 2016, defines information services as the information services provided for users through public communications networks or internet by means of information gathering, development, processing and the construction of the information platform. Moreover, information services continue to be classified as a category of VATS and are clarified to include information release and delivery services, information search and query services, information community platform services, information real-time interactive services, and information protection and processing services under the 2016 MIIT Catalog. The Administrative Measures on Internet Information Services, or ICP Measures, promulgated by the PRC State Council on September 25, 2000 and most recently amended on January 8, 2011, set forth more specific rules on the provision of internet information services. According to ICP Measures, any company that engages in the provision of commercial internet information services shall obtain a sub-category VATS License for Internet Information Services, or ICP License, from the relevant government authorities before providing any commercial internet information services within the PRC. Pursuant to the above-mentioned regulations, commercial internet information services generally refer to provision of specific information content, online advertising, web page construction and other online application services through internet for profit making purpose.

In addition to the Telecommunications Regulations and the other regulations discussed above, the provision of commercial internet information services on mobile internet applications is regulated by the Administrative Provisions on Mobile Internet Applications Information Services, which was promulgated by Cyberspace Administration of China, or the CAC, on June 28, 2016 and came into effect on August 1, 2016. The providers of mobile internet applications are subject to requirements under these provisions, including acquiring the qualifications and complying with other requirements provided by laws and regulations and being responsible for information security.

We provide information and services to our students through our websites and mobile apps, which is classified as commercial internet information services as defined in the above provisions. To comply with the relevant laws and regulations, Beijing BaiJiaHuLian, our VIE, has obtained an ICP License which will remain effective until February 27, 2024.

Regulation Related to Foreign Investment

On March 15, 2019, the National Peoples Congress promulgated the Foreign Investment Law, which will come into effect on January 1, 2020 and replace the trio of existing laws regulating foreign investment in China, namely, the Sino-foreign Equity Joint Venture Enterprise Law, the Sino-foreign Cooperative Joint Venture

[Table of Contents](#)

Enterprise Law and the Wholly Foreign-invested Enterprise Law, together with their implementation rules and ancillary regulations. The existing foreign-invested enterprises established prior to the effective of the Foreign Investment Law may keep their corporate forms within five years. The implementing rules of the Foreign Investment Law will be stipulated separately by State Council. Pursuant to the Foreign Investment Law, foreign investors means natural person, enterprise, or other organization of a foreign country, foreign-invested enterprises (FIEs) means any enterprise established under PRC law that is wholly or partially invested by foreign investors and foreign investment means any foreign investors direct or indirect investment in mainland China, including: (i) establishing FIEs in mainland China either individually or jointly with other investors; (ii) obtaining stock shares, stock equity, property shares, other similar interests in Chinese domestic enterprises; (iii) investing in new projects in mainland China either individually or jointly with other investors; and (iv) making investment through other means provided by laws, administrative regulations, or State Council provisions.

The Foreign Investment Law stipulates that China implements the management system of pre-establishment national treatment plus a negative list to foreign investment and the government generally will not expropriate foreign investment, except under special circumstances, in which case it will provide fair and reasonable compensation to foreign investors. Foreign investors are barred from investing in prohibited industries on the negative list and must comply with the specified requirements when investing in restricted industries on that list. When a license is required to enter a certain industry, the foreign investor must apply for one, and the government must treat the application the same as one by a domestic enterprise, except where laws or regulations provide otherwise. In addition, foreign investors or FIEs are required to file information reports and foreign investment shall be subject to the national security review.

For detailed discussion of the risk associated with the Foreign Investment Law, see Risk Factors Risks Related to Our Corporate Structure Uncertainties exist with respect to the interpretation and implementation of the newly enacted Foreign Investment Law and how it may impact the viability of our current corporate structure, corporate governance, business, financial condition and results of operations.

Regulation Related to Foreign Investment Restrictions

Investment activities in China by foreign investors are principally governed by the Guidance Catalog of Industries for Foreign Investment, or the Foreign Investment Catalog, which was promulgated and is amended from time to time by Ministry of Commerce of the PRC, or MOFCOM, and the National Development and Reform Commission, or NDRC. The latest version of the Foreign Investment Catalog, which was promulgated jointly by MOFCOM and the NDRC, on June 28, 2017 and became effective on July 28, 2017, classifies industries into three categories with regard to foreign investment: (1) encouraged, (2) restricted, and (3) prohibited. The latter two categories are included in a negative list, which was first introduced into the Foreign Investment Catalog in 2017 and specified the restrictive measures for the entry of foreign investment. On June 28, 2018, MOFCOM and NDRC jointly promulgated the Special Administrative Measures (Negative List) for Foreign Investment Access, or the Special Administrative Measures, which replaced the negative list attached to the Foreign Investment Catalog in 2017. Industries that are not listed in the Foreign Investment Catalog or the Special Administrative Measures are permitted areas for foreign investments, and are generally open to foreign investment unless specifically restricted by other PRC regulations. Some restricted industries are limited to equity or contractual joint ventures, while in some cases Chinese partners are required to hold the majority interests in such joint ventures. In addition, restricted category projects may be subject to higher-level government approvals. Foreign investors are not allowed to invest in industries in the prohibited category. The provision of value-added telecommunications services falls in the restricted category under the Special Administrative Measures and the percentage of foreign ownership cannot exceed 50% (except for e-commerce).

The Regulations on Administration of Foreign-Invested Telecommunications Enterprises, or the FITE Regulations, which took effect on January 1, 2002 and last amended on February 6, 2016, are the key regulations for foreign direct investment in telecommunications companies in China. The FITE Regulations stipulate that the

[Table of Contents](#)

foreign investor of a telecommunications enterprise is prohibited from holding more than 50% of the equity interest in a foreign-invested enterprise that provides value-added telecommunications services. In addition, the main foreign investor who invests in a value-added telecommunications enterprise in China must demonstrate a positive track record and experience in providing such services. Moreover, foreign investors that meet these qualification requirements that intend to invest in or establish a value-added telecommunications enterprise operating the value-added telecommunications business must obtain approvals from the Ministry of Industry and Information Technology, or the MIIT and MOFCOM, or their authorized local counterparts, which retain considerable discretion in granting approvals.

On July 13, 2006, the MIIT, issued the Circular on Strengthening the Administration of Foreign Investment in Value-added Telecommunications Services, or the MIIT Circular 2006, which requires that (i) foreign investors can only operate a telecommunications business in China through establishing a telecommunications enterprise with a valid telecommunications business operation license; (ii) domestic license holders are prohibited from leasing, transferring or selling telecommunications business operation licenses to foreign investors in any form, or providing any resource, sites or facilities to foreign investors to facilitate the unlicensed operation of telecommunications business in China; (iii) value-added telecommunications services providers or their shareholders must directly own the domain names and registered trademarks they use in their daily operations; (iv) each value-added telecommunications services provider must have the necessary facilities for its approved business operations and maintain such facilities in the geographic regions covered by its license; and (v) all value-added telecommunications services providers should improve network and information security, enact relevant information safety administration regulations and set up emergency plans to ensure network and information safety. The provincial communications administration bureaus, as local authorities in charge of regulating telecommunications services, may revoke the value-added telecommunications business operation licenses of those who fail to comply with the above requirements or fail to rectify such noncompliance within specified time limits. Due to the lack of any additional interpretation from the regulatory authorities, it remains unclear what impact MIIT Circular 2006 will have on us or the other PRC internet companies with similar corporate structures and contractual arrangements.

To comply with the above foreign investment restrictions, we rely on the contractual arrangements with our VIE to operate our business in China. However, there remain substantial uncertainties with respect to the interpretation and application of existing or future PRC laws and regulations on foreign investment. See Risk Factors Risks Related to Our Corporate Structure If the PRC government finds that the agreements that establish the structure for operating certain of our operations in China do not comply with PRC regulations relating to the relevant industries, or if these regulations or the interpretation of existing regulations change in the future, we could be subject to severe penalties or be forced to relinquish our interests in those operations.

Regulation Related to Private Education

Education Law of the PRC

The PRC Education Law, or the Education Law, which was promulgated on March 18, 1995, and last amended on December 27, 2015, sets forth provisions relating to the fundamental education systems of the PRC, including a school system of pre-school education, primary education, secondary education and higher education, a system of nine-year compulsory education and a system of education certificates. The Education Law stipulates that the government formulates plans for the development of education, establishes and operates schools and other types of educational institutions, and in principle, enterprises, institutions, social organizations and individuals are encouraged to operate schools and other types of educational organizations in accordance with PRC laws and regulations.

The Law for Promoting Private Education and its Implementing Rules

On December 28, 2002, the Standing Committee of the National Peoples Congress, or the SCNPC, promulgated the Law for Promoting Private Education, or the Private Education Law and was last amended on

[Table of Contents](#)

December 29, 2018 with such amendment effective on the same date. Under the amended Private Education Law, sponsors of private schools may choose to establish non-profit or for-profit private schools at their own discretion and the private schools shall obtain a private school operating permit issued by relevant government authorities and registered with relevant registration authorities.

On August 10, 2018, the Ministry of Justice, or MOJ, published the draft submitted for approval for the amendment to the Regulations on the Implementation of the Law for Promoting Private Education of the PRC, or MOJ Draft for Approval, for public comment. As of the date of this prospectus, this MOJ Draft for Approval was still pending for final approval and was not in effect. The MOJ Draft for Approval stipulates that private schools using internet technology to implement online diploma-awarding educational courses shall obtain the private school operating permit of similar academic education at the same level, as well as the internet operating permit. The institutions that use internet technology to implement training and educational activities, vocational qualification and vocational skills training, or providing an internet technology service platform for the above activities, would need to obtain the corresponding internet operating permit and file with the administrative department for education or the department of human resources and social security at the provincial level where the institution is domiciled, and such institutions shall not implement educational and teaching activities which requires the private school operating permit. The internet technology service platform that implements the training and educational activities shall review and register the identity information of institutions or individuals applying for access to the platform.

The MOJ Draft for Approval further stipulates that the establishment of private training and educational organizations enrolling students of kindergarten, primary school, middle and high school age and implementing activities relating to cultural and educational courses at school, or examination-related and further education-related tutoring and other cultural and educational activities, shall be subject to the review and approval of the administrative departments for education of the governments at or above the county level in accordance with the Article 12 of the amended Private Education Law. The establishment of private training and educational organizations that implement activities aiming at quality promotion, personality development in the areas of linguistic competence, arts, physical activities, technology, and activities targeting at cultural education for adults and non-degree continuing education, can apply to register as the legal person directly. However, such private training and/or educational organizations shall not carry out the cultural and educational activities mentioned above, which requires the review and approval of the administrative departments for education. In addition, the social organizations sponsoring group schools are prohibited from controlling any non-profit private schools by virtue of mergers and acquisitions, franchising or controlling contracts.

Uncertainties exist with respect to the interpretation and application of the existing and future laws and regulations that govern the online private education industry, as well as when and how the MOJ Draft would come into effect and how the local government would promulgate implementing rules relating to the specific requirements applicable to online education service providers like us. See Risk Factors Risks Related to Our Business and Industry Uncertainties exist in relation to new legislation or proposed changes in the PRC regulatory requirements regarding online private education, which may materially and adversely affect our business, financial condition and results of operations.

Regulation Related to After-School Tutoring

On February 13, 2018, the Ministry of Education, or the MOE, the Ministry of Civil Affairs, the Ministry of Human Resources and Social Security and the State Administration for Industry and Commerce, or the SAIC (currently known as the State Administration for Market Regulation, or the SAMR) jointly promulgated the Circular on Alleviating After-school Burden on Elementary and Middle School Students and Implementing Inspections on After-school Training Institutions, or Circular 3, which came into effect on the same date. Pursuant to Circular 3, the aforesaid government authorities will carry out a series of inspections on after-school training institutions and order those with material potential safety risks to suspend business for self-inspection and rectification and those without proper establishment licenses or school operating permits to apply for

Table of Contents

relevant qualifications and certificates under the guidance of competent government authorities. Moreover, after-school training institutions must file with the local education authorities and make public the classes, courses, target students, class hours and other information relating to their academic training courses (including primarily courses on Chinese and mathematics). After-school training institutions are prohibited from providing academic training services beyond the scope or above the level of school textbooks, or organizing any academic competitions (such as Olympiad competitions) or level tests for students of elementary or middle schools. In addition, elementary or middle schools may not reference a student's performance in the after-school training institutions as one of admission criteria.

On August 22, 2018, the State Council issued the Opinion on the Regulation of the Development of Extracurricular Training Institutions, or State Council Circular 80, which primarily regulates extracurricular training institutions targeting K-12 students. State Council Circular 80 reiterates prior guidance that extracurricular training institutions must obtain a private school operating permit, and further requires such institutions to meet certain minimum requirements; for example, extracurricular training institutions are required to (i) have a fixed training premise that conforms to specified safety criteria, with an average area per student of no less than 3 square meters during the applicable training period; (ii) comply with relevant fire safety, environmental protection, hygiene, food operation and other specified requirements; (iii) purchase personal safety insurance for students to reduce safety risks; and (iv) not hire any teachers who are working concurrently in primary or secondary schools, and teachers for tutoring in academic subjects such as Chinese, mathematics, English, physics, chemistry and biology are required to have the corresponding teaching qualifications. Extracurricular training institutions are prohibited from carrying out exam-oriented training, training that goes beyond the school syllabus, training in advance of the corresponding school schedule and any training activities associated with student admission, nor shall they organize any level test, rank examination or competition on academic subjects for primary and secondary students. The training content of extracurricular training institutions shall not exceed the corresponding national curricular standards and training progress shall not be more accelerated than the corresponding progress of local schools. According to State Council Circular 80, extracurricular training institutions are also required to disclose and file relevant information regarding the institution, including their training content, schedule, targeted students and school timetable to the relevant education authority, and their training classes may not end later than 20:30 each day. Course fees can only be collected for courses in three months or shorter installments. Additionally, State Council Circular 80 requests that competent local authorities formulate relevant local standards for extracurricular training institutions within their administrative area. If an overseas listed extracurricular training institution publicizes overseas any periodical report, or any interim report on material adverse effect on its operation, it shall concurrently publish the information in Chinese on its official website (or on the disclosure platform for securities exchange information in the absence of an official website). In relation to online education service providers, State Council Circular 80 generally provides that regulatory authorities of networking, culture, information technology, radio and television industries shall cooperate with the education department in supervising online education within their relevant industry.

On November 20, 2018, the General Office of the MOE, the General Office of the SAMR of the PRC and the General Office of the Ministry of Emergency Management of the PRC jointly issued the Notice on Improving the Specific Governance and Rectification Mechanisms of After-school Education Institutions, or Circular 10, which provides that provincial education departments shall be responsible for the filing of training institutions that uses the internet technology to provide online training facing primary and middle school students. Provincial education departments shall regulate the online after-school training institutions based on the management policies governing offline after-school training institutions. In addition, online after-school education institutions shall file the information of their courses, such as names, contents, target students, syllabi and schedules with the provincial education departments and shall publish the name, photo, class schedule and certificate number of the teacher qualification of each teacher on their websites.

We are taking necessary measures to comply with the above requirements in these circulars. However, as there are no clear and specific guidance, interpretation or implementing rules on how an online education

[Table of Contents](#)

institution like us should comply with these requirements, our current practice may be deemed to be not in full compliance with these requirements. For detailed discussion, please see Risk Factors Risks Related to Our Business and Industry Uncertainties exist in relation to new legislation or proposed changes in the PRC regulatory requirements regarding online private education, which may materially and adversely affect our business, financial condition and results of operations.

Regulation Related to Online Transmission of Audio-Visual Programs

To regulate the provision of audio-visual program services to the public via the internet, including through mobile networks, within the territory of the PRC, the State Administration of Press Publication Radio Film and Television, or the SAPPRFT (currently known as National Radio and Television Administration), and the MIIT jointly promulgated the Administrative Provisions on Internet Audio-Visual Program Service, or the Audio-Visual Program Provisions, on December 20, 2007, which came into effect on January 31, 2008 and was last amended on August 28, 2015. The amended Copyright Law extends copyright protection to internet activities, products disseminated over the internet and software products. In addition, there is a voluntary registration system administered by the China Copyright Protection Center. These regulations are formulated for protecting the rights and interests of computer software copyright owners, encouraging the development and application of computer software and promoting the development of software business. In order to further implement the Computer Software Protection Regulations, the NCAC issued the Computer Software Copyright Registration Procedures on February 20, 2002 and amended them on June 18, 2004, which apply to software copyright registration, license contract registration and transfer contract registration. The SCNPC adopted the Patent Law of the PRC in 1984 and amended it in 1992, 2000 and 2008 respectively. A patentable invention, utility model or design must meet three conditions, namely novelty, inventiveness and practical applicability. Patents cannot be granted for scientific discoveries, rules and methods for intellectual activities, methods used to diagnose or treat diseases, animal and plant breeds or substances obtained by means of nuclear transformation. The Patent Office under the State Intellectual Property Office is responsible for receiving, examining and approving patent applications. A patent is valid for a twenty-year term for an invention and a ten-year term for a utility model or design, both starting from the application date. Except under certain specific circumstances provided by law, any third-party user must obtain consent or a proper license from the patent owner to use the patent, otherwise the use will constitute an infringement of the rights of the patent holder. See BusinessIntellectual Property for more details on the current situation of our patents.

Trademark

Trademarks are protected by the PRC Trademark Law, adopted in 1982 and subsequently revised in 1993, 2001 and 2013, as well as its implementation rules adopted in 2002 and revised in 2014. The Trademark Office of National Intellectual Property Administration under the SAIC handles trademark registrations and grants a protection term of ten years to registered trademarks which may be renewed for consecutive ten-year periods upon request by the trademark owner. Regulation Related to Foreign Exchange

Regulation on Foreign Currency Exchange

The principal regulations governing foreign currency exchange in China are the PRC Foreign Exchange Administration Regulations, or the Foreign Exchange Administration Regulations, which were promulgated by the State Council on January 29, 1996 and last amended on August 5, 2008. Under the Foreign Exchange Administration Regulations, Renminbi is generally freely convertible for payments of current account items, such as trade and service-related foreign exchange transactions and dividend payments, but not freely convertible for capital account items, such as direct investment, loan or investment in securities outside China, unless prior approval of State Administration of Foreign Exchange, or the SAFE, or its local counterparts has been obtained.

On February 13, 2015, SAFE promulgated the Notice on Further Simplifying and Improving the Direct Investment-related Foreign Exchange Administration Policies, or SAFE Notice 13. After SAFE Notice 13 became effective on June 1, 2015, instead of applying for approvals regarding foreign exchange registrations of foreign direct investment and overseas direct investment from SAFE, entities and individuals may apply for such foreign exchange registrations from qualified banks. The qualified banks, under the supervision of SAFE, may directly review the applications and conduct the registration.

On March 30, 2015, SAFE promulgated the Circular on Reforming the Management Approach regarding the Settlement of Foreign Capital of Foreign-invested Enterprise, or Circular 19, which came into effect on June 1, 2015. According to Circular 19, the foreign exchange capital of foreign-invested enterprises shall be subject to the Discretionary Foreign Exchange Settlement, which means that the foreign exchange capital in the capital account of a foreign-invested enterprise for which the rights and interests of monetary contribution have been confirmed by the local foreign exchange bureau (or the book-entry registration of monetary contribution by the banks) can be settled at the banks based on the actual operational needs of the foreign-invested enterprise. The proportion of Discretionary Foreign Exchange Settlement of the foreign exchange capital of a foreign-invested enterprise is temporarily set at 100%. The Renminbi converted from the foreign exchange capital will be kept in a designated account and if a foreign-invested enterprise needs to make further payment from such account, it still needs to provide supporting documents and proceed with the review process with the banks. Furthermore, Circular 19 stipulates that the use of capital by foreign-invested enterprises shall follow the principles of authenticity and self-use within the business scope of enterprises. The capital of a foreign-invested enterprise and capital in Renminbi obtained by the foreign-invested enterprise from foreign exchange settlement shall not be used for the following purposes: (i) directly or indirectly used for payments beyond the business

[Table of Contents](#)

scope of the enterprises or payments as prohibited by relevant laws and regulations; (ii) directly or indirectly used for investment in securities unless otherwise provided by the relevant laws and regulations; (iii) directly or indirectly used for granting entrust loans in Renminbi (unless permitted by the scope of business), repaying inter-enterprise borrowings (including advances by the third-party) or repaying the bank loans in Renminbi that have been sub-lent to third parties; or (iv) directly or indirectly used for expenses related to the purchase of real estate that is not for self-use (except for the foreign-invested real estate enterprises).

The Circular on Reforming and Standardizing the Foreign Exchange Settlement Management Policy of Capital Account, or Circular 16, was promulgated by SAFE on June 9, 2016 and became effective on the same date. Pursuant to Circular 16, enterprises registered in the PRC may also convert their foreign debts from foreign currency to Renminbi on a self-discretionary basis. Circular 16 provides a unified standard for the conversion of foreign exchange under capital account items (including but not limited to foreign currency capital and foreign debts) on a self-discretionary basis which applies to all enterprises registered in the PRC. Circular 16 reiterates the principle that Renminbi converted from foreign currency-denominated capital of a company may not be directly or indirectly used for purposes beyond its business scope or prohibited by PRC Laws, while such converted Renminbi shall not be provided as loans to its non-affiliated entities.

On January 26, 2017, SAFE promulgated the Circular on Further Improving Reform of Foreign Exchange Administration and Optimizing Genuineness and Compliance Verification, or Circular 3, which stipulates several capital control measures with respect to the outbound remittance of profit from domestic entities to offshore entities, including (i) under the principle of genuine transaction, banks shall check board resolutions regarding profit distribution, the original version of tax filing records and audited financial statements; and (ii) domestic entities shall hold income to account for previous years losses before remitting the profits. Moreover, pursuant to Circular 3, domestic entities shall make detailed explanations of the sources of capital and utilization arrangements, and provide board resolutions, contracts and other proof when completing the registration procedures in connection with an outbound investment.

Regulation on Foreign Debt

A loan made by a foreign entity as direct or indirect shareholder in a foreign-invested enterprise is considered to be foreign debt in China and is regulated by various laws and regulations, including the Regulation of the Peoples Republic of China on Foreign Exchange Administration, the Interim Provisions on the Management of Foreign Debts, the Statistical Monitoring of Foreign Debts Tentative Provisions, the Detailed Rules for the Implementation of Provisional Regulations on Statistics and Supervision of External Debt, and the Administrative Measures for Registration of Foreign Debts. Under these rules and regulations, a shareholder loan in the form of foreign debt made to a PRC entity does not require the prior approval of SAFE. However, such foreign debt must be registered with and recorded by SAFE or its local branches within 15 business days after entering into the foreign debt contract. Pursuant to these rules and regulations, the maximum amount of the aggregate of (i) the outstanding balance of foreign debts with a term not longer than one year, and (ii) the accumulated amount of foreign debts with a term longer than one year, of a foreign-invested enterprise shall not exceed the difference between its registered total investment and its registered capital, or Total Investment and Registered Capital Balance.

On January 12, 2017, the Peoples Bank of China, or PBOC, promulgated the Notice of the Peoples Bank of China on Full-coverage Macro-prudent Management of Cross-border Financing, or PBOC Circular 9, which sets forth an upper limit for PRC entities, including foreign-invested enterprises and domestic-invested enterprises, regarding their foreign debts. Pursuant to PBOC Circular 9, the limit of foreign debts for enterprises shall be calculated based on the following formula: the limit of foreign debt = net assets * cross-border financing leverage ratio * macro-prudent regulation parameter. Net assets is calculated as the net assets value stated in the relevant entity's latest audited financial statement. The cross-border financing leverage ratio for enterprises is two (2). The macro-prudent regulation parameter is one (1). The PBOC Circular 9 does not supersede the Interim

[Table of Contents](#)

Provisions on the Management of Foreign Debts, but rather serves as a supplement to it. PBOC Circular 9 provided for a one-year transitional period, or the Transitional Period, from its promulgation date for foreign-invested enterprises, during which period foreign-invested enterprise could choose to calculate their maximum amount of foreign debt based on either (i) the Total Investment and Registered Capital Balance, or (ii) the Net Assets Limit. After the Transition Period, the maximum amount applicable to foreign-invested enterprises is to be determined by PBOC and SAFE separately. However, although the Transitional Period ended on January 10, 2018, as of the date of this prospectus, neither PBOC nor SAFE has issued any new regulations regarding the appropriate means of calculating the maximum amount of foreign debt for foreign-invested enterprises. Domestic-invested enterprises have only been subject to the Net Assets Limit in calculating the maximum amount of foreign debt they may hold from the date of promulgation of PBOC Circular 9. In addition, according to PBOC Circular 9, a foreign loan must be filed with SAFE through the online filing system of SAFE after the loan agreement is signed and at least three business days prior to the borrower withdraws any amount from such foreign loan.

We may not be able to obtain these government approvals or complete such registrations on a timely basis, or at all, with respect to future foreign loans provided by us to our PRC subsidiaries. See Risk Factors Risks Related to Doing Business in China PRC regulation of loans to and direct investment in PRC entities by offshore holding companies and governmental control of currency conversion may delay or prevent us from using the proceeds of this offering to make loans to or make additional capital contributions to our PRC subsidiary and consolidated variable interest entity, which could materially and adversely affect our liquidity and our ability to fund and expand our business.

Regulation on Foreign Exchange Registration of Overseas Investment by PRC Residents

SAFE issued SAFE Circular on Relevant Issues Relating to Domestic Residents Investment and Financing and Roundtrip Investment through Special Purpose Vehicles, or SAFE Circular 37, which became effective on July 4, 2014. SAFE Circular 37 regulates foreign exchange matters in relation to the use of special purpose vehicles, or SPVs, by PRC residents or entities to seek offshore investment and financing or conduct round trip investment in China. Under SAFE Circular 37, a SPV refers to an offshore entity established or controlled, directly or indirectly, by PRC residents (including individuals and entities) for the purpose of seeking offshore financing or making offshore investment, using legitimate onshore or offshore assets or interests, while round trip investment refers to direct investment in China by PRC residents through SPVs, namely, establishing foreign-invested enterprises to obtain the ownership, control rights and management rights. SAFE Circular 37 provides that, before making contribution into an SPV, PRC residents are required to complete foreign exchange registration with SAFE or its local branch. SAFE promulgated the Notice on Further Simplifying and Improving the Administration of the Foreign Exchange Concerning Direct Investment in February 2015, which took effect on June 1, 2015. This notice has amended SAFE Circular 37 requiring PRC residents or entities to register with qualified banks rather than SAFE or its local branch in connection with their establishment or control of an offshore entity established for the purpose of overseas investment or financing.

PRC residents who had contributed legitimate onshore or offshore interests or assets to SPVs but had not obtained registration as required before the implementation of the SAFE Circular 37 must register their ownership interests or control in the SPVs with qualified banks. An amendment to the registration is required if there is a material change with respect to the SPV registered, such as any change of basic information (including change of the PRC residents, name and operation term), increases or decreases in investment amount, transfers or exchanges of shares, and mergers or divisions. Failure to comply with the registration procedures set forth in SAFE Circular 37 and the subsequent notice, or making misrepresentation on or failure to disclose controllers of the foreign-invested enterprise that is established through round-trip investment, may result in restrictions being imposed on the foreign exchange activities of the relevant foreign-invested enterprise, including payment of dividends and other distributions, such as proceeds from any reduction in capital, share transfer or liquidation, to its offshore parent or affiliate, and the capital inflow from the offshore parent, and may also subject relevant PRC residents or entities to penalties under PRC foreign exchange administration regulations.

As of the date of this prospectus, our founder, Mr. Larry Xiangdong Chen, and six other PRC residents known to us that currently hold direct or indirect ownership interests in our company have conducted the initial registrations with the SAFE as required by the SAFE Circular 37. After transferring all shares in Ebetter International Group Limited to The Better Learner Trust, a trust of which himself is a beneficiary, Mr. Larry Xiangdong Chen, as well as the other beneficiaries of the trust who are PRC residents shall register or amend existing registrations with the local branch of SAFE regarding the shares of our company beneficially owned by them through the trust. Please refer to the beneficial ownership table in the section captioned Principal Shareholders for more information regarding the trust. We cannot assure you that all shareholders or beneficial owners of ours who are PRC residents or entities, including the beneficiaries of the trust schemes directly or indirectly holding interests in our Cayman Islands holding company, have complied with, and will in the future make, obtain or update any applicable registrations or approvals required by, SAFE regulations. See Risk Factors PRC regulations relating to the establishment of offshore special purpose companies by PRC residents may subject our PRC resident beneficial owners or our PRC subsidiary to liability or penalties, limit our ability to inject capital into our PRC subsidiary, limit our PRC subsidiary's ability to increase its registered capital or distribute profits to us, or may otherwise adversely affect us.

Regulation Related to Stock Incentive Plans

SAFE promulgated the Circular of the State Administration of Foreign Exchange on Issues concerning the Administration of Foreign Exchange Used for Domestic Individuals Participation in Equity Incentive Plans of Companies Listed Overseas, or the Stock Option Rules in February 2012, replacing the previous rules issued by SAFE in March 2007. Under the Stock Option Rules and other relevant rules and regulations, PRC residents who participate in stock incentive plan in an overseas publicly-listed company are required to register with SAFE or its local branches and complete certain other procedures. Participants of a stock incentive plan who are PRC residents must retain a qualified PRC agent, which could be a PRC subsidiary of the overseas publicly listed company or another qualified institution selected by the PRC subsidiary, to conduct the SAFE registration and other procedures with respect to the stock incentive plan on behalf of the participants. In addition, the PRC agent is required to amend the SAFE registration with respect to the stock incentive plan if there is any material change to the stock incentive plan, the PRC agent or other material changes. The PRC agent must, on behalf of the PRC residents who have the right to exercise the employee share options, apply to SAFE or its local branches for an annual quota for the payment of foreign currencies in connection with the PRC residents exercise of the employee share options. The foreign exchange proceeds received by the PRC residents from the sale of shares under the stock incentive plans granted and dividends distributed by the overseas listed companies must be remitted into the bank accounts in China opened by the PRC agents before distribution to such PRC residents.

In addition, the SAT, has issued certain circulars concerning employee share options or restricted shares. Under these circulars, the employees working in China who exercise share options or are granted restricted shares will be subject to PRC individual income tax. The PRC subsidiaries of such overseas listed company have obligations to file documents related to employee share options or restricted shares with relevant tax authorities and to withhold individual income taxes of those employees who exercise their share options. If the employees fail to pay or the PRC subsidiaries fail to withhold their income taxes according to relevant laws and regulations, the PRC subsidiaries may face sanctions imposed by the tax authorities or other PRC government authorities.

Regulation Related to Dividend Distribution

The principal regulations governing distribution of dividends of foreign holding companies include the Foreign Investment Enterprise Law, issued in 1986 and amended in 2000 and 2016, and the Implementation Rules for the Foreign Investment Enterprise Law, issued in 1990 and amended in 2001 and 2014 respectively. Under these regulations, foreign investment enterprises in China may pay dividends only out of their accumulated profits, if any, determined in accordance with PRC accounting standards and regulations. In addition, foreign investment enterprises in China may not pay dividends unless they set aside at least 10% of their respective accumulated profits each year, if any, to fund certain reserve funds unless these reserves have

reached 50% of the registered capital of the enterprises. These reserves are not distributable as cash dividends. A PRC company is not permitted to distribute any profits until any losses from prior fiscal years have been offset. Profits retained from prior fiscal years may be distributed together with distributable profits from the current fiscal year.

Regulation Related to Taxation

Enterprise Income Tax

On March 16, 2007, the National Peoples Congress enacted the Enterprise Income Tax Law, which was subsequently amended on February 24, 2017 and December 29, 2018, and on December 6, 2007, the State Council promulgated the Implementing Rules of the Enterprise Income Tax Law (or collectively, the PRC EIT Law). The PRC EIT Law applies a uniform 25% enterprise income tax rate to both foreign-invested enterprises and domestic enterprises, except where tax incentives are granted to special industries and projects. Enterprises qualifying as High and New Technology Enterprises are entitled to a 15% enterprise income tax rate rather than the 25% uniform statutory tax rate. The preferential tax treatment continues as long as an enterprise can retain its High and New Technology Enterprise status.

Under the PRC EIT Law, an enterprise established outside China with its de facto management body located in China is considered a resident enterprise, which means it can be treated as domestic enterprise for enterprise income tax purposes. A non-resident enterprise that does not have an establishment or place of business in China, or has an establishment or place of business in China but the income of which has no actual relationship with such establishment or place of business, shall pay enterprise income tax on its income deriving from inside China at the reduced rate of enterprise income tax of 10%. Dividends generated after January 1, 2008 and payable by a foreign-invested enterprise in China to its foreign enterprise investors are subject to a 10% withholding tax, unless any such foreign investors jurisdiction of incorporation has a tax treaty with China that provides for a preferential withholding arrangement.

Pursuant to the Arrangement between Mainland China and the Hong Kong Special Administrative Region for the Avoidance of Double Taxation and Tax Evasion on Income, the withholding tax rate in respect to the payment of dividends by a PRC enterprise to a Hong Kong enterprise may be reduced to 5% from a standard rate of 10% if the Hong Kong enterprise directly holds at least 25% of the PRC enterprise. Pursuant to the Notice of the State Administration of Taxation on the Issues concerning the Application of the Dividend Clauses of Tax Agreements, a Hong Kong resident enterprise must meet the following conditions, among others, in order to apply the reduced withholding tax rate: (i) it must be a company; (ii) it must directly own the required percentage of equity interests and voting rights in the PRC resident enterprise; and (iii) it must have directly owned such required percentage in the PRC resident enterprise throughout the 12 months prior to receiving the dividends.

In January 2009, the SAT promulgated the Provisional Measures for the Administration of Withholding of Enterprise Income Tax for Non-resident Enterprises, or the Non-resident Enterprises Measures, pursuant to which entities that have direct obligation to make certain payments to a non-resident enterprise shall be the relevant tax withholders for such non-resident enterprise. Further, the Non-resident Enterprises Measures provides that, in case of an equity transfer between two non-resident enterprises which occurs outside China, the non-resident enterprise which receives the equity transfer payment shall, by itself or engage an agent to, file a tax declaration with the PRC tax authority located at the place of the PRC company whose equity has been transferred, and the PRC company whose equity has been transferred shall assist the tax authorities to collect taxes from the relevant non-resident enterprise. On December 10, 2009, the SAT issued the Notice on Strengthening the Administration of the Enterprise Income Tax concerning Proceeds from Equity Transfers by Non-resident Enterprises, or Circular 698, where a foreign investor transfers the equity interests of a PRC resident enterprise indirectly via disposing of the equity interests of an overseas holding company (an Indirect Transfer), and such an overseas holding company is located in a tax jurisdiction that: (i) has an effective tax rate less than 12.5% or (ii) does not tax the foreign income of its residents, the foreign investor shall report this

[Table of Contents](#)

Indirect Transfer to the competent tax authority of the location in which the PRC resident enterprise is located. The PRC tax authority will examine the true nature of the Indirect Transfer, and if the tax authority considers that the foreign investor has adopted an abusive arrangement in order to avoid PRC tax, it may disregard the existence of the overseas holding company and re-characterize the Indirect Transfer

On February 3, 2015, the SAT issued the Announcement of the State Administration of Taxation on Several Issues Concerning the Enterprise Income Tax on Indirect Property Transfer by Non-resident Enterprises, or SAT Bulletin 7, to supersede the provisions in relation to the Indirect Transfer as set forth in Circular 698. SAT Bulletin 7 introduces a new tax regime that is significantly different from that under Circular 698 and extends its tax jurisdiction to capture not only Indirect Transfer as set forth under Circular 698 but also transactions involving transfer of immovable property in China and assets held under the establishment and place in China of a foreign company through the offshore transfer of a foreign intermediate holding company. SAT Bulletin 7 also addresses transfer of the equity interest in a foreign intermediate holding company widely. In addition, SAT Bulletin 7 provides clearer criteria than Circular 698 on how to assess reasonable commercial purposes and introduces safe harbor scenarios applicable to internal group restructurings. However, it also brings challenges to both the foreign transferor and transferee of the Indirect Transfer as set forth in Circular 698 as they have to make self-assessment on whether the transaction should be subject to PRC tax and to file or withhold the PRC tax accordingly.

On October 17, 2017, the SAT issued the Announcement of the State Administration of Taxation on Issues Concerning the Withholding of Non-resident Enterprise Income Tax at Source, or SAT Bulletin 37, which came into effect and superseded the Non-resident Enterprises Measures and Circular 698 on December 1, 2017. The SAT Bulletin 37 further clarifies the practice and procedure of the withholding of non-resident enterprise income tax.

Value-Added Tax and Business Tax

Pursuant to applicable PRC tax regulations, any entity or individual conducting business in the service industry was generally required to pay a business tax at the rate of 5% on the revenues generated from providing such services. However, if the services provided are related to technology development and transfer, such business tax may be exempted subject to approval by the relevant tax authorities. Whereas, pursuant to the Provisional Regulations on PRC Value-Added Tax and its implementation regulations, unless otherwise specified by relevant laws and regulations, any entity or individual engaged in the sales of goods, provision of processing, repairs and replacement services and importation of goods into China is generally required to pay a value-added tax, or VAT, for revenues generated from sales of products, while qualified input VAT paid on taxable purchase can be offset against such output VAT.

In November 2011, the Ministry of Finance and the State Administration of Taxation promulgated the Pilot Plan for Imposition of Value-Added Tax to Replace Business Tax. In March 2016, the Ministry of Finance and the State Administration of Taxation further promulgated the Notice on Fully Promoting the Pilot Plan for Replacing Business Tax by Value-Added Tax, which became effective on May 1, 2016. Pursuant to the pilot plan and relevant notices, VAT is generally imposed in lieu of business tax in the modern service industries, including the value-added telecommunications services, on a nationwide basis. VAT of a rate of 6% applies to revenue derived from the provision of some modern services and VAT of a rate of 3% applies to small-scale taxpayer. Unlike business tax, a general VAT taxpayer is allowed to offset the qualified input VAT paid on taxable purchases against the output VAT chargeable on the modern services provided.

Regulation Related to M&A and Overseas Listings

On August 8, 2006, six PRC regulatory agencies, including the MOFCOM, the State-owned Assets Supervision and Administration Commission, the SAT, the SAIC (currently known as the State Administration for Market Regulation of the PRC, or the SAMR), the China Securities Regulatory Commission, or CSRC, and

[Table of Contents](#)

the SAFE, jointly issued the Regulations on Mergers and Acquisitions of Domestic Enterprises by Foreign Investors, or the M&A Rules, which became effective on September 8, 2006 and was amended on June 22, 2009. The M&A Rules, among other things, require that (i) PRC entities or individuals obtain MOFCOM approval before they establish or control an SPV overseas, provided that they intend to use the SPV to acquire their equity interests in a PRC company at the consideration of newly issued share of the SPV, or Share Swap, and list their equity interests in the PRC company overseas by listing the SPV in an overseas market; (ii) the SPV obtains MOFCOM's approval before it acquires the equity interests held by the PRC entities or PRC individual in the PRC company by Share Swap; and (iii) the SPV obtains CSRC approval before it lists overseas. Our PRC legal counsel, Tian Yuan Law Firm, has advised us that, based on its understanding of the current PRC laws and regulations, we will not be required to submit an application to the CSRC for the approval of the listing and trading of our ADSs on the New York Stock Exchange. However, our PRC legal counsel has further advised us that there remains some uncertainties as to how the M&A Rules will be interpreted or implemented in the context of an overseas offering, and its opinions summarized above are subject to any new laws, rules and regulations or detailed implementations and interpretations in any form relating to the M&A Rules. See Risk Factors Risks Related to The ADSs and This Offering The approval of the China Securities Regulatory Commission may be required in connection with this offering under PRC law.

The Anti-Monopoly Law promulgated by the SCNPC on August 30, 2007 and effective on August 1, 2008 requires that transactions which are deemed concentrations and involve parties with specified turnover thresholds must be cleared by MOFCOM before they can be completed. In addition, on February 3, 2011, the General Office of the State Council promulgated a Notice on Establishing the Security Review System for Mergers and Acquisitions of Domestic Enterprises by Foreign Investors, or Circular 6, which officially established a security review system for mergers and acquisitions of domestic enterprises by foreign investors. Further, on August 25, 2011, MOFCOM promulgated the Regulations on Implementation of Security Review System for the Merger and Acquisition of Domestic Enterprises by Foreign Investors, or the MOFCOM Security Review Regulations, which became effective on September 1, 2011, to implement Circular 6. Under Circular 6, a security review is required for mergers and acquisitions by foreign investors having national defense and security concerns and mergers and acquisitions by which foreign investors may acquire the de facto control of domestic enterprises with national security concerns. Under the MOFCOM Security Review Regulations, MOFCOM will focus on the substance and actual impact of the transaction when deciding whether a specific merger or acquisition is subject to security review. If MOFCOM decides that a specific merger or acquisition is subject to security review, it will submit it to the Inter-Ministerial Panel, an authority established under the Circular 6 led by the NDRC, and MOFCOM under the leadership of the State Council, to carry out the security review. The regulations prohibit foreign investors from bypassing the security review by structuring transactions through trusts, indirect investments, leases, loans, control through contractual arrangements or offshore transactions. See Risk Factors Risks Related to Doing Business in China The M&A Rules and certain other PRC regulations establish complex procedures for some acquisitions of Chinese companies by foreign investors, which could make it more difficult for us to pursue growth through acquisitions in China.

Duties of Directors

Under Cayman Islands law, our directors owe fiduciary duties to our company, including a duty of loyalty, a duty to act honestly, and a duty to act in what they consider in good faith to be in our best interests. Our directors must also exercise their powers only for a proper purpose. Our directors also owe to our company a duty to act with skill and care. It was previously considered that a director need not exhibit in the performance of his or her duties a greater degree of skill than may reasonably be expected from a person of his or her knowledge and experience. However, English and Commonwealth courts have moved towards an objective standard with regard to the required skill and care and these authorities are likely to be followed in the Cayman Islands. In fulfilling their duty of care to us, our directors must ensure compliance with our memorandum and articles of association, as amended and restated from time to time, and the class rights vested thereunder in the holders of the shares. In certain limited exceptional circumstances, a shareholder may have the right to seek damages in our name if a duty owed by our directors is breached.

Our board of directors has all the powers necessary for managing, and for directing and supervising, our business affairs. The functions and powers of our board of directors include, among others:

- convening shareholders annual and extraordinary general meetings and reporting its work to shareholders at such meetings;

declaring dividends and distributions;

appointing officers and determining the term of office of the officers;

exercising the borrowing powers of our company and mortgaging the property of our company; and

approving the transfer of shares in our company, including the registration of such shares in our share register.

Terms of Directors and Officers

Our directors may be elected by a resolution of our board of directors, or by an ordinary resolution of our shareholders. The service of our independent directors may be terminated by the director or by us with a 30-day advance written notice or such other shorter period of notice as mutually agreed. A director will cease to be a director if, among other things, the director (i) becomes bankrupt or makes any arrangement or composition with his creditors; (ii) dies or is found by our company to be or becomes of unsound mind, (iii) resigns his or her office by notice in writing to our company, or (iv) without special leave of absence from our board, is absent from three consecutive board meetings and our directors resolve that his or her office be vacated.

Our officers are elected by and serve at the discretion of our board of directors.

Employment Agreements and Indemnification Agreements

We have entered into employment agreements with each of our executive officers. Under these agreements, each of our executive officers is employed for a specified time period. We may terminate employment for cause, at any time, without advance notice or remuneration, for certain acts of the executive officer, such as conviction or plea of guilty to a felony or any crime involving moral turpitude, negligent or dishonest acts to our detriment, or misconduct or a failure to perform agreed duties. We may also terminate an executive officers employment without cause upon three-month advance written notice. In such case of termination by us, we will provide severance payments to the executive officer as expressly required by applicable law of the jurisdiction where the executive officer is based. The executive officer may resign at any time with a three-month advance written notice.

Each executive officer has agreed to hold, both during and after the termination or expiry of his or her employment agreement, in strict confidence and not to use, except as required in the performance of his or her duties in connection with the employment or pursuant to applicable law, any of our confidential information or trade secrets, any confidential information or trade secrets of our clients or prospective clients, or the confidential or proprietary information of any third-party received by us and for which we have confidential obligations. The executive officers have also agreed to disclose in confidence to us all inventions, designs and trade secrets which they conceive, develop or reduce to practice during the executive officers employment with us and to assign all right, title and interest in them to us, and assist us in obtaining and enforcing patents, copyrights and other legal rights for these inventions, designs and trade secrets.

In addition, each executive officer has agreed to be bound by non-competition and non-solicitation restrictions during the term of his or her employment and typically for one year following the last date of employment. Specifically, each executive officer has agreed not to (i) approach our suppliers, clients, customers or contacts or other persons or entities introduced to the executive officer in his or her capacity as a representative of us for the purpose of doing business with such persons or entities that will harm our business relationships with these persons or entities; (ii) assume employment with or provide services to any of our competitors, or engage, whether as principal, partner, licensor or otherwise, any of our competitors, without our express consent; or (iii) seek directly or indirectly, to solicit the services of any of our employees who is employed by us on or after the date of the executive officers termination, or in the year preceding such termination, without our express consent.

We have also entered into indemnification agreements with each of our directors and executive officers. Under these agreements, we agree to indemnify our directors and executive officers against certain liabilities and expenses incurred by such persons in connection with claims made by reason of their being a director or officer of our company.

Compensation of Directors and Executive Officers

For the year ended December 31, 2018, we paid an aggregate of RMB1.2 million (US\$0.2 million) in cash to our executive officers, and we did not pay any compensation to our non-executive directors. Share Incentive Plan

In March 2019, our shareholders and board of directors adopted the Share Incentive Plan, which we refer to as the Plan in this prospectus, to attract and retain the best available personnel, provide additional incentives to employees, directors and consultants, and promote the success of our business. The maximum aggregate number of ordinary shares that may be issued pursuant to all awards under the Plan is 28,400,000 shares. The shares reserved may be increased automatically if and whenever the unissued shares reserved accounts for less than one percent (1%) of the total then issued and outstanding shares, so that after the increase, the shares unissued and reserved under the Plan immediately after each such increase shall equal to 5% of the then issued and outstanding shares. As of the date of this prospectus, 10,850,475 options have been granted and are outstanding, excluding awards that were exercised, forfeited or canceled after the relevant grant dates.

The following paragraphs describe the principal terms of the Plan.

Type of Awards. The Plan permits the awards of options, restricted share units and restricted shares.

Plan Administration. Our board of directors or a committee appointed by the board of directors will administer the Plan. The committee or the board of directors, as applicable, will determine the participants to receive awards, the fair market value and number of shares covered by the awards to be granted to each participant, and the terms and conditions of each award granted.

Award Agreement. Awards granted under the Plan are evidenced by an award agreement that sets forth the terms, conditions and limitations for each award, which may include the term of the award, restrictions on transfer of the award, and the provisions applicable in the event that the grantees employment or service terminates.

Eligibility. We may grant awards to our employees, directors and consultants.

Vesting Schedule. In general, the plan administrator determines the vesting schedule, which is specified in the relevant award agreement.

Exercise of Awards. The plan administrator determines the exercise or purchase price, as applicable, for each award, which is stated in the relevant award agreement. Options that are vested and exercisable will terminate if they are not exercised prior to the time as the plan administrator determines at the time of grant. However, the maximum exercisable term is 10 years from the date of grant.

Transfer Restrictions. Awards may not be transferred in any manner by the participant other than in accordance with the exceptions provided in the Plan or the relevant award agreement or otherwise determined by the plan administrator, such as transfers by will or the laws of descent and distribution.

Termination and Amendment of the Plan. Unless terminated earlier, the Plan has a term of 10 years. Our board of directors has the authority to terminate, amend, suspend or modify the Plan, subject to shareholder approval to the extent necessary to comply with applicable law. However, without the prior written consent of the participant, no such action may adversely affect in any material way any outstanding award previously granted pursuant to the Plan.

The following table summarizes, as of the date of this prospectus, the outstanding awards granted under the Plan to our directors and executive officers, excluding awards that were exercised, forfeited or canceled after the relevant grant dates.

Our Post-Offering Memorandum and Articles of Association

The following are summaries of material provisions of the post-offering memorandum and articles of association and of the Companies Law, insofar as they relate to the material terms of our ordinary shares.

Objects of Our Company. Under our post-offering memorandum and articles of association, the objects of our company are unrestricted and we have the full power and authority to carry out any object not prohibited by the Cayman Islands law.

Dividends. The holders of our ordinary shares are entitled to such dividends as may be declared by our board of directors or declared by our shareholders by ordinary resolution (provided that no dividend may be declared by our shareholders which exceeds the amount recommended by our directors). Our post-offering memorandum and articles of association provide that dividends may be declared and paid out of our profits, realized or unrealized, or from any reserve set aside from profits which our board of directors determine is no longer needed. Under the laws of the Cayman Islands, our company may pay a dividend out of either profit or share premium account, provided that in no circumstances may a dividend be paid if this would result in our company being unable to pay its debts as they fall due in the ordinary course of business.

Voting Rights. Holders of Class A ordinary shares and Class B ordinary shares shall, at all times, vote together as one class on all matters submitted to a vote by the members at any general meeting of the Company. Each Class A ordinary share shall be entitled to one vote on all matters subject to the vote at general meetings of our company, and each Class B ordinary share shall be entitled to ten votes on all matters subject to the vote at general meetings of our company. Voting at any meeting of shareholders is by show of hands unless a poll is demanded. A poll may be demanded by the chairman of such meeting or any one shareholder present in person or by proxy.

An ordinary resolution to be passed at a meeting by the shareholders requires the affirmative vote of a simple majority of the votes attaching to the ordinary shares cast at a meeting, while a special resolution requires the affirmative vote of no less than two-thirds of the votes cast attaching to the outstanding ordinary shares at a meeting. A special resolution will be required for important matters such as a change of name or making changes to our post-offering memorandum and articles of association. Our shareholders may, among other things, divide or combine their shares by ordinary resolution.

General Meetings of Shareholders. As a Cayman Islands exempted company, we are not obliged by the Companies Law to call shareholders annual general meetings. Our post-offering memorandum and articles of association provide that we may (but are not obliged to) in each year hold a general meeting as our annual general meeting in which case we shall specify the meeting as such in the notices calling it, and the annual general meeting shall be held at such time and place as may be determined by our directors.

Shareholders general meetings may be convened by a majority of our board of directors. A quorum required for any general meeting of shareholders consists of at least one shareholder present or by proxy, representing not less than one-third of all votes attaching to the issued and outstanding shares in our company entitled to vote at general meeting.

The Companies Law provides shareholders with only limited rights to requisition a general meeting, and does not provide shareholders with any right to put any proposal before a general meeting. However, these rights may be provided in a company's articles of association. Our post-offering memorandum and articles of association provide that upon the requisition of any one or more of our shareholders who together hold shares which carry in aggregate not less than one-third of all votes attaching to the issued and outstanding shares of our company entitled to vote at general meetings, our board will convene an extraordinary general meeting and put the resolutions so requisitioned to a vote at such meeting. However, our post-offering memorandum and articles of association do not provide our shareholders with any right to put any proposals before annual general meetings or extraordinary general meetings not called by such shareholders.

Transfer of Ordinary Shares. Subject to the restrictions set out in our post-offering memorandum and articles of association as set out below, any of our shareholders may transfer all or any of his or her ordinary

[Table of Contents](#)

shares by an instrument of transfer in the usual or common form or any other form approved by our board of directors.

Our board of directors may, in its absolute discretion, decline to register any transfer of any ordinary share which is not fully paid up or on which we have a lien. Our board of directors may also decline to register any transfer of any ordinary share unless:

the instrument of transfer is lodged with us, accompanied by the certificate for the ordinary shares to which it relates and such other evidence as our board of directors may reasonably require to show the right of the transferor to make the transfer;

the instrument of transfer is in respect of only one class of ordinary shares;

the instrument of transfer is properly stamped, if required;

in the case of a transfer to joint holders, the number of joint holders to whom the ordinary share is to be transferred does not exceed four; and

a fee of such maximum sum as the New York Stock Exchange may determine to be payable or such lesser sum as our directors may from time to time require is paid to us in respect thereof.

If our directors refuse to register a transfer they shall, within three months after the date on which the instrument of transfer was lodged, send to each of the transferor and the transferee notice of such refusal.

The registration of transfers may, after compliance with any notice required of the New York Stock Exchange, be suspended and the register closed at such times and for such periods as our board of directors may from time to time determine, provided, however, that the registration of transfers shall not be suspended nor the register closed for more than 30 days in any year as our board may determine.

Liquidation. On the winding up of our company, if the assets available for distribution amongst our shareholders shall be more than sufficient to repay the whole of the share capital at the commencement of the winding up, the surplus shall be distributed amongst our shareholders in proportion to the par value of the shares held by them at the commencement of the winding up, subject to a deduction from those shares in respect of which there are monies due, of all monies payable to our company for unpaid calls or otherwise. If our assets available for distribution are insufficient to repay all of the paid-up capital, the assets will be distributed so that the losses are borne by our shareholders in proportion to the par value of the shares held by them.

Calls on Shares and Forfeiture of Shares. Our board of directors may from time to time make calls upon shareholders for any amounts unpaid on their shares in a notice served to such shareholders at least 14 days prior to the specified time and place of payment. The shares that have been called upon and remain unpaid are subject to forfeiture.

Redemption, Repurchase and Surrender of Shares. We may issue shares on terms that such shares are subject to redemption, at our option or at the option of the holders of these shares, on such terms and in such manner as may be determined by either our board of directors or by a special resolution of our shareholders. Our company may also repurchase any of our shares on such terms and in such manner as have been approved by our board of directors or by an ordinary resolution of our shareholders. Under the Companies Law, the redemption or repurchase of any share may be paid out of our Company's profits or out of the proceeds of a new issue of shares made for the purpose of such redemption or repurchase, or out of capital (including share premium account and capital redemption reserve) if our company can, immediately following such payment, pay its debts as they fall due in the ordinary course of business. In addition, under the Companies Law no such share may be redeemed or repurchased (a) unless it is fully paid up, (b) if such redemption or repurchase would result in there being no shares outstanding or (c) if the company has commenced liquidation. In addition, our company may accept the surrender of any fully paid share for no consideration.

[Table of Contents](#)

Variations of Rights of Shares. If at any time, our share capital is divided into different classes or series of shares, the rights attached to any class or series of shares (unless otherwise provided by the terms of issue of the shares of that class or series), whether or not our company is being wound-up, may be varied with the consent in writing of all the holders of the issued shares of that class or series or with the sanction of a resolution passed by a majority of the votes cast at a separate meeting of the holders of the shares of the class or series. The rights conferred upon the holders of the shares of any class issued shall not, unless otherwise expressly provided by the terms of issue of the shares of that class, be deemed to be varied by the creation or issue of further shares ranking *pari passu* with such existing class of shares.

Issuance of Additional Shares. Our post-offering memorandum and articles of association authorize our board of directors to issue additional ordinary shares from time to time as our board of directors shall determine, to the extent of available authorized but unissued shares.

Our post-offering memorandum and articles of association also authorize our board of directors to establish from time to time one or more series of preference shares and to determine, with respect to any series of preference shares, the terms and rights of that series, including:

- the designation of the series;
- the number of shares of the series;
- the dividend rights, dividend rates, conversion rights, voting rights; and
- the rights and terms of redemption and liquidation preferences.

Our board of directors may issue preference shares without action by our shareholders to the extent authorized but unissued. Issuance of these shares may dilute the voting power of holders of ordinary shares.

Inspection of Books and Records. Holders of our ordinary shares will have no general right under Cayman Islands law to inspect or obtain copies of our list of shareholders or our corporate records. However, we will provide our shareholders with annual audited financial statements. See *Where You Can Find Additional Information*.

Anti-Takeover Provisions. Some provisions of our post-offering memorandum and articles of association may discourage, delay or prevent a change of control of our company or management that shareholders may consider favorable, including provisions that:

- authorize our board of directors to issue preference shares in one or more series and to designate the price, rights, preferences, privileges and restrictions of such preference shares without any further vote or action by our shareholders; and
- limit the ability of shareholders to requisition and convene general meetings of shareholders.

However, under Cayman Islands law, our directors may only exercise the rights and powers granted to them under our post-offering memorandum and articles of association for a proper purpose and for what they believe in good faith to be in the best interests of our company.

Exempted Company. We are an exempted company with limited liability under the Companies Law. The Companies Law distinguishes between ordinary resident companies and exempted companies. Any company that is registered in the Cayman Islands but conducts business mainly outside of the Cayman Islands may apply to be registered as an exempted company. The requirements for an exempted company are essentially the same as for an ordinary company except that an exempted company:

- does not have to file an annual return of its shareholders with the Registrar of Companies;
- is not required to open its register of members for inspection;

[Table of Contents](#)

does not have to hold an annual general meeting;

may issue negotiable or bearer shares or shares with no par value;

may obtain an undertaking against the imposition of any future taxation (such undertakings are usually given for 20 years in the first instance);

may register by way of continuation in another jurisdiction and be deregistered in the Cayman Islands;

may register as a limited duration company; and

may register as a segregated portfolio company.

Limited liability means that the liability of each shareholder is limited to the amount unpaid by the shareholder on the shares of the company (except in exceptional circumstances, such as involving fraud, the establishment of an agency relationship or an illegal or improper purpose or other circumstances in which a court may be prepared to pierce or lift the corporate veil).

Differences in Corporate Law

The Companies Law is derived, to a large extent, from the older Companies Acts of England but does not follow recent English statutory enactments and accordingly there are significant differences between the Companies Law and the current Companies Act of England. In addition, the Companies Law differs from laws applicable to U.S. corporations and their shareholders. Set forth below is a summary of certain significant differences between the provisions of the Companies Law applicable to us and the laws applicable to companies incorporated in the United States and their shareholders.

Mergers and Similar Arrangements. The Companies Law permits mergers and consolidations between Cayman Islands companies and between Cayman Islands companies and non-Cayman Islands companies. For these purposes, (i) merger means the merging of two or more constituent companies and the vesting of their undertaking, property and liabilities in one of such companies as the surviving company, and (ii) a consolidation means the combination of two or more constituent companies into a consolidated company and the vesting of the undertaking, property and liabilities of such companies to the consolidated company. In order to effect such a merger or consolidation, the directors of each constituent company must approve a written plan of merger or consolidation, which must then be authorized by (a) a special resolution of the shareholders of each constituent company, and (b) such other authorization, if any, as may be specified in such constituent company's articles of association. The written plan of merger or consolidation must be filed with the Registrar of Companies of the Cayman Islands together with a declaration as to the solvency of the consolidated or surviving company, a list of the assets and liabilities of each constituent company and an undertaking that a copy of the certificate of merger or consolidation will be given to the members and creditors of each constituent company and that notification of the merger or consolidation will be published in the Cayman Islands Gazette. Court approval is not required for a merger or consolidation which is effected in compliance with these statutory procedures.

A merger between a Cayman parent company and its Cayman subsidiary or subsidiaries does not require authorization by a resolution of shareholders of that Cayman subsidiary if a copy of the plan of merger is given to every member of that Cayman subsidiary to be merged unless that member agrees otherwise. For this purpose a company is a parent of a subsidiary if it holds issued shares that together represent at least ninety percent (90%) of the votes at a general meeting of the subsidiary.

The consent of each holder of a fixed or floating security interest over a constituent company is required unless this requirement is waived by a court in the Cayman Islands.

Save in certain limited circumstances, a shareholder of a Cayman constituent company who dissents from the merger or consolidation is entitled to payment of the fair value of his shares (which, if not agreed between the

[Table of Contents](#)

parties, will be determined by the Cayman Islands court) upon dissenting to the merger or consolidation, provide the dissenting shareholder complies strictly with the procedures set out in the Companies Law. The exercise of dissenter rights will preclude the exercise by the dissenting shareholder of any other rights to which he or she might otherwise be entitled by virtue of holding shares, save for the right to seek relief on the grounds that the merger or consolidation is void or unlawful.

Separate from the statutory provisions relating to mergers and consolidations, the Companies Law also contains statutory provisions that facilitate the reconstruction and amalgamation of companies by way of schemes of arrangement, provided that the arrangement is approved by a majority in number of each class of shareholders and creditors with whom the arrangement is to be made, and who must in addition represent three-fourths in value of each such class of shareholders or creditors, as the case may be, that are present and voting either in person or by proxy at a meeting, or meetings, convened for that purpose. The convening of the meetings and subsequently the arrangement must be sanctioned by the Grand Court of the Cayman Islands. While a dissenting shareholder has the right to express to the court the view that the transaction ought not to be approved, the court can be expected to approve the arrangement if it determines that:

the statutory provisions as to the required majority vote have been met;

the shareholders have been fairly represented at the meeting in question and the statutory majority are acting bona fide without coercion of the minority to promote interests adverse to those of the class;

the arrangement is such that may be reasonably approved by an intelligent and honest man of that class acting in respect of his interest; and

the arrangement is not one that would more properly be sanctioned under some other provision of the Companies Law.

The Companies Law also contains a statutory power of compulsory acquisition which may facilitate the squeeze out of dissentient minority shareholder upon a tender offer. When a tender offer is made and accepted by holders of 90.0% of the shares affected within four months, the offeror may, within a two-month period commencing on the expiration of such four month period, require the holders of the remaining shares to transfer such shares to the offeror on the terms of the offer. An objection can be made to the Grand Court of the Cayman Islands but this is unlikely to succeed in the case of an offer which has been so approved unless there is evidence of fraud, bad faith or collusion.

If an arrangement and reconstruction by way of scheme of arrangement is thus approved and sanctioned, or if a tender offer is made and accepted, in accordance with the foregoing statutory procedures, a dissenting shareholder would have no rights comparable to appraisal rights, which would otherwise ordinarily be available to dissenting shareholders of Delaware corporations, providing rights to receive payment in cash for the judicially determined value of the shares.

Shareholders Suits. In principle, we will normally be the proper plaintiff to sue for a wrong done to us as a company, and as a general rule a derivative action may not be brought by a minority shareholder. However, based on English authorities, which would in all likelihood be of persuasive authority in the Cayman Islands, the Cayman Islands court can be expected to follow and apply the common law principles (namely the rule in *Foss v. Harbottle* and the exceptions thereto) so that a non-controlling shareholder may be permitted to commence a class action against or derivative actions in the name of the company to challenge actions where:

a company acts or proposes to act illegally or ultra vires;

the act complained of, although not ultra vires, could only be effected duly if authorized by more than a simple majority vote that has not been obtained; and

those who control the company are perpetrating a fraud on the minority.

Indemnification of Directors and Executive Officers and Limitation of Liability. Cayman Islands law does not limit the extent to which a company's memorandum and articles of association may provide for

[Table of Contents](#)

indemnification of officers and directors, except to the extent any such provision may be held by the Cayman Islands courts to be contrary to public policy, such as to provide indemnification against civil fraud or the consequences of committing a crime. Our post-offering memorandum and articles of association provide that that we shall indemnify our officers and directors against all actions, proceedings, costs, charges, expenses, losses, damages or liabilities incurred or sustained by such directors or officer, other than by reason of such persons dishonesty, willful default or fraud, in or about the conduct of our companys business or affairs (including as a result of any mistake of judgment) or in the execution or discharge of his duties, powers, authorities or discretions, including without prejudice to the generality of the foregoing, any costs, expenses, losses or liabilities incurred by such director or officer in defending (whether successfully or otherwise) any civil proceedings concerning our company or its affairs in any court whether in the Cayman Islands or elsewhere. This standard of conduct is generally the same as permitted under the Delaware General Corporation Law for a Delaware corporation.

In addition, we have entered into indemnification agreements with our directors and executive officers that provide such persons with additional indemnification beyond that provided in our post-offering memorandum and articles of association.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to our directors, officers or persons controlling us under the foregoing provisions, we have been informed that in the opinion of the SEC, such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

Directors Fiduciary Duties. Under Delaware corporate law, a director of a Delaware corporation has a fiduciary duty to the corporation and its shareholders. This duty has two components: the duty of care and the duty of loyalty. The duty of care requires that a director act in good faith, with the care that an ordinarily prudent person would exercise under similar circumstances. Under this duty, a director must inform himself of, and disclose to shareholders, all material information reasonably available regarding a significant transaction. The duty of loyalty requires that a director acts in a manner he reasonably believes to be in the best interests of the corporation. He must not use his corporate position for personal gain or advantage. This duty prohibits self-dealing by a director and mandates that the best interest of the corporation and its shareholders take precedence over any interest possessed by a director, officer or controlling shareholder and not shared by the shareholders generally. In general, actions of a director are presumed to have been made on an informed basis, in good faith and in the honest belief that the action taken was in the best interests of the corporation. However, this presumption may be rebutted by evidence of a breach of one of the fiduciary duties. Should such evidence be presented concerning a transaction by a director, the director must prove the procedural fairness of the transaction, and that the transaction was of fair value to the corporation.

As a matter of Cayman Islands law, a director of a Cayman Islands company is in the position of a fiduciary with respect to the company and therefore it is considered that he owes the following duties to the company a duty to act bona fide in the best interests of the company, a duty not to make a profit based on his position as director (unless the company permits him to do so), a duty not to put himself in a position where the interests of the company conflict with his personal interest or his duty to a third-party, and a duty to exercise powers for the purpose for which such powers were intended. A director of a Cayman Islands company owes to the company a duty to act with skill and care. It was previously considered that a director need not exhibit in the performance of his duties a greater degree of skill than may reasonably be expected from a person of his knowledge and experience. However, English and Commonwealth courts have moved towards an objective standard with regard to the required skill and care and these authorities are likely to be followed in the Cayman Islands.

Shareholder Action by Written Consent. Under the Delaware General Corporation Law, a corporation may eliminate the right of shareholders to act by written consent by amendment to its certificate of incorporation. Cayman Islands law and our post-offering memorandum and articles of association provide that our shareholders may approve corporate matters by way of a unanimous written resolution signed by or on behalf of each

[Table of Contents](#)

shareholder who would have been entitled to vote on such matter at a general meeting without a meeting being held.

Shareholder Proposals. Under the Delaware General Corporation Law, a shareholder has the right to put any proposal before the annual meeting of shareholders, provided it complies with the notice provisions in the governing documents. A special meeting may be called by the board of directors or any other person authorized to do so in the governing documents, but shareholders may be precluded from calling special meetings.

The Companies Law provides shareholders with only limited rights to requisition a general meeting, and does not provide shareholders with any right to put any proposal before a general meeting. However, these rights may be provided in a company's articles of association. Our post-offering memorandum and articles of association allow any one or more of our shareholders who together hold shares which carry in aggregate not less than one-third of the total number of votes attaching to all issued and outstanding shares of our company entitled to vote at general meetings to requisition an extraordinary general meeting of our shareholders, in which case our board is obliged to convene an extraordinary general meeting and to put the resolutions so requisitioned to a vote at such meeting. Other than this right to requisition a shareholders meeting, our post-offering memorandum and articles of association do not provide our shareholders with any other right to put proposals before annual general meetings or extraordinary general meetings. As an exempted Cayman Islands company, we are not obliged by law to call shareholders annual general meetings.

Cumulative Voting. Under the Delaware General Corporation Law, cumulative voting for elections of directors is not permitted unless the corporation's certificate of incorporation specifically provides for it. Cumulative voting potentially facilitates the representation of minority shareholders on a board of directors since it permits the minority shareholder to cast all the votes to which the shareholder is entitled on a single director, which increases the shareholders voting power with respect to electing such director. There are no prohibitions in relation to cumulative voting under the laws of the Cayman Islands but our post-offering memorandum and articles of association do not provide for cumulative voting. As a result, our shareholders are not afforded any less protections or rights on this issue than shareholders of a Delaware corporation.

Removal of Directors. Under the Delaware General Corporation Law, a director of a corporation with a classified board may be removed only for cause with the approval of a majority of the outstanding shares entitled to vote, unless the certificate of incorporation provides otherwise. Under our post-offering memorandum and articles of association, directors may be removed with or without cause, by an ordinary resolution of our shareholders.

Transactions with Interested Shareholders. The Delaware General Corporation Law contains a business combination statute applicable to Delaware corporations whereby, unless the corporation has specifically elected not to be governed by such statute by amendment to its certificate of incorporation, it is prohibited from engaging in certain business combinations with an interested shareholder for three years following the date that such person becomes an interested shareholder. An interested shareholder generally is a person or a group who or which owns or owned 15% or more of the target's outstanding voting share within the past three years. This has the effect of limiting the ability of a potential acquirer to make a two-tiered bid for the target in which all shareholders would not be treated equally. The statute does not apply if, among other things, prior to the date on which such shareholder becomes an interested shareholder, the board of directors approves either the business combination or the transaction which resulted in the person becoming an interested shareholder. This encourages any potential acquirer of a Delaware corporation to negotiate the terms of any acquisition transaction with the target's board of directors.

Cayman Islands law has no comparable statute. As a result, we cannot avail ourselves of the types of protections afforded by the Delaware business combination statute. However, although Cayman Islands law does not regulate transactions between a company and its significant shareholders, it does provide that such transactions must be entered into bona fide in the best interests of the company and not with the effect of constituting a fraud on the minority shareholders.

[Table of Contents](#)

Dissolution; Winding up. Under the Delaware General Corporation Law, unless the board of directors approves the proposal to dissolve, dissolution must be approved by shareholders holding 100% of the total voting power of the corporation. Only if the dissolution is initiated by the board of directors may it be approved by a simple majority of the corporations outstanding shares. Delaware law allows a Delaware corporation to include in its certificate of incorporation a supermajority voting requirement in connection with dissolutions initiated by the board.

Under Cayman Islands law, a company may be wound up by either an order of the courts of the Cayman Islands or by a special resolution of its members or, if the company is unable to pay its debts as they fall due, by an ordinary resolution of its members. The court has authority to order winding up in a number of specified circumstances including where it is, in the opinion of the court, just and equitable to do so. Under the Companies Law and our post-offering memorandum and articles of association, our company may be dissolved, liquidated or wound up by a special resolution of our shareholders.

Variation of Rights of Shares. Under the Delaware General Corporation Law, a corporation may vary the rights of a class of shares with the approval of a majority of the outstanding shares of such class, unless the certificate of incorporation provides otherwise. Under our post-offering memorandum and articles of association, if our share capital is divided into more than one class of shares, we may vary the rights attached to any class with the written consent of the holders of all of the issued shares of that class or with the sanction of a resolution passed by a majority of the votes cast at a separate meeting of the holders of the shares of that class.

Amendment of Governing Documents. Under the Delaware General Corporation Law, a corporations governing documents may be amended with the approval of a majority of the outstanding shares entitled to vote, unless the certificate of incorporation provides otherwise. Under the Companies Law and our post-offering memorandum and articles of association, our memorandum and articles of association may only be amended by a special resolution of our shareholders.

Rights of Non-resident or Foreign Shareholders. There are no limitations imposed by our post-offering memorandum and articles of association on the rights of non-resident or foreign shareholders to hold or exercise voting rights on our shares. In addition, there are no provisions in our post-offering memorandum and articles of association governing the ownership threshold above which shareholder ownership must be disclosed.

Grant of Options

We have granted options to certain of our directors, executive officers and employees. As of the date of this prospectus, the aggregate number of outstanding options is 10,850,475. See ManagementShare Incentive Plan.

Shareholders Agreement

We entered into our amended and restated shareholders agreement on March 15, 2019 with our shareholders, which consist of holders of ordinary shares and preferred shares. The shareholders agreement

[Table of Contents](#)

provides for certain shareholders rights, including information and inspection rights, right of participation, right of first refusal and co-sale rights, and contains provisions governing our board of directors and other corporate governance matters. The special rights, as well as the corporate governance provisions, will automatically terminate upon the completion of this offering.

Registration Rights

We have granted certain registration rights to our shareholders. Set forth below is a description of the registration rights granted under the shareholders agreement.

Demand Registration Rights. At any time after the earlier of (i) June 1, 2020 or (ii) one year following the closing of a qualified initial public offering, holders of at least 50% of the registrable securities (including preferred shares and ordinary shares issued upon conversion of preferred shares) then outstanding have the right to demand that we file a registration statement of all registrable securities that the holders request to be registered and included in such registration statement by written notice. Other than required by the underwriter(s) in connection with our initial public offering, at least 20% (or any lesser percentage if the anticipated gross proceeds to our company from such proposed offering would exceed US\$5,000,000) of the registrable securities requested by the holders to be included in such underwriting and registration shall be so included. We have the right to defer filing of a registration statement for a period of not more than 90 days after the receipt of the request of the initiating holders if we furnish to the holders requesting registration a certificate signed by our president or chief executive officer stating that in the good faith judgment of our board of directors, it would be materially detrimental to us and our shareholders for such registration statement to be filed at such time. However, we cannot exercise the deferral right more than once in any twelve-month period. We are obligated to effect no more than two demand registrations, other than demand registration to be effected pursuant to registration statement on Form F-3, for which an unlimited number of demand registrations shall be permitted.

Piggyback Registration Rights. If we propose to file a registration statement for a public offering of our securities, we must offer shareholders an opportunity to include in the registration statement all or any part of the registrable securities held by such holders. If the managing underwriters of any underwritten offering determine in good faith that marketing factors require a limitation of the number of shares to be underwritten, and the number of shares that may be included in the registration statement and the underwriting shall be allocated (i) first, to us, (ii) second, to each holder requesting inclusion of its registrable securities in such registration statement on a pro rata basis based on the total number of registrable securities then held by each such holder, (iii) third, to holders of other securities of us.

Form F-3 Registration Rights. Our shareholders may request us in writing to file an unlimited number of registration statements on Form F-3. We shall effect the registration of the securities on Form F-3 as soon as practicable, except in certain circumstances.

Expenses of Registration. We will bear all registration expenses (other than underwriting discounts and commissions, the holders fees for special counsel and fees charged or payable to the depository bank) and expenses incurred by holders upon our or an underwriters request in connection with any demand, piggyback or Form F-3 registration.

Termination of Registration Rights. Our shareholders registration rights will terminate upon the earlier of (i) the fifth anniversary of the completion of a qualified public offering, (ii) the termination, liquidation, dissolution of our company or a liquidation event, and (iii) as to any shareholder when the shares subject to registration rights held by such shareholder can be sold without registration in any 90-day period pursuant to Rule 144 promulgated under the Securities Act of 1933, as amended.

DESCRIPTION OF AMERICAN DEPOSITARY SHARES

American Depositary Shares

Deutsche Bank Trust Company Americas, as depositary, will register and deliver the ADSs. Every three ADSs represent ownership of two Class A ordinary shares, deposited with Deutsche Bank AG, Hong Kong Branch, as custodian for the depositary. Each ADS will also represent ownership of any other securities, cash or other property which may be held by the depositary. The depositary's corporate trust office at which the ADSs will be administered is located at 60 Wall Street, New York, NY 10005, USA. The principal executive office of the depositary is located at 60 Wall Street, New York, NY 10005, USA.

The Direct Registration System, or DRS, is a system administered by The Depository Trust Company, or DTC, pursuant to which the depositary may register the ownership of uncertificated ADSs, which ownership shall be evidenced by periodic statements issued by the depositary to the ADS holders entitled thereto.

We will not treat ADS holders as our shareholders and accordingly, you, as an ADS holder, will not have shareholder rights. Cayman Islands law governs shareholder rights. The depositary will be the holder of the shares underlying your ADSs. As a holder of ADSs, you will have ADS holder rights. A deposit agreement among us, the depositary and you, as an ADS holder, and the beneficial owners of ADSs sets out ADS holder rights as well as the rights and obligations of the depositary. The laws of the State of New York govern the deposit agreement and the ADSs. See Jurisdiction and Arbitration.

The following is a summary of the material provisions of the deposit agreement. For more complete information, you should read the entire deposit agreement and the form of American Depositary Receipt. For directions on how to obtain copies of those documents, see Where You Can Find Additional Information.

Holding the ADSs

How will you hold your ADSs?

You may hold ADSs either (1) directly (a) by having an American Depositary Receipt, or ADR, which is a certificate evidencing a specific number of ADSs, registered in your name, or (b) by holding ADSs in DRS, or (2) indirectly through your broker or other financial institution. If you hold ADSs directly, you are an ADS holder. This description assumes you hold your ADSs directly. ADSs will be issued through DRS, unless you specifically request certificated ADRs. If you hold the ADSs indirectly, you must rely on the procedures of your broker or other financial institution to assert the rights of ADS holders described in this section. You should consult with your broker or financial institution to find out what those procedures are.

Dividends and Other Distributions

How will you receive dividends and other distributions on the shares?

The depositary has agreed to pay to you the cash dividends or other distributions it or the custodian receives on shares or other deposited securities, after deducting its fees and expenses. You will receive these distributions in proportion to the number of shares that your ADSs represent as of the record date (which will be as close as practicable to the record date for our shares) set by the depositary with respect to the ADSs.

Cash. The depositary will convert or cause to be converted any cash dividend or other cash distribution we pay on the shares or any net proceeds from the sale of any shares, rights, securities or other entitlements under the terms of the deposit agreement into U.S. dollars if it can do so on a practicable basis, and can transfer the U.S. dollars to the United States and will distribute promptly the amount thus received. If the depositary shall determine in its judgment that such conversions or transfers are not practical or lawful or if any government approval or license is needed and cannot be obtained at a reasonable cost within a reasonable period or otherwise sought, the deposit agreement allows the

[Table of Contents](#)

depository to distribute the foreign currency only to those ADS holders to whom it is possible to do so. It will hold or cause the custodian to hold the foreign currency it cannot convert for the account of the ADS holders who have not been paid and such funds will be held for the respective accounts of the ADS holders. It will not invest the foreign currency and it will not be liable for any interest for the respective accounts of the ADS holders. Before making a distribution, any taxes or other governmental charges, together with fees and expenses of the depository, that must be paid, will be deducted. See Taxation. It will distribute only whole U.S. dollars and cents and will round down fractional cents to the nearest whole cent. *If the exchange rates fluctuate during a time when the depository cannot convert the foreign currency, you may lose some or all of the value of the distribution.*

Shares. For any shares we distribute as a dividend or free distribution, either (1) the depository will distribute additional ADSs representing such shares or (2) existing ADSs as of the applicable record date will represent rights and interests in the additional shares distributed, to the extent reasonably practicable and permissible under law, in either case, net of applicable fees, charges and expenses incurred by the depository and taxes and/or other governmental charges. The depository will only distribute whole ADSs. It will try to sell shares which would require it to deliver a fractional ADS and distribute the net proceeds in the same way as it does with cash. The depository may sell a portion of the distributed shares sufficient to pay its fees and expenses, and any taxes and governmental charges, in connection with that distribution.

Elective Distributions in Cash or Shares. If we offer holders of our shares the option to receive dividends in either cash or shares, the depository, after consultation with us and having received timely notice as described in the deposit agreement of such elective distribution by us, has discretion to determine to what extent such elective distribution will be made available to you as a holder of the ADSs. We must timely first instruct the depository to make such elective distribution available to you and furnish it with satisfactory evidence that it is legal to do so. The depository could decide it is not legal or reasonably practicable to make such elective distribution available to you. In such case, the depository shall, on the basis of the same determination as is made in respect of the shares for which no election is made, distribute either cash in the same way as it does in a cash distribution, or additional ADSs representing shares in the same way as it does in a share distribution. The depository is not obligated to make available to you a method to receive the elective dividend in shares rather than in ADSs. There can be no assurance that you will be given the opportunity to receive elective distributions on the same terms and conditions as the holders of shares.

Rights to Purchase Additional Shares. If we offer holders of our shares any rights to subscribe for additional shares, the depository shall having received timely notice as described in the deposit agreement of such distribution by us, consult with us, and we must determine whether it is lawful and reasonably practicable to make these rights available to you. We must first instruct the depository to make such rights available to you and furnish the depository with satisfactory evidence that it is legal to do so. If the depository decides it is not legal or reasonably practicable to make the rights available but that it is lawful and reasonably practicable to sell the rights, the depository will endeavor to sell the rights and in a riskless principal capacity or otherwise, at such place and upon such terms (including public or private sale) as it may deem proper distribute the net proceeds in the same way as it does with cash.

The depository will allow rights that are not distributed or sold to lapse. In that case, you will receive no value for them.

If the depository makes rights available to you, it will establish procedures to distribute such rights and enable you to exercise the rights upon your payment of applicable fees, charges and expenses incurred by the depository and taxes and/or other governmental charges. The Depository shall not be obliged to make available to you a method to exercise such rights to subscribe for shares (rather than ADSs).

U.S. securities laws may restrict transfers and cancellation of the ADSs represented by shares purchased upon exercise of rights. For example, you may not be able to trade these ADSs freely in the United States. In this case, the depositary may deliver restricted depositary shares that have the same terms as the ADSs described in this section except for changes needed to put the necessary restrictions in place.

There can be no assurance that you will be given the opportunity to exercise rights on the same terms and conditions as the holders of shares or be able to exercise such rights.

Other Distributions. Subject to receipt of timely notice, as described in the deposit agreement, from us with the request to make any such distribution available to you, and provided the depositary has determined such distribution is lawful and reasonably practicable and feasible and in accordance with the terms of the deposit agreement, the depositary will distribute to you anything else we distribute on deposited securities by any means it may deem practicable, upon your payment of applicable fees, charges and expenses incurred by the depositary and taxes and/or other governmental charges. If any of the conditions above are not met, the depositary will endeavor to sell, or cause to be sold, what we distributed and distribute the net proceeds in the same way as it does with cash; or, if it is unable to sell such property, the depositary may dispose of such property in any way it deems reasonably practicable under the circumstances for nominal or no consideration, such that you may have no rights to or arising from such property.

The depositary is not responsible if it decides that it is unlawful or impractical to make a distribution available to any ADS holders. We have no obligation to register ADSs, shares, rights or other securities under the Securities Act. We also have no obligation to take any other action to permit the distribution of ADSs, shares, rights or anything else to ADS holders. This means that you may not receive the distributions we make on our shares or any value for them if we and/or the depositary determines that it is illegal or not practicable for us or the depositary to make them available to you.

Deposit, Withdrawal and Cancellation

How are ADSs issued?

The depositary will deliver ADSs if you or your broker deposit shares or evidence of rights to receive shares with the custodian. Upon payment of its fees and expenses and of any taxes or charges, such as stamp taxes or stock transfer taxes or fees, the depositary will register the appropriate number of ADSs in the names you request and will deliver the ADSs to or upon the order of the person or persons entitled thereto.

Except for shares deposited by us in connection with this offering, no shares will be accepted for deposit during a period of 180 days after the date of this prospectus. The 180 day lock up period is subject to adjustment under certain circumstances as described in the section entitled Shares Eligible for Future SalesLock-up Agreements.

How do ADS holders cancel an American Depositary Share?

You may turn in your ADSs at the depositary's corporate trust office or by providing appropriate instructions to your broker. Upon payment of its fees and expenses and of any taxes or charges, such as stamp taxes or stock transfer taxes or fees, the depositary will deliver the shares and any other deposited securities underlying the ADSs to you or a person you designate at the office of the custodian. Or, at your request, risk and expense, the depositary will deliver the deposited securities at its corporate trust office, to the extent permitted by law.

How do ADS holders interchange between Certificated ADSs and Uncertificated ADSs?

You may surrender your ADR to the depositary for the purpose of exchanging your ADR for uncertificated ADSs. The depositary will cancel that ADR and will send you a statement confirming that you are the owner of

[Table of Contents](#)

uncertificated ADSs. Alternatively, upon receipt by the depositary of a proper instruction from a holder of uncertificated ADSs requesting the exchange of uncertificated ADSs for certificated ADSs, the depositary will execute and deliver to you an ADR evidencing those ADSs.

Voting Rights

How do you vote?

You may instruct the depositary to vote the shares or other deposited securities underlying your ADSs at any meeting at which you are entitled to vote pursuant to any applicable law, the provisions of our memorandum and articles of association, and the provisions of or governing the deposited securities. *Otherwise, you could exercise your right to vote directly if you withdraw the shares. However, you may not know about the meeting sufficiently enough in advance to withdraw the shares.*

If we ask for your instructions and upon timely notice from us by regular, ordinary mail delivery, or by electronic transmission, as described in the deposit agreement, the depositary will notify you of the upcoming meeting at which you are entitled to vote pursuant to any applicable law, the provisions of our memorandum and articles of association, and the provisions of or governing the deposited securities, and arrange to deliver our voting materials to you. The materials will include or reproduce (a) such notice of meeting or solicitation of consents or proxies; (b) a statement that the ADS holders at the close of business on the ADS record date will be entitled, subject to any applicable law, the provisions of our memorandum and articles of association, and the provisions of or governing the deposited securities, to instruct the depositary as to the exercise of the voting rights, if any, pertaining to the shares or other deposited securities represented by such holders ADSs; and (c) a brief statement as to the manner in which such instructions may be given or deemed given in accordance with the second to last sentence of this paragraph if no instruction is received, to the depositary to give a discretionary proxy to a person designated by us. Voting instructions may be given only in respect of a number of ADSs representing an integral number of shares or other deposited securities. For instructions to be valid, the depositary must receive them in writing on or before the date specified. The depositary will try, as far as practical, subject to applicable law and the provisions of our memorandum and articles of association, to vote or to have its agents vote the shares or other deposited securities (in person or by proxy) as you instruct. The depositary will only vote or attempt to vote as you instruct. If we timely requested the depositary to solicit your instructions but no instructions are received by the depositary from an owner with respect to any of the deposited securities represented by the ADSs of that owner on or before the date established by the depositary for such purpose, the depositary shall deem that owner to have instructed the depositary to give a discretionary proxy to a person designated by us with respect to such deposited securities, and the depositary shall give a discretionary proxy to a person designated by us to vote such deposited securities. However, no such instruction shall be deemed given and no such discretionary proxy shall be given with respect to any matter if we inform the depositary we do not wish such proxy given, substantial opposition exists or the matter materially and adversely affects the rights of holders of the Class A ordinary shares.

We cannot assure you that you will receive the voting materials in time to ensure that you can instruct the depositary to vote the shares underlying your ADSs. In addition, there can be no assurance that ADS holders and beneficial owners generally, or any holder or beneficial owner in particular, will be given the opportunity to vote or cause the custodian to vote on the same terms and conditions as the holders of our shares.

The depositary and its agents are not responsible for failing to carry out voting instructions or for the manner of carrying out voting instructions. *This means that you may not be able to exercise your right to vote and you may have no recourse if the shares underlying your ADSs are not voted as you requested.*

In order to give you a reasonable opportunity to instruct the depositary as to the exercise of voting rights relating to deposited securities, if we request the depositary to act, we will give the depositary notice of any such meeting and details concerning the matters to be voted at least 30 business days in advance of the meeting date.

[Table of Contents](#)**Compliance with Regulations*****Information Requests***

Each ADS holder and beneficial owner shall (a) provide such information as we or the depositary may request pursuant to law, including, without limitation, relevant Cayman Islands law, any applicable law of the United States of America, our memorandum and articles of association, any resolutions of our Board of Directors adopted pursuant to such memorandum and articles of association, the requirements of any markets or exchanges upon which the shares, ADSs or ADRs are listed or traded, or to any requirements of any electronic book-entry system by which the ADSs or ADRs may be transferred, regarding the capacity in which they own or owned ADRs, the identity of any other persons then or previously interested in such ADRs and the nature of such interest, and any other applicable matters, and (b) be bound by and subject to applicable provisions of the laws of the Cayman Islands, our memorandum and articles of association, and the requirements of any markets or exchanges upon which the ADSs, ADRs or shares are listed or traded, or pursuant to any requirements of any electronic book-entry system by which the ADSs, ADRs or shares may be transferred, to the same extent as if such ADS holder or beneficial owner held shares directly, in each case irrespective of whether or not they are ADS holders or beneficial owners at the time such request is made.

Disclosure of Interests

Each ADS holder and beneficial owner shall comply with our requests pursuant to Cayman Islands law, the rules and requirements of the New York Stock Exchange and any other stock exchange on which the shares are, or will be, registered, traded or listed or our memorandum and articles of association, which requests are made to provide information, inter alia, as to the capacity in which such ADS holder or beneficial owner owns ADS and regarding the identity of any other person interested in such ADS and the nature of such interest and various other matters, whether or not they are ADS holders or beneficial owners at the time of such requests.

Fees and Expenses

As an ADS holder, you will be required to pay the following service fees to the depositary bank and certain taxes and governmental charges (in addition to any applicable fees, expenses, taxes and other governmental charges payable on the deposited securities represented by any of your ADSs):

Service	Fees

Table of Contents

As an ADS holder, you will also be responsible to pay certain fees and expenses incurred by the depositary bank and certain taxes and governmental charges (in addition to any applicable fees, expenses, taxes and other governmental charges payable on the deposited securities represented by any of your ADSs) such as:

Fees for the transfer and registration of shares charged by the registrar and transfer agent for the shares in the Cayman Islands (i.e., upon deposit and withdrawal of shares).

Expenses incurred for converting foreign currency into U.S. dollars.

Expenses for cable, telex and fax transmissions and for delivery of securities.

Taxes and duties upon the transfer of securities, including any applicable stamp duties, any stock transfer charges or withholding taxes (i.e., when shares are deposited or withdrawn from deposit).

Fees and expenses incurred in connection with the delivery or servicing of shares on deposit.

Fees and expenses incurred in connection with complying with exchange control regulations and other regulatory requirements applicable to shares, deposited securities, ADSs and ADRs.

Any applicable fees and penalties thereon.

The depositary fees payable upon the issuance and cancellation of ADSs are typically paid to the depositary bank by the brokers (on behalf of their clients) receiving the newly issued ADSs from the depositary bank and by the brokers (on behalf of their clients) delivering the ADSs to the depositary bank for cancellation. The brokers in turn charge these fees to their clients. Depositary fees payable in connection with distributions of cash or securities to ADS holders and the depositary services fee are charged by the depositary bank to the holders of record of ADSs as of the applicable ADS record date.

The depositary fees payable for cash distributions are generally deducted from the cash being distributed or by selling a portion of distributable property to pay the fees. In the case of distributions other than cash (i.e., share dividends, rights), the depositary bank charges the applicable fee to the ADS record date holders concurrent with the distribution. In the case of ADSs registered in the name of the investor (whether certificated or uncertificated in direct registration), the depositary bank sends invoices to the applicable record date ADS holders. In the case of ADSs held in brokerage and custodian accounts (via DTC), the depositary bank generally collects its fees through the systems provided by DTC (whose nominee is the registered holder of the ADSs held in DTC) from the brokers and custodians holding ADSs in their DTC accounts. The brokers and custodians who hold their clients ADSs in DTC accounts in turn charge their clients accounts the amount of the fees paid to the depositary banks.

In the event of refusal to pay the depositary fees, the depositary bank may, under the terms of the deposit agreement, refuse the requested service until payment is received or may set off the amount of the depositary fees from any distribution to be made to the ADS holder.

The depositary may make payments to us or reimburse us for certain costs and expenses, by making available a portion of the ADS fees collected in respect of the ADR program or otherwise, upon such terms and conditions as we and the depositary bank agree from time to time.

Payment of Taxes

You will be responsible for any taxes or other governmental charges payable, or which become payable, on your ADSs or on the deposited securities represented by any of your ADSs. The depositary may refuse to register or transfer your ADSs or allow you to withdraw the deposited securities represented by your ADSs until such taxes or other charges are paid. It may apply payments owed to you or sell deposited securities represented by your ADSs to pay any taxes owed and you will remain liable for any deficiency. If the depositary sells deposited securities, it will, if appropriate, reduce the number of ADSs to reflect the sale and pay to you any net proceeds,

[Table of Contents](#)

or send to you any property, remaining after it has paid the taxes. You agree to indemnify us, the depositary, the custodian and each of our and their respective agents, directors, employees and affiliates for, and hold each of them harmless from, any claims with respect to taxes (including applicable interest and penalties thereon) arising from any refund of taxes, reduced rate of withholding at source or other tax benefit obtained for you. Your obligations under this paragraph shall survive any transfer of ADRs, any surrender of ADRs and withdrawal of deposited securities or the termination of the deposit agreement.

Reclassifications, Recapitalizations and Mergers

If we:	Then:
Change the nominal or par value of our shares	The cash, shares or other securities received by the depositary will become deposited securities.
Reclassify, split up or consolidate any of the deposited securities	Each ADS will automatically represent its equal share of the new deposited securities.
Distribute securities on the shares that are not distributed to you, or recapitalize, reorganize, merge, liquidate, sell all or substantially all of our assets, or take any similar action	The depositary may distribute some or all of the cash, shares or other securities it received. It may also deliver new ADSs or ask you to surrender your outstanding ADRs in exchange for new ADRs identifying the new deposited securities.

Amendment and Termination

How may the deposit agreement be amended?

We may agree with the depositary to amend the deposit agreement and the form of ADR without your consent for any reason. If an amendment adds or increases fees or charges, except for taxes and other governmental charges or expenses of the depositary for registration fees, facsimile costs, delivery charges or similar items, including expenses incurred in connection with foreign exchange control regulations and other charges specifically payable by ADS holders under the deposit agreement, or materially prejudices a substantial existing right of ADS holders, it will not become effective for outstanding ADSs until 30 days after the depositary notifies ADS holders of the amendment. *At the time an amendment becomes effective, you are considered, by continuing to hold your ADSs, to agree to the amendment and to be bound by the ADRs and the deposit agreement as amended.* If any new laws are adopted which would require the deposit agreement to be amended in order to comply therewith, we and the depositary may amend the deposit agreement in accordance with such laws and such amendment may become effective before notice thereof is given to ADS holders.

How may the deposit agreement be terminated?

The depositary will terminate the deposit agreement if we ask it to do so, in which case the depositary will give notice to you at least 90 days prior to termination. The depositary may also terminate the deposit agreement if the depositary has told us that it would like to resign, or if we have removed the depositary, and in either case we have not appointed a new depositary within 90 days. In either such case, the depositary must notify you at least 30 days before termination.

After termination, the depositary and its agents will do the following under the deposit agreement but nothing else: collect distributions on the deposited securities, sell rights and other property and deliver shares and other deposited securities upon cancellation of ADSs after payment of any fees, charges, taxes or other governmental charges. Six months or more after the date of termination, the depositary may sell any remaining deposited securities by public or private sale. After that, the depositary will hold the money it received on the sale, as well as any other cash it is holding under the deposit agreement, for the pro rata benefit of the ADS holders that have not surrendered their ADSs. It will not invest the money and has no liability for interest. After

[Table of Contents](#)

such sale, the depositary's only obligations will be to account for the money and other cash. After termination, we shall be discharged from all obligations under the deposit agreement except for our obligations to the depositary thereunder.

Books of Depositary

The depositary will maintain ADS holder records at its depositary office. You may inspect such records at such office during regular business hours but solely for the purpose of communicating with other holders in the interest of business matters relating to the Company, the ADRs and the deposit agreement.

The depositary will maintain facilities in the Borough of Manhattan, The City of New York to record and process the issuance, cancellation, combination, split-up and transfer of ADRs.

These facilities may be closed at any time or from time to time when such action is deemed necessary or advisable by the depositary in connection with the performance of its duties under the deposit agreement or at our reasonable written request.

Limitations on Obligations and Liability

Limits on our Obligations and the Obligations of the Depositary and the Custodian; Limits on Liability to Holders of ADSs

The deposit agreement expressly limits our obligations and the obligations of the depositary and the custodian. It also limits our liability and the liability of the depositary. The depositary and the custodian:

are only obligated to take the actions specifically set forth in the deposit agreement without gross negligence or willful misconduct;

are not liable if any of us or our respective controlling persons or agents are prevented or forbidden from, or subjected to any civil or criminal penalty or restraint on account of, or delayed in, doing or performing any act or thing required by the terms of the deposit agreement and any ADR, by reason of any provision of any present or future law or regulation of the United States or any state thereof, the Cayman Islands or any other country, or of any other governmental authority or regulatory authority or stock exchange, or on account of the possible criminal or civil penalties or restraint, or by reason of any provision, present or future, of our memorandum and articles of association or any provision of or governing any deposited securities, or by reason of any act of God or war or other circumstances beyond its control (including, without limitation, nationalization, expropriation, currency restrictions, work stoppage, strikes, civil unrest, revolutions, rebellions, explosions and computer failure);

are not liable by reason of any exercise of, or failure to exercise, any discretion provided for in the deposit agreement or in our memorandum and articles of association or provisions of or governing deposited securities;

are not liable for the inability of any holder of ADSs to benefit from any distribution on deposited securities that is not made available to holders of ADSs under the terms of the deposit agreement;

are not liable for any special, consequential, indirect or punitive damages for any breach of the terms of the deposit agreement, or otherwise;

may rely upon any documents we believe in good faith to be genuine and to have been signed or presented by the proper party;

[Table of Contents](#)

disclaim any liability for any action or inaction or inaction of any of us or our respective controlling persons or agents in reliance upon the advice of or information from legal counsel, accountants, any person presenting shares for deposit, holders and beneficial owners (or authorized representatives) of ADSs, or any person believed in good faith to be competent to give such advice or information; and

disclaim any liability for inability of any holder to benefit from any distribution, offering, right or other benefit made available to holders of deposited securities but not made available to holders of ADS.

The depositary and any of its agents also disclaim any liability (i) for any failure to carry out any instructions to vote, the manner in which any vote is cast or the effect of any vote or failure to determine that any distribution or action may be lawful or reasonably practicable or for allowing any rights to lapse in accordance with the provisions of the deposit agreement, (ii) the failure or timeliness of any notice from us, the content of any information submitted to it by us for distribution to you or for any inaccuracy of any translation thereof, (iii) any investment risk associated with the acquisition of an interest in the deposited securities, the validity or worth of the deposited securities, the credit-worthiness of any third party, (iv) for any tax consequences that may result from ownership of ADSs, shares or deposited securities, or (v) for any acts or omissions made by a successor depositary whether in connection with a previous act or omission of the depositary or in connection with any matter arising wholly after the removal or resignation of the depositary, provided that in connection with the issue out of which such potential liability arises the depositary performed its obligations without gross negligence or willful misconduct while it acted as depositary.

In the deposit agreement, we agree to indemnify the depositary under certain circumstances.

Jurisdiction and Arbitration

The laws of the State of New York govern the deposit agreement and the ADSs and we have agreed with the depositary that the federal or state courts in the City of New York shall have exclusive jurisdiction to hear and determine any dispute arising from or in connection with the deposit agreement and that the depositary will have the right to refer any claim or dispute arising from the relationship created by the deposit agreement to arbitration in accordance with the Commercial Arbitration Rules of the American Arbitration Association. The arbitration provisions of the deposit agreement do not preclude you from pursuing claims under the Securities Act or the Exchange Act in federal courts.

Jury Trial Waiver

The deposit agreement provides that each party to the deposit agreement (including each holder, beneficial owner and holder of interest in the ADRs) irrevocably waives, to the fullest extent permitted by applicable law, any right it may have to trial by jury in any lawsuit or proceedings against us or the depositary arising out of or relating to our shares, the ADSs or the deposit agreement, including any claim under U.S. federal securities laws. If we or the depositary opposed a jury trial demand based on the waiver, the court would determine whether the waiver was enforceable based on the facts and circumstances of the case in accordance with the applicable law. No condition, stipulation or provision of the deposit agreement or ADSs serves as a waiver by any holder or beneficial owner of ADSs or by us or the depositary of compliance with the U.S. federal securities laws and the rules and regulations promulgated thereunder.

Requirements for Depositary Actions

Before the depositary will issue, deliver or register a transfer of an ADS, split-up, subdivide or combine ADSs, make a distribution on an ADS, or permit withdrawal of shares, the depositary may require:

payment of stock transfer or other taxes or other governmental charges and transfer or registration fees charged by third parties for the transfer of any shares or other deposited securities and payment of the applicable fees, expenses and charges of the depositary;

[Table of Contents](#)

satisfactory proof of the identity and genuineness of any signature or any other matters contemplated in the deposit agreement; and compliance with (A) any laws or governmental regulations relating to the execution and delivery of ADRs or ADSs or to the withdrawal or delivery of deposited securities and (B) such reasonable regulations and procedures as the depositary may establish, from time to time, consistent with the deposit agreement and applicable laws, including presentation of transfer documents.

The depositary may refuse to issue and deliver ADSs or register transfers of ADSs generally when the register of the depositary or our transfer books are closed or at any time if the depositary or we determine that it is necessary or advisable to do so.

Your Right to Receive the Shares Underlying Your ADSs

You have the right to cancel your ADSs and withdraw the underlying shares at any time except:

when temporary delays arise because: (1) the depositary has closed its transfer books or we have closed our transfer books; (2) the transfer of shares is blocked to permit voting at a shareholders meeting; or (3) we are paying a dividend on our shares;

when you owe money to pay fees, taxes and similar charges;

when it is necessary to prohibit withdrawals in order to comply with any laws or governmental regulations that apply to ADSs or to the withdrawal of shares or other deposited securities, or

other circumstances specifically contemplated by Section I.A.(l) of the General Instructions to Form F-6 (as such General Instructions may be amended from time to time); or

for any other reason if the depositary or we determine, in good faith, that it is necessary or advisable to prohibit withdrawals.

The depositary shall not knowingly accept for deposit under the deposit agreement any shares or other deposited securities required to be registered under the provisions of the Securities Act, unless a registration statement is in effect as to such shares.

This right of withdrawal may not be limited by any other provision of the deposit agreement.

Direct Registration System

In the deposit agreement, all parties to the deposit agreement acknowledge that the DRS and Profile Modification System, or Profile, will apply to uncertificated ADSs upon acceptance thereof to DRS by DTC. DRS is the system administered by DTC pursuant to which the depositary may register the ownership of uncertificated ADSs, which ownership shall be evidenced by periodic statements issued by the depositary to the ADS holders entitled thereto. Profile is a required feature of DRS which allows a DTC participant, claiming to act on behalf of an ADS holder, to direct the depositary to register a transfer of those ADSs to DTC or its nominee and to deliver those ADSs to the DTC account of that DTC participant without receipt by the depositary of prior authorization from the ADS holder to register such transfer.

SHARES ELIGIBLE FOR FUTURE SALE

Upon completion of this offering, we will have 19,800,000 ADSs outstanding, representing 13,200,000 Class A ordinary shares or, approximately 8.4% of our outstanding Class A and Class B ordinary shares, assuming the underwriters do not exercise their option to purchase additional ADSs. All of the ADSs sold in this offering will be freely transferable by persons other than by our affiliates without restriction or further registration under the Securities Act. Sales of substantial amounts of the ADSs in the public market could adversely affect prevailing market prices of the ADSs. Prior to this offering, there has been no public market for our ordinary shares or ADSs. The ADSs have been approved for listing on the New York Stock Exchange, but we cannot assure you that a regular trading market will develop in the ADSs. We do not expect that a trading market will develop for our ordinary shares not represented by the ADSs.

Lock-up Agreements

We, our directors and executive officers, our existing shareholders and certain holders of our share-based awards have agreed not to offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, lend, or otherwise transfer or dispose of, directly or indirectly, any ADSs, our ordinary shares or securities convertible into or exchangeable or exercisable for any ADSs or our ordinary shares, or enter into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of the ADSs or our ordinary shares, whether any of these transactions is to be settled by delivery of ADSs or our ordinary shares or other securities, in cash or otherwise, without the prior written consent of the representatives of the underwriters for a period of 180 days after the date of this prospectus, subject to certain exceptions and applicable notice requirements.

In addition, we [have] irrevocably instructed Deutsche Bank Trust Company Americas, the depositary, not to accept any deposit of any ordinary shares for the purpose of issuances of ADSs (other than in connection with this offering) for 180 days after the date of this prospectus unless we have consented to such deposit. We [have] covenanted with the underwriters that we will not release the depositary from this obligation during such 180-day period without the prior written consent of the representatives on behalf of the underwriters.

Other than this offering, we are not aware of any plans by any significant shareholders to dispose of significant numbers of the ADSs or ordinary shares. However, one or more existing shareholders or owners of securities convertible or exchangeable into or exercisable for the ADSs or ordinary shares may dispose of significant numbers of the ADSs or ordinary shares in the future. We cannot predict what effect, if any, future sales of the ADSs or ordinary shares, or the availability of ADSs or ordinary shares for future sale, will have on the trading price of the ADSs from time to time. Sales of substantial amounts of the ADSs or ordinary shares in the public market, or the perception that these sales could occur, could adversely affect the trading price of the ADSs.

Rule 144

All of our ordinary shares that will be outstanding upon the completion of this offering, other than those ordinary shares sold in this offering, are restricted securities as that term is defined in Rule 144 under the Securities Act and may be sold publicly in the United States only if they are subject to an effective registration statement under the Securities Act or pursuant to an exemption from the registration requirement such as those provided by Rule 144 and Rule 701 promulgated under the Securities Act. In general, beginning 90 days after the date of this prospectus, a person (or persons whose shares are aggregated) who at the time of a sale is not, and has not been during the three months preceding the sale, an affiliate of ours and has beneficially owned our restricted securities for at least six months will be entitled to sell the restricted securities without registration under the Securities Act, subject only to the availability of current public information about us, and will be entitled to sell restricted securities beneficially owned for at least one year without restriction. Persons who are

[Table of Contents](#)

our affiliates and have beneficially owned our restricted securities for at least six months may sell a number of restricted securities within any three-month period that does not exceed the greater of the following:

1% of the then outstanding Class A ordinary shares, in the form of ADSs or otherwise, which will equal 833,447 Class A ordinary shares immediately after this offering; or

the average weekly trading volume of our Class A ordinary shares in the form of ADSs or otherwise, on the New York Stock Exchange, during the four calendar weeks preceding the date on which notice of the sale is filed with the SEC.

Sales by our affiliates under Rule 144 are also subject to certain requirements relating to manner of sale, notice and the availability of current public information about us.

Rule 701

In general, under Rule 701 of the Securities Act as currently in effect, each of our employees, consultants or advisors who purchases our ordinary shares from us in connection with a compensatory stock plan or other written agreement executed prior to the completion of this offering is eligible to resell those ordinary shares in reliance on Rule 144, but without compliance with some of the restrictions, including the holding period, contained in Rule 144. However, the Rule 701 shares would remain subject to lock-up arrangements and would only become eligible for sale when the lock-up period expires.

TAXATION

The following summary of Cayman Islands, PRC and U.S. federal income tax considerations of an investment in the ADSs or Class A ordinary shares is based upon laws and relevant interpretations thereof in effect as of the date of this registration statement, all of which are subject to change. This summary does not deal with all possible tax considerations relating to an investment in the ADSs or Class A ordinary shares, such as the tax considerations under U.S. state and local tax laws or under the tax laws of jurisdictions other than the Cayman Islands, the Peoples Republic of China and the United States. To the extent that the discussion relates to matters of Cayman Islands tax law, it represents the opinion of Maples and Calder (Hong Kong) LLP, our Cayman Islands counsel; to the extent it relates to PRC tax law, it is the opinion of Tian Yuan Law Firm, our PRC counsel.

Cayman Islands Taxation

The Cayman Islands currently levies no taxes on individuals or corporations based upon profits, income, gains or appreciation and there is no taxation in the nature of inheritance tax or estate duty. There are no other taxes likely to be material to us levied by the government of the Cayman Islands except for stamp duties which may be applicable on instruments executed in, or, after execution, brought within the jurisdiction of the Cayman Islands. The Cayman Islands is not party to any double tax treaties that are applicable to any payments made to or by our company. There are no exchange control regulations or currency restrictions in the Cayman Islands.

Payments of dividends and capital in respect of our ordinary shares or ADSs will not be subject to taxation in the Cayman Islands and no withholding will be required on the payment of a dividend or capital to any holder of our ordinary shares or ADSs, nor will gains derived from the disposal of our ordinary shares or ADSs be subject to Cayman Islands income or corporation tax.

Peoples Republic of China Taxation

Under the PRC Enterprise Income Tax Law and its implementation rules, an enterprise established outside of the PRC with a de facto management body within the PRC is considered a resident enterprise and will be subject to the enterprise income tax at the rate of 25% on its global income. The implementation rules define the term de facto management body as the body that exercises full and substantial control over and overall management of the business, productions, personnel, accounts and properties of an enterprise. In April 2009, the State Administration of Taxation issued a circular, known as Circular 82, which provides certain specific criteria for determining whether the de facto management body of a PRC-controlled enterprise that is incorporated offshore is located in China. Although this circular only applies to offshore enterprises controlled by PRC enterprises or PRC enterprise groups, not those controlled by PRC individuals or foreigners, the criteria set forth in the circular may reflect the State Administration of Taxations general position on how the de facto management body test should be applied in determining the tax resident status of all offshore enterprises. According to Circular 82, an offshore incorporated enterprise controlled by a PRC enterprise or a PRC enterprise group will be regarded as a PRC tax resident by virtue of having its de facto management body in China only if all of the following conditions are met: (i) the primary location of the day-to-day operational management is in the PRC; (ii) decisions relating to the enterprises financial and human resource matters are made or are subject to approval by organizations or personnel in the PRC; (iii) the enterprises primary assets, accounting books and records, company seals, and board and shareholder resolutions, are located or maintained in the PRC; and (iv) at least 50% of voting board members or senior executives habitually reside in the PRC.

We believe that GSX Techedu Inc. is not a PRC resident enterprise for PRC tax purposes. GSX Techedu Inc. is not controlled by a PRC enterprise or PRC enterprise group, and we do not believe that GSX Techedu Inc. meets all of the conditions above. GSX Techedu Inc. is a company incorporated outside of the PRC. For the same reasons, we believe our other entities outside of China are not PRC resident enterprises either. However, the tax resident status of an enterprise is subject to determination by the PRC tax authorities and uncertainties remain

[Table of Contents](#)

with respect to the interpretation of the term de facto management body. There can be no assurance that the PRC government will ultimately take a view that is consistent with us.

If the PRC tax authorities determine that GSX Techedu Inc. is a PRC resident enterprise for enterprise income tax purposes, we may be required to withhold a 10% withholding tax from dividends we pay to our shareholders that are non-resident enterprises, including the holders of the ADSs. In addition, non-resident enterprise shareholders (including the ADS holders) may be subject to a 10% PRC tax on gains realized on the sale or other disposition of ADSs or ordinary shares, if such income is treated as sourced from within the PRC. It is unclear whether our non-PRC individual shareholders (including the ADS holders) would be subject to any PRC tax on dividends or gains obtained by such non-PRC individual shareholders in the event we are determined to be a PRC resident enterprise. If any PRC tax were to apply to such dividends or gains, it would generally apply at a rate of 20% unless a reduced rate is available under an applicable tax treaty. It is also unclear whether non-PRC shareholders of GSX Techedu Inc. would be able to claim the benefits of any tax treaties between their country of tax residence and the PRC in the event that GSX Techedu Inc. is treated as a PRC resident enterprise.

Provided that our Cayman Islands holding company, GSX Techedu Inc., is not deemed to be a PRC resident enterprise, holders of the ADSs and ordinary shares who are not PRC residents will not be subject to PRC income tax on dividends distributed by us or gains realized from the sale or other disposition of our ordinary shares or ADSs. However, under Bulletin 7 and Bulletin 37, where a non-resident enterprise conducts an indirect transfer by transferring taxable assets, including, in particular, equity interests in a PRC resident enterprise, indirectly by disposing of the equity interests of an overseas holding company, the non-resident enterprise, being the transferor, or the transferee or the PRC entity which directly owned such taxable assets may report to the relevant tax authority such indirect transfer. Using a substance over form principle, the PRC tax authority may disregard the existence of the overseas holding company if it lacks a reasonable commercial purpose and was established for the purpose of reducing, avoiding or deferring PRC tax. As a result, gains derived from such indirect transfer may be subject to PRC enterprise income tax, and the transferee or other person who is obligated to pay for the transfer is obligated to withhold the applicable taxes, currently at a rate of 10% for the transfer of equity interests in a PRC resident enterprise. We and our non-PRC resident investors may be at risk of being required to file a return and being taxed under Bulletin 7 and Bulletin 37, and we may be required to expend valuable resources to comply with Bulletin 7 and Bulletin 37, or to establish that we should not be taxed under these circulars.

United States Federal Income Tax Considerations

The following discussion is a summary of U.S. federal income tax considerations generally applicable to the ownership and disposition of the ADSs or ordinary shares by a U.S. Holder (as defined below) that acquires the ADSs in this offering and holds the ADSs or ordinary shares as capital assets (generally, property held for investment) under the U.S. Internal Revenue Code of 1986, as amended, or the Code. This discussion is based upon existing U.S. federal tax law, which is subject to differing interpretations or change, possibly with retroactive effect. No ruling has been sought from the Internal Revenue Service, or the IRS, with respect to any U.S. federal income tax considerations described below, and there can be no assurance that the IRS or a court will not take a contrary position. This discussion, moreover, does not address the U.S. federal estate, gift, and alternative minimum tax considerations, the Medicare tax on net investment income, or any state, local and non-U.S. tax considerations, relating to the ownership or disposition of the ADSs or ordinary shares. The following summary does not address all aspects of U.S. federal income taxation that may be important to particular investors in light of their individual circumstances or to persons in special tax situations such as:

- banks and other financial institutions;
- insurance companies;
- pension plans;
- cooperatives;

[Table of Contents](#)

regulated investment companies;

real estate investment trusts;

broker-dealers;

traders that elect to use a mark-to-market method of accounting;

certain former U.S. citizens or long-term residents;

tax-exempt entities (including private foundations);

persons liable for alternative minimum tax;

holders who acquire their ADSs or ordinary shares pursuant to any employee share option or otherwise as compensation;

investors that will hold their ADSs or ordinary shares as part of a straddle, hedge, conversion, constructive sale or other integrated transaction for U.S. federal income tax purposes;

investors that have a functional currency other than the U.S. dollar;

persons that actually or constructively own 10% or more of our stock (by vote or value);

persons required to accelerate the recognition of any item of gross income with respect to their ADSs or ordinary shares as a result of such income being recognized on an applicable financial statement; or

partnerships or other entities taxable as partnerships for U.S. federal income tax purposes, or persons holding common stock through such entities;

all of whom may be subject to tax rules that differ significantly from those discussed below.

Each U.S. Holder is urged to consult its tax advisor regarding the application of U.S. federal taxation to its particular circumstances, and the state, local, non-U.S. and other tax considerations of the ownership and disposition of the ADSs or our ordinary shares.

General

For purposes of this discussion, a U.S. Holder is a beneficial owner of the ADSs or ordinary shares that is, for U.S. federal income tax purposes:

an individual who is a citizen or resident of the United States;

a corporation (or other entity treated as a corporation for U.S. federal income tax purposes) created in, or organized under the law of the United States or any state thereof or the District of Columbia;

an estate the income of which is includible in gross income for U.S. federal income tax purposes regardless of its source; or

a trust (A) the administration of which is subject to the primary supervision of a U.S. court and which has one or more U.S. persons who have the authority to control all substantial decisions of the trust or (B) that has otherwise validly elected to be treated as a U.S. person under the Code.

If a partnership (or other entity treated as a partnership for U.S. federal income tax purposes) is a beneficial owner of the ADSs or ordinary shares, the tax treatment of a partner in the partnership will generally depend upon the status of the partner and the activities of the partnership. Partners in a partnerships holding the ADSs or ordinary shares are urged to consult their tax advisors regarding an investment in the ADSs or ordinary shares.

For U.S. federal income tax purposes, it is generally expected that a U.S. Holder of ADSs will be treated as the beneficial owner of the underlying shares represented by the ADSs. The remainder of this discussion assumes that a U.S. Holder of the ADSs will be treated in this manner. Accordingly, deposits or withdrawals of ordinary shares for ADSs will generally not be subject to U.S. federal income tax.

Passive Foreign Investment Company Considerations

A non-U.S. corporation, such as our company, will be classified as a PFIC, for U.S. federal income tax purposes for any taxable year, if either (i) 75% or more of its gross income for such year consists of certain types of passive income or (ii) 50% or more of the value of its assets (determined on the basis of a quarterly average) during such year is attributable to assets that produce or are held for the production of passive income. For this purpose, cash and assets readily convertible into cash are categorized as a passive asset and the company's goodwill and other unbooked intangibles are taken into account. Passive income generally includes, among other things, dividends, interest, rents, royalties, and gains from the disposition of passive assets. We will be treated as owning a proportionate share of the assets and earning a proportionate share of the income of any other corporation in which we own, directly or indirectly, more than 25% (by value) of the stock.

Although the law in this regard is not entirely clear, we treat our consolidated VIE as being owned by us for U.S. federal income tax purposes because we control its management decisions and are entitled to substantially all of the economic benefits associated with it. As a result, we consolidate its results of operations in our consolidated U.S. GAAP financial statements. If it were determined, however, that we are not the owner of our consolidated VIE for U.S. federal income tax purposes, we would likely be treated as a PFIC for the current taxable year and any subsequent taxable year.

Assuming that we are the owner of our consolidated VIE for U.S. federal income tax purposes, and based upon our current and projected income and assets, including the proceeds from this offering, and projections as to the value of our assets, we do not expect to be a PFIC for the current taxable year or the foreseeable future. However, no assurance can be given in this regard because the determination of whether we will be or become a PFIC is a factual determination made annually that will depend, in part, upon the composition of our income and assets. Fluctuations in the market price of the ADSs may cause us to be classified as a PFIC for the current or future taxable years because the value of our assets for purposes of the asset test, including the value of our goodwill and unbooked intangibles, may be determined by reference to the market price of the ADSs from time to time (which may be volatile). If our market capitalization subsequently declines, we may be or become classified as a PFIC for the current taxable year or future taxable years. Furthermore, the composition of our income and assets may also be affected by how, and how quickly, we use our liquid assets and the cash raised in this offering. Under circumstances where our revenue from activities that produce passive income significantly increases relative to our revenue from activities that produce non-passive income, or where we determine not to deploy significant amounts of cash for active purposes, our risk of becoming classified as a PFIC may substantially increase.

If we are classified as a PFIC for any year during which a U.S. Holder holds the ADSs or ordinary shares, the PFIC rules discussed below under Passive Foreign Investment Company Rules generally will apply to such U.S. Holder for such taxable year, and unless the U.S. Holder makes certain elections, will apply in future years even if we cease to be a PFIC.

The discussion below under Dividends and Sale or Other Disposition is written on the basis that we will not be or become classified as a PFIC for U.S. federal income tax purposes. The U.S. federal income tax rules that apply generally if we are treated as a PFIC are discussed below under Passive Foreign Investment Company Rules.

Dividends

Any cash distributions paid on the ADSs or ordinary shares (including the amount of any PRC tax withheld) out of our current or accumulated earnings and profits, as determined under U.S. federal income tax principles, will generally be includible in the gross income of a U.S. Holder as dividend income on the day actually or constructively received by the U.S. Holder, in the case of ordinary shares, or by the depositary, in the case of ADSs. Because we do not intend to determine our earnings and profits on the basis of U.S. federal income tax

[Table of Contents](#)

principles, any distribution we pay will generally be treated as a dividend for U.S. federal income tax purposes. Dividends received on the ADSs or ordinary shares will not be eligible for the dividends received deduction allowed to corporations in respect of dividends received from U.S. corporations.

Individuals and other non-corporate U.S. Holders will be subject to tax at the lower capital gain tax rate applicable to qualified dividend income, provided that certain conditions are satisfied, including that (1) the ADSs or ordinary shares are readily tradable on an established securities market in the United States, or, in the event that we are deemed to be a PRC resident enterprise under the PRC tax law, we are eligible for the benefit of the United States-PRC income tax treaty (the Treaty), (2) we are neither a PFIC nor treated as such with respect to a U.S. Holder (as discussed below) for the taxable year in which the dividend is paid and the preceding taxable year, and (3) certain holding period requirements are met. We intend to list the ADSs on the New York Stock Exchange. Provided the listing is approved, we believe that the ADSs will be readily tradable on an established securities market in the United States and that we will be a qualified foreign corporation with respect to dividends paid on the ADSs. There can be no assurance that the ADSs will continue to be considered readily tradable on an established securities market in later years. Because the ordinary shares will not be listed on a U.S. exchange, dividends received with respect to ordinary shares that are not represented by ADSs may not be treated as qualified dividends. U.S. Holders are urged to consult their tax advisors regarding the availability of the lower rate for dividends paid with respect to the ADSs or ordinary shares.

In the event that we are deemed to be a PRC resident enterprise under the PRC Enterprise Income Tax Law (see Taxation Peoples Republic of China Taxation), we may be eligible for the benefits of the Treaty. If we are eligible for such benefits, dividends we pay on our ordinary shares, regardless of whether such shares are represented by the ADSs, and regardless of whether the ADSs are readily tradable on an established securities market in the United States, would be eligible for the reduced rates of taxation described in the preceding paragraph.

For U.S. foreign tax credit purposes, dividends paid on the ADSs or ordinary shares generally will be treated as income from foreign sources and generally will constitute passive category income. If PRC withholding taxes apply to dividends paid to a U.S. Holder with respect to the ADSs or ordinary shares, such U.S. Holder may be able to obtain a reduced rate of PRC withholding taxes under the Treaty if certain requirements are met. In addition, subject to certain conditions and limitations, PRC withholding taxes on dividends that are non-refundable under the Treaty may be treated as foreign taxes eligible for credit against a U.S. Holders U.S. federal income tax liability. A U.S. Holder who does not elect to claim a foreign tax credit for foreign tax withheld may instead claim a deduction for U.S. federal income tax purposes, in respect of such withholding, but only for a year in which such holder elects to do so for all creditable foreign income taxes. The rules governing the foreign tax credit are complex and U.S. Holders are urged to consult their tax advisors regarding the availability of the foreign tax credit under their particular circumstances.

Sale or Other Disposition

A U.S. Holder will generally recognize gain or loss upon the sale or other disposition of ADSs or ordinary shares in an amount equal to the difference between the amount realized upon the disposition and the holders adjusted tax basis in such ADSs or ordinary shares. The gain or loss will generally be the capital gain or loss. Individuals and other non-corporate U.S. Holders who have held the ADSs or ordinary shares for more than one year will generally be eligible for reduced tax rates. The deductibility of a capital loss may be subject to limitations. Any such gain or loss that the U.S. Holder recognizes will generally be treated as U.S. source income or loss for foreign tax credit limitation purposes, which will generally limit the availability of foreign tax credits. However, in the event we are deemed to be a PRC resident enterprise under the PRC Enterprise Income Tax Law, we may be eligible for the benefits of the Treaty. In such event, if PRC tax were to be imposed on any gain from the disposition of the ADSs or ordinary shares, a U.S. Holder that is eligible for the benefits of the Treaty may elect to treat such gain as PRC source income. If a U.S. Holder is not eligible for the benefits of the income tax treaty or fails to make the election to treat any gain as foreign source, then such U.S. holder may not be able

[Table of Contents](#)

to use the foreign tax credit arising from any PRC tax imposed on the disposition of the ADSs or ordinary shares unless such credit can be applied (subject to applicable limitations) against U.S. federal income tax due on other income derived from foreign sources in the same income category (generally, the passive category). U.S. Holders are urged to consult their tax advisors regarding the creditability of any PRC tax.

Passive Foreign Investment Company Rules

If we are classified as a PFIC for any taxable year during which a U.S. Holder holds the ADSs or ordinary shares, and unless the U.S. Holder makes a mark-to-market election (as described below), the U.S. Holder will generally be subject to special tax rules on (i) any excess distribution that we make to the U.S. Holder (which generally means any distribution paid during a taxable year to a U.S. Holder that is greater than 125 percent of the average annual distributions paid in the three preceding taxable years or, if shorter, the U.S. Holders holding period for the ADSs or ordinary shares), and (ii) any gain realized on the sale or other disposition of ADSs or ordinary shares. Under the PFIC rules:

the excess distribution or gain will be allocated ratably over the U.S. Holders holding period for the ADSs or ordinary shares;

the amount allocated to the current taxable year and any taxable years in the U.S. Holders holding period prior to the first taxable year in which we are classified as a PFIC (each, a pre-PFIC year), will be taxable as ordinary income; and

the amount allocated to each prior taxable year, other than a pre-PFIC year, will be subject to tax at the highest tax rate in effect for individuals or corporations, as appropriate, for that year, increased by an additional tax equal to the interest on the resulting tax deemed deferred with respect to each such taxable year.

If we are a PFIC for any taxable year during which a U.S. Holder holds the ADSs or ordinary shares and any of our subsidiaries, our consolidated VIE or any of the subsidiaries of our consolidated VIE is also a PFIC, such U.S. Holder would be treated as owning a proportionate amount (by value) of the shares of the lower-tier PFIC for purposes of the application of these rules. U.S. Holders are urged to consult their tax advisors regarding the application of the PFIC rules to any of our subsidiaries, our consolidated VIE or any of the subsidiaries of our consolidated VIE.

As an alternative to the foregoing rules, a U.S. Holder of marketable stock (as defined below) in a PFIC may make a mark-to-market election with respect to such stock. If a U.S. Holder makes this election with respect to the ADSs, the holder will generally (i) include as ordinary income for each taxable year that we are a PFIC the excess, if any, of the fair market value of ADSs held at the end of the taxable year over the adjusted tax basis of such ADSs and (ii) deduct as an ordinary loss the excess, if any, of the adjusted tax basis of the ADSs over the fair market value of such ADSs held at the end of the taxable year, but such deduction will only be allowed to the extent of the amount previously included in income as a result of the mark-to-market election. The U.S. Holders adjusted tax basis in the ADSs would be adjusted to reflect any income or loss resulting from the mark-to-market election. If a U.S. Holder makes a mark-to-market election in respect of the ADSs and we cease to be classified as a PFIC, the holder will not be required to take into account the gain or loss described above during any period that we are not classified as a PFIC. If a U.S. Holder makes a mark-to-market election, any gain such U.S. Holder recognizes upon the sale or other disposition of the ADSs in a year when we are a PFIC will be treated as ordinary income and any loss will be treated as ordinary loss, but such loss will only be treated as ordinary loss to the extent of the net amount previously included in income as a result of the mark-to-market election.

The mark-to-market election is available only for marketable stock, which is stock that is traded in other than de minimis quantities on at least 15 days during each calendar quarter (regularly traded) on a qualified exchange or other market, as defined in applicable United States Treasury regulations. The ADSs, but not our ordinary shares, will be treated as marketable stock upon their listing on the New York Stock Exchange. We anticipate that the ADSs should qualify as being regularly traded, but no assurances may be given in this regard.

[Table of Contents](#)

Because a mark-to-market election cannot be made for any lower-tier PFICs that we may own, a U.S. Holder may continue to be subject to the PFIC rules with respect to such U.S. Holders indirect interest in any investments held by us that are treated as an equity interest in a PFIC for U.S. federal income tax purposes.

We do not intend to provide information necessary for U.S. Holders to make qualified electing fund elections which, if available, would result in tax treatment different from (and generally less adverse than) the general tax treatment for PFICs described above.

If a U.S. Holder owns the ADSs or ordinary shares during any taxable year that we are a PFIC, the holder must generally file an annual IRS Form 8621. You should consult your tax advisor regarding the U.S. federal income tax consideration of owning and disposing of the ADSs or ordinary shares if we are or become a PFIC, including the availability and possibility of making a mark-to-market election.

THE PRECEDING DISCUSSION OF U.S. FEDERAL INCOME TAX CONSIDERATIONS IS INTENDED FOR GENERAL INFORMATION ONLY AND DOES NOT CONSTITUTE TAX ADVICE. U.S. HOLDERS SHOULD CONSULT THEIR TAX ADVISORS AS TO THE U.S. FEDERAL, STATE, LOCAL AND NON-U.S. TAX CONSIDERATIONS TO THEM OF THE OWNERSHIP AND DISPOSITION OF THE ADSS AND ORDINARY SHARES IN THEIR PARTICULAR CIRCUMSTANCES.

[Table of Contents](#)**UNDERWRITING**

Under the terms and subject to the conditions contained in an underwriting agreement dated _____, we have agreed to sell to the underwriters named below, for whom Credit Suisse Securities (USA) LLC and Deutsche Bank Securities Inc. are acting as representatives, the following respective numbers of ADSs:

The underwriting agreement provides that the obligations of the several underwriters are subject to certain conditions precedent such as the receipt by the underwriters of officers certificates and legal opinions and approval of certain legal matters by their counsel. The underwriting agreement provides that the underwriters are obligated to purchase all ADSs in the offering if any are purchased, other than those ADSs covered by the option to purchase additional ADSs described below. The underwriting agreement also provides that if an underwriter defaults, the purchase commitments of non-defaulting underwriters may be increased or the offering may be terminated. All sales of ADSs in the United States will be made by U.S. registered broker-dealers.

We have agreed to indemnify the underwriters and certain of their controlling persons against certain liabilities, including liabilities under the Securities Act, and to contribute to payments that the underwriters may be required to make in respect of those liabilities.

The underwriters propose to offer part of the ADSs initially at the public offering price on the cover page of this prospectus and part to certain dealers at that price that represents a selling concession of up to US\$ _____ per ADS under the initial public offering price. After the initial public offering, the representatives may change the public offering price and concession and discount to broker/dealers. The offering of the ADSs by the underwriters is subject to receipt and acceptance and subject to the underwriters right to reject any order in whole or in part.

Certain of the underwriters are expected to make offers and sales both inside and outside the United States through their respective selling agents. Any offers or sales in the United States will be conducted by broker-dealers registered with the SEC. We have agreed that we will not offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, lend, or otherwise transfer or dispose of, directly or indirectly, any ADSs, our ordinary shares or securities convertible into or exchangeable or exercisable for any ADSs or our ordinary shares, enter into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of the ADSs or our ordinary shares, whether any of these transactions is to be settled by delivery of ADSs or our ordinary shares or other securities, in cash or otherwise, or confidentially submit any draft registration statement or file any registration statement with the SEC relating to the offering of any ADSs, our ordinary shares or securities convertible into or exchangeable or exercisable for any ADSs or our ordinary shares, without the prior written consent of the representatives of the underwriters for a period of 180 days after the date of this prospectus, subject to certain exceptions and applicable notice requirements.

Our directors and executive officers, our existing shareholders and certain holders of our share-based awards have agreed that they will not offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, lend, or otherwise transfer or dispose of, directly or indirectly, any ADSs, our ordinary shares or securities convertible into or exchangeable or exercisable for any ADSs or our ordinary shares, or enter into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of the ADSs or our ordinary shares, whether any of these transactions is to be settled by delivery of ADSs or our ordinary shares or other securities, in cash or otherwise, without the prior written consent of the representatives of the underwriters for a period of 180 days after the date of this prospectus, subject to certain exceptions and applicable notice requirements.

Listing

The ADSs have been approved for listing on the New York Stock Exchange. In order to meet the requirements for listing on that exchange, the underwriters have undertaken to sell a minimum number of ADSs to a minimum number of beneficial owners as required by that exchange.

Determination of Offering Price

Prior to this offering, there has been no public market for the ADSs. The initial public offering price was determined by negotiations among us and the representatives and will not necessarily reflect the market price of the ADSs following this offering. The principal factors that were considered in determining the initial public offering price included:

- the information presented in this prospectus and otherwise available to the underwriters;
- the history of, and prospects for, the industry in which we will compete;
- the ability of our management;
- the prospects for our future earnings;
- the present state of our development, results of operations and our current financial condition;

[Table of Contents](#)

the general condition of the securities markets at the time of this offering; and

the recent market prices of, and the demand for, publicly traded common stock of generally comparable companies.

We cannot assure you that the initial public offering price will correspond to the price at which the ADSs will trade in the public market subsequent to this offering or that an active trading market for the ADSs will develop and continue after this offering.

Stabilization

In connection with the offering, the underwriters may engage in stabilizing transactions, over-allotment transactions, syndicate covering transactions, penalty bids and passive market making in accordance with Regulation M under the Exchange Act.

Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum.

Over-allotment involves sales by the underwriters of ADSs in excess of the number of ADSs the underwriters are obligated to purchase, which creates a syndicate short position. The short position may be either a covered short position or a naked short position. In a covered short position, the number of ADSs over-allotted by the underwriters is not greater than the number of ADSs that they may purchase in the over-allotment option. In a naked short position, the number of ADSs involved is greater than the number of ADSs in the over-allotment option. The underwriters may close out any covered short position by either exercising their over-allotment option and/or purchasing ADSs in the open market.

Syndicate covering transactions involve purchases of ADSs in the open market after the distribution has been completed in order to cover syndicate short positions. In determining the source of ADSs to close out the short position, the underwriters will consider, among other things, the price of ADSs available for purchase in the open market as compared to the price at which they may purchase ADSs through the over-allotment option. If the underwriters sell more ADSs than could be covered by the over-allotment option, a naked short position, the position can only be closed out by buying ADSs in the open market. A naked short position is more likely to be created if the underwriters are concerned that there could be downward pressure on the price of the ADSs in the open market after pricing that could adversely affect investors who purchase in the offering.

Penalty bids permit the representatives to reclaim a selling concession from a syndicate member when the ADSs originally sold by the syndicate member is purchased in a stabilizing transaction or a syndicate covering transaction to cover syndicate short positions.

In passive market making, market makers in the ADSs who are underwriters or prospective underwriters may, subject to limitations, make bids for or purchases of our ADSs until the time, if any, at which a stabilizing bid is made.

These stabilizing transactions, syndicate covering transactions and penalty bids may have the effect of raising or maintaining the market price of our ADSs or preventing or retarding a decline in the market price of the ADSs. As a result, the price of our ADSs may be higher than the price that might otherwise exist in the open market. These transactions may be effected on the New York Stock Exchange or otherwise and, if commenced, may be discontinued at any time.

Electronic Distribution

A prospectus in electronic format may be made available on the websites maintained by one or more of the underwriters, or selling group members, if any, participating in this offering and one or more of the underwriters participating in this offering may distribute prospectuses electronically. The representatives may agree to allocate

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of GSX Techedu Inc.

Opinion on the Financial Statements

We have audited the accompanying consolidated balance sheets of GSX Techedu Inc. (formerly BaiJiaHuLian Group Holdings Limited, the Company), its subsidiaries, its consolidated variable interest entity (VIE) and VIEs subsidiaries (collectively the Group) as of December 31, 2017 and 2018, and the related consolidated statements of operations, comprehensive (loss) income, changes in shareholders deficit and cash flows for each of the two years in the period ended December 31, 2018, and the related notes and the financial statement schedule listed in Schedule I (collectively referred to as the financial statements). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Group as of December 31, 2017 and 2018, and the results of its operations and its cash flows for each of the two years in the period ended December 31, 2018, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Companys management. Our responsibility is to express an opinion on the Companys financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Companys internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Convenience translation

Our audits also comprehended the translation of Renminbi amounts into United State dollar amounts and, in our opinion, such translation has been made in conformity with the basis stated in Note 2. Such United States dollar amounts are presented solely for the convenience of readers in the United States of America.

1. ORGANIZATION AND PRINCIPAL ACTIVITIES

BaiJiaHuLian Group Holdings Limited was incorporated under the laws of the Cayman Islands in August 2014. In January 2019, BaiJiaHuLian Group Holdings Limited changed its corporate name to GSX Techedu Inc. (the Company). The Company, its subsidiaries, its consolidated variable interest entity (VIE) and VIEs subsidiaries (collectively the Group) are currently engaged in the business of providing K-12 tutoring services, foreign language, professional and interest education services in the Peoples Republic of China (PRC).

Beijing BaiJiaHuLian Technology Co., Ltd (Beijing BaiJiaHuLian or VIE) was founded in June 2014, as a limited liability company in the PRC. Beijing BaiJiaHuLian and its subsidiaries are primarily engaged in providing online K-12 tutoring services, foreign language, professional and interest education services in the PRC.

There are some uncertainties as to whether applicable PRC laws and regulations prohibit foreign investors from providing internet and other business in the PRC. To comply with the relevant PRC laws and regulations, the Company operates substantially all of its business through its VIE. On April 28, 2015, BaiJiaHuLian Group Holdings Limited, through BaiJiaHuLian HK Holdings Limited (BaiJiaHuLian HK) and its PRC subsidiary, Beijing Lexuebang Network Technology Co., Ltd. (Beijing Lexuebang or WFOE), entered into a series of contractual arrangements with Beijing BaiJiaHuLian, and the shareholders of Beijing BaiJiaHuLian. The series of contractual agreements include exclusive management services and business cooperation agreement, exclusive call option agreement, equity pledge agreement, powers of attorney, spousal consent letters and letters of commitment. Those agreements were amended in March 2019 with no significant differences. In connection with the amendment and as part of the Groups efforts to streamline the corporate structure, the Group removed six existing nominee shareholders as parties to the contractual arrangements with Beijing BaiJiaHuLian and its shareholders. The rights and obligations of these nominee shareholders under these contractual arrangements have been assumed by Mr. Larry Xiangdong Chen.

The Group believes that these contractual arrangements would enable the Company to (1) have power to direct the activities that most significant affects the economic performance of VIE, and (2) receive the economic benefits of the VIE that could be significant to the VIE. Accordingly, the Company is considered the primary beneficiary of the VIE.

Risks in relation to VIE structure

The Company believes that the contractual arrangements with Beijing BaiJiaHuLian and its shareholders are in compliance with existing PRC laws and regulations and are legally enforceable. However, the contractual arrangements are subject to risks and uncertainties, including:

Beijing BaiJiaHuLian and its shareholders may have or develop interests that conflict with the Groups interests, which may lead them to pursue opportunities in violation of the aforementioned contractual agreements. If the Group cannot resolve any conflicts of interest or disputes between the Group and the shareholders of Beijing BaiJiaHuLian, the Group would have to rely on legal proceedings, which could result in disruption of its business, and there is substantial uncertainty as to the outcome of any such legal proceedings.

Beijing BaiJiaHuLian and its shareholders could fail to obtain the proper operating licenses or fail to comply with other regulatory requirements. As a result, the PRC government could impose fines, new requirements or other penalties on the VIE or the Group, mandate a change in ownership structure or operations for the VIE or the Group, restrict the VIE or the Groups use of financing sources or otherwise restrict the VIE or the Groups ability to conduct business.

The PRC government may declare the aforementioned contractual arrangements invalid. They may modify the relevant regulations, have a different interpretation of such regulations, or

otherwise determine that the Group or the VIE have failed to comply with the legal obligations required to effectuate such contractual arrangements.

If the legal structure and contractual arrangements were found to be in violation of PRC laws and regulations, the PRC government may restrict or prohibit the Groups business and operations in China.

The Groups ability to conduct its business may be negatively affected if the PRC government were to carry out any of the aforementioned actions. As a result, the Group may not be able to consolidate Beijing BaiJiaHuLian and its subsidiaries in the consolidated financial statements as the Group may lose the ability to exert effective control over Beijing BaiJiaHuLian and its shareholders, and the Group may lose the ability to receive economic benefits from Beijing BaiJiaHuLian.

The Groups business has been directly operated by the VIE and its subsidiaries. For the years ended December 31, 2017 and 2018, the VIE and its subsidiaries accounted for an aggregate of 94.80% and 98.71%, respectively, of the Groups consolidated total assets, and 76.18% and 88.98% respectively of the Groups consolidated total liabilities.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES*Basis of presentation and use of estimates*

The accompanying consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP). These accounting principles require management to make certain estimates and assumptions that affect the amounts in the accompanying financial statements. Actual results may differ from those estimates. The Group bases its estimates on past experience and various other factors believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources.

Significant accounting estimates reflected in the Groups financial statements include, but are not limited to, revenue recognition, valuation allowance for deferred tax assets, available-for-sale investments, useful lives of property, equipment and software and intangible assets, impairment assessment of long-lived assets, valuation of share-based compensation, valuation of ordinary shares and preferred shares. Actual results may differ materially from those estimates.

Principles of consolidation

The accompanying consolidated financial statements include the financial information of the Group and its subsidiaries, the VIE and the VIEs subsidiaries. All intercompany balances and transactions were eliminated upon consolidation.

Business combinations

Business combinations are recorded using the acquisition method of accounting. The purchase price of the acquisition is allocated to the tangible assets, liabilities, identifiable intangible assets acquired and non-controlling interest, if any, based on their estimated fair values as of the acquisition date. The excess of the purchase price over those fair values is recorded as goodwill. Acquisition-related expenses and restructuring costs are expensed as incurred. Common forms of the consideration made in acquisitions is cash. Consideration transferred in a business acquisition is measured at the fair value as of the date of acquisition.

In a business combination achieved in stages, the Group remeasures the previously held equity interest in the acquire immediately before obtaining control at its acquisition-date fair value and the remeasurement gain or loss, if any, is recognized in the consolidated statements of operations.

Fair value

Fair value is considered to be the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities required or permitted to be recorded at fair value, the Group considers the principal or most advantageous market in which it would transact and considers assumptions that market participants would use when pricing the asset or liability.

Authoritative literature provides a fair value hierarchy, which prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The level in the hierarchy within which the fair value measurement in its entirety falls is based upon the lowest level of input that is significant to the fair value measurement as follows:

Level 1 applies to assets or liabilities for which there are quoted prices in active markets for identical assets or liabilities.

Level 2 applies to assets or liabilities for which there are inputs other than quoted prices included within Level 1 that are observable for the asset or liability such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in markets with insufficient volume or infrequent transactions (less active markets); or model-derived valuations in which significant inputs are observable or can be derived principally from, or corroborated by, observable market data.

Level 3 applies to assets or liabilities for which there are unobservable inputs to the valuation methodology that are significant to the measurement of the fair value of the assets or liabilities.

Financial instruments

The Groups financial instruments consist primarily of cash and cash equivalents, short-term investments, receivables from third party payment platform, amounts due from/to related parties and other liabilities.

As of December 31, 2017 and 2018, the carrying values of cash and cash equivalents, held-to-maturities investments, receivables from third party payment platform, amounts due from/to related parties and other liabilities approximated their fair values reported in the consolidated balance sheets due to the short-term maturities of these instruments. Available-for-sale investments are recorded at fair value as of December 31, 2017 and 2018.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES*continued****Convenience translation***

The Groups business is primarily conducted in China and all of the revenues are denominated in RMB. However, periodic reports made to shareholders will include current period amounts translated into US dollars using the exchange rate as of balance sheet date, for the convenience of the readers.

Translations of balances in the consolidated balance sheets and the related consolidated statements of operations, comprehensive (loss) income, change in shareholders deficit and cash flows from Renminbi (RMB) into US dollars as of and for the year ended December 31, 2018 are solely for the convenience of the readers and were calculated at the rate of USD1.00=RMB6.7112 representing the noon buying rate set forth in the H.10 statistical release of the U.S. Federal Reserve Board on March 29, 2019. No representation is made that the RMB amounts could have been, or could be, converted, realized or settled into USD at that rate on March 29, 2019, or at any other rate.

Cash and cash equivalents

Cash and cash equivalents comprise cash at banks and on hand, which have original maturities of three months or less when purchased and are subject to an insignificant risk of changes in value.

Short-term investments

As of December 31, 2017 and 2018, the Groups short-term investments consist of held-to-maturity securities with maturities of less than three months and available-for-sale investments.

Investments are classified as held-to-maturity when the Group has the positive intent and ability to hold the securities to maturity, and are recorded at amortized cost. As of December 31, 2017 and 2018, the balances of held-to-maturity securities were RMB nil and RMB115,000, respectively.

Investments that do not meet the criteria of held-to-maturity or trading securities are classified as available-for-sale investments, and are reported at fair value with unrealized gains and losses recorded in accumulated other comprehensive income (loss). Realized gains or losses on the sale of these securities are recognized in net income or loss. As of December 31, 2017 and 2018, the balances of available-for-sale investments were RMB7,974 and RMB82,991, respectively.

The Group reviews its short-term investments for impairment whenever an event or circumstance indicates that other-than-temporary impairment has occurred. The Group considers available quantitative and qualitative evidence in evaluating the potential impairment of its short-term investments. An impairment charge is recorded in the consolidated statements of operations if the carrying amount of an investment exceeds the investments fair value and such excess is determined to be other-than-temporary.

Property, equipment and software, net

Property, equipment and software are stated at cost and are depreciated using the straight-line method over the estimated useful lives of the assets, as follows:

Category	Estimated useful life
Electronic equipment	3 years
Furniture and office equipment	5 years
Software	10 years
Leasehold improvement	Shorter of the lease term or estimated economic life

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES*continued*

Property, equipment and software, net*continued*

Repair and maintenance costs are charged to expense as incurred, whereas the cost of renewals and betterment that extends the useful lives of property, equipment and software are capitalized as additions to the related assets. Retirements, sales and disposals of assets are recorded by removing the cost and accumulated depreciation from the assets and accumulated depreciation accounts with any resulting gain or loss reflected in the consolidated statement of operations.

Goodwill and acquired intangible assets, net

Goodwill represents the excess of the purchase price over the fair value of identifiable net assets of businesses acquired. Intangible assets with finite lives are amortized over their estimated useful lives. The useful life of an intangible asset is the period over which the asset is expected to contribute directly or indirectly to future cash flows.

Goodwill is tested for impairment annually at the end of the fourth quarter, or sooner if impairment indicators arise. In the evaluation of goodwill for impairment, the Group may perform a qualitative assessment to determine if it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If it is not, no further analysis is required. If it is, a prescribed two-step goodwill impairment test is performed to identify potential goodwill impairment and measure the amount of goodwill impairment loss to be recognized for that reporting unit, if any.

The first step in the two-step impairment test is to identify if a potential impairment exists by comparing the fair value of a reporting unit with its carrying amount, including goodwill. The fair value of a reporting unit is estimated by applying valuation multiples and/or estimating future discounted cash flows. The selection of multiples is dependent upon assumptions regarding future levels of operating performance as well as business trends and prospects, industry, market and economic conditions. When estimating future discounted cash flows, the Group considers the assumptions that hypothetical marketplace participants would use in estimating future cash flows. In addition, where applicable, an appropriate discount rate is used, based on an industry-wide average cost of capital or location-specific economic factors. If the fair value of a reporting unit exceeds its carrying amount, goodwill of the reporting unit is not considered to have a potential impairment and the second step of the impairment test is not necessary. However, if the carrying amount of a reporting unit exceeds its fair value, the second step is performed to determine if goodwill is impaired and to measure the amount of impairment loss to recognize, if any.

The second step compares the implied fair value of goodwill with the carrying amount of goodwill. The implied fair value of goodwill is determined in the same manner as the amount of goodwill recognized in a business combination (i.e., the fair value of the reporting unit is allocated to all the assets and liabilities, including any unrecognized intangible assets, as if the reporting unit had been acquired in a business combination and the fair value of the reporting unit was the purchase price paid to acquire the reporting unit). If the implied fair value of goodwill exceeds the carrying amount, goodwill is not considered impaired. However, if the carrying amount of goodwill exceeds the implied fair value, an impairment loss is recognized in an amount equal to that excess.

Based on the result of the Groups annual goodwill impairment assessment, no impairment charge was recognized during the year ended December 31, 2018. The Group did not have any goodwill as of December 31, 2017.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES*continued****Goodwill and acquired intangible assets, net****continued*

Acquired intangible assets other than goodwill consist of student base and trademark, and are carried at cost, less accumulated amortization and impairment. Amortization of finite-lived intangible assets is computed using the straight-line method over the estimated useful lives. The amortization periods by intangible asset classes are as follows:

Category	Estimated useful life
Student base	1.5 years
Trademark	3 years

Impairment of long-lived assets

The Group reviews its long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may no longer be recoverable. When these events occur, the Group measures impairment by comparing the carrying value of the long-lived assets to the estimated undiscounted future cash flows expected to result from the use of the assets and their eventual disposition. If the sum of the expected undiscounted cash flow is less than the carrying amount of the assets, the Group would recognize an impairment loss based on the fair value of the assets. The Group did not record any impairment losses on its long-lived assets during the years ended December 31, 2017 and 2018.

Long-term investments

The Groups long-term investments consist of equity method investments.

Investee companies over which the Group has the ability to exercise significant influence, but does not have a controlling interest through investment in common shares or in-substance common shares, are accounted for using the equity method. Significant influence is generally considered to exist when the Group has an ownership interest in the voting stock of the investee between 20% and 50%, and other factors, such as representation on the investees board of directors, voting rights and the impact of commercial arrangements, are also considered in determining whether the equity method of accounting is appropriate.

Under the equity method, the Group initially records its investment at cost and subsequently recognizes the Groups proportionate share of each equity investees net income or loss after the date of investment into earnings and accordingly adjusts the carrying amount of the investment.

The Group reviews its equity method investment for impairment whenever an event or circumstance indicates that any other-than-temporary impairment has occurred. The Group considers available quantitative and qualitative evidence in evaluating potential impairment of its equity method investment. An impairment charge is recorded when the carrying amount of the investment exceeds its fair value and this condition is determined to be other-than-temporary. The Group recorded RMB1,070 and RMB nil impairment losses on its equity method investments for the years ended December 31, 2017 and 2018.

Revenue recognition

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2014-09, Revenue from Contracts with Customers (Topic 606) (Topic 606). This standard replaces existing revenue recognition rules with a comprehensive revenue measurement and recognition standard and expanded disclosure requirements. The Group has early adopted the new standard as of January 1, 2017 using the full retrospective method which requires the Group to present its financial statements for all periods as if Topic 606 had been applied to all prior periods. The Group did not apply any practical expedients provided under Topic 606.

The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services.

The Groups revenue is reported net of discount, value added tax and related surcharges. Prior to March 2017, the Group mainly provided a membership-based service platform connecting teachers and students and generated revenues from teachers in the form of membership fees. Subsequently, the Group transitioned from a membership-based service platform to an integrated online tutoring services provider. The primary sources of the Groups revenues are as follows:

(1) Online tutoring services

The Group offers various types of integrated online tutoring services covering a wide spectrum of topics and targets students from broad age groups through its diverse offerings of K-12 tutoring, foreign language, professional and interest education services. The Groups live interactive tutoring services consists of several components, including online live broadcasting classes as well as other activities during the online period including teaching material, quizzes before, during and after the classes, summary of lessons after each class and interactions with both other students and instructors during the period. Different service components are highly interdependent and interrelated in the context of the contract with the live interactive tutoring services. Therefore, the Group has determined that the live interactive tutoring services represents one performance obligation. The service period for a majority of the live interactive tutoring services is less than six months.

Once the live interactive tutoring services is complete, the Group also offers the customer a content playback service. In the content playback service, the customer has unlimited access to online pre-recorded audio-video courses for a specified period ranging from one to three years. No other interactions or activities are provided during the playback period. For contracts that provide both the live interactive tutoring service and the content playback service, the Group determined that the live interactive tutoring service and content playback service are two separate performance obligations under ASC 606, as these two deliverables are distinct in that customers can benefit from each service on its own and the Groups promises to deliver the services are separately identifiable from each other in the contract.

Tutoring fees are collected in advance. The Group determines that there is not a significant financing component based on the nature of the service being offered and the purpose of the payment terms. The Group charges a single upfront amount, not with the primary purpose of obtaining financing from the students but, instead, to maximize profitability, taking into consideration the risks associated with providing the service. For K-12 related courses, the Group offers refunds for any remaining classes to students who withdraw from the course. The refund is equal to the amount related to the undelivered class. The Group determines the transaction price to be earned by estimating the refund liability based on historical refund

ratio on a portfolio basis using the expected value method, and allocates the tutoring fee excluding the estimate for refund liability to each performance obligation using the relative stand-alone selling price. The Group determines the stand-alone selling prices using an expected cost plus margin methodology. Revenue related to the live interactive tutoring service is recognized proportionately as the online classes are delivered, as the Group concluded that the delivery of each online class represents a faithful depiction of when the services are provided to the students. Revenue related to the right to access the content playback is recognized proportionally over the playback period, as the Group concluded that the content playback service represents a stand ready obligation to provide the playback services and the customer simultaneously receives and consumes the benefits as the Group provides such services throughout the playback period.

(2) Other services

Other service revenues are primarily derived from 1) membership-based service and 2) offline business consulting courses.

The Group provides membership-based services which consists of providing a platform connecting training institutions or individual teachers and students. Training institutions or individual teachers who pay the membership fees are able to join the Groups online platform and market their courses to prospective students. Membership fees are primarily fixed and no contractual membership fee refunds are provided to the training institutions or individual teachers. The membership services mainly provide training institutions or individual teachers with display of an online storefront on the Groups platforms and access to online account management system, which are accounted for as a single performance obligation as the membership services are highly integrated. These service fees are paid in advance for a specific contracted service period and the revenues are recognized proportionally over the service period, typically 12 months, as the Group concluded that the membership service represents a stand ready obligation to provide the services while the member simultaneously receives and consumes the benefits of such services throughout the contract period.

The Group also offers offline business consulting courses targeting principals and other officers of private education institutions who want to improve their management skills. No contractual service fee refund is provided to the course participants. Course fees are collected in advance and the revenues, net of any discounts, are recognized proportionally over the service period, which is generally less than a year, as the classes are generally delivered evenly through the course period.

The deferred revenue will be recognized as revenue once the criteria for revenue recognition have been met. Revenue recognized that was included in the deferred revenue balance at January 1, 2017 and January 1, 2018 amounted to RMB29,848 and RMB45,820, respectively.

Refund liability represents the tutoring fee collected by the Group which it expects to refund back to its customer as a result of its refund policy. Refund liability is estimated based on the historical refund ratio for each of the type of classes provided. The Groups remaining performance obligations represents the amount of the transaction price for which service has not been performed. As of December 31, 2018, the aggregate amount of the transaction price allocated for the remaining performance obligations amounted to RMB272,041. The Group expects to recognize revenue of RMB263,330 and RMB5,788 related the remaining performance obligations over the next 12 and 24 months, respectively, with the remainder of RMB2,923 recognized thereafter.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES*continued***Revenue recognition***continued**(2) Other services**continued*Disaggregation of revenue

For the years ended December 31, 2017 and 2018, all of the Groups revenues were generated in the PRC. Additionally, all of the revenues for the periods were recognized from contracts with customers. The following table provides information about disaggregated revenue by types:

	Year ended December 31,	
	2017	2018
	RMB	RMB
Online tutoring services:	28,077	362,622
K-12 courses	21,652	290,890

Offline business consulting courses	22,023	22,081
Others	1,778	1,326
Total net revenues	97,580	397,306

Cost of revenues

Cost of revenues mainly consists of salaries to instructors and tutors, rental expenses for office space, depreciation and amortization of properties and equipment, teaching materials and bandwidth costs. The instructors consists of both full-time instructors and part-time instructors. Full-time instructors compensation primarily consist of base salary, as well as teaching fees based on hourly rates in connection with courses delivered. The compensation of part-time instructors is calculated as a fixed percentage of the tuition fees of the courses delivered by the instructors, and is accrued as courses are delivered. The compensation of tutors consists of base salary and performance-based compensations, which is determined based on student retention and exercise completion. Specifically, if an existing student of a tutor enrolls in a new course, a bonus is paid to the tutor which is calculated as a percentage of the tuition of the new course. Tutors also receives a fixed payment for each exercise marking performed. The Company accrues on a monthly basis for the cost of tutor which includes basic salary, compensation for exercise marking as well as student retention bonus. The retention bonus is estimated by using the expected tuition collected for the retention courses, multiply by the estimated retention rate and the bonus percentage.

Government subsidies

The government subsidies provided by the local government mainly included funding to support the development of the Group. Government subsidies are recognized upon receipt as government subsidies income because the subsidies are not intended to compensate for specific expenditure and not subject to future return. For the years ended December 31, 2017 and 2018, RMB2,000 and RMB400 were received and recognized as other income in the Groups consolidated statements of operations, respectively.

Value added taxes

The Groups educational services and non-educational services are subject to VAT at the rate of 3% for small-scale-VAT-payer entities or at the rate of 6% for general-VAT-payer entities in accordance with Tax rule.

Operating leases

Leases where substantially all the rewards and risk of assets remain with the leasing company are accounted for as operating leases. Payments made under operating leases are charged to the consolidated statement of operations on a straight-line basis over the shorter of the lease term or estimated economic life.

Income taxes

Current income taxes are provided for in accordance with the laws of the relevant tax authorities. Deferred income taxes are recognized when temporary differences exist between the tax bases of assets and liabilities and their reported amounts in the financial statements. Net operating loss carry forwards and credits are applied using enacted statutory tax rates applicable to future years. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more-likely-than-not that a portion of or all of the deferred tax assets will not be realized. The impact of an uncertain income tax position is recognized at the largest amount that is more-likely-than-not to be sustained upon audit by the relevant tax authority. An uncertain income tax position will not be recognized if it has less than a 50% likelihood of being sustained. Interest and penalties on income taxes are classified as a component of the provisions for income taxes.

Share-based compensation

The Group measures the cost of employee share options based on the grant date fair value of the award and recognizes compensation cost over the period during which an employee is required to provide services in exchange for the award, which generally is the vesting period. For the graded vesting share options, the Group recognizes the compensation cost over the requisite service period for each separately vesting portion of the award as if the award is, in substance, multiple awards. When no future services are required to be performed by the employee in exchange for an award of equity instruments, the cost of the award is expensed on the grant date. The Group elects to recognize forfeitures when they occur.

Comprehensive (loss) income

Comprehensive (loss) income includes net (loss) income, foreign currency translation adjustments and the fair value change of available-for-sale investments of the Group. Comprehensive (loss) income is reported in the consolidated statements of comprehensive (loss) income.

Net income (loss) per share

Basic income (loss) per ordinary share is computed by dividing net income (loss) attributable to ordinary shareholders by the weighted average number of ordinary shares outstanding during the period.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES*continued*

*Net income (loss) per share**continued*

The Group has determined that its convertible redeemable preferred shares are participating securities as the preferred shares participate in undistributed earnings on an as-if-converted basis. Accordingly, the Group used the two-class method of computing net income (loss) per share, for ordinary and preferred shares according to participation rights in undistributed earnings. Under this method, net income applicable to holders of ordinary shares is allocated on a pro rata basis to the holders of ordinary and preferred shares to the extent that each class may share income for the period; whereas undistributed net loss is allocated to ordinary shares because preferred shares are not contractually obligated to share the loss.

Diluted income per ordinary share reflect the potential dilution that would occur if securities were exercised or converted into ordinary shares. The Group had convertible redeemable participating preferred shares and share options, which could potentially dilute basic income per share in the future. To calculate the number of shares for diluted income per ordinary shares, the effect of the convertible redeemable participating preferred shares is computed using the as-if-converted method; the effect of the share options is computed using the treasury stock method.

Significant risks and uncertainties

Foreign currency risk

The RMB is not a freely convertible currency. The State Administration for Foreign Exchange, under the authority of the Peoples Bank of China, controls the conversion of RMB into other currencies. The value of the RMB is subject to changes in central government policies, international economic and political developments affecting supply and demand in the China Foreign Exchange Trading System market. The Groups cash and cash equivalents denominated in RMB amounted to RMB18,697 and RMB32,643 as of December 31, 2017 and 2018, respectively.

Concentration risks

Financial instruments that potentially expose the Group to significant concentration of credit risk primarily consist of cash and cash equivalents, short-term investments and receivables from third party payment platform. As of December 31, 2017 and 2018, substantially all of the Groups cash and cash equivalents and short-term investments were deposited in financial institutions located in the PRC.

There are no revenues from customers which individually represent greater than 10% of the total net revenues for the years ended December 31, 2017 and 2018.

The Group currently relies on third-party instructors to deliver its course offerings. Approximately 0.66% and 12.21% of the Groups net revenues in 2017 and 2018, respectively, were earned through the courses offered by one instructor. The Groups reliance on certain top quality instructors would expose it to risk of revenue loss if it loses the instructors.

Newly adopted accounting pronouncements

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers. ASU 2014-09 requires revenue recognition to depict the transfer of goods or services to customers in an amount that reflects the consideration that a company expects to be entitled to in exchange for the goods or services. achieve this principle, a company must apply five steps including identifying the contract with a customer, identifying the performance obligations in the contract, determining the transaction price, allocating the transaction price to the performance obligations, and recognizing revenue when (or as) the company satisfies the performance obligations. Additional quantitative and qualitative disclosure to enhance the understanding about the nature, amount, timing, and uncertainty of revenue and cash flows is also required. ASU 2014-09 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2017. In April 2016, the FASB issued ASU 2016-10, Identifying Performance Obligations and Licensing. ASU 2016-10 clarifies the following two aspects of ASU 2014-09: identifying performance obligations and licensing implementation guidance. The effective date of ASU 2016-10 is the same as the effective date of ASU 2014-09.

The Group has early adopted ASC 606 during the year ended December 31, 2017 using the full retrospective approach.

In November 2015, the FASB issued ASU 2015-17, which changes how deferred taxes are classified on organizations balance sheets. The ASU eliminates the current requirement for organizations to present deferred tax liabilities and assets as current and noncurrent in a classified balance sheet. Instead, organizations will be required to classify all deferred tax assets and liabilities as noncurrent. The amendments apply to all organizations that present a classified balance sheet. For public companies, the amendments are effective for financial statements issued for annual periods beginning after December 15, 2016, and interim periods within those annual periods. Earlier application is permitted for all entities as of the beginning of an interim or annual reporting period. This ASU may be applied prospectively to all deferred tax liabilities and assets or retrospectively to all periods presented. The Group adopted this new guidance on January 1, 2017 on a retrospective basis and classified all deferred tax assets and liabilities as noncurrent.

In March 2016, FASB issued ASU 2016-09, Compensation—Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting, which is intended to improve the accounting for employee share-based payments and affect all organizations that issue share-based payment awards to their employees. Several aspects of the accounting for share-based payment award transactions are simplified, including: (1) income tax consequences; (2) classification of awards as either equity or liabilities; (3) accruals of compensation costs based on the forfeitures; (4) classification on the statement of cash flows. For public companies, the amendments are effective for annual periods beginning after December 15, 2016, and interim periods within those annual periods. Early adoption is permitted. The Group adopted this new guidance on January 1, 2017 and the adoption of this guidance did not have a material effect on the consolidated financial statements.

Recent accounting pronouncements not yet adopted

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842). The guidance supersedes existing guidance on accounting for leases with the main difference being that operating leases are to be recorded in the statement of financial position as right-of-use assets and lease liabilities, initially measured at the present value of the lease payments. For operating leases with a term of 12 months or less, a lessee is permitted to make an accounting policy election not to recognize lease assets and liabilities. For public companies, the guidance is effective for fiscal years beginning after December 15, 2018, including interim periods within

those fiscal years. Early application of the guidance is permitted. In July 2018, ASU 2016-02 was updated with ASU No. 2018-11, Targeted Improvements to ASC 842, which provides entities with relief from the costs of implementing certain aspects of the new leasing standard. Specifically, under the amendments in ASU 2018-11, (1) entities may elect not to recast the comparative periods presented when transitioning to ASC 842 (the optional transition method) and (2) lessors may elect not to separate lease and nonlease components when certain conditions are met. Before ASU 2018-11 was issued, transition to the new lease standard required application of the new guidance at the beginning of the earliest comparative period presented in the financial statements. The Group will adopt the new lease standard using the optional transition method as of January 1, 2019. The Group has evaluated the effect of the adoption of this ASU and expects the adoption will result in an increase in the assets and liabilities on the consolidated balance sheet for the operating leases and will have an insignificant impact on the consolidated statements of operations.

In January 2017, FASB issued ASU No. 2017-04: Simplifying the Test for Goodwill Impairment. Under the new accounting guidance, an entity will no longer determine goodwill impairment by calculating the implied fair value of goodwill by assigning the fair value of a reporting unit to all of its assets and liabilities as if that reporting unit had been acquired in a business combination. Instead, an entity will perform its goodwill impairment tests by comparing the fair value of a reporting unit with its carrying amount. An entity will recognize an impairment charge for the amount by which the carrying amount exceeds the reporting unit's fair value but not to exceed the total amount of the goodwill of the reporting unit. In addition, an entity should consider income tax effects from any tax deductible goodwill on the carrying amount of the reporting unit when measuring the goodwill impairment, if applicable. The provisions of the new accounting guidance are required to be applied prospectively. The new accounting guidance is effective for companies for goodwill impairment tests performed in fiscal years beginning after December 15, 2019. Early adoption is permitted for goodwill impairment tests performed after January 1, 2017. The Group is in the process of assessing the impact on its consolidated financial statements from the adoption of the new guidance.

In October 2018, the FASB issued ASU 2018-17, Consolidation (Topic 810): Targeted Improvements to the Related Party Guidance for Variable Interest Entities. ASU 2018-17 changes how entities evaluate decision-making fees under the variable interest entity guidance. To determine whether decision-making fees represent a variable interest, an entity considers indirect interests held through related parties under common control on a proportional basis, rather than in their entirety. This guidance will be adopted using a retrospective approach and is effective for the Group on January 1, 2020. The Group is evaluating the effect that adoption of this guidance will have on its consolidated financial statements and related disclosures.

3. BUSINESS ACQUISITION AND DISPOSAL*continued**Acquisition of Shanghai Jinyou Education Technology Co., Ltd. (Shanghai Jinyou)**continued*

On January 31, 2018, the Group purchased an additional 75% equity interest in Shanghai Jinyou for cash consideration of RMB350. The additional 75% equity interest purchase was accounted for as a step acquisition whereby the Group remeasured the fair value of its previously held equity interests in Shanghai Jinyou on January 31, 2018, the step acquisition date. The fair value of the equity interest in Shanghai Jinyou held by the Group immediately before the step acquisition date and the resulting gain were immaterial. Following the completion of the transaction, the Group held a total of 100% equity interest in Shanghai Jinyou, and Shanghai Jinyou became a consolidated subsidiary of the Group.

Shanghai Jinyou operates financial and economics education services in the PRC. The acquisition of Shanghai Jinyou with its strong teaching team and expansive student base allows the Group to provide high-quality, competitively priced and diversified services to the students. This transaction was considered a business acquisition and recorded using the acquisition method of accounting. The acquired assets and liabilities were recorded at their fair value at the date of acquisition. The purchase price for the acquisition was allocated as follows:

	RMB	<u>Amortization period</u>
Cash and cash equivalents	387	
Prepaid expenses and other current assets	4,697	
Property, equipment and software, net	111	
Other non-current assets	83

Deferred tax liabilities	(102)	
Goodwill	331

The tangible and intangible assets valuation for the acquisition described above was based on a valuation analysis prepared by the management with the assistance from an independent third-party appraiser. The valuation analysis utilizes and considers the income approach. Goodwill is mainly attributable to intangible assets that cannot be recognized separately as identifiable assets under US GAAP, and comprise of (a) the assembled work force and (b) the expected but unidentifiable business growth as a result of the economy of scale, increase in cross-selling opportunities as well as synergy resulting from the acquisition.

The results of operations attributable to Shanghai Jinyou are included in the consolidated statement of operations of the Group beginning on February 1, 2018, which included net revenue of RMB 11,087 and pre-tax net loss of RMB990 generated from the acquisition date to December 31, 2018.

The following table presents certain unaudited pro forma information for the years ended December 31, 2017 and 2018, as if the above acquisition had been acquired on January 1, 2017. On December 28, 2015, the holder of the Preferred Share Warrant transferred the warrant to other investors who exercised it and purchased 5,000,000 shares of Series A Preferred Shares for a total consideration of USD10,000.

In June 2015, the Company re-designated 3,500,000 ordinary shares held by one investor as 3,500,000 Series A Preferred Shares. The Company accounted for the re-designation as a repurchase and cancelation of ordinary shares combined with an issuance of new preferred shares. The difference between the carrying value of ordinary shares and the fair value of the Series A Preferred Shares at the time of re-designation was recorded as a deemed dividend in the Company's consolidated statement of changes in shareholders deficit.

In December 2015, the Group approved and issued 7,125,002 preferred shares to all preferred shareholders for no consideration and accounted for the issuance as a deemed dividend.

Key terms of the Series A Preferred Shares are summarized as follows:

Voting Rights

Redemption*continued*

The redemption price shall be a return at a specified rate per annum single annually from the original issue date to the date on which the applicable redemption amount is paid in full. A specified rate might be (a) 20% if the redemption is initiated pursuant to Situation(i); (b) 10% if the redemption is initiated pursuant to Situation (ii); (c) 15% if the redemption is initiated pursuant to Situation (iii); (d) 12% if the redemption is initiated pursuant to Situation (iv)-(vi), as applicable. The redemption value of the convertible redeemable preferred shares was RMB427,130 and RMB466,060 as of December 31, 2017 and 2018, respectively.

In October and December 2018, two existing Series A Preferred Share investors exercised their redemption option for a portion of their shares. As a result, the CEO repurchased 4,166,219 Series A Preferred Shares for cash at a total consideration of RMB60,050. The repurchase price was calculated based on the redemption option included in the Series A Preferred Shares agreement described in the previous paragraph. The Group treated the cash payment as an equity contribution to the Group from the CEO for the redemption price and the Group using the funds to redeem those shares, combined with a subsequent issuance of Series A Preferred Shares to the CEO. The redemption price equaled the carrying amount of the Series A Preferred Shares at the redemption date and thus, did not result in any deemed dividend. Additionally, the Company recorded RMB3,247 as share-based compensation, representing the difference between the fair value of the Series A Preferred Shares and the redemption price.

Liquidation

In the event of liquidation, the holders of Series A Preferred Shares shall be entitled to receive, prior to the holders of ordinary shares, the relevant amount per Series A Preferred Share equal to (i) 150% of the applicable Series A Preferred Share issue price, plus (ii) an amount accruing thereon at a compound annual rate of 8% of the applicable Series A Preferred Share issue price, plus (iii) all declared but unpaid dividends thereon.

In the event of insufficient funds available to pay in full the preference amount in respect of Series A Preferred Shares, the entire assets and funds of the Company legally available for distribution to the holders of Series A Preferred Shares shall be distributed on a pro rata basis among the holders of Series A Preferred Shares in proportion to issued price.

Conversion

Each preferred share shall automatically be converted into ordinary shares at the then applicable preferred share conversion price upon the closing of an underwritten public offering of the ordinary shares of the Company in the United States; or upon the prior written approval of the holders of at least two thirds of the Series A Preferred Shares.

The conversion rate for Series A Preferred Shares shall be determined by dividing Series A Preferred Shares issue price by the conversion price then in effect at the date of the conversion. The initial conversion price will be the Series A Preferred Share issue price (i.e., a 1-to-1 initial conversion ratio), which will be subject to adjustments to reflect stock dividends, stock splits and other events.

Modification of preferred shares

In March 2019, the Company and the Series A Preferred Share investors agreed to (i) extend the original redemption date of the Series A Preferred Shares from June 30, 2018 to June 30, 2020, (ii) removed the

termination of the full-time employment relationship of any two of the founders of the Group prior to a QIPO as a redemption triggering event and (iii) changed the liquidation preference to include an automatic termination once a QIPO occurs. As this transaction represented a modification as opposed to an extinguishment of preferred shares, only an increase in fair value required accounting. The Company calculated the increase in fair value of the Series A Preferred Share at the modification date resulting from the changes described and concluded that the increase was insignificant.

The change in the balance of Series A Preferred Shares included in mezzanine equity for the years ended December 31, 2017 and 2018 are as follows:

	Series A Preferred Shares
	RMB
Balance as of January 1, 2017	388,200
Accretion of Series A Preferred Shares	38,930
Balance as of December 31, 2017	427,130
Accretion of Series A Preferred Shares	38,930
Balance as of December 31, 2018	466,060

The Group recognizes changes in the redemption value ratably over the redemption period. Increases in the carrying amount of the redeemable preferred shares are recorded by charges against retained earnings, or in the absence of retained earnings, by charges as reduction of additional paid-in capital until additional paid-in capital is reduced to zero. Once paid-in capital is reduced to zero, the redemption value measurement adjustment is recognized as an increase in accumulated deficit.

11. INCOME TAXES

The Company is incorporated in the Cayman Islands. Under the current laws of the Cayman Islands, the Company is not subject to income or capital gains taxes. The Company's subsidiary BaiJiaHuLian HK is located in Hong Kong and is subject to an income tax rate of 16.5% for assessable profit earned in Hong Kong in 2017, and an income tax rate of 8.25% for assessable profit up to HKD2,000,000 from April 2018 onwards. 13. NET LOSS PER SHARE

For the years ended December 31, 2017 and 2018, the Group has determined that its convertible redeemable participating preferred shares are participating securities as the preferred shares participate in undistributed earnings on an as-if-converted basis. The holders of the preferred shares are entitled to receive dividends on a pro rata basis, as if their shares had been converted into ordinary shares. Accordingly, the Group uses the two-class method of computing net income per share, for ordinary shares and preferred shares according to the participation rights in undistributed earnings. However, undistributed loss is only allocated to ordinary shareholders because holders of preferred shares are not contractually obligated to share losses.

The following table sets forth the computation of basic and diluted net loss per share for the periods indicated:

For the years ended December 31, 2017 and 2018, total rental expense for all operating leases amounted to RMB13,540 and RMB13,965, respectively.

17. SEGMENT INFORMATION

Operating segments are defined as components of an enterprise engaging in businesses activities for which separate financial information is available that is regularly evaluated by the Groups chief operating decision makers (CODM) in deciding how to allocate resources and assess performance. The Groups CODM has been identified as the CEO. Prior to March 2017, the Group mainly provided membership-based service platform connecting teachers and students. Subsequently, the Group transitioned from a membership-based service platform to its current integrated online tutoring services. The CODM reviews consolidated results including revenue, gross profit and operating profit at a consolidated level only and does not distinguish between services for the purpose of making decisions about resources allocation and performance assessment. As such, the Group concluded that it has one operating segment and one reporting segment. The Group operates solely in the PRC and all of the Groups long-lived assets are located in the PRC.

18. RESTRICTED NET ASSETS

Relevant PRC statutory laws and regulations permit payments of dividends by the Groups PRC subsidiaries only out of their retained earnings, if any, as determined in accordance with PRC accounting standards and regulations. The results of operations reflected in the financial statements prepared in accordance with U.S. GAAP differ from those reflected in the statutory financial statements of the Companies subsidiaries.

In accordance with the Regulations on Enterprises with Foreign Investment of China and their articles of association, a foreign invested enterprise established in the PRC is required to provide certain statutory reserves, namely general reserve fund, the enterprise expansion fund and staff welfare and bonus fund which are appropriated from net profit as reported in the enterprises PRC statutory accounts, which is included in retained earnings accounts in equity section of the consolidated balance sheets. A wholly-owned foreign invested enterprise is required to allocate at least 10% of its annual after-tax profit to the general reserve until such reserve reaches 50% of its respective registered capital based on the enterprises PRC statutory accounts. Appropriations to the enterprise expansion fund and staff welfare and bonus fund are at the

discretion of the board of directors for all foreign invested enterprises. The aforementioned reserves can only be used for specific purposes and are not distributable as cash dividends. If any PRC subsidiary incur debt on its own behalf in the future, the instruments governing the debt may restrict their ability to pay dividends or make other payments to the Group. Any limitation on the ability of the PRC subsidiaries to distribute dividends or other payments to their respective shareholders could materially and adversely limit the ability to grow, make investments or acquisitions that could be beneficial to pay dividends.

Additionally, in accordance with the Company Law of the PRC, a domestic enterprise is required to provide statutory common reserve at least 10% of its annual after-tax profit until such reserve reaches 50% of its respective registered capital based on the enterprises PRC statutory accounts. The Groups provision for the statutory common reserve is in compliance with the aforementioned requirement of the Company Law. A domestic enterprise is also required to provide for discretionary surplus reserve, at the discretion of the board of directors, from the profits determined in accordance with the enterprises PRC statutory accounts. The aforementioned reserves can only be used for specific purposes and are not distributable as cash dividends.

Because the Groups entities in the PRC can only be paid out of distributable profits reported in accordance with PRC accounting standards, the Groups entities in the PRC are restricted from transferring a portion of their net assets to the Company. The restricted amounts include the paid-in capital and statutory reserves of the Groups entities in the PRC. The aggregate amount of paid-in capital and statutory reserves, which is the amount of net assets of the Groups entities in the PRC (mainland) not available for distribution, were RMB11,136 and RMB11,136, as of December 31, 2017 and 2018, respectively.

19. SUBSEQUENT EVENTS

The Group has evaluated events subsequent to the balance sheet date of December 31, 2018 through March 19, 2019, the date on which the financial statements are available to be issued.

ADDITIONAL INFORMATION-FINANCIAL STATEMENT SCHEDULE I
CONDENSED FINANCIAL INFORMATION OF PARENT COMPANY
NOTES TO FINANCIAL STATEMENTS
(In thousands of RMB and USD, except for share and per share data, or otherwise noted)

1. BASIS FOR PREPARATION

The condensed financial information of the Parent Company has been prepared using the same accounting policies as set out in the Groups consolidated financial statements except that the Parent Company used the equity method to account for investments in its subsidiaries, VIE and VIEs subsidiaries.

2. INVESTMENT IN SUBSIDIARIES AND VIE AND VIES SUBSIDIARIES

The Parent Company and its subsidiaries, VIE and VIEs subsidiaries were included in the consolidated financial statements where inter-company balances and transactions were eliminated upon consolidation. For purpose of the Parent Companys stand-alone financial statements, its investments in subsidiaries, VIE and VIEs subsidiaries were reported using the equity method of accounting. The Parent Companys share of loss from its subsidiaries, VIE and VIEs subsidiaries were reported as share of loss of subsidiaries, VIE and VIEs subsidiaries in the accompanying Parent Company financial statements. Ordinarily under the equity method, an investor in an equity method investee would cease to recognize its share of the losses of an investee once the carrying value of the investment has been reduced to RMB nil absent an undertaking by the investor to provide continuing support and fund losses. For the purpose of this Schedule I, the Parent Company has continued to reflect its share, based on its proportionate interest, of the losses of subsidiaries, VIE and VIEs subsidiaries regardless of the carrying value of the investment even though the Parent Company is not obligated to provide continuing support or fund losses.

3. CONVENIENCE TRANSLATION

The Groups business is primarily conducted in China and all of the revenues are denominated in RMB. However, periodic reports made to shareholders will include current period amounts translated into US dollars using the exchange rate as of balance sheet date, for the convenience of the readers. Translations of balances in the balance sheet, and the related statement of operations and cash flows from Renminbi (RMB) into US dollars as of and for the year ended December 31, 2018 are solely for the convenience of the readers and were calculated at the rate of USD1.00=RMB6.7112, representing the noon buying rate set forth in the H.10 statistical release of the U.S. Federal Reserve Board on March 29, 2019. No representation is made that the RMB amounts could have been, or could be, converted, realized or settled into USD at that rate on March 29, 2019, or at any other rate.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES***Basis of presentation***

The unaudited condensed consolidated financial statements have been prepared in accordance with the rules and regulations of the Security and Exchange Commission and accounting principles generally accepted in the United States of America (U.S. GAAP) for interim financial reporting. Certain information and footnote disclosures normally included in financial statements prepared in conformity with U.S. GAAP have been condensed or omitted pursuant to such rules and regulations. The Group believes that the disclosures are adequate to make the information presented not misleading. The Group adopted Topic 842 in the first quarter of 2019 using the modified retrospective transition approach allowed under ASU 2018-11, Leases (Topic 842), Targeted Improvements, as described in Note 2. The results of operations for the three months ended March 31, 2018 and 2019 are not necessarily indicative of the results for the full years.

US dollars using the exchange rate as of balance sheet date, for the convenience of the readers. Translations of balances in the consolidated balance sheets and the related consolidated statements of operations, comprehensive (loss) income, change in shareholders deficit and cash flows from Renminbi (RMB) into US dollars as of and for the three months ended March 31, 2019 are solely for the convenience of the readers and were calculated at the rate of USD1.00=RMB6.7112 representing the noon buying rate set forth in the H.10 statistical release of the U.S. Federal Reserve Board on March 29, 2019. No representation is made that the RMB amounts could have been, or could be, converted, realized or settled into USD at that rate on March 29, 2019, or at any other rate.

Revenue recognition

The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The Groups revenue is reported net of discount, value added tax and related surcharges.

The primary sources of the Groups revenues are as follows:

(1) Online tutoring services

The Group offers various types of integrated online tutoring services covering a wide spectrum of topics and targets students from broad age groups through its diverse offerings of K-12 tutoring, foreign language, professional and interest education services. The Groups live interactive tutoring services consists of several components, including online live broadcasting classes as well as other activities during the online period including teaching material, quizzes before, during and after the classes, summary of lessons after each class and interactions with both other students and instructors during the period. Different service components are highly interdependent and interrelated in the context of the contract with the live interactive tutoring services. Therefore, the Group has determined that the live interactive tutoring services represents one performance obligation. The service period for a majority of the live interactive tutoring services is less than six months.

Once the live interactive tutoring services is complete, the Group also offers the customer a content playback service. In the content playback service, the customer has unlimited access to online pre-recorded audio-video courses for a specified period ranging from one to three years. No other interactions or activities are provided during the playback period. For contracts that provide both the live interactive tutoring service and the content playback service, the Group determined that the live interactive tutoring service and content playback service are two separate performance obligations under ASC 606, as these two deliverables are distinct in that customers can benefit from each service on its own and the Groups promises to deliver the services are separately identifiable from each other in the contract.

Tutoring fees are collected in advance. The Group determines that there is not a significant financing component based on the nature of the service being offered and the purpose of the payment terms. The Group charges a single upfront amount, not with the primary purpose of obtaining financing from the students but, instead, to maximize profitability, taking into consideration the risks associated with providing the service. For K-12 related courses, the Group offers refunds for any remaining classes to students who

withdraw from the course. The refund is equal to the amount related to the undelivered class. The Group determines the transaction price to be earned by estimating the refund liability based on historical refund ratio on a portfolio basis using the expected value method, and allocates the tutoring fee excluding the estimate for refund liability to each performance obligation using the relative stand-alone selling price. The Group determines the stand-alone selling prices using an expected cost plus margin methodology. Revenue related to the live interactive tutoring service is recognized proportionately as the online classes are delivered, as the Group concluded that the delivery of each online class represents a faithful depiction of when the services are provided to the students. Revenue related to the right to access the content playback is recognized proportionally over the playback period, as the Group concluded that the content playback service represents a stand ready obligation to provide the playback services and the customer simultaneously receives and consumes the benefits as the Group provides such services throughout the playback period.

In some promotion activities, the Group grants sales incentives, including cash coupon and free class, to students who made qualified course purchases. Those students can redeem the cash coupon in the next purchase as part of payment, or select to enroll in a new course free of charge, prior to the incentives expiration. The cash coupon and free class will expire in six months. The Group determined the cash coupon and/or free course granted to existing students are material rights. As a result, a portion of sales price received on students making qualified purchases is allocated to the sales incentives granted based on the relative standalone selling prices. The selling price of cash coupon is estimated based on the discount amount and the probability of redemption. Revenue allocated to sales incentives is recorded as deferred revenue until redemption or expiration. Once the coupon or free class is redeemed, revenue will be recognized based on the revenue recognition policy discussed above. Students may not always redeem cash coupon or take the free class offered before the expiration of the sales incentive. Therefore, the Group expects to be entitled to a breakage amount in deferred revenue related to the incentives. The Group estimates the breakage based on historical students usage and recognizes the estimated breakage as revenue in proportion to the pattern of incentives exercised by students. The assessment of estimating breakage is updated on a quarterly basis. Changes in estimated breakage is accounted for by adjusting deferred revenue to reflect the remaining incentive rights expected to be exercised.

(2) Other services

Other service revenues are primarily derived from 1) membership-based service and 2) offline business consulting courses.

The Group provides membership-based services which consists of providing a platform connecting training institutions or individual teachers and students. Training institutions or individual teachers who pay the membership fees are able to join the Groups online platform and market their courses to prospective students. Membership fees are primarily fixed and no contractual membership fee refunds are provided to the training institutions or individual teachers. The membership services mainly provide training institutions or individual teachers with display of an online storefront on the Groups platforms and access to online account management system, which are accounted for as a single performance obligation as the membership services are highly integrated. These service fees are paid in advance for a specific contracted service period and the revenues are recognized proportionally over the service period, typically 12 months, as the Group

concluded that the membership service represents a stand ready obligation to provide the services while the member simultaneously receives and consumes the benefits of such services throughout the contract period.

The Group also offers offline business consulting courses targeting principals and other officers of private education institutions who want to improve their management skills. No contractual service fee refund is provided to the course participants. Course fees are collected in advance and the revenues, net of any discounts, are recognized proportionally over the service period, which is generally less than a year, as the classes are generally delivered evenly through the course period.

Contract balances

The following table provides information about the Groups contract liabilities arising from contract with customers. The increase in contract liabilities primarily resulted from the Groups business growth.

	As of December 31 2018 RMB	As of March 31 2019 RMB
Deferred revenue-current	263,330	282,267
Deferred revenue-non-current	8,711	9,088
Refund liability	11,167	9,863
	<u>283,208</u>	<u>301,218</u>

Deferred revenue primarily consists of tuition fees received from customers for which the Groups revenue recognition criteria have not been met. The deferred revenue will be recognized as revenue once the criteria for revenue recognition have been met. Revenue recognized during the three month ended March 31, 2018 and 2019 that was included in the deferred revenue balance at January 1, 2018 and January 1, 2019 amounted to RMB15,796 and RMB148,232, respectively.

Refund liability represents the tutoring fee collected by the Group which it expects to refund back to its customer as a result of its refund policy. Refund liability is estimated based on the historical refund ratio for each of the type of classes provided. The Groups remaining performance obligations represents the amount of the transaction price for which service has not been performed.

As of March 31, 2019, the aggregate amount of the transaction price allocated for the remaining performance obligations amounted to RMB291,355. The Group expects to recognize revenue of RMB282,267 and RMB6,991 related the remaining performance obligations over the next 12 and 24 months, respectively, with the remainder of RMB2,097 recognized thereafter.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES*continued***Revenue recognition***continued**(2) Other services**continued*Disaggregation of revenue

For the three months ended March 31, 2018 and 2019, all of the Groups revenues were generated in the PRC. Additionally, all of the revenues for the periods were recognized from contracts with customers. The following table provides information about disaggregated revenue by types:

	For the three months ended March 31,

Cost of revenues

Cost of revenues mainly consists of salaries to instructors and tutors, rental expenses for office space, depreciation and amortization of properties and equipment, teaching materials and bandwidth costs. The instructors consists of both full-time instructors and part-time instructors. Full-time instructors compensation primarily consist of base salary, as well as teaching fees based on hourly rates in connection with courses delivered. The compensation of part-time instructors is calculated as a fixed percentage of the tuition fees of the courses delivered by the instructors, and is accrued as courses are delivered. The compensation of tutors consists of base salary and performance-based compensations, which is determined based on student retention and exercise completion. Specifically, if an existing student of a tutor enrolls in a new course, a bonus is paid to the tutor which is calculated as a percentage of the tuition of the new course. Tutors also receives a fixed payment for each exercise marking performed. The Group accrues on a monthly basis for the cost of tutor which includes basic salary, compensation for exercise marking as well as student retention bonus. The retention bonus is estimated by using the expected tuition collected for the retention courses, multiply by the estimated retention rate and the bonus percentage.

Leases

The Group leases administrative office spaces in different cities in the PRC under operating leases. The Group determines whether an arrangement constitutes a lease and records lease liabilities and right-of-use assets on its consolidated balance sheets at the lease commencement. The Group measures its lease liabilities based on the present value of the total lease payments not yet paid discounted based on the more readily determinable of the rate implicit in the lease or its incremental borrowing rate, which is the estimated rate the Group would be required to pay for a collateralized borrowing equal to the total lease payments over the term of the lease. The Group estimates its incremental borrowing rate based on an analysis of publicly

traded debt securities of companies with credit and financial profiles similar to its own. The Group measures right-of-use assets based on the corresponding lease liability adjusted for payments made to the lessor at or before the commencement date, and initial direct costs it incurs under the lease. The Group begins recognizing rent expense when the lessor makes the underlying asset available to the Group. The Groups leases have remaining lease terms of up to five years, some of which include options to extend the leases for an additional period which has to be agreed with the lessors based on mutual negotiation. After considering the factors that create an economic incentive, the Group did not include renewal option periods in the lease term for which it is not reasonably certain to exercise.

For short-term leases, the Group records rent expense in its consolidated statements of operations on a straight-line basis over the lease term and record variable lease payments as incurred.

Significant risks and uncertainties

Foreign currency risk

The RMB is not a freely convertible currency. The State Administration for Foreign Exchange, under the authority of the Peoples Bank of China, controls the conversion of RMB into other currencies. The value of the RMB is subject to changes in central government policies, international economic and political developments affecting supply and demand in the China Foreign Exchange Trading System market. The Groups cash and cash equivalents denominated in RMB amounted to RMB32,643 and RMB39,439 as of December 31, 2018 and March 31, 2019, respectively.

Concentration risks

Financial instruments that potentially expose the Group to significant concentration of credit risk primarily consist of cash and cash equivalents, short-term investments and receivables from third party payment platform. As of December 31, 2018 and March 31, 2019, substantially all of the Groups cash and cash equivalents and short-term investments were deposited in financial institutions located in the PRC.

There are no revenues from customers which individually represent greater than 10% of the total net revenues for the three months ended March 31, 2018 and 2019.

The Group currently relies on third-party instructors to deliver its course offerings. Approximately 9.72% and 11.44% of the Groups net revenues for the three months ended March 31, 2018 and 2019, respectively, were earned through the courses offered by one instructor. The Groups reliance on certain top quality instructors would expose it to risk of revenue loss if it loses the instructors.

Unaudited pro forma information

Unaudited pro forma balance sheet information as of March 31, 2019 assumes the automatic conversion of all of the outstanding Series A Preferred Shares, as if the conversion had occurred as of March 31, 2019. Pro forma net income (loss) per share is not presented because of the effect of the conversion of the Series A Preferred Shares using a conversion ratio of 1:1 and would not result in any dilution in net income (loss) per share applicable to ordinary shareholders.

Newly adopted accounting pronouncements

In February 2016, the FASB issued Topic 842. The guidance supersedes existing guidance on accounting for leases with the main difference being that operating leases are to be recorded in the statement of

financial position as right-of-use assets and lease liabilities, initially measured at the present value of the lease payments. For operating leases with a term of 12 months or less, a lessee is permitted to make an accounting policy election not to recognize lease assets and liabilities. The Group has elected not to record on the balance sheet leases with an initial term of twelve months or less. For public companies, the guidance is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. Early application of the guidance is permitted. In July 2018, ASU 2016-02 was updated with ASU No. 2018-11, Targeted Improvements to ASC 842, which provides entities with relief from the costs of implementing certain aspects of the new leasing standard. Specifically, under the amendments in ASU 2018-11, (1) entities may elect not to recast the comparative periods presented when transitioning to ASC 842 (the optional transition method) and (2) lessors may elect not to separate lease and nonlease components when certain conditions are met. Before ASU 2018-11 was issued, transition to the new lease standard required application of the new guidance at the beginning of the earliest comparative period presented in the financial statements.

The Group adopted Topic 842 in the first quarter of 2019 using the modified retrospective transition approach allowed under ASU 2018-11, without adjusting the comparative periods presented. The Group elected the practical expedients under ASU 2016-02 which includes the use of hindsight in determining the lease term and the practical expedient package to not reassess whether any expired or existing contracts are or contain leases, to not reassess the classification of any expired or existing leases, and to not reassess initial direct costs for any existing leases. Upon adoption of Topic 842, the Group recognized both a right-of-use assets and corresponding lease liabilities of RMB57,381 and RMB54,106, respectively, on the balance sheet. The difference between the right-of-use assets and lease liabilities was due to prepaid rent. The adoption did not have a material impact on the Groups consolidated statements of operations or consolidated statements of cash flows upon adoption as described in Note 11. The adoption of Topic 842 also did not result in a cumulative-effect adjustment to retained earnings.

Recent accounting pronouncements not yet adopted

In January 2017, FASB issued ASU No. 2017-04: Simplifying the Test for Goodwill Impairment. Under the new accounting guidance, an entity will no longer determine goodwill impairment by calculating the implied fair value of goodwill by assigning the fair value of a reporting unit to all of its assets and liabilities as if that reporting unit had been acquired in a business combination. Instead, an entity will perform its goodwill impairment tests by comparing the fair value of a reporting unit with its carrying amount. An entity will recognize an impairment charge for the amount by which the carrying amount exceeds the reporting units fair value but not to exceed the total amount of the goodwill of the reporting unit. In addition, an entity should consider income tax effects from any tax deductible goodwill on the carrying amount of the reporting unit when measuring the goodwill impairment, if applicable. The provisions of the new accounting guidance are required to be applied prospectively. The new accounting guidance is effective for companies for goodwill impairment tests performed in fiscal years beginning after December 15, 2019. Early adoption is permitted for goodwill impairment tests performed after January 1, 2017. The Group is in the process of assessing the impact on its consolidated financial statements from the adoption of the new guidance.

In October 2018, the FASB issued ASU 2018-17, Consolidation (Topic 810): Targeted Improvements to the Related Party Guidance for Variable Interest Entities. ASU 2018-17 changes how entities evaluate decision-

making fees under the variable interest entity guidance. To determine whether decision-making fees represent a variable interest, an entity considers indirect interests held through related parties under common control on a proportional basis, rather than in their entirety. This guidance will be adopted using a retrospective approach and is effective for the Group on January 1, 2020. The Group is evaluating the effect that adoption of this guidance will have on its consolidated financial statements and related disclosures.

5. FAIR VALUE MEASUREMENTcontinued*Measured at fair value on a non-recurring basis*

The Group measures goodwill at fair value on a nonrecurring basis when it is annually evaluated or whenever events or changes in circumstances indicate that the carrying amount of a reporting unit exceeds its fair value as a result of the impairment assessment.

The Group measures long-term investments at fair value on a nonrecurring basis whenever events or changes in circumstances indicate that the carrying value may no longer be recoverable.

6. SHARE-BASED COMPENSATION

During the three months ended March 31, 2018 and 2019, the Group granted share options to employees. In March 2019, the Group approved the Share Incentive Plan (the Plan) under which the maximum aggregate number of ordinary shares that may be issued pursuant to all awards is 28,400,000 shares. The shares reserved may be increased automatically if and whenever the unissued shares reserved accounts for less than one percent (1%) of the total then issued and outstanding shares, so that after the increase, the shares unissued and reserved under the Plan immediately after each such increase shall equal to five percent (5%) of the then issued and outstanding shares. The term of the option shall not exceed ten years from the date of the grant.

The options will vest in accordance with the vesting schedules set out in the respective share option agreements with vesting period ranging from 0 to 10 years.

The Company determined the estimated fair value of the options on the respective grant dates using the binomial option pricing model with the assistance from an independent valuation firm. The following assumptions were used.

Grant date	For the three months ended March 31,	
	2018	2019
Risk-free interest rate	3.47%	3.20%
Volatility	53.40%	54.60%
Dividend yield		
Exercise multiples		2.20-
	2.20	2.80
Life of options (in years)	10	10
Fair value of underlying ordinary shares	4.5	72.1

(1) Risk-free interest rate

Risk-free interest rate was estimated based on the daily treasury long term rate of the U.S. Treasury Department with a maturity period close to the expected term of the options, plus the country default spread of China.

(2) Volatility

The volatility of the underlying ordinary shares during the lives of the options was estimated based on the historical stock price volatility of comparable listed companies over a period comparable to the expected term of the options.

(3) Dividend yield

The dividend yield was estimated by the Group based on its expected dividend policy over the expected term of the options.

(4) Exercise multiples

Exercise multiple represents the value of the underlying share as a multiple of exercise price of the option which, if achieved, results in exercise of the option.

(5) Life of options

Life of options is extracted from option agreements.

(6) Fair value of underlying ordinary shares

The estimated fair value of the ordinary shares underlying the options as of the respective grant dates was determined based on a valuation with the assistance of a third party appraiser.

A summary of options activities during the three months ended March 31, 2019 is presented below:

	Number of options	Weighted average exercise price	Weighted average grant date fair value	Weighted average remaining contractual term (years)	Aggregate intrinsic value
Options outstanding at January 1, 2019	24,470,565	0.01	3.54	8.36	310,213
Granted	1,979,910	0.01	72.12		
Exercised	15,600,000	0.01	1.35

Option exercisable as of March 31, 2019	2,254,180	0.01	1.78	6.41	162,571

The total fair value of options vested during the three months ended March 31, 2019 were RMB222.

During the three months ended March 31, 2019, the Company granted 1,979,910 graded vesting options to certain employees. The Company recognizes compensation expenses related to those option over the estimated service period for each separate vesting portion of the award as if the award is in substance, multiple awards. RMB3,822 of compensation expenses was recorded for three months ended March 31, 2019.

As of March 31, 2019, there was RMB198,685 of unrecognized compensation expenses related to options expected to be recognized over a weighted average period of 8.76 years.

7. CONVERTIBLE REDEEMABLE PREFERRED SHARES

In March 15, 2019, the Company and the Series A Preferred Share investors agreed to (i) extend the original redemption date of the Series A Preferred Shares from June 30, 2018 to June 30, 2020, (ii) removed the termination of the full-time employment relationship of any two of the founders of the Group prior to a QIPO as a redemption triggering event and (iii) changed the liquidation preference to include an automatic termination once a QIPO occurs. As this transaction represented a modification as opposed to an extinguishment of preferred shares, only an increase in fair value required accounting. The Company calculated the increase in fair value of the Series A Preferred Share at the modification date resulting from the changes described and concluded that the increase was insignificant.

The change in the balance of Series A Preferred Shares included in mezzanine equity for the three months ended March 31, 2018 and 2019 are as follows:

	Series A Preferred Shares RMB
Balance as of January 1, 2018	427,130
Accretion of Series A Preferred Shares	9,733
Balance as of March 31, 2018	<u>436,863</u>
Balance as of January 1, 2019	466,060
Accretion of Series A Preferred Shares	9,733
Balance as of March 31, 2019	<u><u>475,793</u></u>

The Group recognizes changes in the redemption value ratably over the redemption period. Increases in the carrying amount of the redeemable preferred shares are recorded by charges against retained earnings, or in the absence of retained earnings, by charges as reduction of additional paid-in capital until additional paid-in capital is reduced to zero. Once paid-in capital is reduced to zero, the redemption value measurement adjustment is recognized as an increase in accumulated deficit.

8. INCOME TAXES

The Company is incorporated in the Cayman Islands. Under the current laws of the Cayman Islands, the Company is not subject to income or capital gains taxes. For the three months ended March 31, 2018 and 2019, the Group has determined that its convertible redeemable participating preferred shares are participating securities as the preferred shares participate in undistributed earnings on an as-if-converted basis. The holders of the preferred shares are entitled to receive dividends on a pro rata basis, as if their shares had been converted into ordinary shares. Accordingly, the Group uses the two-class method of computing net income per share, for ordinary shares and preferred

11. LEASES

Operating leases

The Groups leases consist of operating leases for administrative office spaces in different cities in the PRC. The Group determines if an arrangement is a lease at inception. Some lease agreements contain lease and non-lease components, which the Group choose to account for as separate components. The allocation of the consideration between the lease and the non-lease components is based on the relative stand-alone prices of lease components included in the lease contracts. As of March 31, 2019, the Group had no long-term leases that were classified as a financing lease. As of March 31, 2019, the Group did not have additional operating leases that have not yet commenced.

Total operating lease expenses for the period ended March 31, 2019 was RMB6,475, and was recorded in cost of revenues, selling expenses, research and development expenses and general and administrative expense on the consolidated statements of operations.

INFORMATION NOT REQUIRED IN PROSPECTUS

ITEM 6. INDEMNIFICATION OF DIRECTORS AND OFFICERS.

Cayman Islands law does not limit the extent to which a company's articles of association may provide for indemnification of officers and directors, except to the extent any such provision may be held by the Cayman Islands courts to be contrary to public policy, such as to provide indemnification against civil fraud or the consequences of committing a crime.

The post-offering memorandum and articles of association that we expect to adopt and to become effective immediately prior to the completion of this offering provide that we shall indemnify our directors and officers (each an indemnified person) against all actions, proceedings, costs, charges, expenses, losses, damages or liabilities incurred or sustained by such indemnified person, other than by reason of such person's own dishonesty, willful default or fraud, in or about the conduct of our company's business or affairs (including as a result of any mistake of judgment) or in the execution or discharge of his duties, powers, authorities or discretions, including without prejudice to the generality of the foregoing, any costs, expenses, losses or liabilities incurred by such indemnified person in defending (whether successfully or otherwise) any civil proceedings concerning our company or its affairs in any court whether in the Cayman Islands or elsewhere.

Pursuant to the indemnification agreements, the form of which is filed as Exhibit 10.2 to this registration statement, we agree to indemnify our directors and executive officers against certain liabilities and expenses incurred by such persons in connection with claims made by reason of their being such a director or officer.

The underwriting agreement, the form of which has been filed as Exhibit 1.1 to this registration statement, will also provide indemnification for us and our officers and directors for certain liabilities.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers or persons controlling us pursuant to the foregoing provisions, we have been informed that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

ITEM 9. UNDERTAKINGS.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the provisions described in Item 6, or otherwise, the registrant has been advised that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. The undersigned registrant hereby undertakes that:

- (1) For purposes of determining any liability under the Securities Act of 1933, the information omitted from the form of prospectus filed as part of this registration statement in reliance upon Rule 430A and contained in a form of prospectus filed by the registrant pursuant to Rule 424(b)(1) or (4) or 497(h) under the Securities Act shall be deemed to be part of this registration statement as of the time it was declared effective.

(lxv) *Representation of Officers and/or Directors.* Any certificate signed by any officer or director of the Company and delivered to the Representative or counsel for the Underwriters as required or contemplated by this Agreement shall constitute a representation and warranty hereunder by the Company, as to matters covered thereby, to each Underwriter.

3. *Purchase, Sale and Delivery of Offered Shares.* On the basis of the representations, warranties and agreements and subject to the terms and conditions set forth herein, the Company agrees to sell to each Underwriter, and each Underwriter agrees, severally and not jointly, to purchase from the Company, at a purchase price of US\$[●] per ADS, that number of Firm Shares (subject to such adjustments to eliminate fractional shares as the Representatives may determine) set forth opposite the name of such Underwriter in Schedule A hereto.

The Company will deliver the Firm Shares to or as instructed by the Representatives for the accounts of the several Underwriters through the facilities of the Depositary Trust Company (**DTC**) in a form reasonably acceptable to the Representatives against payment of the purchase price in Federal (same day) funds by official bank check or checks or wire transfer to an account at a bank acceptable to the Representatives drawn to the order of the Company for itself, as the case may be, at [10 A.M.], New York time, on [●], 2019, or at such other time not later than seven full business days thereafter as the Representatives and the Company determine, such time being herein referred to as the **First Closing Date**. For purposes of Rule 15c6-1 under the Exchange Act, the First Closing Date (if later than the otherwise applicable settlement date) shall be the settlement date for payment of funds and delivery of securities for all the Offered Shares sold pursuant to the offering.

In addition, upon written notice from the Representatives given to the Company from time to time not more than 30 days subsequent to the date of the Final Prospectus, the Underwriters may purchase all or less than all of the Optional Shares at the purchase price per ADS to be paid for the Firm Shares. The Company agrees to sell to the Underwriters the number of Optional Shares specified in such notice and the Underwriters agree, severally and not jointly, to purchase such Optional Shares. Such Optional Shares shall be purchased for the account of each Underwriter in the same proportion as the number of Firm Shares set forth opposite such Underwriters name bears to the total number of Firm Shares (subject to such adjustments to eliminate fractional shares as the Representatives may determine). No Optional Shares shall be sold or delivered unless the Firm Shares previously have been, or simultaneously are, sold and delivered. The right to purchase the Optional Shares or any portion thereof may be exercised from time to time and to the extent not previously exercised may be surrendered and terminated at any time upon notice by the Representatives to the Company.

Each time for the delivery of and payment for the Optional Shares, being herein referred to as an **Optional Closing Date**, which may be the First Closing Date (the First Closing Date and each Optional Closing Date, if any, being sometimes referred to as a **Closing Date**), shall be determined by the Representatives but shall be not later than five full business days after written notice of election to purchase Optional Shares is given. The Company will deliver the Optional Shares being purchased on each Optional Closing Date to or as instructed by the Representatives for the accounts of the several Underwriters in a form reasonably acceptable to the Representatives, against payment of the purchase price therefore in Federal (same day) funds by official bank check or checks or wire transfer to an account at a bank acceptable to the Representatives drawn to the order of the Company.

4. *Offering by Underwriters.* It is understood that the several Underwriters propose to offer the Offered Shares for sale to the public as set forth in the Final Prospectus. It is further understood that the Offered Shares are to be offered to the public initially at US\$[●] per ADS.

5. *Certain Agreements of the Company.*

The Company agrees with the several Underwriters that:

(i) *Additional Filings.* Unless filed pursuant to Rule 462(c) as part of the Additional Registration Statement in accordance with the next sentence, the Company will file the Final Prospectus, in a form approved by the Representatives, with the Commission pursuant to and in accordance with subparagraph (1) (or, if applicable and if consented to by the Representatives, subparagraph (4)) of Rule 424(b) not later than the earlier of (A) the second business day following the execution and delivery of this Agreement or (B) the fifteenth business day after the Effective Time of the Initial Registration Statement. The Company will advise the Representatives promptly of any such filing pursuant to Rule 424(b) and provide satisfactory evidence to the Representatives of such timely filing. If an Additional Registration Statement is necessary to register a portion of the Offered Shares under the Act but the Effective Time thereof has not occurred as of the execution and delivery of this Agreement, the Company will file the Additional Registration Statement or, if filed, will file a post-effective amendment thereto with the Commission pursuant to and in accordance with Rule 462(b) on or prior to [10:00 P.M.], New York time, on the date of this Agreement or, if earlier, on or prior to the time the Final Prospectus is finalized and distributed to any Underwriter, or will make such filing at such later date as shall have been consented to by the Representatives.

(ii) *Filing of Amendments: Response to Commission Requests.* The Company will promptly advise the Representatives of any proposal to amend or supplement at any time the Initial Registration Statement, the ADS Registration Statement, any Additional Registration Statement, any Exchange Act Registration Statement or any Statutory Prospectus and will not effect such amendment or supplementation without the Representatives consent (which consent shall not be unreasonably withheld or delayed); and the Company will also advise the Representatives promptly of (A) the effectiveness of any Additional Registration Statement (if its Effective Time is subsequent to the execution and delivery of this Agreement), (B) any amendment or supplementation of a Registration Statement, the ADS Registration Statement, any Exchange Act Registration Statement or any Statutory Prospectus, (C) any request by the Commission or its staff for any amendment to any Registration Statement, any Exchange Act Registration Statement or the ADS Registration Statement, for any supplement to any Statutory Prospectus or for any additional information, (D) the institution by the Commission of any stop order proceedings in respect of a Registration Statement or the threatening of any proceeding for that purpose, and (E) the receipt by the Company of any notification with respect to the suspension of the qualification of the Offered Shares in any jurisdiction or the institution or threatening of any proceedings for such purpose. The Company will use its best efforts to prevent the issuance of any such stop order or the suspension of any such qualification and, if issued, to obtain as soon as possible the withdrawal thereof.

(iii) *Continued Compliance with Securities Laws.* If, in the opinion of counsel for the Underwriters, at any time when a prospectus relating to the Offered Shares is (or but for the exemption in Rule 172 would be) required to be delivered under the Act by any Underwriter or dealer, any event occurs or condition exists as a result of which the Final Prospectus as then amended or supplemented would include an untrue statement of a material fact or omit to state any material fact necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading, or if, in the opinion of counsel for the Underwriters, it is necessary at any time to amend the Registration Statement or supplement the Final Prospectus to comply with the applicable law, the Company will promptly notify the Representatives of such event or condition and will promptly prepare and file with the Commission and furnish, at its own expense, to the Underwriters and the dealers and any other dealers upon request of the Representatives, either amendments to the Registration Statement or supplements to the Final Prospectus so that the statements in the Registration Statement or Final Prospectus as so amended or supplemented will not, in the light of the circumstances when the Prospectus (or in lieu thereof the notice referred to in Rule 173(a) of the Act) is delivered to a purchaser, be misleading or so that the Prospectus, as amended or supplemented, will comply with applicable law. Neither the Representatives consent to, nor the Underwriters delivery of, any such amendment or supplement shall constitute a waiver of any of the conditions set forth in Section 7 hereof.

(iv) *Rule 158.* As soon as practicable, but not later than the Availability Date (as defined below), the Company will make generally available to its security holders an earnings statement covering a period of at least 12 months beginning after the Effective Date of the Initial Registration Statement (or, if later, the Effective Time of the Additional Registration Statement) which will satisfy the provisions of Section 11(a) of the Act and Rule 158 under the Act. For the purpose of the preceding sentence, **Availability Date** means the 60th day after the end of the fourth fiscal quarter following the fiscal quarter that includes such Effective Time, except that, if such fourth fiscal quarter is the last quarter of the Companys fiscal year, **Availability Date** means the 90th day after the end of such fourth fiscal quarter.

(v) *Furnishing of Prospectuses.* The Company will furnish to the Representatives copies of each Registration Statement (including such number of copies that will be signed and will include all exhibits thereto as requested by the Representatives), each related Statutory Prospectus, and, so long as a prospectus relating to the Offered Shares is (or but for the exemption in Rule 172 would be) required to be delivered under the Act, the Final Prospectus and all amendments and supplements to such documents, in each case in such quantities as the Representatives requests. The Final Prospectus shall be so furnished on or prior to [5:00 P.M.], New York time, on the second business day following the execution and delivery of this Agreement. All other such documents shall be so furnished as soon as available. The Company will pay the expenses of printing and distributing to the Underwriters all such documents.

(vi) *Blue Sky Qualifications.* The Company will arrange for the qualification of the Offered Shares for sale under the laws of such jurisdictions as the Representatives designates and will continue such qualifications in effect so long as required for the distribution of the Offered Shares.

(vii) *Reporting Requirements.* During the period of five years hereafter, the Company will furnish to the Representatives and, upon request, to each of the other Underwriters, as soon as practicable after the end of each fiscal year, a copy of its annual report to shareholders for such year; and the Company will furnish to the Representatives (A) as soon as available, a copy of each report and any definitive proxy statement of the Company filed with the Commission under the Exchange Act or mailed to shareholders, and (B) from time to time, such other information concerning the Company as the Representatives may reasonably request. However, so long as the Company is subject to the reporting requirements of either Section 13 or Section 15(d) of the Exchange Act and is timely filing reports with the Commission on the EDGAR, it is not required to furnish such reports or statements to the Underwriters.

(viii) *[Payment of Expenses.* Whether or not the transactions contemplated in this Agreement are consummated or this Agreement is terminated, the Company agrees to pay or cause to be paid all expenses and fees incident to the performance of the obligations of the Company under this Agreement, including but not limited to (A) the fees, disbursements and expenses of the Company's counsel and the Company's accountants in connection with the registration and delivery of the Offered Shares and the American Depositary Shares under the Act and all other fees or expenses in connection with the preparation and filing of the Registration Statement, the ADS Registration Statement, the Exchange Act Registration Statement, any preliminary prospectus, the Final Prospectus, any free writing prospectus prepared by or on behalf of, used by, or referred to by the Company and amendments and supplements to any of the foregoing, including all printing costs associated therewith, and the mailing and delivering of copies thereof to the Underwriters and dealers, in the quantities hereinabove specified, (B) all costs and expenses related to the transfer and delivery of the Offered Shares and the American Depositary Shares to the Underwriters, including any transfer or other taxes payable thereon, (C) the cost of printing or producing any Blue Sky or legal investment memorandum in connection with the offer and sale of the Offered Shares or the American Depositary Shares under state securities laws and all expenses in connection with the qualification of the Offered Shares and American Depositary Shares for offer and sale under state securities laws as provided in Section 5(vi) hereof, including filing fees, reasonable fees and disbursements of counsel for the Underwriters in connection with such qualification and in connection with the Blue Sky or legal investment memorandum, (D) all filing fees in connection with the review and qualification of the offering of the Offered Shares by FINRA, (E) the reasonable fees and disbursements of counsel to the Underwriters incurred in connection with the review and qualification of the offering of the Offered Shares by FINRA of up to US\$20,000, (F) all costs and expenses incident to listing the American Depositary Shares on the New York Stock Exchange, (G) the cost of printing certificates representing the Offered Shares or the American Depositary Shares, (H) the costs and charges of any transfer agent, registrar or depository, (I) the costs and expenses relating to investor presentations on any road show and Testing-the-Waters Communication undertaken in connection with the marketing of the offering of the American Depositary Shares, including, without limitation, expenses associated with the preparation or dissemination of any electronic road show, expenses associated with the production of presentation slides and graphics, fees and expenses of any consultants engaged in connection with the investor presentations with the prior approval of the Company, travel, meals and lodging expenses of representatives and officers of the Company and any such consultants, provided, however, for purposes of this clause (I), consultants and representatives shall not include the Underwriters or any of their employees, and (J) all other costs and expenses incident to the performance of the obligations of the Company hereunder for which provision is not otherwise made in this Section. It is understood, however, that, except as provided in this Section, and Section 9 and Section 12 hereof, the Underwriters will pay all of their costs and expense, including without limitation, the fees of their counsel, share transfer taxes on resale of any of the Offered Shares by them, and any advertising expenses in connection with any offers they may make. The Company will not to invest, or otherwise use the proceeds received by the Company from its sale of the American Depositary Shares in such a manner (A) as would require the Company or any of the Controlled Entities to register as an investment company under the Investment Company Act, and (B) that would result in the Company being not in compliance with any applicable laws, rules and regulations of SAFE.

(x) *Absence of Manipulation.* The Company agrees not to, and agrees to cause the Controlled Entities not to take, directly or indirectly, any action designed to or that would constitute or that might reasonably be expected to cause or result in, stabilization or manipulation of the price of any securities of the Company to facilitate the sale or resale of the Offered Shares.

8. *Indemnification and Contribution.*

(a) *Indemnification of Underwriters by Company.* The Company will indemnify and hold harmless each Underwriter, its respective partners, members, directors, officers, employees, agents, affiliates and such affiliates directors, officers, and employees, and each person, if any, who controls such Underwriter within the meaning of Section 15 of the Act or Section 20 of the Exchange Act (each an **Indemnified Party**), against any and all losses, claims, damages or liabilities (including, without limitation, any legal or other expenses reasonably incurred in connection with defending or investigating any such action or claim), joint or several, to which such Indemnified Party may become subject, under the Act, the Exchange Act, other Federal or state statutory law or regulation or otherwise, insofar as such losses, claims, damages or liabilities (or actions in respect thereof) arise out of or are based upon (i) any untrue statement or alleged untrue statement of any material fact contained in any part of any Registration Statement (including any amendment thereof) at any time or the ADS Registration Statement (including any amendment thereof) at any time, or any omission or alleged omission to state therein a material fact required to be stated therein or necessary to make the statements therein not misleading, or (ii) any untrue statement or alleged untrue statement of any material fact contained in any Statutory Prospectus at any time, the Final Prospectus (including any amendment or supplement thereto), any Issuer Free Writing Prospectus, any Company information that the Company has filed, or is required to file, pursuant to Rule 433(d) under the Act, any road show as defined in Rule 433(h) under the Act (a **road show**), or any Written Testing-the-Waters Communication, or any omission or alleged omission to state therein a material fact required to be stated therein or necessary to make the statements therein, in light of the circumstances under which they were made, not misleading, and will reimburse each Indemnified Party for any legal or other expenses reasonably incurred by such Indemnified Party in connection with investigating or defending against any loss, claim, damage, liability, action, litigation, investigation or proceeding whatsoever (whether or not such Indemnified Party is a party thereto), whether threatened or commenced, and in connection with the enforcement of this provision with respect to any of the above as such expenses are incurred; provided, however, that the Company will not be liable in any such case to the extent that any such loss, claim, damage or liability arises out of or is based upon an untrue statement or alleged untrue statement in or omission or alleged omission from any of such documents in reliance upon and in conformity with written information furnished to the Company by any Underwriter through the Representatives specifically for use therein, it being understood and agreed that the only such information furnished by any Underwriter consists of the information described as such in subsection (b) below.

(b) *Indemnification of Company.* Each Underwriter will severally and not jointly indemnify and hold harmless the Company, each of its directors and each of its officers who signs a Registration Statement and each person, if any, who controls the Company within the meaning of Section 15 of the Act or Section 20 of the Exchange Act (each, an **Underwriter Indemnified Party**) against any losses, claims, damages or liabilities (including, without limitation, any legal or other expenses reasonably incurred in connection with defending or investigating any such action or claim) to which such Underwriter Indemnified Party may become subject, under the Act, the Exchange Act, or other Federal or state statutory law or regulation or otherwise, insofar as such losses, claims, damages or liabilities (or actions in respect thereof) arise out of or are based upon (i) any untrue statement or alleged untrue statement of any material fact contained in any part of any Registration Statement (including any amendment thereof) at any time or the ADS Registration Statement (including any amendment thereof) at any time, or any omission or alleged omission to state therein a material fact required to be stated therein or necessary to make the statements therein not misleading, or (ii) any untrue statement or alleged untrue statement of any material fact contained in any Statutory Prospectus at any time, the Final Prospectus (including any amendment or supplement thereto), any Issuer Free Writing Prospectus, any Company information that the Company has filed, or is required to file, pursuant to Rule 433(d) under the Act, any road show, or any Written Testing-the-Waters Communication, or any omission or alleged omission to state therein a material fact required to be stated therein or necessary to make the statements therein, in light of the circumstances under which they were made, not misleading, in each case to the extent, but only to the extent, that such untrue statement or alleged untrue statement or omission or alleged omission was made in reliance upon and in conformity with written information furnished to the Company by such Underwriter through the Representatives specifically for use therein, and will reimburse any legal or other expenses reasonably incurred by such Underwriter Indemnified Party in connection with investigating or defending against any such loss, claim, damage, liability, action, litigation, investigation or proceeding whatsoever (whether or not such Underwriter Indemnified Party is a party thereto), whether threatened or commenced, based upon any such untrue statement or omission, or any such alleged untrue statement or omission as such expenses are incurred, it being understood and agreed that the only such information furnished by any Underwriter consists of the following information in the Final Prospectus furnished on behalf of each Underwriter: the addresses of the Representatives appearing in the tenth paragraph under the caption Underwriting.

(c) *Actions against Parties; Notification.* In case any proceeding (including any governmental investigation) shall be instituted involving any person in respect of which indemnity may be sought under subsection (a) or (b) above, such person (the **indemnified party**) shall promptly notify the person against whom such indemnity may be sought (the **indemnifying party**) in writing and the indemnifying party, upon request of the indemnified party, shall retain counsel reasonably satisfactory to the indemnified party to represent the indemnified party and any others the indemnifying party may designate in such proceeding and shall pay the fees and disbursements of such counsel related to such proceeding. In any such proceeding, any indemnified party shall have the right to retain its own counsel, but the fees and expenses of such counsel shall be at the expense of such indemnified party unless (A) the indemnifying party and the indemnified party shall have mutually agreed to the retention of such counsel or (B) the named parties to any such proceeding (including any impleaded parties) include both the indemnifying party and the indemnified party and representation of both parties by the same counsel would be inappropriate due to actual or potential differing interests between them. It is understood that the indemnifying party shall not, in respect of the legal expenses of any indemnified party in connection with any proceeding or related proceedings in the same jurisdiction, be liable for (A) the fees and expenses of more than one separate firm (in addition to any local counsel) for all Underwriters and all persons, if any, who control any Underwriter within the meaning of either Section 15 of the Act or Section 20 of the Exchange Act or who are affiliates of any Underwriter within the meaning of Rule 405 under the Act, and (B) the fees and expenses of more than one separate firm (in addition to any local counsel) for the Company, its directors, its officers who sign the Registration Statement and each person, if any, who controls the Company within the meaning of either such Section. The indemnifying party shall not be liable for any settlement of any proceeding effected without its written consent, but if settled with such consent or if there be a final judgment for the plaintiff, the indemnifying party agrees to indemnify the indemnified party from and against any loss or liability by reason of such settlement or judgment. Notwithstanding the foregoing sentence, if at any time an indemnified party shall have requested an indemnifying party to reimburse the indemnified party for fees and expenses of counsel as contemplated by the second, third and fourth sentences of this paragraph, the indemnifying party agrees that it shall be liable for any settlement of any proceeding effected without its written consent if (A) such settlement is entered into more than 30 days after receipt by such indemnifying party of the aforesaid request and (B) such indemnifying party shall not have reimbursed the indemnified party in accordance with such request prior to the date of such settlement. No indemnifying party shall, without the prior written consent of the indemnified party, effect any settlement of any pending or threatened proceeding in respect of which any indemnified party is or could have been a party and indemnity could have been sought hereunder by such indemnified party, unless such settlement (A) includes an unconditional release of such indemnified party from all liability on claims that are the subject matter of such proceeding, and (B) does not include any statement as to, or any admission of, fault, culpability or a failure to act by or on behalf of any indemnified party.

(d) *Contribution.* If the indemnification provided for in this Section is unavailable or insufficient to hold harmless an indemnified party under subsection (a), (b) or (c) above, then each indemnifying party shall contribute to the amount paid or payable by such indemnified party as a result of the losses, claims, damages or liabilities referred to in subsection (a), (b) or (c) above (A) in such proportion as is appropriate to reflect the relative benefits received by the Company on the one hand and the Underwriters on the other from the offering of the Offered Shares or (B) if the allocation provided by clause (A) above is not permitted by applicable law, in such proportion as is appropriate to reflect not only the relative benefits referred to in clause (A) above but also the relative fault of the Company on the one hand and the Underwriters on the other in connection with the statements or omissions which resulted in such losses, claims, damages or liabilities as well as any other relevant equitable considerations. The relative benefits received by the Company on the one hand and the Underwriters on the other shall be deemed to be in the same proportion as the total net proceeds from the offering (before deducting expenses) received by the Company bear to the total underwriting discounts and commissions received by the Underwriters. The relative fault shall be determined by reference to, among other things, whether the untrue or alleged untrue statement of a material fact or the omission or alleged omission to state a material fact relates to information supplied by the Company on the one hand and the Underwriters on the other, the parties relative intent, knowledge, access to information and opportunity to correct or prevent such untrue statement or omission. The amount paid by an indemnified party as a result of the losses, claims, damages or liabilities referred to in the first sentence of this subsection (d) shall be deemed to include any legal or other expenses incurred by such indemnified party in connection with investigating or defending any action or claim which is the subject of this subsection (d). Notwithstanding the provisions of this subsection (d), no Underwriter shall be required to contribute any amount in excess of the amount by which the total underwriting discounts and commissions received by such Underwriter under this Agreement exceeds the amount of any damages which such Underwriter has otherwise been required to pay by reason of such untrue or alleged untrue statement or omission or alleged omission. No person guilty of fraudulent misrepresentation (within the meaning of Section 11(f) of the Act) shall be entitled to contribution from any person who was not guilty of such fraudulent misrepresentation. The Underwriters obligations in this subsection (d) to contribute are several in proportion to their respective underwriting obligations and not joint. The Company and the Underwriters agree that it would not be just and equitable if contribution pursuant to this subsection (d) were determined by pro rata allocation (even if the Underwriters were treated as one entity for such purpose) or by any other method of allocation which does not take account of the equitable considerations referred to in this subsection (d).

9. *Default of Underwriters.* If any Underwriter or Underwriters default in their obligations to purchase Offered Shares hereunder on either the First Closing Date or any Optional Closing Date and the aggregate number of shares of Offered Shares that such defaulting Underwriter or Underwriters agreed but failed to purchase does not exceed 10% of the total number of shares of Offered Shares that the Underwriters are obligated to purchase on such Closing Date, the Representatives may make arrangements satisfactory to the Company for the purchase of such Offered Shares by other persons, including any of the Underwriters, but if no such arrangements are made by such Closing Date, the non-defaulting Underwriters shall be obligated severally, in proportion to their respective commitments hereunder, to purchase the Offered Shares that such defaulting Underwriters agreed but failed to purchase on such Closing Date. If any Underwriter or Underwriters so default and the aggregate number of shares of Offered Shares with respect to which such default or defaults occur exceeds 10% of the total number of shares of Offered Shares that the Underwriters are obligated to purchase on such Closing Date and arrangements satisfactory to the Representatives and the Company for the purchase of such Offered Shares by other persons are not made within 36 hours after such default, this Agreement will terminate without liability on the part of any non-defaulting Underwriter or the Company except as provided in Section 10 (provided that if such default occurs with respect to Optional Shares after the First Closing Date, this Agreement will not terminate as to the Firm Shares or any Optional Shares purchased prior to such termination). As used in this Agreement, the term Underwriter includes any person substituted for an Underwriter under this Section. Nothing herein will relieve a defaulting Underwriter from liability for its default.

10. *Survival of Certain Representations and Obligations.* The respective indemnities, agreements, representations, warranties and other statements of the Company or its officers and of the several Underwriters set forth in or made pursuant to this Agreement will remain in full force and effect, regardless of any investigation, or statement as to the results thereof, made by or on behalf of any Underwriter, the Company or any of their respective representatives, officers or directors or any controlling person, and will survive delivery of and payment for the Offered Shares. SECTION 1.34 United States or U.S. shall mean the United States of America.

ARTICLE II.

APPOINTMENT OF DEPOSITARY; FORM OF RECEIPT; DEPOSIT OF SHARES; EXECUTION AND DELIVERY, TRANSFER AND SURRENDER OF RECEIPTS

SECTION 2.1 Appointment of Depositary. The Company hereby appoints the Depositary as exclusive depositary for the Deposited Securities and hereby authorizes and directs the Depositary to act in accordance with the terms set forth in this Deposit Agreement. Each Holder and each Beneficial Owner, upon acceptance of any ADSs (or any interest therein) issued in accordance with the terms of this Deposit Agreement, shall be deemed for all purposes to (a) be a party to and bound by the terms of this Deposit Agreement and the applicable ADR(s) and (b) appoint the Depositary its attorney-in-fact, with full power to delegate, to act on its behalf and to take any and all actions contemplated in this Deposit Agreement and the applicable ADR(s), to adopt any and all procedures necessary to comply with applicable law and to take such action as the Depositary in its sole discretion may deem necessary or appropriate to carry out the purposes of this Deposit Agreement and the applicable ADR(s) (the taking of such actions to be the conclusive determinant of the necessity and appropriateness thereof).

SECTION 2.2 Form and Transferability of Receipts.

(a) Form. Receipts in certificated form shall be substantially in the form set forth in Exhibit A and Exhibit B annexed to this Deposit Agreement, with appropriate insertions, modifications and omissions, as hereinafter provided. Receipts may be issued in denominations of any number of American Depositary Shares. No Receipt in certificated form shall be entitled to any benefits under this Deposit Agreement or be valid or obligatory for any purpose, unless such Receipt shall have been dated and signed by the manual or facsimile signature of a duly authorized signatory of the Depositary. The Depositary shall maintain books on which each Receipt so executed and Delivered, in the case of Receipts in certificated form, and each Receipt issued through any book-entry system, including, without limitation, DRS/Profile, in either case as hereinafter provided, and the transfer of each such Receipt shall be registered. Receipts in certificated form bearing the manual or facsimile signature of a duly authorized signatory of the Depositary who was at any time a proper signatory of the Depositary shall bind the Depositary, notwithstanding the fact that such signatory has ceased to hold such office prior to the execution and Delivery of such Receipts by the Registrar or did not hold such office on the date of issuance of such Receipts.

Notwithstanding anything in this Deposit Agreement or in the form of Receipt to the contrary, to the extent available by the Depositary, ADSs shall be evidenced by Receipts issued through any book-entry system, including, without limitation, DRS/Profile, unless certificated Receipts are specifically requested by the Holder. Holders and Beneficial Owners shall be bound by the terms and conditions of this Deposit Agreement and of the form of Receipt, regardless of whether their Receipts are in certificated form or are issued through any book-entry system, including, without limitation, DRS/Profile.

(b) Legends. In addition to the foregoing, the Receipts may, and upon the written request of the Company shall, be endorsed with, or have incorporated in the text thereof, such legends or recitals or modifications not inconsistent with the provisions of this Deposit Agreement as may be (i) necessary to enable the Depositary and the Company to perform their respective obligations hereunder, (ii) required to comply with any applicable laws or regulations, or with the rules and regulations of any securities exchange or market upon which ADSs may be traded, listed or quoted, or to conform with any usage with respect thereto, (iii) necessary to indicate any special limitations or restrictions to which any particular ADRs or ADSs are subject by reason of the date of issuance of the Deposited Securities or otherwise or (iv) required by any book-entry system in which the ADSs are held. Holders and Beneficial Owners shall be deemed, for all purposes, to have notice of, and to be bound by, the terms and conditions of the legends set forth, in the case of Holders, on the ADR registered in the name of the applicable Holders or, in the case of Beneficial Owners, on the ADR representing the ADSs owned by such Beneficial Owners.

(c) Title. Subject to the limitations contained herein and in the form of Receipt, title to a Receipt (and to the ADSs evidenced thereby), when properly endorsed (in the case of certificated Receipts) or upon delivery to the Depositary of proper instruments of transfer, shall be transferable by delivery with the same effect as in the case of a negotiable instrument under the laws of the State of New York; provided, however, that the Depositary, notwithstanding any notice to the contrary, may treat the Holder thereof as the absolute owner thereof for the purpose of determining the person entitled to distribution of dividends or other distributions or to any notice provided for in this Deposit Agreement and for all other purposes and neither the Depositary nor the Company will have any obligation or be subject to any liability under the Deposit Agreement to any holder of a Receipt, unless such holder is the Holder thereof.

SECTION 2.3 Deposits.

(a) Subject to the terms and conditions of this Deposit Agreement and applicable law, Shares or evidence of rights to receive Shares may be deposited by any person (including the Depositary in its individual capacity but subject, however, in the case of the Company or any Affiliate of the Company, to Section 5.7 hereof) at any time beginning on the 181st day after the date of the prospectus contained in the registration statement on Form F-1 under which the ADSs are first sold or on such earlier date as the Company (with the approval of the underwriters referred to in the said prospectus) may specify in writing to the Depositary, whether or not the transfer books of the Company or the Foreign Registrar, if any, are closed, by Delivery of the Shares to the Custodian. Except for Shares deposited by the Company in connection with the initial sale of ADSs under the registration statement on Form F-1, no deposit of Shares shall be accepted under this Deposit Agreement prior to such date. Every deposit of Shares shall be accompanied by the following: (A)(i) in the case of Shares represented by certificates issued in registered form, appropriate instruments of transfer or endorsement, in a form satisfactory to the Custodian, (ii) in the case of Shares represented by certificates issued in bearer form, such Shares or the certificates representing such Shares and (iii) in the case of Shares Delivered by book-entry transfer, confirmation of such book-entry transfer to the Custodian or that irrevocable instructions have been given to cause such Shares to be so transferred, (B) such certifications and payments (including, without limitation, the Depositary's fees and related charges) and evidence of such payments (including, without limitation, stamping or otherwise marking such Shares by way of receipt) as may be required by the Depositary or the Custodian in accordance with the provisions of this Deposit Agreement, (C) if the Depositary so requires, a written order directing the Depositary to execute and Deliver to, or upon the written order of, the person or persons stated in such order a Receipt or Receipts for the number of American Depositary Shares representing the Shares so deposited, (D) evidence satisfactory to the Depositary (which may include an opinion of counsel reasonably satisfactory to the Depositary provided at the cost of the person seeking to deposit Shares) that all conditions to such deposit have been met and all necessary approvals have been granted by, and there has been compliance with the rules and regulations of, any applicable governmental agency and (E) if the Depositary so requires, (i) an agreement, assignment or instrument satisfactory to the Depositary or the Custodian which provides for the prompt transfer by any person in whose name the Shares are or have been recorded to the Custodian of any distribution, or right to subscribe for additional Shares or to receive other property in respect of any such deposited Shares or, in lieu thereof, such indemnity or other agreement as shall be satisfactory to the Depositary or the Custodian and (ii) if the Shares are registered in the name of the person on whose behalf they are presented for deposit, a proxy or proxies entitling the Custodian to exercise voting rights in respect of the Shares for any and all purposes until the Shares so deposited are registered in the name of the Depositary, the Custodian or any nominee. No Share shall be accepted for deposit unless accompanied by confirmation or such additional evidence, if any is required by the Depositary, that is reasonably satisfactory to the Depositary or the Custodian that all conditions to such deposit have been satisfied by the person depositing such Shares under the laws and regulations of the Cayman Islands and any necessary approval has been granted by any governmental body in the Cayman Islands, if any, which is then performing the function of the regulator of currency exchange. The Depositary may issue Receipts against evidence of rights to receive Shares from the Company, any agent of the Company or any custodian, registrar, transfer agent, clearing agency or other entity involved in ownership or transaction records in respect of the Shares. Without limitation of the foregoing, the Depositary shall not knowingly accept for deposit under this Deposit Agreement any Shares or other Deposited Securities required to be registered under the provisions of the Securities Act, unless a registration statement is in effect as to such Shares or other Deposited Securities, or any Shares or other Deposited Securities the deposit of which would violate any provisions of the Memorandum and Articles of Association. The Depositary shall use commercially reasonable efforts to comply with reasonable written instructions of the Company that the Depositary shall not accept for deposit hereunder any Shares specifically identified in such instructions at such times and under such circumstances as may reasonably be specified in such instructions in order to facilitate the Company's compliance with the securities laws in the United States and other jurisdictions, provided that the Company shall indemnify the Depositary and the Custodian for any claims and losses arising from not accepting the deposit of any Shares identified in the Company's instructions.

(b) As soon as practicable after receipt of any permitted deposit hereunder and compliance with the provisions of this Deposit Agreement, the Custodian shall present the Shares so deposited, together with the appropriate instrument or instruments of transfer or endorsement, duly stamped, to the Foreign Registrar for transfer and registration of the Shares (as soon as transfer and registration can be accomplished and at the expense of the person for whom the deposit is made) in the name of the Depositary, the Custodian or a nominee of either. Deposited Securities shall be held by the Depositary or by a Custodian for the account and to the order of the Depositary or a nominee, in each case for the account of the Holders and Beneficial Owners, at such place or places as the Depositary or the Custodian shall determine.

(c) In the event any Shares are deposited which entitle the holders thereof to receive a per-share distribution or other entitlement in an amount different from the Shares then on deposit, the Depositary is authorized to take any and all actions as may be necessary (including, without limitation, making the necessary notations on Receipts) to give effect to the issuance of such ADSs and to ensure that such ADSs are not fungible with other ADSs issued hereunder until such time as the entitlement of the Shares represented by such non-fungible ADSs equals that of the Shares represented by ADSs prior to such deposit. The Company agrees to give timely written notice to the Depositary if any Shares issued or to be issued contain rights different from those of any other Shares theretofore issued and shall assist the Depositary with the establishment of procedures enabling the identification of such non-fungible Shares upon Delivery to the Custodian.

SECTION 2.4 Execution and Delivery of Receipts. After the deposit of any Shares pursuant to Section 2.3 hereof, the Custodian shall notify the Depositary of such deposit and the person or persons to whom or upon whose written order a Receipt or Receipts are Deliverable in respect thereof and the number of American Depositary Shares to be evidenced thereby. Such notification shall be made by letter, first class airmail postage prepaid, or, at the request, risk and expense of the person making the deposit, by cable, telex, SWIFT, facsimile or electronic transmission. After receiving such notice from the Custodian, the Depositary, subject to this Deposit Agreement (including, without limitation, the payment of the fees, expenses, taxes and/or other charges owing hereunder), shall issue the ADSs representing the Shares so deposited to or upon the order of the person or persons named in the notice delivered to the Depositary and shall execute and Deliver a Receipt registered in the name or names requested by such person or persons evidencing in the aggregate the number of American Depositary Shares to which such person or persons are entitled.

SECTION 2.5 Transfer of Receipts; Combination and Split-up of Receipts.

(a) **Transfer.** The Depositary, or, if a Registrar (other than the Depositary) for the Receipts shall have been appointed, the Registrar, subject to the terms and conditions of this Deposit Agreement, shall register transfers of Receipts on its books, upon surrender at the Corporate Trust Office of the Depositary of a Receipt by the Holder thereof in person or by duly authorized attorney, properly endorsed in the case of a certificated Receipt or accompanied by, or in the case of Receipts issued through any book-entry system, including, without limitation, DRS/Profile, receipt by the Depositary of, proper instruments of transfer (including signature guarantees in accordance with standard industry practice) and duly stamped as may be required by the laws of the State of New York, of the United States, of the Cayman Islands and of any other applicable jurisdiction. Subject to the terms and conditions of this Deposit Agreement, including payment of the applicable fees and charges of the Depositary set forth in Section 5.9 hereof and Article (9) of the Receipt, the Depositary shall execute a new Receipt or Receipts and Deliver the same to or upon the order of the person entitled thereto evidencing the same aggregate number of American Depositary Shares as those evidenced by the Receipts surrendered.

(b) **Combination and Split Up.** The Depositary, subject to the terms and conditions of this Deposit Agreement shall, upon surrender of a Receipt or Receipts for the purpose of effecting a split-up or combination of such Receipt or Receipts and upon payment to the Depositary of the applicable fees and charges set forth in Section 5.9 hereof and Article (9) of the Receipt, execute and Deliver a new Receipt or Receipts for any authorized number of American Depositary Shares requested, evidencing the same aggregate number of American Depositary Shares as the Receipt or Receipts surrendered.

(c) Co-Transfer Agents. The Depositary may appoint one or more co-transfer agents for the purpose of effecting transfers, combinations and split-ups of Receipts at designated transfer offices on behalf of the Depositary. In carrying out its functions, a co-transfer agent may require evidence of authority and compliance with applicable laws and other requirements by Holders or persons entitled to such Receipts and will be entitled to protection and indemnity, in each case to the same extent as the Depositary. Such co-transfer agents may be removed and substitutes appointed by the Depositary. Each co-transfer agent appointed under this Section 2.5 (other than the Depositary) shall give notice in writing to the Depositary accepting such appointment and agreeing to be bound by the applicable terms of this Deposit Agreement.

(d) Substitution of Receipts. At the request of a Holder, the Depositary shall, for the purpose of substituting a certificated Receipt with a Receipt issued through any book-entry system, including, without limitation, DRS/Profile, or vice versa, execute and Deliver a certificated Receipt or deliver a statement, as the case may be, for any authorized number of ADSs requested, evidencing the same aggregate number of ADSs as those evidenced by the relevant Receipt.

SECTION 2.6 Surrender of Receipts and Withdrawal of Deposited Securities. Upon surrender, at the Corporate Trust Office of the Depositary, of American Depositary Shares for the purpose of withdrawal of the Deposited Securities represented thereby, and upon payment of (i) the fees and charges of the Depositary for the making of withdrawals of Deposited Securities and cancellation of Receipts (as set forth in Section 5.9 hereof and Article (9) of the Receipt) and (ii) all fees, taxes and/or governmental charges payable in connection with such surrender and withdrawal, and subject to the terms and conditions of this Deposit Agreement, the Memorandum and Articles of Association, Section 7.11 hereof and any other provisions of or governing the Deposited Securities and other applicable laws, the Holder of such American Depositary Shares shall be entitled to Delivery, to him or upon his order, of the Deposited Securities at the time represented by the American Depositary Shares so surrendered. American Depositary Shares may be surrendered for the purpose of withdrawing Deposited Securities by Delivery of a Receipt evidencing such American Depositary Shares (if held in certificated form) or by book-entry Delivery of such American Depositary Shares to the Depositary.

A Receipt surrendered for such purposes shall, if so required by the Depositary, be properly endorsed in blank or accompanied by proper instruments of transfer in blank, and if the Depositary so requires, the Holder thereof shall execute and deliver to the Depositary a written order directing the Depositary to cause the Deposited Securities being withdrawn to be Delivered to or upon the written order of a person or persons designated in such order. Thereupon, the Depositary shall direct the Custodian to Deliver (without unreasonable delay) at the designated office of the Custodian or through a book-entry delivery of the Shares (in either case, subject to Sections 2.7, 3.1, 3.2, 5.9, hereof and to the other terms and conditions of this Deposit Agreement, to the Memorandum and Articles of Association, and to the provisions of or governing the Deposited Securities and applicable laws, now or hereafter in effect) to or upon the written order of the person or persons designated in the order delivered to the Depositary as provided above, the Deposited Securities represented by such American Depositary Shares, together with any certificate or other proper documents of or relating to title of the Deposited Securities as may be legally required, as the case may be, to or for the account of such person.

The Depositary may refuse to accept for surrender American Depositary Shares only in the circumstances described in Article (4) of the Receipt. Subject thereto, in the case of surrender of a Receipt evidencing a number of American Depositary Shares representing other than a whole number of Shares, the Depositary shall cause ownership of the appropriate whole number of Shares to be Delivered in accordance with the terms hereof, and shall, at the discretion of the Depositary, either (i) issue and Deliver to the person surrendering such Receipt a new Receipt evidencing American Depositary Shares representing any remaining fractional Share, or (ii) sell or cause to be sold the fractional Shares represented by the Receipt surrendered and remit the proceeds of such sale (net of (a) applicable fees and charges of, and expenses incurred by, the Depositary and/or a division or Affiliate(s) of the Depositary and (b) taxes and/or governmental charges) to the person surrendering the Receipt.

At the request, risk and expense of any Holder so surrendering a Receipt, and for the account of such Holder, the Depositary shall direct the Custodian to forward (to the extent permitted by law) any cash or other property (other than securities) held in respect of, and any certificate or certificates and other proper documents of or relating to title to, the Deposited Securities represented by such Receipt to the Depositary for delivery at the Corporate Trust Office of the Depositary, and for further Delivery to such Holder. Such direction shall be given by letter or, at the request, risk and expense of such Holder, by cable, telex or facsimile transmission. Upon receipt by the Depositary of such direction, the Depositary may make delivery to such person or persons entitled thereto at the Corporate Trust Office of the Depositary of any dividends or cash distributions with respect to the Deposited Securities represented by such American Depositary Shares, or of any proceeds of sale of any dividends, distributions or rights, which may at the time be held by the Depositary.

SECTION 2.7 Limitations on Execution and Delivery, Transfer, etc. of Receipts; Suspension of Delivery, Transfer, etc.

(a) Additional Requirements. As a condition precedent to the execution and Delivery, registration, registration of transfer, split-up, subdivision, combination or surrender of any Receipt, the Delivery of any distribution thereon (whether in cash or shares) or withdrawal of any Deposited Securities, the Depositary or the Custodian may require (i) payment from the depositor of Shares or presenter of the Receipt of a sum sufficient to reimburse it for any tax or other governmental charge and any stock transfer or registration fee with respect thereto (including any such tax or charge and fee with respect to Shares being deposited or withdrawn) and payment of any applicable fees and charges of the Depositary as provided in Section 5.9 hereof and Article (9) of the Receipt hereto, (ii) the production of proof satisfactory to it as to the identity and genuineness of any signature or any other matter contemplated by Section 3.1 hereof and (iii) compliance with (A) any laws or governmental regulations relating to the execution and Delivery of Receipts or American Depositary Shares or to the withdrawal or Delivery of Deposited Securities and (B) such reasonable regulations and procedures as the Depositary may establish consistent with the provisions of this Deposit Agreement and applicable law.

(b) Additional Limitations. The issuance of ADSs against deposits of Shares generally or against deposits of particular Shares may be suspended, or the issuance of ADSs against the deposit of particular Shares may be withheld, or the registration of transfer of Receipts in particular instances may be refused, or the registration of transfers of Receipts generally may be suspended, during any period when the transfer books of the Depositary are closed or if any such action is deemed necessary or advisable by the Depositary or the Company, in good faith, at any time or from time to time because of any requirement of law, any government or governmental body or commission or any securities exchange on which the Receipts or Shares are listed, or under any provision of this Deposit Agreement or provisions of, or governing, the Deposited Securities, or any meeting of shareholders of the Company or for any other reason, subject, in all cases, to Section 7.11 hereof.

(c) The Depositary shall not issue ADSs prior to the receipt of Shares or deliver Shares prior to the receipt and cancellation of ADSs.

SECTION 2.8 Lost Receipts, etc. To the extent the Depositary has issued Receipts in physical certificated form, in case any Receipt shall be mutilated, destroyed, lost or stolen, unless the Depositary has notice that such ADR has been acquired by a bona fide purchaser, subject to Section 5.9 hereof, the Depositary shall execute and Deliver a new Receipt (which, in the discretion of the Depositary may be issued through any book-entry system, including, without limitation, DRS/Profile, unless specifically requested otherwise) in exchange and substitution for such mutilated Receipt upon cancellation thereof, or in lieu of and in substitution for such destroyed, lost or stolen Receipt. Before the Depositary shall execute and Deliver a new Receipt in substitution for a destroyed, lost or stolen Receipt, the Holder thereof shall have (a) filed with the Depositary (i) a request for such execution and Delivery before the Depositary has notice that the Receipt has been acquired by a bona fide purchaser and (ii) a sufficient indemnity bond in form and amount acceptable to the Depositary and (b) satisfied any other reasonable requirements imposed by the Depositary.

SECTION 2.9 Cancellation and Destruction of Surrendered Receipts. All Receipts surrendered to the Depositary shall be cancelled by the Depositary. The Depositary is authorized to destroy Receipts so cancelled in accordance with its customary practices. Cancelled Receipts shall not be entitled to any benefits under this Deposit Agreement or be valid or obligatory for any purpose.

SECTION 2.10 Maintenance of Records. The Depositary agrees to maintain records of all Receipts surrendered and Deposited Securities withdrawn under Section 2.6, substitute Receipts Delivered under Section 2.8 and cancelled or destroyed Receipts under Section 2.9, in keeping with the procedures ordinarily followed by stock transfer agents located in the United States.

ARTICLE III.

CERTAIN OBLIGATIONS OF HOLDERS AND BENEFICIAL OWNERS OF RECEIPTS

SECTION 3.1 Proofs, Certificates and Other Information. Any person presenting Shares for deposit shall provide, any Holder and any Beneficial Owner may be required to provide, and every Holder and Beneficial Owner agrees, from time to time to provide to the Depositary or the Custodian such proof of citizenship or residence, taxpayer status, payment of all applicable taxes or other governmental charges, exchange control approval, legal or beneficial ownership of ADSs and Deposited Securities, compliance with applicable laws and the terms of this Deposit Agreement and the provisions of, or governing, the Deposited Securities or other information, to execute such certifications and to make such representations and warranties and to provide such other information and documentation as the Depositary may deem necessary or proper or as the Company may reasonably require by written request to the Depositary consistent with its obligations hereunder. The Depositary and the Registrar, as applicable, may withhold the execution or Delivery or registration of transfer of any Receipt or the distribution or sale of any dividend or other distribution of rights or of the proceeds thereof, or to the extent not limited by the terms of Section 7.11 hereof, the Delivery of any Deposited Securities, until such proof or other information is filed or such certifications are executed, or such representations and warranties are made, or such other documentation or information provided, in each case to the Depositary and the Company's satisfaction. The Depositary shall from time to time on the written request of the Company advise the Company of the availability of any such proofs, certificates or other information and shall, at the Company's sole expense, provide or otherwise make available copies thereof to the Company upon written request therefor by the Company, unless such disclosure is prohibited by law. Each Holder and Beneficial Owner agrees to provide, any information requested by the Company or the Depositary pursuant to this Section 3.1. Nothing herein shall obligate the Depositary to (i) obtain any information for the Company if not provided by the Holders or Beneficial Owners or (ii) verify or vouch for the accuracy of the information so provided by the Holders or Beneficial Owners.

Every Holder and Beneficial Owner agrees to indemnify the Depositary, the Company, the Custodian, the Agents and each of their respective directors, officers, employees, agents and Affiliates against, and to hold each of them harmless from, any Losses which any of them may incur or which may be made against any of them as a result of or in connection with any inaccuracy in or omission from any such proof, certificate, representation, warranty, information or document furnished by or on behalf of such Holder and/or Beneficial Owner or as a result of any such failure to furnish any of the foregoing.

The obligations of Holders and Beneficial Owners under Section 3.1 shall survive any transfer of Receipts, any surrender of Receipts or withdrawal of Deposited Securities or the termination of the Deposit Agreement.

SECTION 3.2 Liability for Taxes and Other Charges. If any present or future tax or other governmental charge shall become payable by the Depositary or the Custodian with respect to any ADR or any Deposited Securities or American Depositary Shares, such tax or other governmental charge shall be payable by the Holders and Beneficial Owners to the Depositary and such Holders and Beneficial Owners shall be deemed liable therefor. The Company, the Custodian and/or the Depositary may withhold or deduct from any distributions made in respect of Deposited Securities and may sell for the account of a Holder and/or Beneficial Owner any or all of the Deposited Securities and apply such distributions and sale proceeds in payment of such taxes (including applicable interest and penalties) and charges, with the Holder and the Beneficial Owner remaining fully liable for any deficiency. In addition to any other remedies available to it, the Depositary and the Custodian may refuse the deposit of Shares, and the Depositary may refuse to issue ADSs, to Deliver ADRs, to register the transfer, split-up or combination of ADRs and (subject to Section 7.11 hereof) the withdrawal of Deposited Securities, until payment in full of such tax, charge, penalty or interest is received. The liability of Holders and Beneficial Owners under this Section 3.2 shall survive any transfer of Receipts, any surrender of Receipts and withdrawal of Deposited Securities or the termination of this Deposit Agreement.

SECTION 3.3 Representations and Warranties on Deposit of Shares. Each person depositing Shares under this Deposit Agreement shall be deemed thereby to represent and warrant that (i) such Shares and the certificates therefor are duly authorized, validly issued, fully paid, non-assessable and were legally obtained by such person, (ii) all preemptive (and similar) rights, if any, with respect to such Shares have been validly waived or exercised, (iii) the person making such deposit is duly authorized so to do, (iv) the Shares presented for deposit are free and clear of any lien, encumbrance, security interest, charge, mortgage or adverse claim and are not, and the American Depositary Shares issuable upon such deposit will not be, Restricted Securities, (v) the Shares presented for deposit have not been stripped of any rights or entitlements and (vi) the Shares are not subject to any lock-up agreement with the Company or other party, or the Shares are subject to a lock-up agreement but such lock-up agreement has terminated or the lock-up restrictions imposed thereunder have expired. Such representations and warranties shall survive the deposit and withdrawal of Shares, the issuance and cancellation of American Depositary Shares in respect thereof and the transfer of such American Depositary Shares. If any such representations or warranties are false in any way, the Company and the Depositary shall be authorized, at the cost and expense of the person depositing Shares, to take any and all actions necessary to correct the consequences thereof.

SECTION 3.4 Compliance with Information Requests. Notwithstanding any other provision of the Deposit Agreement, the Articles of Association and applicable law, each Holder and Beneficial Owner agrees to (a) provide such information as the Company or the Depositary may request pursuant to law (including, without limitation, relevant Cayman Islands law, any applicable law of the United States, the Memorandum and Articles of Association, any resolutions of the Companys Board of Directors adopted pursuant to the Memorandum and Articles of Association, the requirements of any markets or exchanges upon which the Shares, ADSs or Receipts are listed or traded, or to any requirements of any electronic book-entry system by which the ADSs or Receipts may be transferred), (b) be bound by and subject to applicable provisions of the laws of the Cayman Islands, the Memorandum and Articles of Association and the requirements of any markets or exchanges upon which the ADSs, Receipts or Shares are listed or traded, or pursuant to any requirements of any electronic book-entry system by which the ADSs, Receipts or Shares may be transferred, to the same extent as if such Holder and Beneficial Owner held Shares directly, in each case irrespective of whether or not they are Holders or Beneficial Owners at the time such request is made and, without limiting the generality of the foregoing, (c) comply with all applicable provisions of Cayman Islands law, the rules and requirements of any stock exchange on which the Shares are, or will be registered, traded or listed and the Articles of Association regarding any such Holder or Beneficial Owners interest in Shares (including the aggregate of ADSs and Shares held by each such Holder or Beneficial Owner) and/or the disclosure of interests therein, whether or not the same may be enforceable against such Holder or Beneficial Owner. The Depositary agrees to use its reasonable efforts to forward upon the request of the Company, and at the Companys expense, any such request from the Company to the Holders and to forward to the Company any such responses to such requests received by the Depositary.

ARTICLE IV.

THE DEPOSITED SECURITIES

SECTION 4.1 Cash Distributions. Whenever the Depositary receives confirmation from the Custodian of receipt of any cash dividend or other cash distribution on any Deposited Securities, or receives proceeds from the sale of any Shares, rights, securities or other entitlements under the terms hereof, the Depositary will, if at the time of receipt thereof any amounts received in a Foreign Currency can in the judgment of the Depositary (pursuant to Section 4.6 hereof) be converted on a practicable basis into Dollars transferable to the United States, promptly convert or cause to be converted such cash dividend, distribution or proceeds into Dollars (on the terms described in Section 4.6 hereof) and will distribute promptly the amount thus received (net of (a) the applicable fees and charges of, and expenses incurred by, the Depositary and/or a division or Affiliate(s) of the Depositary and (b) taxes and/or governmental charges) to the Holders of record as of the ADS Record Date in proportion to the number of American Depositary Shares held by such Holders respectively as of the ADS Record Date. The Depositary shall distribute only such amount, however, as can be distributed without attributing to any Holder a fraction of one cent. Any such fractional amounts shall be rounded down to the nearest whole cent and so distributed to Holders entitled thereto. Holders and Beneficial Owners understand that in converting Foreign Currency, amounts received on conversion are calculated at a rate which exceeds the number of decimal places used by the Depositary to report distribution rates. The excess amount may be retained by the Depositary as an additional cost of conversion, irrespective of any other fees and expenses payable or owing hereunder and shall not be subject to escheatment. If the Company, the Custodian or the Depositary is required to withhold and does withhold from any cash dividend or other cash distribution in respect of any Deposited Securities an amount on account of taxes, duties or other governmental charges, the amount distributed to Holders of the ADSs representing such Deposited Securities shall be reduced accordingly. Such withheld amounts shall be forwarded by the Company, the Custodian or the Depositary to the relevant governmental authority. Evidence of payment thereof by the Company shall be forwarded by the Company to the Depositary upon request. The Depositary shall forward to the Company or its agent such information from its records as the Company may reasonably request to enable the Company or its agent to file with governmental agencies such reports as are necessary to obtain benefits under the applicable tax treaties for the Holders and Beneficial Owners of Receipts.

SECTION 4.2 Distribution in Shares. If any distribution upon any Deposited Securities consists of a dividend in, or free distribution of, Shares, the Company shall cause such Shares to be deposited with the Custodian and registered, as the case may be, in the name of the Depositary, the Custodian or any of their nominees. Upon receipt of confirmation of such deposit from the Custodian, the Depositary shall establish the ADS Record Date upon the terms described in Section 4.7 hereof and shall, subject to Section 5.9 hereof, either (i) distribute to the Holders as of the ADS Record Date in proportion to the number of ADSs held as of the ADS Record Date, additional ADSs, which represent in the aggregate the number of Shares received as such dividend, or free distribution, subject to the other terms of this Deposit Agreement (including, without limitation, (a) the applicable fees and charges of, and expenses incurred by, the Depositary and (b) taxes and/or governmental charges), or (ii) if additional ADSs are not so distributed, each ADS issued and outstanding after the ADS Record Date shall, to the extent permissible by law, thenceforth also represent rights and interests in the additional Shares distributed upon the Deposited Securities represented thereby (net of (a) the applicable fees and charges of, and expenses incurred by, the Depositary and (b) taxes and/or governmental charges). In lieu of Delivering fractional ADSs, the Depositary shall sell the number of Shares represented by the aggregate of such fractions and distribute the proceeds upon the terms described in Section 4.1 hereof. The Depositary may withhold any such distribution of Receipts if it has not received satisfactory assurances from the Company (including an Opinion of Counsel furnished at the expense of the Company) that such distribution does not require registration under the Securities Act or is exempt from registration under the provisions of the Securities Act. To the extent such distribution may be withheld, the Depositary may dispose of all or a portion of such distribution in such amounts and in such manner, including by public or private sale, as the Depositary deems necessary and practicable, and the Depositary shall distribute the net proceeds of any such sale (after deduction of applicable taxes and/or governmental charges and fees and charges of, and expenses incurred by, the Depositary and/or a division or Affiliate(s) of the Depositary) to Holders entitled thereto upon the terms described in Section 4.1 hereof.

SECTION 4.3 Elective Distributions in Cash or Shares. Whenever the Company intends to distribute a dividend payable at the election of the holders of Shares in cash or in additional Shares, the Company shall give notice thereof to the Depositary at least 30 days prior to the proposed distribution stating whether or not it wishes such elective distribution to be made available to Holders of ADSs. Upon receipt of notice indicating that the Company wishes such elective distribution to be made available to Holders of ADSs, the Depositary shall consult with the Company to determine, and the Company shall assist the Depositary in its determination, whether it is lawful and reasonably practicable to make such elective distribution available to the Holders of ADSs. The Depositary shall make such elective distribution available to Holders only if (i) the Company shall have timely requested that the elective distribution is available to Holders of ADRs, (ii) the Depositary shall have received satisfactory documentation within the terms of Section 5.7 hereof (including, without limitation, any legal opinions of counsel in any applicable jurisdiction that the Depositary in its reasonable discretion may request, at the expense of the Company) and (iii) the Depositary shall have determined that such distribution is lawful and reasonably practicable. If the above conditions are not satisfied, the Depositary shall, to the extent permitted by law, distribute to the Holders, on the basis of the same determination as is made in the local market in respect of the Shares for which no election is made, either cash upon the terms described in Section 4.1 hereof or additional ADSs representing such additional Shares upon the terms described in Section 4.2 hereof. If the above conditions are satisfied, the Depositary shall establish an ADS Record Date (on the terms described in Section 4.7 hereof) and establish procedures to enable Holders to elect the receipt of the proposed dividend in cash or in additional ADSs. The Company shall assist the Depositary in establishing such procedures to the extent necessary. Subject to Section 5.9 hereof, if a Holder elects to receive the proposed dividend in cash, the dividend shall be distributed upon the terms described in Section 4.1 hereof or in ADSs, the dividend shall be distributed upon the terms described in Section 4.2 hereof. Nothing herein shall obligate the Depositary to make available to Holders a method to receive the elective dividend in Shares (rather than ADSs). There can be no assurance that Holders generally, or any Holder in particular, will be given the opportunity to receive elective distributions on the same terms and conditions as the holders of Shares.

SECTION 4.4 Distribution of Rights to Purchase Shares.

(a) Distribution to ADS Holders. Whenever the Company intends to distribute to the holders of the Deposited Securities rights to subscribe for additional Shares, the Company shall give notice thereof to the Depositary at least 45 days prior to the proposed distribution stating whether or not it wishes such rights to be made available to Holders of ADSs. Upon timely receipt of a notice indicating that the Company wishes such rights to be made available to Holders of ADSs, the Depositary shall consult with the Company to determine, and the Company shall determine, whether it is lawful and reasonably practicable to make such rights available to the Holders. The Depositary shall make such rights available to Holders only if (i) the Company shall have timely requested that such rights be made available to Holders, (ii) the Depositary shall have received satisfactory documentation within the terms of Section 5.7 hereof and (iii) the Depositary shall have determined that such distribution of rights is lawful and reasonably practicable. In the event any of the conditions set forth above are not satisfied, the Depositary shall proceed with the sale of the rights as contemplated in Section 4.4(b) below or, if timing or market conditions may not permit, do nothing thereby allowing such rights to lapse. In the event all conditions set forth above are satisfied, the Depositary shall establish an ADS Record Date (upon the terms described in Section 4.7 hereof) and establish procedures to distribute such rights (by means of warrants or otherwise) and to enable the Holders to exercise the rights (upon payment of applicable fees and charges of, and expenses incurred by, the Depositary and taxes and/or other governmental charges). Nothing herein shall obligate the Depositary to make available to the Holders a method to exercise such rights to subscribe for Shares (rather than ADSs).

(b) Sale of Rights. If (i) the Company does not timely request the Depositary to make the rights available to Holders or requests that the rights not be made available to Holders, (ii) the Depositary fails to receive satisfactory documentation within the terms of Section 5.7 hereof or determines it is not lawful or reasonably practicable to make the rights available to Holders or (iii) any rights made available are not exercised and appear to be about to lapse, the Depositary shall determine whether it is lawful and reasonably practicable to sell such rights, and if it so determines that it is lawful and reasonably practicable, endeavour to sell such rights in a riskless principal capacity or otherwise, at such place and upon such terms (including public or private sale) as it may deem proper. The Company shall assist the Depositary to the extent necessary to determine such legality and practicability. The Depositary shall, upon such sale, convert and distribute proceeds of such sale (net of applicable fees and charges of, and expenses incurred by, the Depositary and/or a division or Affiliate(s) of the Depositary and taxes and/or governmental charges) upon the terms set forth in Section 4.1 hereof.

(c) Lapse of Rights. If the Depositary is unable to make any rights available to Holders upon the terms described in Section 4.4(a) hereof or to arrange for the sale of the rights upon the terms described in Section 4.4(b) hereof, the Depositary shall allow such rights to lapse.

The Depositary shall not be responsible for (i) any failure to determine that it may be lawful or practicable to make such rights available to Holders in general or any Holders in particular, (ii) any foreign exchange exposure or loss incurred in connection with such sale or exercise or (iii) the content of any materials forwarded to the Holders on behalf of the Company in connection with the rights distribution.

Notwithstanding anything to the contrary in this Section 4.4, if registration (under the Securities Act or any other applicable law) of the rights or the securities to which any rights relate may be required in order for the Company to offer such rights or such securities to Holders and to sell the securities represented by such rights, the Depositary will not distribute such rights to the Holders (i) unless and until a registration statement under the Securities Act covering such offering is in effect or (ii) unless the Company furnishes at its expense the Depositary with opinion(s) of counsel for the Company in the United States and counsel to the Company in any other applicable country in which rights would be distributed, in each case satisfactory to the Depositary, to the effect that the offering and sale of such securities to Holders and Beneficial Owners are exempt from, or do not require registration under, the provisions of the Securities Act or any other applicable laws. In the event that the Company, the Depositary or the Custodian shall be required to withhold and does withhold from any distribution of property (including rights) an amount on account of taxes and/or other governmental charges, the amount distributed to the Holders shall be reduced accordingly. In the event that the Depositary determines that any distribution in property (including Shares and rights to subscribe therefor) is subject to any tax or other governmental charges which the Depositary is obligated to withhold, the Depositary may dispose of all or a portion of such property (including Shares and rights to subscribe therefor) in such amounts and in such manner, including by public or private sale, as the Depositary deems necessary and practicable to pay any such taxes and/or charges.

There can be no assurance that Holders generally, or any Holder in particular, will be given the opportunity to exercise rights on the same terms and conditions as the holders of Shares or be able to exercise such rights. Nothing herein shall obligate the Company to file any registration statement in respect of any rights or Shares or other securities to be acquired upon the exercise of such rights or otherwise to register or qualify the offer or sale of such rights or securities under the applicable law of any other jurisdiction for any purpose.

SECTION 4.5 Distributions Other Than Cash, Shares or Rights to Purchase Shares.

(a) Whenever the Company intends to distribute to the holders of Deposited Securities property other than cash, Shares or rights to purchase additional Shares, the Company shall give notice thereof to the Depositary at least 30 days prior to the proposed distribution and shall indicate whether or not it wishes such distribution to be made to Holders of ADSs. Upon receipt of a notice indicating that the Company wishes such distribution be made to Holders of ADSs, the Depositary shall determine whether such distribution to Holders is lawful and practicable. The Depositary shall not make such distribution unless (i) the Company shall have timely requested the Depositary to make such distribution to Holders, (ii) the Depositary shall have received satisfactory documentation within the terms of Section 5.7 hereof and (iii) the Depositary shall have determined that such distribution is lawful and reasonably practicable.

(b) Upon receipt of satisfactory documentation and the request of the Company to distribute property to Holders of ADSs and after making the requisite determinations set forth in (a) above, the Depositary may distribute the property so received to the Holders of record as of the ADS Record Date, in proportion to the number of ADSs held by such Holders respectively and in such manner as the Depositary may deem practicable for accomplishing such distribution (i) upon receipt of payment or net of the applicable fees and charges of, and expenses incurred by, the Depositary and (ii) net of any taxes and/or other governmental charges. The Depositary may dispose of all or a portion of the property so distributed and deposited, in such amounts and in such manner (including public or private sale) as the Depositary may deem practicable or necessary to satisfy any taxes (including applicable interest and penalties) and other governmental charges applicable to the distribution.

(c) If (i) the Company does not request the Depositary to make such distribution to Holders or requests the Depositary not to make such distribution to Holders, (ii) the Depositary does not receive satisfactory documentation within the terms of Section 5.7 hereof or (iii) the Depositary determines that all or a portion of such distribution is not reasonably practicable or feasible, the Depositary shall endeavor to sell or cause such property to be sold in a public or private sale, at such place or places and upon such terms as it may deem proper and shall distribute the net proceeds, if any, of such sale received by the Depositary (net of applicable fees and charges of, and expenses incurred by, the Depositary and/or a division or Affiliate(s) of the Depositary and taxes and/or governmental charges) to the Holders as of the ADS Record Date upon the terms of Section 4.1 hereof. If the Depositary is unable to sell such property, the Depositary may dispose of such property in any way it deems reasonably practicable under the circumstances for nominal or no consideration and Holders and Beneficial Owners shall have no rights thereto or arising therefrom.

SECTION 4.6 Conversion of Foreign Currency. Whenever the Depositary or the Custodian shall receive Foreign Currency, by way of dividends or other distributions or the net proceeds from the sale of securities, property or rights, and in the judgment of the Depositary such Foreign Currency can at such time be converted on a practicable basis (by sale or in any other manner that it may determine in accordance with applicable law) into Dollars transferable to the United States and distributable to the Holders entitled thereto, the Depositary shall convert or cause to be converted, by sale or in any other manner that it may determine, such Foreign Currency into Dollars, and shall distribute such Dollars (net of any fees, expenses, taxes and/or other governmental charges incurred in the process of such conversion) in accordance with the terms of the applicable sections of this Deposit Agreement. If the Depositary shall have distributed warrants or other instruments that entitle the holders thereof to such Dollars, the Depositary shall distribute such Dollars to the holders of such warrants and/or instruments upon surrender thereof for cancellation, in either case without liability for interest thereon. Such distribution may be made upon an averaged or other practicable basis without regard to any distinctions among Holders on account of exchange restrictions, the date of delivery of any Receipt or otherwise.

In converting Foreign Currency, amounts received on conversion may be calculated at a rate which exceeds the number of decimal places used by the Depositary to report distribution rates (which in any case will not be less than two decimal places). Any excess amount may be retained by the Depositary as an additional cost of conversion, irrespective of any other fees and expenses payable or owing hereunder and shall not be subject to escheatment.

If such conversion or distribution can be effected only with the approval or license of any government or agency thereof, the Depositary may file such application for approval or license, if any, as it may deem necessary, practicable and at nominal cost and expense. Nothing herein shall obligate the Depositary to file or cause to be filed, or to seek effectiveness of any such application or license.

If at any time the Depositary shall determine that in its judgment the conversion of any Foreign Currency and the transfer and distribution of proceeds of such conversion received by the Depositary is not practical or lawful, or if any approval or license of any governmental authority or agency thereof that is required for such conversion, transfer and distribution is denied, or not obtainable at a reasonable cost, within a reasonable period or otherwise sought, the Depositary shall, in its sole discretion but subject to applicable laws and regulations, either (i) distribute the Foreign Currency (or an appropriate document evidencing the right to receive such Foreign Currency) received by the Depositary to the Holders entitled to receive such Foreign Currency or (ii) hold such Foreign Currency uninvested and without liability for interest thereon for the respective accounts of the Holders entitled to receive the same.

Holders and Beneficial Owners are directed to refer to Section 7.9 hereof for certain disclosure related to conversion of Foreign Currency.

SECTION 4.7 Fixing of Record Date. Whenever necessary in connection with any distribution (whether in cash, Shares, rights, or other distribution), or whenever for any reason the Depositary causes a change in the number of Shares that are represented by each American Depositary Share, or whenever the Depositary shall receive notice of any meeting of or solicitation of holders of Shares or other Deposited Securities, or whenever the Depositary shall find it necessary or convenient, the Depositary shall fix a record date (the ADS Record Date), as close as practicable to the record date fixed by the Company with respect to the Shares (if applicable), for the determination of the Holders who shall be entitled to receive such distribution, to give instructions for the exercise of voting rights at any such meeting, to give or withhold such consent, to receive such notice or solicitation or to otherwise take action or to exercise the rights of Holders with respect to such changed number of Shares represented by each American Depositary Share or for any other reason. Subject to applicable law and the provisions of Sections 4.1 through 4.6 hereof and to the other terms and conditions of this Deposit Agreement, only the Holders of record at the close of business in New York on such ADS Record Date shall be entitled to receive such distribution, to give such voting instructions, to receive such notice or solicitation, or otherwise take action.

SECTION 4.8 Voting of Deposited Securities. Subject to the next sentence, as soon as practicable after receipt of notice of any meeting at which the holders of Deposited Securities are entitled to vote, or of solicitation of consents or proxies from holders of Deposited Securities, the Depositary shall fix the ADS Record Date in respect of such meeting or such solicitation of consents or proxies. The Depositary shall, if requested by the Company in writing in a timely manner (the Depositary having no obligation to take any further action if the request shall not have been received by the Depositary at least 30 Business Days prior to the date of such vote or meeting) and at the Companys expense, and provided no U.S. legal prohibitions exist, mail by regular, ordinary mail delivery (or by electronic mail or as otherwise may be agreed between the Company and the Depositary in writing from time to time) or otherwise distribute as soon as practicable after receipt thereof to Holders as of the ADS Record Date: (a) such notice of meeting or solicitation of consent or proxy; (b) a statement that the Holders at the close of business on the ADS Record Date will be entitled, subject to any applicable law, the provisions of this Deposit Agreement, the Companys Memorandum and Articles of Association and the provisions of or governing the Deposited Securities (which provisions, if any, shall be summarized in pertinent part by the Company), to instruct the Depositary as to the exercise of the voting rights, if any, pertaining to the Deposited Securities represented by such Holders American Depositary Shares; and (c) a brief statement as to the manner in which such voting instructions may be given to the Depositary, or in which instructions may be deemed to have been given in accordance with this Section 4.8, including an express indication that instructions may be given (or be deemed to have been given in accordance with the immediately following paragraph of this section if no instruction is received) to the Depositary to give a discretionary proxy to a person or persons designated by the Company. Voting instructions may be given only in respect of a number of American Depositary Shares representing an integral number of Deposited Securities. Upon the timely receipt of voting instructions of a Holder on the ADS Record Date in the manner specified by the Depositary, the Depositary shall endeavor, insofar as practicable and permitted under applicable law, the provisions of this Deposit Agreement, the Companys Memorandum and Articles of Association and the provisions of or governing the Deposited Securities, to vote or cause the Custodian to vote the Deposited Securities (in person or by proxy) represented by American Depositary Shares evidenced by such Receipt in accordance with such voting instructions.

In the event that (i) the Depositary timely receives voting instructions from a Holder which fail to specify the manner in which the Depositary is to vote the Deposited Securities represented by such Holders ADSs or (ii) no timely instructions are received by the Depositary from a Holder with respect to any of the Deposited Securities represented by the ADSs held by such Holder on the ADS Record Date, the Depositary shall (unless otherwise specified in the notice distributed to Holders) deem such Holder to have instructed the Depositary to give a discretionary proxy to a person designated by the Company with respect to such Deposited Securities and the Depositary shall give a discretionary proxy to a person designated by the Company to vote such Deposited Securities, provided, however, that no such instruction shall be deemed to have been given and no such discretionary proxy shall be given with respect to any matter as to which the Company informs the Depositary (and the Company agrees to provide such information as promptly as practicable in writing, if applicable) that (x) the Company does not wish to give such proxy, (y) the Company is aware or should reasonably be aware that substantial opposition exists from Holders against the outcome for which the person designated by the Company would otherwise vote or (z) the outcome for which the person designated by the Company would otherwise vote would materially and adversely affect the rights of holders of Deposited Securities, provided, further, that the Company will have no liability to any Holder or Beneficial Owner resulting from such notification.

In the event that voting on any resolution or matter is conducted on a show of hands basis in accordance with the Memorandum and Articles of Association, the Depositary will refrain from voting and the voting instructions (or the deemed voting instructions, as set out above) received by the Depositary from Holders shall lapse. The Depositary will have no obligation to demand voting on a poll basis with respect to any resolution and shall have no liability to any Holder or Beneficial Owner for not having demanded voting on a poll basis.

Neither the Depositary nor the Custodian shall, under any circumstances exercise any discretion as to voting, and neither the Depositary nor the Custodian shall vote, attempt to exercise the right to vote, or in any way make use of for purposes of establishing a quorum or otherwise, the Deposited Securities represented by ADSs except pursuant to and in accordance with such written instructions from Holders, including the deemed instruction to the Depositary to give a discretionary proxy to a person designated by the Company. Deposited Securities represented by ADSs for which (i) no timely voting instructions are received by the Depositary from the Holder, or (ii) timely voting instructions are received by the Depositary from the Holder but such voting instructions fail to specify the manner in which the Depositary is to vote the Deposited Securities represented by such Holders ADSs, shall be voted in the manner provided in this Section 4.8. Notwithstanding anything else contained herein, and subject to applicable law, regulation and the Memorandum and Articles of Association, the Depositary shall, if so requested in writing by the Company, represent all Deposited Securities (whether or not voting instructions have been received in respect of such Deposited Securities from Holders as of the ADS Record Date) for the purpose of establishing quorum at a meeting of shareholders.

There can be no assurance that Holders or Beneficial Owners generally or any Holder or Beneficial Owner in particular will receive the notice described above with sufficient time to enable the Holder to return voting instructions to the Depositary in a timely manner.

Notwithstanding the above, save for applicable provisions of the law of the Cayman Islands, and in accordance with the terms of Section 5.3 hereof, the Depositary shall not be liable for any failure to carry out any instructions to vote any of the Deposited Securities or the manner in which such vote is cast or the effect of such vote.

SECTION 4.9 Changes Affecting Deposited Securities. Upon any change in par value, split-up, subdivision, cancellation, consolidation or any other reclassification of Deposited Securities or upon any recapitalization, reorganization, amalgamation, merger or consolidation or sale of assets affecting the Company or to which it is otherwise a party, any securities which shall be received by the Depositary or the Custodian in exchange for, or in conversion of or replacement or otherwise in respect of, such Deposited Securities shall, to the extent permitted by law, be treated as new Deposited Securities under this Deposit Agreement and the Receipts shall, subject to the provisions of this Deposit Agreement and applicable law, evidence American Depositary Shares representing the right to receive such additional securities. Alternatively, the Depositary may, with the Companys approval, and shall, if the Company shall so request, subject to the terms of this Deposit Agreement and receipt of an Opinion of Counsel furnished at the Companys expense satisfactory to the Depositary (stating that such distributions are not in violation of any applicable laws or regulations), execute and deliver additional Receipts, as in the case of a stock dividend on the Shares, or call for the surrender of outstanding Receipts to be exchanged for new Receipts. In either case, as well as in the event of newly deposited Shares, necessary modifications to the form of Receipt contained in Exhibit A and Exhibit B hereto, specifically describing such new Deposited Securities and/or corporate change, shall also be made. The Company agrees that it will, jointly with the Depositary, amend the Registration Statement on Form F-6 as filed with the Commission to permit the issuance of such new form of Receipt. Notwithstanding the foregoing, in the event that any security so received may not be lawfully distributed to some or all Holders, the Depositary may, with the Companys approval, and shall, if the Company requests, subject to receipt of an Opinion of Counsel (furnished at the Companys expense) satisfactory to the Depositary that such action is not in violation of any applicable laws or regulations, sell such securities at public or private sale, at such place or places and upon such terms as it may deem proper and may allocate the net proceeds of such sales (net of fees and charges of, and expenses incurred by, the Depositary and/or a division or Affiliate(s) of the Depositary and taxes and/or governmental charges) for the account of the Holders otherwise entitled to such securities upon an averaged or other practicable basis without regard to any distinctions among such Holders and distribute the net proceeds so allocated to the extent practicable as in the case of a distribution received in cash pursuant to Section 4.1 hereof. The Depositary shall not be responsible for (i) any failure to determine that it may be lawful or feasible to make such securities available to Holders in general or to any Holder in particular, (ii) any foreign exchange exposure or loss incurred in connection with such sale or (iii) any liability to the purchaser of such securities.

SECTION 4.10 Available Information. The Company is subject to the periodic reporting requirements of the Exchange Act applicable to foreign private issuers (as defined in Rule 405 of the Securities Act) and accordingly files certain information with the Commission. These reports and documents can be inspected and copied at the Commissions website at www.sec.gov or at the public reference facilities maintained by the Commission located at 100 F Street, N.E., Washington D.C. 20549, U.S.A.

SECTION 4.11 Reports. The Depositary shall make available during normal business hours on any Business Day for inspection by Holders at its Corporate Trust Office any reports and communications, including any proxy soliciting materials, received from the Company which are both received by the Depositary, the Custodian, or the nominee of either of them as the holder of the Deposited Securities and made generally available to the holders of such Deposited Securities by the Company. The Company agrees to provide to the Depositary, at the Companys expense, all such documents that it provides to the Custodian. Unless otherwise agreed in writing by the Company and the Depositary, the Depositary shall, at the expense of the Company and in accordance with Section 5.6 hereof, also mail to Holders by regular, ordinary mail delivery or by electronic transmission (if agreed by the Company and the Depositary) copies of notices and reports when furnished by the Company pursuant to Section 5.6 hereof.

SECTION 4.12 List of Holders. Promptly upon written request by the Company, the Depositary shall, at the expense of the Company, furnish to it a list, as of a recent date, of the names, addresses and holdings of American Depositary Shares by all persons in whose names Receipts are registered on the books of the Depositary.

SECTION 4.13 Taxation; Withholding. The Depositary will, and will instruct the Custodian to, forward to the Company or its agents such information from its records as the Company may request to enable the Company or its agents to file necessary tax reports with governmental authorities or agencies. The Depositary, the Custodian or the Company and its agents may, but shall not be obligated to, file such reports as are necessary to reduce or eliminate applicable taxes on dividends and on other distributions in respect of Deposited Securities under applicable tax treaties or laws for the Holders and Beneficial Owners. Holders and Beneficial Owners of American Depositary Shares may be required from time to time, and in a timely manner to provide and/or file such proof of taxpayer status, residence and beneficial ownership (as applicable), to execute such certificates and to make such representations and warranties, or to provide any other information or documents, as the Depositary or the Custodian may deem necessary or proper to fulfill the Depositarys or the Custodians obligations under applicable law. The Holders and Beneficial Owners shall indemnify the Depositary, the Company, the Custodian, the Agents and their respective directors, officers, employees, agents and Affiliates against, and hold each of them harmless from, any claims by any governmental authority with respect to taxes, additions to tax, penalties or interest arising out of any refund of taxes, reduced rate of withholding at source or other tax benefit obtained by the Beneficial Owner or Holder or out of or in connection with any inaccuracy in or omission from any such proof, certificate, representation, warranty, information or document furnished by or on behalf of such Holder or Beneficial Owner. The obligations of Holders and Beneficial Owners under this Section 4.13 shall survive any transfer of Receipts, any surrender of Receipts and withdrawal of Deposited Securities or the termination of this Deposit Agreement.

The Company shall remit to the appropriate governmental authority or agency any amounts required to be withheld by the Company and owing to such governmental authority or agency. Upon any such withholding, the Company shall remit to the Depositary information, in a form reasonably satisfactory to the Depositary, about such taxes and/or governmental charges withheld or paid, and, if so requested, the tax receipt (or other proof of payment to the applicable governmental authority) therefor. The Depositary shall, to the extent required by U.S. law, report to Holders (i) any taxes withheld by it; (ii) any taxes withheld by the Custodian, subject to information being provided to the Depositary by the Custodian and (iii) any taxes withheld by the Company, subject to information being provided to the Depositary by the Company. The Depositary and the Custodian shall not be required to provide the Holders with any evidence of the remittance by the Company (or its agents) of any taxes withheld, or of the payment of taxes by the Company, except to the extent the evidence is provided by the Company to the Depositary. None of the Depositary, the Custodian or the Company shall be liable for the failure by any Holder or Beneficial Owner to obtain the benefits of credits on the basis of non-U.S. tax paid against such Holders or Beneficial Owners income tax liability.

In the event that the Depositary determines that any distribution in property (including Shares and rights to subscribe therefor) is subject to any tax or other governmental charge which the Depositary is obligated to withhold, the Depositary shall withhold the amount required to be withheld and may by public or private sale dispose of all or a portion of such property (including Shares and rights to subscribe therefor) in such amounts and in such manner as the Depositary deems necessary and practicable to pay such taxes and/or charges and the Depositary shall distribute the net proceeds of any such sale after deduction of such taxes and/or charges to the Holders entitled thereto in proportion to the number of American Depositary Shares held by them respectively.

The Depositary is under no obligation to provide the Holders and Beneficial Owners with any information about the tax status of the Company. The Depositary shall not incur any liability for any tax consequences that may be incurred by Holders and Beneficial Owners on account of their ownership of the American Depositary Shares, including without limitation, tax consequences resulting from the Company (or any of its subsidiaries) being treated as a Passive Foreign Investment Company (as defined in the U.S. Internal Revenue Code of 1986, as amended and the regulations issued thereunder) or otherwise.

ARTICLE V.

THE DEPOSITARY, THE CUSTODIAN AND THE COMPANY

SECTION 5.1 Maintenance of Office and Transfer Books by the Registrar. Until termination of this Deposit Agreement in accordance with its terms, the Depositary or if a Registrar for the Receipts shall have been appointed, the Registrar shall maintain in the Borough of Manhattan, the City of New York, an office and facilities for the execution and delivery, registration, registration of transfers, combination and split-up of Receipts, the surrender of Receipts and the Delivery and withdrawal of Deposited Securities in accordance with the provisions of this Deposit Agreement.

The Depositary or the Registrar as applicable, shall keep books for the registration of Receipts and transfers of Receipts which at all reasonable times shall be open for inspection by the Company and by the Holders of such Receipts, provided that such inspection shall not be, to the Depositarys or the Registrars knowledge, for the purpose of communicating with Holders of such Receipts in the interest of a business or object other than the business of the Company or other than a matter related to this Deposit Agreement or the Receipts.

The Depositary or the Registrar, as applicable, may close the transfer books with respect to the Receipts, at any time and from time to time, when deemed necessary or advisable by it in connection with the performance of its duties hereunder, or at the reasonable written request of the Company.

If any Receipts or the American Depositary Shares evidenced thereby are listed on one or more stock exchanges or automated quotation systems in the United States, the Depositary shall act as Registrar or appoint a Registrar or one or more co-registrars for registration of Receipts and transfers, combinations and split-ups, and to countersign such Receipts in accordance with any requirements of such exchanges or systems. Such Registrar or co-registrars may be removed and a substitute or substitutes appointed by the Depositary.

If any Receipts or the American Depositary Shares evidenced thereby are listed on one or more securities exchanges, markets or automated quotation systems, (i) the Depositary shall be entitled to, and shall, take or refrain from taking such action(s) as it may deem necessary or appropriate to comply with the requirements of such securities exchange(s), market(s) or automated quotation system(s) applicable to it, notwithstanding any other provision of this Deposit Agreement; and (ii) upon the reasonable request of the Depositary, the Company shall provide the Depositary such information and assistance as may be reasonably necessary for the Depositary to comply with such requirements, to the extent that the Company may lawfully do so.

Each Registrar and co-registrar appointed under this Section 5.1 shall give notice in writing to the Depositary accepting such appointment and agreeing to be bound by the applicable terms of the Deposit Agreement.

SECTION 5.2 Exoneration. None of the Depositary, the Custodian or the Company shall be obligated to do or perform any act which is inconsistent with the provisions of this Deposit Agreement or shall incur any liability to Holders, Beneficial Owners or any third parties (i) if the Depositary, the Custodian or the Company or their respective controlling persons or agents (including without limitation, the Agents) shall be prevented or forbidden from, or delayed in, doing or performing any act or thing required by the terms of this Deposit Agreement, by reason of any provision of any present or future law or regulation of the United States or any state thereof, the Cayman Islands or any other country, or of any other governmental authority or regulatory authority or stock exchange, or on account of the possible criminal or civil penalties or restraint, or by reason of any provision, present or future, of the Memorandum and Articles of Association or any provision of or governing any Deposited Securities, or by reason of any act of God or war or other circumstances beyond its control (including, without limitation, nationalization, expropriation, currency restrictions, work stoppage, strikes, civil unrest, revolutions, rebellions, explosions and computer failure), (ii) by reason of any exercise of, or failure to exercise, any discretion provided for in this Deposit Agreement or in the Memorandum and Articles of Association or provisions of or governing Deposited Securities, (iii) for any action or inaction of the Depositary, the Custodian or the Company or their respective controlling persons or agents (including without limitation, the Agents) in reliance upon the advice of or information from legal counsel, accountants, any person presenting Shares for deposit, any Holder, any Beneficial Owner or authorized representative thereof, or any other person believed by it in good faith to be competent to give such advice or information, (iv) for the inability by a Holder or Beneficial Owner to benefit from any distribution, offering, right or other benefit which is made available to holders of Deposited Securities but is not, under the terms of this Deposit Agreement, made available to Holders of American Depositary Shares or (v) for any special, consequential, indirect or punitive damages for any breach of the terms of this Deposit Agreement or otherwise.

SECTION 5.3 Standard of Care. The Company and the Depositary and their respective directors, officers, Affiliates, employees and agents (including without limitation, the Agents) assume no obligation and shall not be subject to any liability under this Deposit Agreement or any Receipts to any Holder(s) or Beneficial Owner(s) or other persons, except in accordance with Section 5.8 hereof, provided, that the Company and the Depositary and their respective directors, officers, Affiliates, employees and agents (including without limitation, the Agents) agree to perform their respective obligations specifically set forth in this Deposit Agreement or the applicable ADRs without gross negligence or willful misconduct.

Without limitation of the foregoing, neither the Depositary, nor the Company, nor any of their respective controlling persons, directors, officers, affiliates, employees or agents (including without limitation, the Agents), shall be under any obligation to appear in, prosecute or defend any action, suit or other proceeding in respect of any Deposited Securities or in respect of the Receipts, which in its opinion may involve it in expense or liability, unless indemnity satisfactory to it against all expenses (including fees and disbursements of counsel) and liabilities be furnished as often as may be required (and no Custodian shall be under any obligation whatsoever with respect to such proceedings, the responsibility of the Custodian being solely to the Depositary).

The Depositary and its directors, officers, affiliates, employees and agents (including without limitation, the Agents) shall not be liable for any failure to carry out any instructions to vote any of the Deposited Securities, or for the manner in which any vote is cast or the effects of any vote. The Depositary shall not incur any liability for any failure to determine that any distribution or action may be lawful or reasonably practicable, for the content of any information submitted to it by the Company for distribution to the Holders or for any inaccuracy of any translation thereof, for any investment risk associated with acquiring an interest in the Deposited Securities, for the validity or worth of the Deposited Securities or for any tax consequences that may result from the ownership of ADSs, Shares or Deposited Securities, for the credit-worthiness of any third party, for allowing any rights to lapse upon the terms of this Deposit Agreement or for the failure or timeliness of any notice from the Company, or for any action or non action by it in reliance upon the opinion, advice of or information from legal counsel, accountants, any person presenting Shares for deposit, any Holder or any other person believed by it in good faith to be competent to give such advice or information. The Depositary and its agents (including without limitation, the Agents) shall not be liable for any acts or omissions made by a successor depositary whether in connection with a previous act or omission of the Depositary or in connection with any matter arising wholly after the removal or resignation of the Depositary, provided that in connection with the issue out of which such potential liability arises the Depositary performed its obligations without gross negligence or willful misconduct while it acted as Depositary.

SECTION 5.4 Resignation and Removal of the Depositary; Appointment of Successor Depositary. The Depositary may at any time resign as Depositary hereunder by written notice of resignation delivered to the Company, such resignation to be effective on the earlier of (i) the 90th day after delivery thereof to the Company (whereupon the Depositary shall, in the event no successor depositary has been appointed by the Company, be entitled to take the actions contemplated in Section 6.2 hereof) and (ii) the appointment by the Company of a successor depositary and its acceptance of such appointment as hereinafter provided, save that, any amounts, fees, costs or expenses owed to the Depositary hereunder or in accordance with any other agreements otherwise agreed in writing between the Company and the Depositary from time to time shall be paid to the Depositary prior to such resignation.

The Company shall use reasonable efforts to appoint such successor depositary, and give notice to the Depositary of such appointment, not more than 90 days after delivery by the Depositary of written notice of resignation as provided in this Section 5.4. In the event that notice of the appointment of a successor depositary is not provided by the Company in accordance with the preceding sentence, the Depositary shall be entitled to take the actions contemplated in Section 6.2 hereof.

The Depositary may at any time be removed by the Company by written notice of such removal, which removal shall be effective on the later of (i) the 90th day after delivery thereof to the Depositary (whereupon the Depositary shall be entitled to take the actions contemplated in Section 6.2 hereof if a successor depositary has not been appointed), and (ii) the appointment by the Company of a successor depositary and its acceptance of such appointment as hereinafter provided, save that, any amounts, fees, costs or expenses owed to the Depositary hereunder or in accordance with any other agreements otherwise agreed in writing between the Company and the Depositary from time to time shall be paid to the Depositary prior to such removal.

In case at any time the Depositary acting hereunder shall resign or be removed, the Company shall use its best efforts to appoint a successor depositary, which shall be a bank or trust company having an office in the Borough of Manhattan, the City of New York. Every successor depositary shall be required by the Company to execute and deliver to its predecessor and to the Company an instrument in writing accepting its appointment hereunder, and thereupon such successor depositary, without any further act or deed (except as required by applicable law), shall become fully vested with all the rights, powers, duties and obligations of its predecessor. The predecessor depositary, upon payment of all sums due to it and on the written request of the Company, shall (i) execute and deliver an instrument transferring to such successor all rights and powers of such predecessor hereunder (other than as contemplated in Sections 5.8 and 5.9 hereof), (ii) duly assign, transfer and deliver all right, title and interest to the Deposited Securities to such successor, and (iii) deliver to such successor a list of the Holders of all outstanding Receipts and such other information relating to Receipts and Holders thereof as the successor may reasonably request. Any such successor depositary shall promptly mail notice of its appointment to such Holders.

Any corporation into or with which the Depositary may be merged or consolidated shall be the successor of the Depositary without the execution or filing of any document or any further act and, notwithstanding anything to the contrary in this Deposit Agreement, the Depositary may assign or otherwise transfer all or any of its rights and benefits under this Deposit Agreement (including any cause of action arising in connection with it) to Deutsche Bank AG or any branch thereof or any entity which is a direct or indirect subsidiary or other affiliate of Deutsche Bank AG.

SECTION 5.5 The Custodian. The Custodian or its successors in acting hereunder shall be subject at all times and in all respects to the direction of the Depositary for the Deposited Securities for which the Custodian acts as custodian and shall be responsible solely to it. If any Custodian resigns or is discharged from its duties hereunder with respect to any Deposited Securities and no other Custodian has previously been appointed hereunder, the Depositary shall promptly appoint a substitute custodian. The Depositary shall require such resigning or discharged Custodian to deliver the Deposited Securities held by it, together with all such records maintained by it as Custodian with respect to such Deposited Securities as the Depositary may request, to the Custodian designated by the Depositary. Whenever the Depositary determines, in its discretion, that it is appropriate to do so, it may appoint an additional entity to act as Custodian with respect to any Deposited Securities, or discharge the Custodian with respect to any Deposited Securities and appoint a substitute custodian, which shall thereafter be Custodian hereunder with respect to the Deposited Securities. After any such change, the Depositary shall give notice thereof in writing to all Holders.

Upon the appointment of any successor depositary, any Custodian then acting hereunder shall, unless otherwise instructed by the Depositary, continue to be the Custodian of the Deposited Securities without any further act or writing and shall be subject to the direction of the successor depositary. The successor depositary so appointed shall, nevertheless, on the written request of any Custodian, execute and deliver to such Custodian all such instruments as may be proper to give to such Custodian full and complete power and authority to act on the direction of such successor depositary.

SECTION 5.6 Notices and Reports. On or before the first date on which the Company gives notice, by publication or otherwise, of any meeting of holders of Shares or other Deposited Securities, or of any adjourned meeting of such holders, or of the taking of any action by such holders other than at a meeting, or of the taking of any action in respect of any cash or other distributions or the offering of any rights in respect of Deposited Securities, the Company shall transmit to the Depositary and the Custodian a copy of the notice thereof in English but otherwise in the form given or to be given to holders of Shares or other Deposited Securities. The Company shall also furnish to the Custodian and the Depositary a summary, in English, of any applicable provisions or proposed provisions of the Memorandum and Articles of Association that may be relevant or pertain to such notice of meeting or be the subject of a vote thereat.

The Company will also transmit to the Depositary (a) English language versions of the other notices, reports and communications which are made generally available by the Company to holders of its Shares or other Deposited Securities and (b) English language versions of the Companys annual and other reports prepared in accordance with the applicable requirements of the Commission. The Depositary shall arrange, at the request of the Company and at the Companys expense, for the mailing of copies thereof to all Holders, or by any other means as agreed between the Company and the Depositary (at the Companys expense) or make such notices, reports and other communications available for inspection by all Holders, provided, that, the Depositary shall have received evidence sufficiently satisfactory to it, including in the form of an Opinion of Counsel regarding U.S. law or of any other applicable jurisdiction, furnished at the expense of the Company, as the Depositary reasonably requests, that the distribution of such notices, reports and any such other communications to Holders from time to time is valid and does not or will not infringe any local, U.S. or other applicable jurisdiction regulatory restrictions or requirements if so distributed and made available to Holders. The Company will timely provide the Depositary with the quantity of such notices, reports, and communications, as requested by the Depositary from time to time, in order for the Depositary to effect such mailings. The Company has delivered to the Depositary and the Custodian a copy of the Memorandum and Articles of Association along with the provisions of or governing the Shares and any other Deposited Securities issued by the Company or any Affiliate of the Company, in connection with the Shares, in each case, to the extent not in English, along with a certified English translation thereof, and promptly upon any amendment thereto or change therein, the Company shall deliver to the Depositary and the Custodian a copy of such amendment thereto or change therein, to the extent not in English, along with a certified English translation thereof. The Depositary may rely upon such copy for all purposes of this Deposit Agreement.

The Depositary will make available, at the expense of the Company, a copy of any such notices, reports or communications issued by the Company and delivered to the Depositary for inspection by the Holders of the Receipts evidencing the American Depositary Shares representing such Shares governed by such provisions at the Depositarys Corporate Trust Office, at the office of the Custodian and at any other designated transfer office.

SECTION 5.7 Issuance of Additional Shares, ADSs etc. The Company agrees that in the event it or any of its Affiliates proposes (i) an issuance, sale or distribution of additional Shares, (ii) an offering of rights to subscribe for Shares or other Deposited Securities, (iii) an issuance of securities convertible into or exchangeable for Shares, (iv) an issuance of rights to subscribe for securities convertible into or exchangeable for Shares, (v) an elective dividend of cash or Shares, (vi) a redemption of Deposited Securities, (vii) a meeting of holders of Deposited Securities, or solicitation of consents or proxies, relating to any reclassification of securities, merger, subdivision, amalgamation or consolidation or transfer of assets, (viii) any reclassification, recapitalization, reorganization, merger, amalgamation, consolidation or sale of assets which affects the Deposited Securities or (ix) a distribution of property other than cash, Shares or rights to purchase additional Shares it will obtain U.S. legal advice and take all steps necessary to ensure that the application of the proposed transaction to Holders and Beneficial Owners does not violate the registration provisions of the Securities Act, or any other applicable laws (including, without limitation, the Investment Company Act of 1940, as amended, the Exchange Act or the securities laws of the states of the United States). In support of the foregoing, the Company will furnish to the Depositary at its request, at the Companys expense, (a) a written opinion of U.S. counsel (satisfactory to the Depositary) stating whether or not application of such transaction to Holders and Beneficial Owners (1) requires a registration statement under the Securities Act to be in effect or (2) is exempt from the registration requirements of the Securities Act and/or (3) dealing with such other issues requested by the Depositary; (b) a written opinion of Cayman Islands counsel (satisfactory to the Depositary) stating that (1) making the transaction available to Holders and Beneficial Owners does not violate the laws or regulations of the Cayman Islands and (2) all requisite regulatory consents and approvals have been obtained in the Cayman Islands; and (c) as the Depositary may request, a written Opinion of Counsel in any other jurisdiction in which Holders or Beneficial Owners reside to the effect that making the transaction available to such Holders or Beneficial Owners does not violate the laws or regulations of such jurisdiction. If the filing of a registration statement is required, the Depositary shall not have any obligation to proceed with the transaction unless it shall have received evidence reasonably satisfactory to it that such registration statement has been declared effective and that such distribution is in accordance with all applicable laws or regulations. If, being advised by counsel, the Company determines that a transaction is required to be registered under the Securities Act, the Company will either (i) register such transaction to the extent necessary, (ii) alter the terms of the transaction to avoid the registration requirements of the Securities Act or (iii) direct the Depositary to take specific measures, in each case as contemplated in this Deposit Agreement, to prevent such transaction from violating the registration requirements of the Securities Act.

The Company agrees with the Depositary that neither the Company nor any of its Affiliates will at any time (i) deposit any Shares or other Deposited Securities, either upon original issuance or upon a sale of Shares or other Deposited Securities previously issued and reacquired by the Company or by any such Affiliate, or (ii) issue additional Shares, rights to subscribe for such Shares, securities convertible into or exchangeable for Shares or rights to subscribe for such securities, unless such transaction and the securities issuable in such transaction are exempt from registration under the Securities Act or have been registered under the Securities Act (and such registration statement has been declared effective).

Notwithstanding anything else contained in this Deposit Agreement, nothing in this Deposit Agreement shall be deemed to obligate the Company to file any registration statement in respect of any proposed transaction.

SECTION 5.8 Indemnification. The Company agrees to indemnify the Depositary, any Custodian and each of their respective directors, officers, employees, agents (including without limitation, the Agents) and Affiliates against, and hold each of them harmless from, any losses, liabilities, taxes, costs, claims, judgments, proceedings, actions, demands and any charges or expenses of any kind whatsoever (including, but not limited to, reasonable fees and expenses of counsel together with, in each case, value added tax and any similar tax charged or otherwise imposed in respect thereof) (collectively referred to as **Losses**) which the Depositary or any agent (including without limitation, the Agents) thereof may incur or which may be made against it as a result of or in connection with its appointment or the exercise of its powers and duties under this Agreement or that may arise (a) out of or in connection with any offer, issuance, sale, resale, transfer, deposit or withdrawal of Receipts, American Depositary Shares, the Shares, or other Deposited Securities, as the case may be, (b) out of or in connection with any offering documents in respect thereof or (c) out of or in connection with acts performed or omitted, including, but not limited to, any delivery by the Depositary on behalf of the Company of information regarding the Company in connection with this Deposit Agreement, the Receipts, the American Depositary Shares, the Shares, or any Deposited Securities, in any such case (i) by the Depositary, the Custodian or any of their respective directors, officers, employees, agents (including without limitation, the Agents) and Affiliates, except to the extent any such Losses arise out of the gross negligence or wilful misconduct of any of them, or (ii) by the Company or any of its directors, officers, employees, agents and Affiliates.

The Depositary agrees to indemnify the Company and hold it harmless from any Losses which may arise out of acts performed or omitted to be performed by the Depositary arising out of its gross negligence or wilful misconduct. Notwithstanding the above, in no event shall the Depositary or any of its directors, officers, employees, agents (including without limitation, the Agents) and/or Affiliates be liable for any special, consequential, indirect or punitive damages to the Company, Holders, Beneficial Owners or any other person.

Any person seeking indemnification hereunder (an **Indemnified Person**) shall notify the person from whom it is seeking indemnification (the **Indemnifying Person**) of the commencement of any indemnifiable action or claim promptly after such Indemnified Person becomes aware of such commencement (provided that the failure to make such notification shall not affect such Indemnified Persons rights to indemnification except to the extent the Indemnifying Person is materially prejudiced by such failure) and shall consult in good faith with the Indemnifying Person as to the conduct of the defense of such action or claim that may give rise to an indemnity hereunder, which defense shall be reasonable under the circumstances. No Indemnified Person shall compromise or settle any action or claim that may give rise to an indemnity hereunder without the consent of the Indemnifying Person, which consent shall not be unreasonably withheld.

The obligations set forth in this Section shall survive the termination of this Deposit Agreement and the succession or substitution of any party hereto.

SECTION 5.9 Fees and Charges of Depositary. The Company, the Holders, the Beneficial Owners, and persons depositing Shares or surrendering ADSs for cancellation and withdrawal of Deposited Securities shall be required to pay to the Depositary the Depositary's fees and related charges identified as payable by them respectively as provided for under Article (9) of the Receipt. All fees and charges so payable may, at any time and from time to time, be changed by agreement between the Depositary and the Company, but, in the case of fees and charges payable by Holders and Beneficial Owners, only in the manner contemplated in Section 6.1 hereof. The Depositary shall provide, without charge, a copy of its latest fee schedule to anyone upon request.

The Depositary and the Company may reach separate agreement in relation to the payment of any additional remuneration to the Depositary in respect of any exceptional duties which the Depositary finds necessary or desirable and agreed by both parties in the performance of its obligations hereunder and in respect of the actual costs and expenses of the Depositary in respect of any notices required to be given to the Holders in accordance with Article (20) of the Receipt.

In connection with any payment by the Company to the Depositary:

- (i) all fees, taxes, duties, charges, costs and expenses which are payable by the Company shall be paid or be procured to be paid by the Company (and any such amounts which are paid by the Depositary shall be reimbursed to the Depositary by the Company upon demand therefor);
- (ii) such payment shall be subject to all necessary applicable exchange control and other consents and approvals having been obtained. The Company undertakes to use its reasonable endeavours to obtain all necessary approvals that are required to be obtained by it in this connection; and
- (iii) the Depositary may request, in its sole but reasonable discretion after reasonable consultation with the Company, an Opinion of Counsel regarding U.S. law, the laws of the Cayman Islands or of any other relevant jurisdiction, to be furnished at the expense of the Company, if at any time it deems it necessary to seek such an Opinion of Counsel regarding the validity of any action to be taken or instructed to be taken under this Agreement.

The Company agrees to promptly pay to the Depositary such other fees, charges and expenses and to reimburse the Depositary for such out-of-pocket expenses as the Depositary and the Company may agree to in writing from time to time. Responsibility for payment of such charges may at any time and from time to time be changed by agreement between the Company and the Depositary.

All payments by the Company to the Depositary under this Section 5.9 shall be paid without set-off or counterclaim, and free and clear of and without deduction or withholding for or on account of, any present or future taxes, levies, imports, duties, fees, assessments or other charges of whatever nature, imposed by the Cayman Islands or by any department, agency or other political subdivision or taxing authority thereof or therein, and all interest, penalties or similar liabilities with respect thereto.

The right of the Depositary to receive payment of fees, charges and expenses as provided above shall survive the termination of this Deposit Agreement. As to any Depositary, upon the resignation or removal of such Depositary as described in Section 5.4 hereof, such right shall extend for those fees, charges and expenses incurred prior to the effectiveness of such resignation or removal.

SECTION 5.10 Restricted Securities Owners/Ownership Restrictions. From time to time or upon request of the Depositary, the Company shall provide to the Depositary a list setting forth, to the actual knowledge of the Company, those persons or entities who beneficially own Restricted Securities and the Company shall update such list on a regular basis. The Depositary may rely on such list or update but shall not be liable for any action or omission made in reliance thereon. The Company agrees to advise in writing each of the persons or entities who, to the knowledge of the Company, holds Restricted Securities that such Restricted Securities are ineligible for deposit hereunder and, to the extent practicable, shall require each of such persons to represent in writing that such person will not deposit Restricted Securities hereunder. Holders and Beneficial Owners shall comply with any limitations on ownership of Shares under the Memorandum and Articles of Association or applicable Cayman Islands law as if they held the number of Shares their ADSs represent. The Company shall, in accordance with Article (24) of the Receipt, inform Holders and Beneficial Owners and the Depositary of any other limitations on ownership of Shares that the Holders and Beneficial Owners may be subject to by reason of the number of ADSs held under the Articles of Association or applicable Cayman Islands law, as such restrictions may be in force from time to time.

The Company may, in its sole discretion, but subject to applicable law, instruct the Depositary to take action with respect to the ownership interest of any Holder or Beneficial Owner pursuant to the Memorandum and Articles of Association, including but not limited to, the removal or limitation of voting rights or the mandatory sale or disposition on behalf of a Holder or Beneficial Owner of the Shares represented by the ADRs held by such Holder or Beneficial Owner in excess of such limitations, if and to the extent such disposition is permitted by applicable law and the Memorandum and Articles of Association; provided that any such measures are practicable and legal and can be undertaken without undue burden or expense, and provided further the Depositary's agreement to the foregoing is conditional upon it being advised of any applicable changes in the Memorandum and Articles of Association. The Depositary shall have no liability for any actions taken in accordance with such instructions.

ARTICLE VI.

AMENDMENT AND TERMINATION

SECTION 6.1 Amendment/Supplement. Subject to the terms and conditions of this Section 6.1 and applicable law, the Receipts outstanding at any time, the provisions of this Deposit Agreement and the form of Receipt attached hereto and to be issued under the terms hereof may at any time and from time to time be amended or supplemented by written agreement between the Company and the Depositary in any respect which they may deem necessary or desirable and not materially prejudicial to the Holders without the consent of the Holders or Beneficial Owners. Any amendment or supplement which shall impose or increase any fees or charges (other than charges in connection with foreign exchange control regulations, and taxes and/or other governmental charges, delivery and other such expenses payable by Holders or Beneficial Owners), or which shall otherwise materially prejudice any substantial existing right of Holders or Beneficial Owners, shall not, however, become effective as to outstanding Receipts until 30 days after notice of such amendment or supplement shall have been given to the Holders of outstanding Receipts. Notice of any amendment to the Deposit Agreement or form of Receipts shall not need to describe in detail the specific amendments effectuated thereby, and failure to describe the specific amendments in any such notice shall not render such notice invalid, provided, however, that, in each such case, the notice given to the Holders identifies a means for Holders and Beneficial Owners to retrieve or receive the text of such amendment (i.e., upon retrieval from the Commissions, the Depositarys or the Companys website or upon request from the Depositary). The parties hereto agree that any amendments or supplements which (i) are reasonably necessary (as agreed by the Company and the Depositary) in order for (a) the American Depositary Shares to be registered on Form F-6 under the Securities Act or (b) the American Depositary Shares or the Shares to be traded solely in electronic book-entry form and (ii) do not in either such case impose or increase any fees or charges to be borne by Holders, shall be deemed not to materially prejudice any substantial rights of Holders or Beneficial Owners. Every Holder and Beneficial Owner at the time any amendment or supplement so becomes effective shall be deemed, by continuing to hold such American Depositary Share or Shares, to consent and agree to such amendment or supplement and to be bound by the Deposit Agreement as amended and supplemented thereby. In no event shall any amendment or supplement impair the right of the Holder to surrender such Receipt and receive therefor the Deposited Securities represented thereby, except in order to comply with mandatory provisions of applicable law. Notwithstanding the foregoing, if any governmental body should adopt new laws, rules or regulations which would require amendment or supplement of the Deposit Agreement to ensure compliance therewith, the Company and the Depositary may amend or supplement the Deposit Agreement and the Receipt at any time in accordance with such changed laws, rules or regulations. Such amendment or supplement to the Deposit Agreement in such circumstances may become effective before a notice of such amendment or supplement is given to Holders or within any other period of time as required for compliance with such laws, rules or regulations.

SECTION 6.2 Termination. The Depositary shall, at any time at the written direction of the Company, terminate this Deposit Agreement by mailing notice of such termination to the Holders of all Receipts then outstanding at least 90 days prior to the date fixed in such notice for such termination, provided that, the Depositary shall be reimbursed for any amounts, fees, costs or expenses owed to it in accordance with the terms of this Deposit Agreement and in accordance with any other agreements as otherwise agreed in writing between the Company and the Depositary from time to time, prior to such termination shall take effect. If 90 days shall have expired after (i) the Depositary shall have delivered to the Company a written notice of its election to resign, or (ii) the Company shall have delivered to the Depositary a written notice of the removal of the Depositary, and in either case a successor depositary shall not have been appointed and accepted its appointment as provided in Section 5.4 hereof, the Depositary may terminate this Deposit Agreement by mailing notice of such termination to the Holders of all Receipts then outstanding at least 30 days prior to the date fixed for such termination. On and after the date of termination of this Deposit Agreement, each Holder will, upon surrender of such Receipt at the Corporate Trust Office of the Depositary, upon the payment of the charges of the Depositary for the surrender of Receipts referred to in Section 2.6 hereof and subject to the conditions and restrictions therein set forth, and upon payment of any applicable taxes and/or governmental charges, be entitled to Delivery, to him or upon his order, of the amount of Deposited Securities represented by such Receipt. If any Receipts shall remain outstanding after the date of termination of this Deposit Agreement, the Registrar thereafter shall discontinue the registration of transfers of Receipts, and the Depositary shall suspend the distribution of dividends to the Holders thereof, and shall not give any further notices or perform any further acts under this Deposit Agreement, except that the Depositary shall continue to collect dividends and other distributions pertaining to Deposited Securities, shall sell rights or other property as provided in this Deposit Agreement, and shall continue to Deliver Deposited Securities, subject to the conditions and restrictions set forth in Section 2.6 hereof, together with any dividends or other distributions received with respect thereto and the net proceeds of the sale of any rights or other property, in exchange for Receipts surrendered to the Depositary (after deducting, or charging, as the case may be, in each case, the charges of the Depositary for the surrender of a Receipt, any expenses for the account of the Holder in accordance with the terms and conditions of this Deposit Agreement and any applicable taxes and/or governmental charges or assessments). At any time after the expiration of six months from the date of termination of this Deposit Agreement, the Depositary may sell the Deposited Securities then held hereunder and may thereafter hold uninvested the net proceeds of any such sale, together with any other cash then held by it hereunder, in an unsegregated account, without liability for interest for the pro rata benefit of the Holders of Receipts whose Receipts have not theretofore been surrendered. After making such sale, the Depositary shall be discharged from all obligations under this Deposit Agreement with respect to the Receipts and the Shares, Deposited Securities and American Depositary Shares, except to account for such net proceeds and other cash (after deducting, or charging, as the case may be, in each case, the charges of the Depositary for the surrender of a Receipt, any expenses for the account of the Holder in accordance with the terms and conditions of this Deposit Agreement and any applicable taxes and/or governmental charges or assessments). Upon the termination of this Deposit Agreement, the Company shall be discharged from all obligations under this Deposit Agreement except for its obligations to the Depositary hereunder. The obligations under the terms of the Deposit Agreement and Receipts of Holders and Beneficial Owners of ADSs outstanding as of the effective date of any termination shall survive such effective date of termination and shall be discharged only when the applicable ADSs are presented by their Holders to the Depositary for cancellation under the terms of the Deposit Agreement and the Holders have each satisfied any and all of their obligations hereunder (including, but not limited to, any payment and/or reimbursement obligations which relate to prior to the effective date of termination but which payment and/or reimbursement is claimed after such effective date of termination).

Notwithstanding anything contained in the Deposit Agreement or any ADR, in connection with the termination of the Deposit Agreement, the Depositary may, independently and without the need for any action by the Company, make available to Holders of ADSs a means to withdraw the Deposited Securities represented by their ADSs and to direct the deposit of such Deposited Securities into an unsponsored American depositary shares program established by the Depositary, upon such terms and conditions as the Depositary may deem reasonably appropriate, subject however, in each case, to satisfaction of the applicable registration requirements by the unsponsored American depositary shares program under the Securities Act, and to receipt by the Depositary of payment of the applicable fees and charges of, and reimbursement of the applicable expenses incurred by, the Depositary.

The Depositary or the Company may, however, act upon any cable, telex, facsimile or electronic transmission received by it from the other or from any Holder, notwithstanding that such cable, telex, facsimile or electronic transmission shall not subsequently be confirmed by letter as aforesaid, as the case may be.

SECTION 7.6 Governing Law and Jurisdiction. This Deposit Agreement and the Receipts shall be interpreted in accordance with, and all rights hereunder and thereunder and provisions hereof and thereof shall be governed by, the laws of the State of New York without reference to the principles of choice of law thereof. Subject to the Depositarys rights under the third paragraph of this Section 7.6, the Company and the Depositary agree that the federal or state courts in the City of New York shall have exclusive jurisdiction to hear and determine any suit, action or proceeding and to settle any dispute between them that may arise out of or in connection with this Deposit Agreement and, for such purposes, each irrevocably submits to the exclusive jurisdiction of such courts. Notwithstanding the above, the parties hereto agree that any judgment and/or order from any such New York court can be enforced in any court having jurisdiction thereof. The Company hereby irrevocably designates, appoints and empowers Law Debenture Corporate Services Inc. (the **Process Agent**), now at 801 2nd Avenue, Suite 403, New York, NY, 10017 United States, as its authorized agent to receive and accept for and on its behalf, and on behalf of its properties, assets and revenues, service by mail of any and all legal process, summons, notices and documents that may be served in any suit, action or proceeding brought against the Company in any federal or state court as described in the preceding sentence or in the next paragraph of this Section 7.6. If for any reason the Process Agent shall cease to be available to act as such, the Company agrees to designate a new agent in the City of New York on the terms and for the purposes of this Section 7.6 reasonably satisfactory to the Depositary. The Company further hereby irrevocably consents and agrees to the service of any and all legal process, summons, notices and documents in any suit, action or proceeding against the Company, by service by mail of a copy thereof upon the Process Agent (whether or not the appointment of such Process Agent shall for any reason prove to be ineffective or such Process Agent shall fail to accept or acknowledge such service), with a copy mailed to the Company by registered or certified air mail, postage prepaid, to its address provided in Section 7.5 hereof. The Company agrees that the failure of the Process Agent to give any notice of such service to it shall not impair or affect in any way the validity of such service or any judgment rendered in any action or proceeding based thereon.

The Company irrevocably and unconditionally waives, to the fullest extent permitted by law, any objection that it may now or hereafter have to the laying of venue of any actions, suits or proceedings brought in any court as provided in this Section 7.6, and hereby further irrevocably and unconditionally waives and agrees not to plead or claim in any such court that any such action, suit or proceeding brought in any such court has been brought in an inconvenient forum.

The Company, the Depositary and by holding an American Depositary Share (or interest therein) Holders and Beneficial Owners each agree that, notwithstanding the foregoing, with regard to any claim or dispute or difference of whatever nature between or involving the parties hereto arising directly or indirectly from the relationship created by this Deposit Agreement, the Depositary, in its sole discretion, shall be entitled to refer such dispute or difference for final settlement by arbitration (**Arbitration**) in accordance with the Commercial Arbitration Rules of the American Arbitration Association (the **Rules**) then in force. The arbitration shall be conducted by three arbitrators, one nominated by the Depositary, one nominated by the Company, and one nominated by the two party-appointed arbitrators within 30 calendar days of the confirmation of the nomination of the second arbitrator. If any arbitrator has not been nominated within the time limits specified herein and in the Rules, then such arbitrator shall be appointed by the American Arbitration Association in accordance with the Rules. Judgment upon the award rendered by the arbitrators may be enforced in any court having jurisdiction thereof. The seat and place of any reference to arbitration shall be New York City, New York, and the procedural law of such arbitration shall be New York law. The language to be used in the arbitration shall be English. The fees of the arbitrator and other costs incurred by the parties in connection with such Arbitration shall be paid by the party or parties that is (are) unsuccessful in such Arbitration. For the avoidance of doubt this paragraph does not preclude Holders and Beneficial Owners from pursuing claims under the Securities Act or the Exchange Act in federal courts.

Holders and Beneficial Owners understand, and holding an American Depositary Share or an interest therein, such Holders and Beneficial Owners each irrevocably agree that any legal suit, action or proceeding against or involving the Company or the Depositary, arising out of or based upon the Deposit Agreement, American Depositary Shares, Receipts or the transactions contemplated hereby or thereby or by virtue of ownership thereof, may only be instituted in a state or federal court in New York, New York, and by holding an American Depositary Share or an interest therein each irrevocably waives any objection which it may now or hereafter have to the laying of venue of any such proceeding, and irrevocably submits to the exclusive jurisdiction of such courts in any such suit, action or proceeding. Holders and Beneficial Owners agree that the provisions of this paragraph shall survive such Holders and Beneficial Owners ownership of American Depositary Shares or interests therein.

EACH PARTY TO THE DEPOSIT AGREEMENT (INCLUDING, FOR AVOIDANCE OF DOUBT, EACH HOLDER AND BENEFICIAL OWNER AND/OR HOLDER OF INTERESTS IN ANY ADRs) HEREBY IRREVOCABLY WAIVES, TO THE FULLEST EXTENT PERMITTED BY APPLICABLE LAW, ANY RIGHT IT MAY HAVE TO A TRIAL BY JURY IN ANY SUIT, ACTION OR PROCEEDING AGAINST THE DEPOSITARY AND/OR THE COMPANY DIRECTLY OR INDIRECTLY ARISING OUT OF OR RELATING TO THE SHARES OR OTHER DEPOSITED SECURITIES, THE ADSs OR THE ADRs, THE DEPOSIT AGREEMENT OR ANY TRANSACTION CONTEMPLATED HEREIN OR THEREIN, OR THE BREACH HEREOF OR THEREOF (WHETHER BASED ON CONTRACT, TORT, COMMON LAW OR ANY OTHER THEORY).

The provisions of this Section 7.6 shall survive any termination of this Deposit Agreement, in whole or in part.

SECTION 7.7 Assignment. Subject to the provisions and exceptions set forth in Section 5.4 hereof, this Deposit Agreement may not be assigned by either the Company or the Depositary.

SECTION 7.8 Agents. The Depositary shall be entitled, in its sole but reasonable discretion, to appoint one or more agents (the **Agents**) of which it shall have control for the purpose, *inter alia*, of making distributions to the Holders or otherwise carrying out its obligations under this Agreement.

SECTION 7.9 Affiliates etc. The Depositary reserves the right to utilize and retain a division or Affiliate(s) of the Depositary to direct, manage and/or execute any public and/or private sale of Shares, rights, securities, property or other entitlements hereunder and to engage in the conversion of Foreign Currency hereunder. It is anticipated that such division and/or Affiliate(s) will charge the Depositary a fee and/or commission in connection with each such transaction, and seek reimbursement of its costs and expenses related thereto. Such fees/commissions, costs and expenses, shall be deducted from amounts distributed hereunder and shall not be deemed to be fees of the Depositary under Article (9) of the Receipt or otherwise. Persons are advised that in converting foreign currency into U.S. dollars the Depositary may utilize Deutsche Bank AG or its affiliates (collectively, **DBAG**) to effect such conversion by seeking to enter into a foreign exchange (**FX**) transaction with DBAG. When converting currency, the Depositary is not acting as a fiduciary for the holders or beneficial owners of depositary receipts or any other person. Moreover, in executing FX transactions, DBAG will be acting in a principal capacity, and not as agent, fiduciary or broker, and may hold positions for its own account that are the same, similar, different or opposite to the positions of its customers, including the Depositary. When the Depositary seeks to execute an FX transaction to accomplish such conversion, customers should be aware that DBAG is a global dealer in FX for a full range of FX products and, as a result, the rate obtained in connection with any requested foreign currency conversion may be impacted by DBAG executing FX transactions for its own account or with another customer. In addition, in order to source liquidity for any FX transaction relating to any foreign currency conversion, DBAG may internally share economic terms relating to the relevant FX transaction with persons acting in a sales or trading capacity for DBAG or one of its agents. DBAG may charge fees and/or commissions to the Depositary or add a mark-up in connection with such conversions, which are reflected in the rate at which the foreign currency will be converted into U.S. dollars. The Depositary, its Affiliates and their agents, on their own behalf, may own and deal in any class of securities of the Company and its Affiliates and in ADSs.

SECTION 7.10 Exclusivity. The Company agrees not to appoint any other depositary for the issuance or administration of depositary receipts evidencing any class of stock of the Company so long as Deutsche Bank Trust Company Americas is acting as Depositary hereunder.

SECTION 7.11 Compliance with U.S. Securities Laws. Notwithstanding anything in this Deposit Agreement to the contrary, the withdrawal or Delivery of Deposited Securities will not be suspended by the Company or the Depositary except as would be permitted by Instruction I.A.(1) of the General Instructions to Form F-6 Registration Statement, as amended from time to time, under the Securities Act.

SECTION 7.12 Titles. All references in this Deposit Agreement to exhibits, Articles, sections, subsections, and other subdivisions refer to the exhibits, Articles, sections, subsections and other subdivisions of this Deposit Agreement unless expressly provided otherwise. The words **this Deposit Agreement, herein, hereof, hereby, hereunder**, and words of similar import refer to the Deposit Agreement as a whole as in effect between the Company, the Depositary and the Holders and Beneficial Owners of ADSs and not to any particular subdivision unless expressly so limited. Pronouns in masculine, feminine and neuter gender shall be construed to include any other gender, and words in the singular form shall be construed to include the plural and vice versa unless the context otherwise requires. Titles to sections of this Deposit Agreement are included for convenience only and shall be disregarded in construing the language contained in this Deposit Agreement.

The Depositary agrees to use reasonable efforts to forward any such requests to the Holders and to forward to the Company any such responses to such requests received by the Depositary.

(6) Liability of Holder for Taxes, Duties and Other Charges. If any tax or other governmental charge shall become payable by the Depositary or the Custodian with respect to any Receipt or any Deposited Securities or ADSs, such tax or other governmental charge shall be payable by the Holders and Beneficial Owners to the Depositary. The Company, the Custodian and/or the Depositary may withhold or deduct from any distributions made in respect of Deposited Securities and may sell for the account of the Holder and/or Beneficial Owner any or all of the Deposited Securities and apply such distributions and sale proceeds in payment of such taxes (including applicable interest and penalties) or charges, with the Holder and the Beneficial Owner hereof remaining fully liable for any deficiency. The Custodian may refuse the deposit of Shares, and the Depositary may refuse to issue ADSs, to deliver Receipts, register the transfer, split-up or combination of ADRs and (subject to Article (22) hereof) the withdrawal of Deposited Securities, until payment in full of such tax, charge, penalty or interest is received.

The liability of Holders and Beneficial Owners under the Deposit Agreement shall survive any transfer of Receipts, any surrender of Receipts and withdrawal of Deposited Securities or the termination of the Deposit Agreement.

Holders understand that in converting Foreign Currency, amounts received on conversion are calculated at a rate which may exceed the number of decimal places used by the Depositary to report distribution rates (which in any case will not be less than two decimal places). Any excess amount may be retained by the Depositary as an additional cost of conversion, irrespective of any other fees and expenses payable or owing hereunder and shall not be subject to escheatment.

(7) Representations and Warranties of Depositors. Such representations and warranties shall survive the deposit and withdrawal of Shares and the issuance, cancellation and transfer of ADSs. If any such representations or warranties are false in any way, the Company and Depositary shall be authorized, at the cost and expense of the person depositing Shares, to take any and all actions necessary to correct the consequences thereof.

(8) Filing Proofs, Certificates and Other Information. Any person presenting Shares for deposit shall provide, any Holder and any Beneficial Owner may be required to provide, and every Holder and Beneficial Owner agrees, from time to time to provide to the Depositary such proof of citizenship or residence, taxpayer status, payment of all applicable taxes and/or other governmental charges, exchange control approval, legal or beneficial ownership of ADSs and Deposited Securities, compliance with applicable laws and the terms of the Deposit Agreement and the provisions of, or governing, the Deposited Securities or other information as the Depositary deems necessary or proper or as the Company may reasonably require by written request to the Depositary consistent with its obligations under the Deposit Agreement. The obligations of Holders and Beneficial Owners under the Deposit Agreement shall survive any transfer of Receipts, any surrender of Receipts and withdrawal of Deposited Securities or the termination of this Deposit Agreement.

(9) Charges of Depositary. The Depositary reserves the right to charge the following fees for the services performed under the terms of the Deposit Agreement, provided, however, that no fees shall be payable upon distribution of cash dividends so long as the charging of such fee is prohibited by the exchange, if any, upon which the ADSs are listed:

Any other fees and charges of, and expenses incurred by, the Depositary or the Custodian under the Deposit Agreement shall be for the account of the Company unless otherwise agreed in writing between the Company and the Depositary from time to time. All fees and charges may, at any time and from time to time, be changed by agreement between the Depositary and Company but, in the case of fees and charges payable by Holders or Beneficial Owners, only in the manner contemplated by Article (20) hereof.

The Depositary may make payments to the Company and/or may share revenue with the Company derived from fees collected from Holders and Beneficial Owners, upon such terms and conditions as the Company and the Depositary may agree from time to time.

(10) Title to Receipts. It is a condition of this Receipt, and every successive Holder of this Receipt by accepting or holding the same consents and agrees, that title to this Receipt (and to each ADS evidenced hereby) is transferable by delivery of the Receipt, provided it has been properly endorsed or accompanied by proper instruments of transfer, such Receipt being a certificated security under the laws of the State of New York. Notwithstanding any notice to the contrary, the Depositary may deem and treat the Holder of this Receipt (that is, the person in whose name this Receipt is registered on the books of the Depositary) as the absolute owner hereof for all purposes. The Depositary shall have no obligation or be subject to any liability under the Deposit Agreement or this Receipt to any holder of this Receipt or any Beneficial Owner unless such holder is the Holder of this Receipt registered on the books of the Depositary or, in the case of a Beneficial Owner, such Beneficial Owner or the Beneficial Owners representative is the Holder registered on the books of the Depositary.

(11) Validity of Receipt. This Receipt shall not be entitled to any benefits under the Deposit Agreement or be valid or enforceable for any purpose, unless this Receipt has been (i) dated, (ii) signed by the manual or facsimile signature of a duly authorized signatory of the Depositary, (iii) if a Registrar for the Receipts shall have been appointed, countersigned by the manual or facsimile signature of a duly authorized signatory of the Registrar and (iv) registered in the books maintained by the Depositary or the Registrar, as applicable, for the issuance and transfer of Receipts. Receipts bearing the facsimile signature of a duly-authorized signatory of the Depositary or the Registrar, who at the time of signature was a duly-authorized signatory of the Depositary or the Registrar, as the case may be, shall bind the Depositary, notwithstanding the fact that such signatory has ceased to be so authorized prior to the execution and delivery of such Receipt by the Depositary or did not hold such office on the date of issuance of such Receipts.

(12) Available Information; Reports; Inspection of Transfer Books. The Company is subject to the periodic reporting requirements of the Exchange Act applicable to foreign private issuers (as defined in Rule 405 of the Securities Act) and accordingly files certain information with the Commission. These reports and documents can be inspected and copied at the public reference facilities maintained by the Commission located at 100 F Street, N.E., Washington D.C. 20549, U.S.A. The Depositary shall make available during normal business hours on any Business Day for inspection by Holders at its Corporate Trust Office any reports and communications, including any proxy soliciting materials, received from the Company which are both (a) received by the Depositary, the Custodian, or the nominee of either of them as the holder of the Deposited Securities and (b) made generally available to the holders of such Deposited Securities by the Company.

The Depositary or the Registrar, as applicable, shall keep books for the registration of Receipts and transfers of Receipts which at all reasonable times shall be open for inspection by the Company and by the Holders of such Receipts, provided that such inspection shall not be, to the Depositarys or the Registrars knowledge, for the purpose of communicating with Holders of such Receipts in the interest of a business or object other than the business of the Company or other than a matter related to the Deposit Agreement or the Receipts.

The Depositary or the Registrar, as applicable, may close the transfer books with respect to the Receipts, at any time or from time to time, when deemed necessary or advisable by it in good faith in connection with the performance of its duties hereunder, or at the reasonable written request of the Company subject, in all cases, to Article (22) hereof.

[FORM OF REVERSE OF RECEIPT]
SUMMARY OF CERTAIN ADDITIONAL PROVISIONS
OF THE DEPOSIT AGREEMENT

(13) Dividends and Distributions in Cash, Shares, etc. Whenever the Depositary receives confirmation from the Custodian of receipt of any cash dividend or other cash distribution on any Deposited Securities, or receives proceeds from the sale of any Shares, rights securities or other entitlements under the Deposit Agreement, the Depositary will, if at the time of receipt thereof any amounts received in a Foreign Currency can, in the judgment of the Depositary (upon the terms of the Deposit Agreement), be converted on a practicable basis, into Dollars transferable to the United States, promptly convert or cause to be converted such dividend, distribution or proceeds into Dollars and will distribute promptly the amount thus received (net of applicable fees and charges of, and expenses incurred by, the Depositary and/or a division or Affiliate(s) of the Depositary and taxes and/or governmental charges) to the Holders of record as of the ADS Record Date in proportion to the number of ADSs representing such Deposited Securities held by such Holders respectively as of the ADS Record Date. The Depositary shall distribute only such amount, however, as can be distributed without attributing to any Holder a fraction of one cent. Any such fractional amounts shall be rounded down to the nearest whole cent and so distributed to Holders entitled thereto. Holders and Beneficial Owners understand that in converting Foreign Currency, amounts received on conversion are calculated at a rate which exceeds the number of decimal places used by the Depositary to report distribution rates. The excess amount may be retained by the Depositary as an additional cost of conversion, irrespective of any other fees and expenses payable or owing hereunder and shall not be subject to escheatment. If the Company, the Custodian or the Depositary is required to withhold and does withhold from any cash dividend or other cash distribution in respect of any Deposited Securities an amount on account of taxes, duties or other governmental charges, the amount distributed to Holders on the ADSs representing such Deposited Securities shall be reduced accordingly. Such withheld amounts shall be forwarded by the Company, the Custodian or the Depositary to the relevant governmental authority. Evidence of payment thereof by the Company shall be forwarded by the Company to the Depositary upon request. The Depositary shall forward to the Company or its agent such information from its records as the Company may reasonably request to enable the Company or its agent to file with governmental agencies such reports as are necessary to obtain benefits under the applicable tax treaties for the Holders and Beneficial Owners of Receipts.

If any distribution upon any Deposited Securities consists of a dividend in, or free distribution of, Shares, the Company shall cause such Shares to be deposited with the Custodian and registered, as the case may be, in the name of the Depositary, the Custodian or their nominees. Upon receipt of confirmation of such deposit, the Depositary shall, subject to and in accordance with the Deposit Agreement, establish the ADS Record Date and either (i) distribute to the Holders as of the ADS Record Date in proportion to the number of ADSs held by such Holders as of the ADS Record Date, additional ADSs, which represent in aggregate the number of Shares received as such dividend, or free distribution, subject to the terms of the Deposit Agreement (including, without limitation, the applicable fees and charges of, and expenses incurred by, the Depositary, and taxes and/or governmental charges), or (ii) if additional ADSs are not so distributed, each ADS issued and outstanding after the ADS Record Date shall, to the extent permissible by law, thenceforth also represent rights and interests in the additional Shares distributed upon the Deposited Securities represented thereby (net of the applicable fees and charges of, and the expenses incurred by, the Depositary, and taxes and/or governmental charges). In lieu of delivering fractional ADSs, the Depositary shall sell the number of Shares represented by the aggregate of such fractions and distribute the proceeds upon the terms set forth in the Deposit Agreement.

In the event that (x) the Depositary determines that any distribution in property (including Shares) is subject to any tax or other governmental charges which the Depositary is obligated to withhold, or, (y) if the Company, in the fulfillment of its obligations under the Deposit Agreement, has either (a) furnished an opinion of U.S. counsel determining that Shares must be registered under the Securities Act or other laws in order to be distributed to Holders (and no such registration statement has been declared effective), or (b) fails to timely deliver the documentation contemplated in the Deposit Agreement, the Depositary may dispose of all or a portion of such property (including Shares and rights to subscribe therefor) in such amounts and in such manner, including by public or private sale, as the Depositary deems necessary and practicable, and the Depositary shall distribute the net proceeds of any such sale (after deduction of taxes and/or governmental charges, and fees and charges of, and expenses incurred by, the Depositary and/or a division or Affiliate(s) of the Depositary) to Holders entitled thereto upon the terms of the Deposit Agreement. The Depositary shall hold and/or distribute any unsold balance of such property in accordance with the provisions of the Deposit Agreement.

Upon timely receipt of a notice indicating that the Company wishes an elective distribution to be made available to Holders upon the terms described in the Deposit Agreement, the Depositary shall, upon provision of all documentation required under the Deposit Agreement, (including, without limitation, any legal opinions the Depositary may request under the Deposit Agreement) determine whether such distribution is lawful and reasonably practicable. If so, the Depositary shall, subject to the terms and conditions of the Deposit Agreement, establish an ADS Record Date according to Article (14) hereof and establish procedures to enable the Holder hereof to elect to receive the proposed distribution in cash or in additional ADSs. If a Holder elects to receive the distribution in cash, the dividend shall be distributed as in the case of a distribution in cash. If the Holder hereof elects to receive the distribution in additional ADSs, the distribution shall be distributed as in the case of a distribution in Shares upon the terms described in the Deposit Agreement. If such elective distribution is not lawful or reasonably practicable or if the Depositary did not receive satisfactory documentation set forth in the Deposit Agreement, the Depositary shall, to the extent permitted by law, distribute to Holders, on the basis of the same determination as is made in the Cayman Islands, in respect of the Shares for which no election is made, either (x) cash or (y) additional ADSs representing such additional Shares, in each case, upon the terms described in the Deposit Agreement. Nothing herein shall obligate the Depositary to make available to the Holder hereof a method to receive the elective dividend in Shares (rather than ADSs). There can be no assurance that the Holder hereof will be given the opportunity to receive elective distributions on the same terms and conditions as the holders of Shares.

Whenever the Company intends to distribute to the holders of the Deposited Securities rights to subscribe for additional Shares, the Company shall give notice thereof to the Depositary at least 45 days prior to the proposed distribution stating whether or not it wishes such rights to be made available to Holders of ADSs. Upon timely receipt by the Depositary of a notice indicating that the Company wishes such rights to be made available to Holders of ADSs, the Company shall determine whether it is lawful and reasonably practicable to make such rights available to the Holders. The Depositary shall make such rights available to any Holders only if the Company shall have timely requested that such rights be made available to Holders, the Depositary shall have received the documentation required by the Deposit Agreement, and the Depositary shall have determined that such distribution of rights is lawful and reasonably practicable. If such conditions are not satisfied, the Depositary shall sell the rights as described below. In the event all conditions set forth above are satisfied, the Depositary shall establish an ADS Record Date and establish procedures (x) to distribute such rights (by means of warrants or otherwise) and (y) to enable the Holders to exercise the rights (upon payment of the applicable fees and charges of, and expenses incurred by, the Depositary and/or a division or Affiliate(s) of the Depositary and taxes and/or governmental charges). Nothing herein or in the Deposit Agreement shall obligate the Depositary to make available to the Holders a method to exercise such rights to subscribe for Shares (rather than ADSs). If (i) the Company does not timely request the Depositary to make the rights available to Holders or if the Company requests that the rights not be made available to Holders, (ii) the Depositary fails to receive the documentation required by the Deposit Agreement or determines it is not lawful or reasonably practicable to make the rights available to Holders, or (iii) any rights made available are not exercised and appear to be about to lapse, the Depositary shall determine whether it is lawful and reasonably practicable to sell such rights, and if it so determines that it is lawful and reasonably practicable, endeavour to sell such rights in a riskless principal capacity or otherwise, at such place and upon such terms (including public and/or private sale) as it may deem proper. The Depositary shall, upon such sale, convert and distribute proceeds of such sale (net of applicable fees and charges of, and expenses incurred by, the Depositary and/or a division or Affiliate(s) of the Depositary and taxes and/or governmental charges) upon the terms hereof and in the Deposit Agreement. If the Depositary is unable to make any rights available to Holders or to arrange for the sale of the rights upon the terms described above, the Depositary shall allow such rights to lapse. The Depositary shall not be responsible for (i) any failure to determine that it may be lawful or practicable to make such rights available to Holders in general or any Holders in particular, (ii) any foreign exchange exposure or loss incurred in connection with such sale, or exercise, or (iii) the content of any materials forwarded to the Holders on behalf of the Company in connection with the rights distribution.

Notwithstanding anything herein to the contrary, if registration (under the Securities Act and/or any other applicable law) of the rights or the securities to which any rights relate may be required in order for the Company to offer such rights or such securities to Holders and to sell the securities represented by such rights, the Depositary will not distribute such rights to the Holders (i) unless and until a registration statement under the Securities Act covering such offering is in effect or (ii) unless the Company furnishes to the Depositary opinion(s) of counsel for the Company in the United States and counsel to the Company in any other applicable country in which rights would be distributed, in each case satisfactorily to the Depositary, to the effect that the offering and sale of such securities to Holders and Beneficial Owners are exempt from, or do not require registration under, the provisions of the Securities Act or any other applicable laws. In the event that the Company, the Depositary or the Custodian shall be required to withhold and does withhold from any distribution of property (including rights) an amount on account of taxes and/or other governmental charges, the amount distributed to the Holders shall be reduced accordingly. In the event that the Depositary determines that any distribution in property (including Shares and rights to subscribe therefor) is subject to any tax or other governmental charges which the Depositary is obligated to withhold, the Depositary may dispose of all or a portion of such property (including Shares and rights to subscribe therefor) in such amounts and in such manner, including by public or private sale, as the Depositary deems necessary and practicable to pay any such taxes and/or charges.

There can be no assurance that Holders generally, or any Holder in particular, will be given the opportunity to exercise rights on the same terms and conditions as the holders of Shares or to exercise such rights. Nothing herein shall obligate the Company to file any registration statement in respect of any rights or Shares or other securities to be acquired upon the exercise of such rights or otherwise to register or qualify the offer or sale of such rights or securities under the applicable law of any other jurisdiction for any purpose.

Upon receipt of a notice regarding property other than cash, Shares or rights to purchase additional Shares, to be made to Holders of ADSs, the Depositary shall determine, after consultation with the Company, whether such distribution to Holders is lawful and reasonably practicable. The Depositary shall not make such distribution unless (i) the Company shall have timely requested the Depositary to make such distribution to Holders, (ii) the Depositary shall have received the documentation required by the Deposit Agreement, and (iii) the Depositary shall have determined that such distribution is lawful and reasonably practicable. Upon satisfaction of such conditions, the Depositary shall distribute the property so received to the Holders of record as of the ADS Record Date, in proportion to the number of ADSs held by such Holders respectively and in such manner as the Depositary may deem practicable for accomplishing such distribution (i) upon receipt of payment or net of the applicable fees and charges of, and expenses incurred by, the Depositary, and (ii) net of any taxes and/or governmental charges. The Depositary may dispose of all or a portion of the property so distributed and deposited, in such amounts and in such manner (including public or private sale) as the Depositary may deem practicable or necessary to satisfy any taxes (including applicable interest and penalties) or other governmental charges applicable to the distribution.

If the conditions above are not satisfied, the Depositary shall sell or cause such property to be sold in a public or private sale, at such place or places and upon such terms as it may deem proper and shall distribute the proceeds of such sale received by the Depositary (net of (a) applicable fees and charges of, and expenses incurred by, the Depositary and/or a division or Affiliate(s) of the Depositary and (b) taxes and/or governmental charges) to the Holders upon the terms hereof and of the Deposit Agreement. If the Depositary is unable to sell such property, the Depositary may dispose of such property in any way it deems reasonably practicable under the circumstances.

(14) Fixing of Record Date. Whenever necessary in connection with any distribution (whether in cash, Shares, rights or other distribution), or whenever for any reason the Depositary causes a change in the number of Shares that are represented by each ADS, or whenever the Depositary shall receive notice of any meeting of or solicitation of holders of Shares or other Deposited Securities, or whenever the Depositary shall find it necessary or convenient in connection with the giving of any notice, or any other matter, the Depositary shall fix a record date (the ADS Record Date), as close as practicable to the record date fixed by the Company with respect to the Shares (if applicable), for the determination of the Holders who shall be entitled to receive such distribution, to give instructions for the exercise of voting rights at any such meeting, or to give or withhold such consent, or to receive such notice or solicitation or to otherwise take action, or to exercise the rights of Holders with respect to such changed number of Shares represented by each ADS or for any other reason. Subject to applicable law and the terms and conditions of this Receipt and the Deposit Agreement, only the Holders of record at the close of business in New York on such ADS Record Date shall be entitled to receive such distributions, to give such voting instructions, to receive such notice or solicitation, or otherwise take action.

(15) Voting of Deposited Securities. Subject to the next sentence, as soon as practicable after receipt of notice of any meeting at which the holders of Deposited Securities are entitled to vote, or of solicitation of consents or proxies from holders of Deposited Securities, the Depositary shall fix the ADS Record Date in respect of such meeting or such solicitation of consents or proxies. The Depositary shall, if requested by the Company in writing in a timely manner (the Depositary having no obligation to take any further action if the request shall not have been received by the Depositary at least 30 Business Days prior to the date of such vote or meeting) and at the Companys expense, and provided no U.S. legal prohibitions exist, mail by regular, ordinary mail delivery (or by electronic mail or as otherwise may be agreed between the Company and the Depositary in writing from time to time) or otherwise distribute as soon as practicable after receipt thereof to Holders as of the ADS Record Date: (a) such notice of meeting or solicitation of consent or proxy; (b) a statement that the Holders at the close of business on the ADS Record Date will be entitled, subject to any applicable law, the provisions of this Deposit Agreement, the Companys Memorandum and Articles of Association and the provisions of or governing the Deposited Securities (which provisions, if any, shall be summarized in pertinent part by the Company), to instruct the Depositary as to the exercise of the voting rights, if any, pertaining to the Deposited Securities represented by such Holders American Depositary Shares; and (c) a brief statement as to the manner in which such voting instructions may be given to the Depositary, or in which instructions may be deemed to have been given in accordance with this Article (15), including an express indication that instructions may be given (or be deemed to have been given in accordance with the immediately following paragraph of this section if no instruction is received) to the Depositary to give a discretionary proxy to a person or persons designated by the Company. Voting instructions may be given only in respect of a number of American Depositary Shares representing an integral number of Deposited Securities. Upon the timely receipt of voting instructions of a Holder on the ADS Record Date in the manner specified by the Depositary, the Depositary shall endeavor, insofar as practicable and permitted under applicable law, the provisions of this Deposit Agreement, the Companys Memorandum and Articles of Association and the provisions of or governing the Deposited Securities, to vote or cause the Custodian to vote the Deposited Securities (in person or by proxy) represented by American Depositary Shares evidenced by such Receipt in accordance with such voting instructions.

In the event that (i) the Depositary timely receives voting instructions from a Holder which fail to specify the manner in which the Depositary is to vote the Deposited Securities represented by such Holders ADSs or (ii) no timely instructions are received by the Depositary from a Holder with respect to any of the Deposited Securities represented by the ADSs held by such Holder on the ADS Record Date, the Depositary shall (unless otherwise specified in the notice distributed to Holders) deem such Holder to have instructed the Depositary to give a discretionary proxy to a person designated by the Company with respect to such Deposited Securities and the Depositary shall give a discretionary proxy to a person designated by the Company to vote such Deposited Securities, provided, however, that no such instruction shall be deemed to have been given and no such discretionary proxy shall be given with respect to any matter as to which the Company informs the Depositary (and the Company agrees to provide such information as promptly as practicable in writing, if applicable) that (x) the Company does not wish to give such proxy, (y) the Company is aware or should reasonably be aware that substantial opposition exists from Holders against the outcome for which the person designated by the Company would otherwise vote or (z) the outcome for which the person designated by the Company would otherwise vote would materially and adversely affect the rights of holders of Deposited Securities, provided, further, that the Company will have no liability to any Holder or Beneficial Owner resulting from such notification.

In the event that voting on any resolution or matter is conducted on a show of hands basis in accordance with the Memorandum and Articles of Association, the Depositary will refrain from voting and the voting instructions (or the deemed voting instructions, as set out above) received by the Depositary from Holders shall lapse. The Depositary will have no obligation to demand voting on a poll basis with respect to any resolution and shall have no liability to any Holder or Beneficial Owner for not having demanded voting on a poll basis.

Neither the Depositary nor the Custodian shall, under any circumstances exercise any discretion as to voting, and neither the Depositary nor the Custodian shall vote, attempt to exercise the right to vote, or in any way make use of for purposes of establishing a quorum or otherwise, Deposited Securities represented by ADSs except pursuant to and in accordance with such written instructions from Holders, including the deemed instruction to the Depositary to give a discretionary proxy to a person designated by the Company. Deposited Securities represented by ADSs for which (i) no timely voting instructions are received by the Depositary from the Holder, or (ii) timely voting instructions are received by the Depositary from the Holder but such voting instructions fail to specify the manner in which the Depositary is to vote the Deposited Securities represented by such Holders ADSs, shall be voted in the manner provided in this Article (15). Notwithstanding anything else contained herein, and subject to applicable law, regulation and the Memorandum and Articles of Association, the Depositary shall, if so requested in writing by the Company, represent all Deposited Securities (whether or not voting instructions have been received in respect of such Deposited Securities from Holders as of the ADS Record Date) for the purpose of establishing quorum at a meeting of shareholders.

There can be no assurance that Holders or Beneficial Owners generally or any Holder or Beneficial Owner in particular will receive the notice described above with sufficient time to enable the Holder to return voting instructions to the Depositary in a timely manner.

Notwithstanding the above, save for applicable provisions of the law of the Cayman Islands, and in accordance with the terms of Section 5.3 of the Deposit Agreement, the Depositary shall not be liable for any failure to carry out any instructions to vote any of the Deposited Securities or the manner in which such vote is cast or the effect of such vote.

(16) Changes Affecting Deposited Securities. Upon any change in par value, split-up, subdivision, cancellation, consolidation or any other reclassification of Deposited Securities, or upon any recapitalization, reorganization, merger, amalgamation or consolidation or sale of assets affecting the Company or to which it otherwise is a party, any securities which shall be received by the Depositary or a Custodian in exchange for, or in conversion of or replacement or otherwise in respect of, such Deposited Securities shall, to the extent permitted by law, be treated as new Deposited Securities under the Deposit Agreement, and the Receipts shall, subject to the provisions of the Deposit Agreement and applicable law, evidence ADSs representing the right to receive such additional securities. Alternatively, the Depositary may, with the Companys approval, and shall, if the Company shall so requests, subject to the terms of the Deposit Agreement and receipt of satisfactory documentation contemplated by the Deposit Agreement, execute and deliver additional Receipts as in the case of a stock dividend on the Shares, or call for the surrender of outstanding Receipts to be exchanged for new Receipts, in either case, as well as in the event of newly deposited Shares, with necessary modifications to this form of Receipt specifically describing such new Deposited Securities and/or corporate change. Notwithstanding the foregoing, in the event that any security so received may not be lawfully distributed to some or all Holders, the Depositary may, with the Companys approval, and shall if the Company requests, subject to receipt of satisfactory legal documentation contemplated in the Deposit Agreement, sell such securities at public or private sale, at such place or places and upon such terms as it may deem proper and may allocate the net proceeds of such sales (net of fees and charges of, and expenses incurred by, the Depositary and/or a division or Affiliate(s) of the Depositary and taxes and/or governmental charges) for the account of the Holders otherwise entitled to such securities and distribute the net proceeds so allocated to the extent practicable as in the case of a distribution received in cash pursuant to the Deposit Agreement. The Depositary shall not be responsible for (i) any failure to determine that it may be lawful or feasible to make such securities available to Holders in general or any Holder in particular, (ii) any foreign exchange exposure or loss incurred in connection with such sale, or (iii) any liability to the purchaser of such securities.

(17) Exoneration. None of the Depositary, the Custodian or the Company shall be obligated to do or perform any act which is inconsistent with the provisions of the Deposit Agreement or shall incur any liability to Holders, Beneficial Owners or any third parties (i) if the Depositary, the Custodian or the Company or their respective controlling persons or agents shall be prevented or forbidden from, or subjected to any civil or criminal penalty or restraint on account of, or delayed in, doing or performing any act or thing required by the terms of the Deposit Agreement and this Receipt, by reason of any provision of any present or future law or regulation of the United States, the Cayman Islands or any other country, or of any other governmental authority or regulatory authority or stock exchange, or by reason of any provision, present or future of the Memorandum and Articles of Association or any provision of or governing any Deposited Securities, or by reason of any act of God or war or other circumstances beyond its control, (including, without limitation, nationalization, expropriation, currency restrictions, work stoppage, strikes, civil unrest, revolutions, rebellions, explosions and computer failure), (ii) by reason of any exercise of, or failure to exercise, any discretion provided for in the Deposit Agreement or in the Memorandum and Articles of Association or provisions of or governing Deposited Securities, (iii) for any action or inaction of the Depositary, the Custodian or the Company or their respective controlling persons or agents in reliance upon the advice of or information from legal counsel, accountants, any person presenting Shares for deposit, any Holder, any Beneficial Owner or authorized representative thereof, or any other person believed by it in good faith to be competent to give such advice or information, (iv) for any inability by a Holder or Beneficial Owner to benefit from any distribution, offering, right or other benefit which is made available to holders of Deposited Securities but is not, under the terms of the Deposit Agreement, made available to Holders of ADS or (v) for any special, consequential, indirect or punitive damages for any breach of the terms of the Deposit Agreement or otherwise. The Depositary, its controlling persons, its agents (including without limitation, the Agents), any Custodian and the Company, its controlling persons and its agents may rely and shall be protected in acting upon any written notice, request, opinion or other document believed by it to be genuine and to have been signed or presented by the proper party or parties. No disclaimer of liability under the Securities Act or the Exchange Act is intended by any provision of the Deposit Agreement.

(18) Standard of Care. The Company and the Depositary and their respective directors, officers, Affiliates, employees and agents (including without limitation, the Agents) assume no obligation and shall not be subject to any liability under the Deposit Agreement or the Receipts to Holders or Beneficial Owners or other persons, except in accordance with Section 5.8 of the Deposit Agreement, provided, that the Company and the Depositary and their respective directors, officers, Affiliates, employees and agents (including without limitation, the Agents) agree to perform their respective obligations specifically set forth in the Deposit Agreement without gross negligence or wilful misconduct. The Depositary and its directors, officers, Affiliates, employees and agents (including without limitation, the Agents) shall not be liable for any failure to carry out any instructions to vote any of the Deposited Securities, or for the manner in which any vote is cast or the effect of any vote. The Depositary shall not incur any liability for any failure to determine that any distribution or action may be lawful or reasonably practicable, for the content of any information submitted to it by the Company for distribution to the Holders or for any inaccuracy of any translation thereof, for any investment risk associated with acquiring an interest in the Deposited Securities, for the validity or worth of the Deposited Securities or for any tax consequences that may result from the ownership of ADSs, Shares or Deposited Securities, for the credit-worthiness of any third party, for allowing any rights to lapse upon the terms of the Deposit Agreement or for the failure or timeliness of any notice from the Company or for any action or non action by it in reliance upon the opinion, advice of or information from legal counsel, accountants, any person presenting Shares for deposit, any Holder or any other person believed by it in good faith to be competent to give such advice or information. The Depositary and its agents (including without limitation, the Agents) shall not be liable for any acts or omissions made by a successor depositary whether in connection with a previous act or omission of the Depositary or in connection with any matter arising wholly after the removal or resignation of the Depositary, provided that in connection with the issue out of which such potential liability arises the Depositary performed its obligations without gross negligence or willful misconduct while it acted as Depositary.

(19) Resignation and Removal of the Depositary; Appointment of Successor Depositary. The Depositary may at any time resign as Depositary under the Deposit Agreement by written notice of resignation delivered to the Company, such resignation to be effective on the earlier of (i) the 90th day after delivery thereof to the Company (whereupon the Depositary shall, in the event no successor depositary has been appointed by the Company, be entitled to take the actions contemplated in the Deposit Agreement), or (ii) the appointment of a successor depositary and its acceptance of such appointment as provided in the Deposit Agreement, save that, any amounts, fees, costs or expenses owed to the Depositary under the Deposit Agreement or in accordance with any other agreements otherwise agreed in writing between the Company and the Depositary from time to time shall be paid to the Depositary prior to such resignation. The Company shall use reasonable efforts to appoint such successor depositary, and give notice to the Depositary of such appointment, not more than 90 days after delivery by the Depositary of written notice of resignation as provided in the Deposit Agreement. The Depositary may at any time be removed by the Company by written notice of such removal which notice shall be effective on the later of (i) the 90th day after delivery thereof to the Depositary (whereupon the Depositary shall be entitled to take the actions contemplated in the Deposit Agreement if a successor depositary has not been appointed), or (ii) the appointment of a successor depositary and its acceptance of such appointment as provided in the Deposit Agreement save that, any amounts, fees, costs or expenses owed to the Depositary under the Deposit Agreement or in accordance with any other agreements otherwise agreed in writing between the Company and the Depositary from time to time shall be paid to the Depositary prior to such removal. In case at any time the Depositary acting hereunder shall resign or be removed, the Company shall use its best efforts to appoint a successor depositary which shall be a bank or trust company having an office in the Borough of Manhattan, the City of New York and if it shall have not appointed a successor depositary the provisions referred to in Article (21) hereof and correspondingly in the Deposit Agreement shall apply. Every successor depositary shall be required by the Company to execute and deliver to its predecessor and to the Company an instrument in writing accepting its appointment hereunder, and thereupon such successor depositary, without any further act or deed, shall become fully vested with all the rights, powers, duties and obligations of its predecessor. The predecessor depositary, upon payment of all sums due to it and on the written request of the Company, shall (i) execute and deliver an instrument transferring to such successor all rights and powers of such predecessor hereunder (other than as contemplated in the Deposit Agreement), (ii) duly assign, transfer and deliver all right, title and interest to the Deposited Securities to such successor, and (iii) deliver to such successor a list of the Holders of all outstanding Receipts and such other information relating to Receipts and Holders thereof as the successor may reasonably request. Any such successor depositary shall promptly mail notice of its appointment to such Holders. Any corporation into or with which the Depositary may be merged or consolidated shall be the successor of the Depositary without the execution or filing of any document or any further act and, notwithstanding anything to the contrary in the Deposit Agreement, the Depositary may assign or otherwise transfer all or any of its rights and benefits under the Deposit Agreement (including any cause of action arising in connection with it) to Deutsche Bank AG or any branch thereof or any entity which is a direct or indirect subsidiary or other affiliate of Deutsche Bank AG.

(20) Amendment/Supplement. Subject to the terms and conditions of this Article (20), and applicable law, this Receipt and any provisions of the Deposit Agreement may at any time and from time to time be amended or supplemented by written agreement between the Company and the Depositary in any respect which they may deem necessary or desirable without the consent of the Holders or Beneficial Owners. Any amendment or supplement which shall impose or increase any fees or charges (other than the charges of the Depositary in connection with foreign exchange control regulations, and taxes and/or other governmental charges, delivery and other such expenses), or which shall otherwise materially prejudice any substantial existing right of Holders or Beneficial Owners, shall not, however, become effective as to outstanding Receipts until 30 days after notice of such amendment or supplement shall have been given to the Holders of outstanding Receipts. Notice of any amendment to the Deposit Agreement or form of Receipts shall not need to describe in detail the specific amendments effectuated thereby, and failure to describe the specific amendments in any such notice shall not render such notice invalid, provided, however, that, in each such case, the notice given to the Holders identifies a means for Holders and Beneficial Owners to retrieve or receive the text of such amendment (i.e., upon retrieval from the Commissions, the Depositarys or the Companys website or upon request from the Depositary). The parties hereto agree that any amendments or supplements which (i) are reasonably necessary (as agreed by the Company and the Depositary) in order for (a) the ADSs to be registered on Form F-6 under the Securities Act or (b) the ADSs or Shares to be traded solely in electronic book-entry form and (ii) do not in either such case impose or increase any fees or charges to be borne by Holders, shall be deemed not to materially prejudice any substantial rights of Holders or Beneficial Owners. Every Holder and Beneficial Owner at the time any amendment or supplement so becomes effective shall be deemed, by continuing to hold such ADS, to consent and agree to such amendment or supplement and to be bound by the Deposit Agreement as amended or supplemented thereby. In no event shall any amendment or supplement impair the right of the Holder to surrender such Receipt and receive therefor the Deposited Securities represented thereby, except in order to comply with mandatory provisions of applicable law. Notwithstanding the foregoing, if any governmental body should adopt new laws, rules or regulations which would require amendment or supplement of the Deposit Agreement to ensure compliance therewith, the Company and the Depositary may amend or supplement the Deposit Agreement and the Receipt at any time in accordance with such changed laws, rules or regulations. Such amendment or supplement to the Deposit Agreement in such circumstances may become effective before a notice of such amendment or supplement is given to Holders or within any other period of time as required for compliance with such laws, or rules or regulations.

(21) Termination. The Depositary shall, at any time at the written direction of the Company, terminate the Deposit Agreement by mailing notice of such termination to the Holders of all Receipts then outstanding at least 90 days prior to the date fixed in such notice for such termination provided that, the Depositary shall be reimbursed for any amounts, fees, costs or expenses owed to it in accordance with the terms of the Deposit Agreement and in accordance with any other agreements as otherwise agreed in writing between the Company and the Depositary from time to time, prior to such termination shall take effect. If 90 days shall have expired after (i) the Depositary shall have delivered to the Company a written notice of its election to resign, or (ii) the Company shall have delivered to the Depositary a written notice of the removal of the Depositary, and in either case a successor depositary shall not have been appointed and accepted its appointment as provided herein and in the Deposit Agreement, the Depositary may terminate the Deposit Agreement by mailing notice of such termination to the Holders of all Receipts then outstanding at least 30 days prior to the date fixed for such termination. On and after the date of termination of the Deposit Agreement, each Holder will, upon surrender of such Holders Receipt at the Corporate Trust Office of the Depositary, upon the payment of the charges of the Depositary for the surrender of Receipts referred to in Article (2) hereof and in the Deposit Agreement and subject to the conditions and restrictions therein set forth, and upon payment of any applicable taxes and/or governmental charges, be entitled to delivery, to him or upon his order, of the amount of Deposited Securities represented by such Receipt. If any Receipts shall remain outstanding after the date of termination of the Deposit Agreement, the Registrar thereafter shall discontinue the registration of transfers of Receipts, and the Depositary shall suspend the distribution of dividends to the Holders thereof, and shall not give any further notices or perform any further acts under the Deposit Agreement, except that the Depositary shall continue to collect dividends and other distributions pertaining to Deposited Securities, shall sell rights or other property as provided in the Deposit Agreement, and shall continue to deliver Deposited Securities, subject to the conditions and restrictions set forth in the Deposit Agreement, together with any dividends or other distributions received with respect thereto and the net proceeds of the sale of any rights or other property, in exchange for Receipts surrendered to the Depositary (after deducting, or charging, as the case may be, in each case the charges of the Depositary for the surrender of a Receipt, any expenses for the account of the Holder in accordance with the terms and conditions of the Deposit Agreement and any applicable taxes and/or governmental charges or assessments). At any time after the expiration of six months from the date of termination of the Deposit Agreement, the Depositary may sell the Deposited Securities then held hereunder and may thereafter hold uninvested the net proceeds of any such sale, together with any other cash then held by it hereunder, in an unsegregated account, without liability for interest for the pro rata benefit of the Holders of Receipts whose Receipts have not theretofore been surrendered. After making such sale, the Depositary shall be discharged from all obligations under the Deposit Agreement with respect to the Receipts and the Shares, Deposited Securities and ADSs, except to account for such net proceeds and other cash (after deducting, or charging, as the case may be, in each case the charges of the Depositary for the surrender of a Receipt, any expenses for the account of the Holder in accordance with the terms and conditions of the Deposit Agreement and any applicable taxes and/or governmental charges or assessments) and except as set forth in the Deposit Agreement. Upon the termination of the Deposit Agreement, the Company shall be discharged from all obligations under the Deposit Agreement except as set forth in the Deposit Agreement. The obligations under the terms of the Deposit Agreement and Receipts of Holders and Beneficial Owners of ADSs outstanding as of the effective date of any termination shall survive such effective date of termination and shall be discharged only when the applicable ADSs are presented by their Holders to the Depositary for cancellation under the terms of the Deposit Agreement and the Holders have each satisfied any and all of their obligations hereunder (including, but not limited to, any payment and/or reimbursement obligations which relate to prior to the effective date of termination but which payment and/or reimbursement is claimed after such effective date of termination).

Notwithstanding anything contained in the Deposit Agreement or any ADR, in connection with the termination of the Deposit Agreement, the Depositary may, independently and without the need for any action by the Company, make available to Holders of ADSs a means to withdraw the Deposited Securities represented by their ADSs and to direct the deposit of such Deposited Securities into an unsponsored American depositary shares program established by the Depositary, upon such terms and conditions as the Depositary may deem reasonably appropriate, subject however, in each case, to satisfaction of the applicable registration requirements by the unsponsored American depositary shares program under the Securities Act, and to receipt by the Depositary of payment of the applicable fees and charges of, and reimbursement of the applicable expenses incurred by, the Depositary.

(22) Compliance with U.S. Securities Laws; Regulatory Compliance. Notwithstanding any provisions in this Receipt or the Deposit Agreement to the contrary, the withdrawal or Delivery of Deposited Securities will not be suspended by the Company or the Depositary except as would be permitted by Section I.A.(1) of the General Instructions to Form F-6 Registration Statement, as amended from time to time, under the Securities Act.

(23) Certain Rights of the Depositary. The Depositary, its Affiliates and their agents, on their own behalf, may own and deal in any class of securities of the Company and its Affiliates and in ADSs. The Depositary may issue ADSs against evidence of rights to receive Shares from the Company, any agent of the Company or any custodian, registrar, transfer agent, clearing agency or other entity involved in ownership or transaction records in respect of the Shares.

(24) Ownership Restrictions. Owners and Beneficial Owners shall comply with any limitations on ownership of Shares under the Memorandum and Articles of Association or applicable Cayman Islands law as if they held the number of Shares their American Depositary Shares represent. The Company shall inform the Owners, Beneficial Owners and the Depositary of any such ownership restrictions in place from time to time.

(25) Waiver. EACH PARTY TO THE DEPOSIT AGREEMENT (INCLUDING, FOR AVOIDANCE OF DOUBT, EACH HOLDER AND BENEFICIAL OWNER AND/OR HOLDER OF INTERESTS IN ANY ADRs) HEREBY IRREVOCABLY WAIVES, TO THE FULLEST EXTENT PERMITTED BY APPLICABLE LAW, ANY RIGHT IT MAY HAVE TO A TRIAL BY JURY IN ANY SUIT, ACTION OR PROCEEDING AGAINST THE DEPOSITARY AND/OR THE COMPANY DIRECTLY OR INDIRECTLY ARISING OUT OF OR RELATING TO THE SHARES OR OTHER DEPOSITED SECURITIES, THE ADSs OR THE ADRs, THE DEPOSIT AGREEMENT OR ANY TRANSACTION CONTEMPLATED HEREIN OR THEREIN, OR THE BREACH HEREOF OR THEREOF (WHETHER BASED ON CONTRACT, TORT, COMMON LAW OR ANY OTHER THEORY).
